

College Catalog

2024-2025

Welcome!

Thank you for considering one of the many educational opportunities provided by Northwood Technical College. Our nationally-recognized College is committed to providing you with the skills and knowledge you need for a rewarding career. Our programs are offered at an affordable price and with faculty and staff whose top priority is helping you achieve your goals. At Northwood Tech, you will find the support you need in a dynamic learning environment.

As you think about your options, consider the fact that Forbes, Washington Monthly, and the Aspen Institute all regard Northwood Tech as one of the nation's best two-year colleges. Come develop skills that help you with your employment outlook and allow you to play an important role in your community. Be one of the many who decide it's time to make a decision that will benefit not only you, but also those who live and work in your area. Join the thousands of people annually who make Northwood Tech their first choice.

Good luck, and please contact us if you have any questions about Northwood Tech's programs and services.

A handwritten signature in black ink that reads "John Will". The signature is fluid and cursive, with the first name "John" and last name "Will" clearly legible.

John Will, Ed.D.
President
Northwood Technical College

Northwood Tech 2024-2025 Catalog

This catalog contains general information about Northwood Tech's programs and services, course descriptions, tuition and fees, and policies in existence at the time of this publication's deadline, April 2024.

Northwood Tech reserves the right, without prior notice, to change, delete, supplement or otherwise amend at any time the information, policies, curriculum or program requirements contained in this catalog, whether during a student's enrollment or otherwise.

A student's or prospective student's reliance upon information contained within the catalog, when making academic decisions does not constitute, and should not be construed as, a contract with the College. Students should consult with the appropriate academic division or department for further information.

Welcome to Northwood Technical College, a national leader in Career and Technical Education. At Northwood Tech, we promise you a hands-on college experience tailored to fit your needs. We are here to help you gain the practical skills and valuable knowledge to succeed wherever life leads you.

We are caring, responsive, down-to-earth, skilled, and confident. We care about you as the learner and want to make your academic experience at Northwood Tech one that is memorable and enjoyable. We embrace and support your goals to enhance the quality of your life through career success.

We measure our success through yours.

You need to be qualified and prepared as you pursue your career goals, and we're here to help. Taking advantage of the nationally-recognized education provided at Northwood Tech will enable you to access the exciting and rewarding career opportunities you seek.

Making Northwood Tech your college of choice is the right decision. Together, we will Experience Success.

Respectfully,

Northwood Tech Administration, Faculty, and Staff

Board of Trustees

The College operates under the direction of the Northwood Tech Board of Trustees. Board members are appointed by a board appointment committee made up of the county board chairpersons in Northwood Tech's 11-county district and serve three-year terms from July through June. The chairperson whose county has the largest population serves as the chairperson of the appointment committee.

Mission, Vision, and Values

Mission

Students First.

We strengthen communities by empowering each student to realize their own success story.

Vision

Transforming Communities.

We aspire to be the recognized education leader in workforce development and community engagement through our students' success.

Values

Collaboration – We value relationships that enhance learning and promote economic development.

Innovation – We embrace the latest theories and technologies to support student and community success.

Excellence – We prioritize high quality education, services, and continuous improvement in a dynamic learning environment.

Community – We value our deep connections to our communities, working together to provide solutions through student success.

Support – We empower individuals by supporting their success with quality experiences and services designed to meet their needs.

Integrity – We uphold honesty and accountability in a diverse, open and ethical learning and working environment.

Respect – We value each individual and approach all interactions mindfully, with civility, empathy, and openness to new and differing ideas.

Strategic Goals

Evolve: Strategic Plan for 2024-2027

Strategic Key Strengths

1. **TRANSFERABILITY:** Increase holistic, seamless transfer and higher education partnership opportunities.
2. **PROGRAM OPTIMIZATION:** Establish programming that focuses on flexibility and leverages technology to serve regional employment needs.
3. **PERCEPTION:** Remain a leader in higher education through excellence in all programming and services.
4. **DIVERSITY, EQUITY, INCLUSION:** Foster an inclusive and welcoming college climate and culture that removes barriers and promotes a sense of belonging in the learning and working environments.
5. **COMMUNITY FOCUS:** Improve our communities through relationships with our regional K-12 districts, non-profit partners, and community partners that provide pathways to credentials, supporting greater employment opportunities.

Diversity, Equity, and Inclusion

Northwood Tech is committed to providing a diverse, equitable, and inclusive working and learning environment. Current goals of the College center on creating opportunities, removing barriers, and ensuring a climate of success that appreciates uniqueness and celebrates diversity. To learn more about the College's Affirmative Action/Equal Opportunity goals and find helpful resources, please visit the [Northwood Tech Diversity, Equity and Inclusion](#) webpage.

Equity Vision Statement

The faculty, staff and community partners of Northwood Tech commit to identifying and addressing inequities through purposeful data use and intentional planning of policies, procedures, professional learning and continuous improvement actions to ensure every individual receives what they need to develop their full academic and economic potential.

Northwood Technical College Purposes

As an accredited public postsecondary educational institution serving Northwest Wisconsin, Northwood Technical College is committed to achieving our mission of "Learning First" by:

- Providing comprehensive programming to include certificates, diplomas, and associate degrees in occupational fields.
- Providing general studies courses to empower learners to become active and productive members of society.
- Providing support services to assist learners in achieving occupational, educational, and personal enrichment goals.
- Providing academic support to prepare learners for successful transition into employment or postsecondary programs.

The Northwood Tech District

One of 16 districts in the Wisconsin Technical College System (WTCS), Northwood Tech began serving Northwest Wisconsin in 1912 in Superior, and now has locations in Ashland (since 1921), Rice Lake (1941), and New Richmond (1967). Northwood Tech also has outreach centers in Balsam Lake, Hayward and Ladysmith and a Health Education Center in Shell Lake.

The Northwood Tech district encompasses 10,500 square miles with over 300,000 residents. Of the nearly 13,000 students served last year, 47 percent were female, 8.7 percent were ethnic minorities, 6 percent were Veterans, and 61 percent were 20 years old or older.

Northwood Technical College is accredited by the [Higher Learning Commission](#), an institutional accreditation agency recognized by the U.S. Departments of Education. The College offers a variety of associate degrees, technical diplomas, short-term certificate programs, continuing education courses, and customized business training designed to help start or advance a career.

Operating under the direction of the Board of Trustees and the state technical college system, the College generates its revenue through student tuition and other student fees, local government, state and federal aids, and institutional revenue. The Northwood Tech Foundation also supports the College with scholarships, staff development training, and equipment donations.

Northwood Tech partners with area businesses, educational institutions, and agencies to create programming that meets regional needs.

Student Academic Achievement at Northwood Tech

Northwood Tech's "Learning First" mission establishes a strong commitment to learner success. Course competencies, program outcomes, and Employability Essentials identify the College's expectations for successful learning. The Employability Essentials at Northwood Tech represent the collegewide outcomes. They are the knowledge, skills, and abilities students are expected to develop as a result of their overall experiences at Northwood Tech. The College assesses the Employability Essentials each academic year, using the information to improve teaching and learning. The documentation and assessment of learning outcomes provide a basis for Northwood Tech's continuous improvement.

Course Competencies

Major skills, knowledge, attitudes, or abilities needed to perform a task effectively and efficiently.

Program Outcomes

Field-specific skills, attitudes, and abilities expected to be mastered by learners completing a program. Program outcomes go beyond a specific course and pertain to the entire program.

Employability Essentials

The Northwood Tech Employability Essentials to **communicate clearly, demonstrate professionalism, practice inclusivity, and think critically** will be assessed on an ongoing basis. Assessment of the Employability Essentials assists Northwood Tech as we continuously work to improve teaching and learning.

- » Communicate Clearly
- » Demonstrate Professionalism
- » Practice Inclusivity
- » Think Critically

Assessment of Student Learning

The purpose of student learning assessment is to improve students' learning and faculty teaching methods. The assessment process should help to identify the following:

- What students should be learning
- The ways students are growing intellectually
- The gaps in the learning process
- What the college should be doing to facilitate student learning and growth
- What the college should be measuring to determine student learning and growth

Northwood Tech Assessment of Student Learning includes the following:

- Course Level Assessment (program courses and general studies courses)
 - » Course level assessment results will be used to improve student learning in the classroom, as well as improve teaching practices
- Program Outcome Assessment
 - » Assessment of program outcomes will ensure that continuous improvement is taking place and will demonstrate accountability to constituents (students, employers, accrediting bodies, etc.)
- Employability Essentials Assessment
 - » Assessment of the Employability Essentials and use of the results to make improvements will ensure that Northwood Tech graduates will have the skills necessary to be effective in career and personal effectiveness

Please visit [Northwood Tech's Assessment web site](#) for further resources and information related to Assessment of Student Learning.

Northwood Tech Online

Technology Requirements

The computer hardware, software, and the Internet connection that is used for accessing coursework are the primary means of participating in online courses and therefore are significant contributors to academic success in online courses and/or programs at Northwood Technical College. It is essential that students own or have ready access to a computer.

Northwood Technical College is primarily Windows PC-based and, therefore, we are not able to actively support documents from Macintosh- or Linux-based computers.

For specific information on technology requirements, go to: [Technology Requirements](#)

Individual Success Factors

To be successful, students should determine if they would be a good candidate for online courses or programs. The following characteristics and skills are perceived as being prerequisites to the success of the online learner:

- » Having a strong academic self-concept
- » Exhibiting fluency in the use of online learning technologies
- » Possessing interpersonal and communication skills
- » Understanding and valuing interaction and collaborative learning
- » Exhibiting self-directed learning skills

In addition, before taking a Northwood Tech online program or course:

- » Students must be familiar with Northwood Tech's Learning Management System, Blackboard.
- » Students must be motivated and responsible for their own learning. Online classes are very different from traditional face-to-face classes in terms of how material is presented, nature of interaction with class members and instructor, and can be much more work. There is less structure than a face-to-face class, so it is up to students to pace themselves and keep up with assignments.
- » Students must be fluent in the use of online technologies. Students will need to send e-mails with attachments, navigate the Internet, download browser plug-ins to view multimedia enhanced Web pages, participate in threaded discussions, and troubleshoot computer or connectivity problems.
- » Courses labeled "Online" provide all learning materials and assignments over the Internet. However, in some instances, students may be required to attend a campus site to have an exam proctored.
- » Students must realize that "Online" is not "Independent Study"! In Online courses, students will be required to participate in a learning community with other students as student engagement and participation is critical to the success of the class. Students should also value interaction and collaborative learning.

To be a successful online student:

- » Be proactive. Students should know what they are getting into and have conversations with a counselor and/or advisor to ensure that online is right for them.
- » Be self-directed in learning skills. Do not procrastinate with assignments. Use time management skills. Set aside time each week to complete the required assignments and submit them in a timely manner.
- » Be collaborative. Read the threaded discussion at least three times a week and respond to the discussions as appropriate

and as required by the instructor. This is collaborative learning – an essential part of online instruction.

- » Be confident. If having problems, ask questions, send an e-mail to fellow students or the instructor, and use the discussion board to post questions. Chances are if one student has a question, others may as well.
- » Contact the Learning Resource Center, Educational Technology Center, or Academic Support Center at the local campuses for additional assistance. Also, online at: <https://itlc.northwoodtech.edu/ITLC>

Use this link to access information on online programming:

[Online Programming](#)

Students that decide they are not prepared to take an online course or program should contact a counselor for more information and suggestions for additional assistance.

Custom Programs

The Workforce and Community Development (WCD) department offers a number of credit programs through a variety of custom delivery options. Mobile site delivery allows Northwood Tech expansion of campus-based programs to off-campus sites based on regional needs. Online delivery provides opportunities for training without having to travel to a campus location. Northwood Tech also offers opportunities for digital badging. All of these options provide opportunities for Northwood Tech to be responsive to student needs and partner with high schools, business and industry, and regional workforce agencies to provide training when and where it is needed.

Following is a list of custom programs currently available:

- » 17-410-1 Construction Foundations Technical Certificate (For more information, contact: Leslie Larsen, Associate Dean, WCD, leslie.larsen@northwoodtech.edu)
- » 17-410-2 Advanced Construction Essentials (For more information, contact: Liz Pizzi, Associate Dean, WCD, liz.pizzi@northwoodtech.edu)
- » 17-420-7 Injection Mold (Plastic) Certified Pre-Apprenticeship (CPA) (For more information, contact Eric Lockwood, Director, Apprenticeship and Academies at 715-246-1871, or eric.lockwood@northwoodtech.edu)
- » 17-420-9 Machine Tool Basics Technical Certificate (For more information, contact: Dan Miller, Associate Dean, WCD, dan.miller@northwoodtech.edu)
- » 17-420-10 Machine Tool Basics - Operator (For more information, contact: Dan Miller, Associate Dean, WCD, dan.miller@northwoodtech.edu)
- » 17-423-1 Maintenance Mechanic/Millwright Certified Pre-Apprenticeship (CPA) (For more information, contact Eric Lockwood, Director, Apprenticeship and Academies at 715-246-1871, or eric.lockwood@northwoodtech.edu)
- » 17-454-1 Industry 4.0 Smart Automation (For more information, contact: Rose Cibulka, Project Coordinator/Instructor, Advanced Manufacturing at, rose.cibulka@northwoodtech.edu)
- » 17-510-2 Medication Assistant (For more information, contact Stephanie Johnson, Program Director at 715-246-1875 or stephanie.johnson@northwoodtech.edu)
- » 30-410-3 Construction Essentials Technical Diploma (see page 77)
- » 30-454-1 Mechatronics Basics Technical Diploma (see page 163)

Ashland

Northwood Technical College in Ashland, situated on the shores of Lake Superior in a progressive community of almost 8,000 residents, is known for its commitment to academic excellence and personalized instruction. The campus is surrounded by inland lakes, streams, and forests; just minutes from the Apostle Islands National Lake Shore and about an hour from the Twin Ports of Superior/Duluth.

The Ashland Campus offers career programs in:

Agriculture, Food and Natural Resources

Farm Operation

Architecture and Construction

Architectural Commercial Design

Balsam Lake Outreach Center

With a population just over 1,000, Balsam Lake is comfortably sized with a vibrant and friendly community. Located in the scenic woods of Northwest Wisconsin, Balsam Lake is surrounded by dozens of lakes and is renowned for its bass fishing. It is a destination for hiking and ATV/snowmobiling enthusiasts and is known for an abundance of opportunities for recreational activities for all seasons.

Balsam Lake Outreach Center offers many course options to area residents, as well as customized training to business and industry customers. Students may choose from a selection of credit courses and Continuing Education courses available at these locations. For added convenience and reduced travel, students enrolled in an academic program have the opportunity of attending classes from their own home or another convenient location of their choosing via Blue Jeans or another online platform. Another option for attending class is the Your Choice delivery mode classes which provide three ways to attend class - 1) Online Live via the internet, 2) On Site in a classroom, or 3) watch recorded sessions at a time convenient for you. Your Choice provides the flexibility to choose how you want to attend class. For those individuals pursuing their GED or HSED, the Academic Support instructors at Balsam Lake provide free course preparation.

Hayward Outreach Center

A bustling, yet small community, the Hayward area is a destination for world-class events. Every year, Hayward brings people from around the globe to the renowned American Birkebeiner cross country ski race and the Annual Lumberjack World Championships, to name a couple. Hayward's eclectic downtown area features locally-owned shops and eateries that are buzzing with activity. With crystal clear lakes for water sports and fishing to miles of trails for hiking, bicycling, or snowmobiling, Hayward offers something for everyone!

Hayward Outreach Center offers many course options to area residents, as well as customized training to business and industry customers. Students may choose from a selection of credit courses and Continuing Education courses available at these locations. For added convenience and reduced travel, students enrolled in an academic program have the opportunity of attending classes from their own home or another convenient location of their choosing via Blue Jeans or another online platform. Shell Lake Health Education Center

A friendly, small town with a vibrant art scene and no shortage of outdoor fun for all seasons, Shell Lake is the epicenter of the Northwood Tech district. After serving as the College's administration offices for years, the College transformed the space into a state-of-the-art health education center. Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Vision:

Provide a dynamic and innovative health education center to advance inter-professional learning, resulting in safe, high-quality healthcare for Northwestern Wisconsin communities and beyond.

Mission:

Create a comprehensive health care curriculum that:

- Enhances the use of simulated learning
- Utilizes virtual and tele-health experiences
- Advocates for and promotes patient care and safety
- Supports the application of healthcare-based skills
- Promotes collaboration between inter-professional groups
- Employs evidence-based learning
- Invites progressive engagement of student learning
- Fosters collaborative community relationships

What Is It Like at Northwood Tech?

What Does Northwood Tech Offer?

Northwood Tech is the college of choice for students who wish to pursue associate degrees, technical diplomas or certificates, GED/HSED completion, and for those presently employed who wish to advance in their careers. Area employers contract with the college for customized training consisting of specific courses that are developed and taught by Northwood Tech instructors at an employer's work site. Northwood Tech also provides instruction for apprentices in cooperation with employers and the State of Wisconsin.

Types of Degrees/Offerings

Associate Degrees (Liberal Arts – Associate of Arts and Liberal Arts – Associate of Science)

Northwood Tech's Liberal Arts – Associate of Arts and Liberal Arts – Associate of Science will use the marketing titles of: University Transfer Degree - Associate to Bachelor's/Arts and University Transfer Degree - Associate to Bachelor's/Science. These degrees are designed to prepare students for a bachelor's degree. These programs generally take two years to complete when pursued on a full-time basis.

Associate Degrees (of Applied Science)

Northwood Tech's Associate of Applied Science (A.A.S.) degrees lead students to employment in a specified career or career advancement. An associate degree may also be the first step towards a bachelor's degree. These programs generally take two years to completed when pursued on a full-time basis.

Technical Diplomas

If students wish to prepare for specific jobs or upgrade their job skills, Northwood Tech offers specialized programs that lead to a diploma in the chosen field. Diploma programs vary in length from less than one year to two years and provide extensive career training. Some diplomas are embedded within other technical diploma and associate degree programs allowing students to earn a credential, go to work, and return to complete the full diploma or associate degree.

Certificates

Northwood Tech awards certificates for the successful completion of a group of courses targeted toward a specialty area. Some certificates are embedded within technical diploma and associate degree programs allowing students to enhance current employment opportunities, lead to employment or continue to complete the diploma or associate degree.

Digital Badging

At Northwood Technical College, our digital badge program offers a verified way to showcase your achievements, skills, and interests. Administered through Credly, these badges can be easily shared on social media, applications, and portfolios, enhancing your visibility and credibility.

By displaying your badges, you'll elevate your profile, increase your chances of success, and demonstrate your commitment to growth and learning. Explore our programs to unlock new opportunities and take the next step towards your goals.

Apprenticeship

What Is It?

A Registered Apprenticeship is a state-certified training program that combines paid related instruction and on the job training. Apprenticeships require employment: 90% of the training is on the job and 10% is classroom instruction. Apprenticeships are offered in a variety of occupational areas, including: construction, industrial, service, utilities, information technology, healthcare, and agriculture. Apprenticeships include a three-part contract with the apprentice, the sponsor (employer), and the Department of Workforce Development. Apprenticeships also includes a progressive wage scale, so as knowledge and skills increase, wages increase. Apprenticeship programs can vary by length of time from one year to five years. Upon completion of an apprenticeship, individuals will receive a Completion Credential from the Department of Workforce Development Bureau of Apprenticeship Standards.

How Do Students Qualify?

The apprentice must be a high school graduate or equivalent, be physically fit to perform trade, and have a valid drivers license. Some apprenticeship programs have an advisory committee that have additional requirements, such as: an application, an interview, and testing (example: Accuplacer Next Generation or ACT). There are circumstances where a high school senior can enter a Registered Apprenticeship. For more information regarding all apprenticeships, please contact Eric Lockwood, Director, Apprenticeship and Academies for specific information.

What Is Offered?

The apprenticeship programs offered at Northwood Tech include:

- Broadband Service Technician (Online)
- Carpentry Apprenticeship (ABC)
- Cosmetology (Online)
- Electrical Construction Apprentice (Hybrid)
- Injection Mold Set-Up (Plastic)
- Maintenance Mechanic/Millwright
- Plumbing

For a complete list of more than 300 state-certified apprenticeships, visit the [Wisconsin Department of Workforce Development](#), or call the Bureau of Apprenticeship Standards Representative at 715-874-4627 or Long.Vang@dwd.wisconsin.gov.

How to Get Started?

To start the application process, contact the local Apprenticeship Training Representative, Long Vang, at 715.874.4627. Apprenticeship requires a sponsoring employer. Students should start by learning what they can about the trade by talking to people who are in the occupation: employers, employees, high school counselors, Northwood Tech instructors and counselors, employers' associations, and labor unions.

For more information, contact Eric Lockwood, Director, Apprenticeship and Academies at 715-246-1871, or Eric.Lockwood@northwoodtech.edu, or go to the [Northwood Tech Apprenticeship](#) webpage.

GED/HSED Completion

GED/HSED preparation is available at Northwood Tech Academic Support Centers in these communities: Ashland, New Richmond, Rice Lake, Superior, Hayward, Ladysmith, and Balsam Lake. For other current locations, visit NorthwoodTech.edu. Services to adult students are generally free; however, some courses may require a \$4.50 material fee.

What Is the GED?

The GED requires a student to complete a battery of five tests: Reasoning through Language Arts, Mathematical Reasoning, Science, Social Studies, and Civics.

What Is the HSED?

The High School Equivalency Diploma (HSED) is more comprehensive than the GED. The HSED requires all of the GED tests, plus:

- Verifying one-half Health credit earned in grades 7-12 or passing the additional Health test.
- Completion of Employability Activities.

Who Can Take the GED?

The GED/HSED tests may be taken if a student is a Wisconsin resident who is at least 18 1/2 years of age, or if the class with which the student entered 9th grade has graduated from high school.

Academic Calendar

An academic year at Northwood Tech consists of three semesters: fall, spring, and summer. Fall and spring semesters consist of 16 weeks and the summer semester is 8 weeks.

Start Now

Northwood Tech offers selected Start Now classes providing students the opportunity to enroll at different times within a semester. Currently four, eight, and 12 week sessions are available.

Career Pathways

Career Pathways connect progressive levels of coursework to allow students to build upon their education. Each step in the pathway connects with employment and provides the opportunity for advancement to higher levels.

Program Sequencing

Courses are scheduled to enable full-time students, who enter the fall term (first semester) and carry a full program credit load, to complete all graduation requirements within two, three, or four semesters, depending on their program. Northwood Tech cannot guarantee that specific courses will be available as needed to students entering programs at mid-year, enrolling part-time, and/or students with non-sequenced academic schedules; nor can Northwood Tech guarantee that a program will not be suspended or discontinued prior to a student's completion. For the most current required courses documenting specific courses needed to satisfy program requirements, go to the [Northwood Tech Program and Certificates](#) webpage, select a program, then select "Required Courses" from the left navigation, and download the Required Courses Documents from the top of the page.

Types of Courses

Program Courses (Credit)

The Program Courses contain content directly related to a specific technical area and can be taken to enhance skills, renew certification, or lead to technical diploma or associate degree completion or prepare students to enter Baccalaureate programs.

Northwood Tech also offers Service Learning and Work-Based Learning options. Service Learning is experiential learning that integrates community service and educational learning objectives. Work-Based Learning opportunities may include: job shadowing, internships, clinicals, etc.

General Education Courses (Credit)

The General Education Courses in all programs are designed to ensure well-rounded college graduates. These courses include communication, math, science, and social and behavioral sciences.

Prerequisite/Corequisite Requirements

Many courses have a prerequisite and/or corequisite requirements. To advance to a higher level course, a grade point of 2.0 or higher must be earned in the prerequisite course. For select courses, a grade point higher than 2.0 is required and noted on program and certificate pages.

Professional Development and Continuing Education Courses (Noncredit)

These courses provide students the opportunity to update their job skills, maintain licensure or certification, and gain valuable interpersonal and leadership skills. In addition, students explore non-career related interests through a wide variety of personal enrichment courses offered virtually and throughout Northwest Wisconsin. Additional information and course offerings are available online using the [Northwood Tech Continuing Education](#) webpage, or students can request a Continuing Education catalog from any campus.

Customized Training for Business and Industry

Northwood Tech offers customized training and technical assistance solutions to help businesses stay competitive. Training can be scheduled virtually and at times and locations that are convenient for you. Northwood Tech offers opportunities for digital badging. For more information, go to the [Northwood Tech Customized Training](#) webpage or contact your regional representative:

- **Ashland and Superior:**
715.319.7335
- **New Richmond:**
715.752.8127
- **Rice Lake:**
715.788.7046

Course Numbering System

Northwood Tech has an eight-digit course numbering system for all courses offered. The first two digits identify the credential type, the next three digits identify the instructional area, and the last three digits identify the specific course.

For example, course number 10801136 breaks down as: 10 equals associate degree, 801 equals communication, and 136 equals English Composition 1; course number 32404351 breaks down as: 32 equals two-year technical diploma, 404 equals Automobile - Mechanical, and 351 equals Automotive Fundamentals.

- Credential Type 10 – Associate Degree (Associate of Applied Science) program courses
- Credential Type 20 – Associate Degree (Liberal Arts - Associate of Arts / Science) program courses
- Credential Type 32 (two-year), 31 (one-year), 30 (less than one year) – Technical Diploma program courses
- Credential Type 42, 47, 60 – Non-credit courses
- Credential Type 50 – Apprenticeship courses
- Credential Type 73, 74, 75, 76, 77, 78 – Academic Support courses

Instruction Modes

Northwood Tech offers coursework in a variety of instructional delivery formats. Following are definitions of the various instruction modes.

On Site

Attend face-to-face, scheduled meetings in a classroom setting.

- Required, Scheduled Onsite Meetings - Yes
- Required, Scheduled Online Work/Meetings - No
- Instructor Location - Onsite location may vary

Online

Complete your course totally online. Course content is delivered online, with deadlines, but no set meeting times.

- Required, Scheduled Onsite Meetings - No
- Required, Scheduled Online Work/Meetings - No
- Instructor Location - May vary

Online Live

Join your classes through the internet live from anywhere. Connect with your instructor and classmates during live classes via the web.

- Required, Scheduled Onsite Meetings - No
- Required, Scheduled Online/Work Meetings - Yes
- Instructor Location - May vary

Your Choice

Choose from 3 ways to attend classes: 1) on-line via the internet, 2) on site in a classroom, or 3) watch recorded sessions at a time convenient for you.

- Required, Scheduled Onsite Meetings - No, but you may choose to attend on site
- Required, Scheduled Online Work/Meeting - Varies by class
- Instructor Location - May vary

Flex

Work at your own pace in an individualized, workshop environment. Multiple courses are offered by your instructor during the same time frame.

- Required, Scheduled Onsite Meetings - No, but you may choose to attend onsite
- Required, Scheduled Online Work/Meetings - No *but, an orientation is required prior to starting class*
- Instructor Location - May vary

Hybrid

Leverage the best of on site, online, and/or online instructional formats. Courses are delivered via a combination of modes, based on specific class content.

- Required, Scheduled Onsite Meetings - Varies by class
- Required, Scheduled Online Work/Meetings - Varies by class
- Instructor Location - May vary

Work Based Learning

Get on-the-job experience combined with expert support and instruction.

- Required, Scheduled Offsite Work Experience in a Community-Based Setting - Yes
- Required, Scheduled Onsite Work/Meetings - Possibly
- Required, Scheduled Online or Virtual Meetings - Possibly
- Instructor Location - May vary

Additional Student Information

Student Handbook

The College publishes a Student Handbook designed to provide students with information about college policies, procedures, and services for students. It also contains the academic calendar, and calendar of events. Every student is responsible for abiding by the rules and regulations of the College as published in the handbook. A copy may be obtained from student services or online, under [Current Student Resources](#). The College reserves the right, without prior notice, to make changes in policy and procedure as deemed necessary.

Sec. 112 Textbook Information

(d) Provision of ISBN College Textbook Information in Course Schedules. To the maximum extent practicable, each institution of higher education receiving Federal financial assistance shall

- (1) disclose, on the institution's Internet course schedule and in a manner of the institution's choosing, the International Standard Book Number and retail price information of required and recommended college textbooks and supplemental materials for each course listed in the institution's course schedule used for preregistration and registration purposes, except that (A) if the International Standard Book Number is not available for such college textbook or supplemental material, then the institution shall include in the Internet course schedule the author, title, publisher, and copyright date for such college textbook or supplemental material; and (B) if the institution determines that the disclosure of the information described in this subsection is not practicable for a college textbook or supplemental material, then the institution shall so indicate by placing the designation 'To Be Determined' in lieu of the information required under this subsection; and
- (2) if applicable, include on the institution's written course schedule a notice that textbook information is available on the institution's Internet course schedule, and the Internet address for such schedule.

Campus Crime Statistics

Northwood Tech prides itself on maintaining a safe environment for its students, faculty, and staff and provides the following information and statistics on the frequency of crime, known and reported, on- and off-campus on an annual basis and in compliance with the federal Clery Act and Student Right to Know and Campus Security Act of 1990.

The most recent [Annual Security Report \(ASR\)](#) can be found on the Northwood Tech website. Questions concerning any of the information contained in the ASR Plan should be directed to Administrative Services at Northwood Tech, 1900 College Drive, Rice Lake, WI 54868, telephone 800.243.9482 OR 715.234.7082 Email: safety@NorthwoodTech.edu. TTY: 711.

How to Become a Northwood Tech Student

- Getting Started is Easy, 33**
- Explore the College and Careers, 34**
- Admissions Process, 34**
- Declared Program Major, 35**
 - Double Program Major
- Undeclared Program Major, 35**

GETTING STARTED IS EASY AT Northwood Tech

Northwood Tech has no application fee, and most programs have no admissions testing requirements.

Apply online and then schedule your admissions meeting. If you are applying to one of the programs listed below, our staff will work with you to help you through your next steps.

Programs with Academic Requirements

Apprenticeships

- Plumbing Apprenticeship
- Carpentry Apprenticeship
- Electrical Construction Apprenticeship

Required assessment for listed apprenticeship programs may be waived if you have met the score requirements for the ACCUPLACER®/ACT within the last five years.

➤ Nursing-Associate Degree

Required assessment for Nursing may be waived if you have an associate degree or higher, or have previous ACCUPLACER®/ACT scores.

- Medical Laboratory Technician
- Occupational Therapy Assistant
- Veterinary Technician

Students considering any of the above programs **must meet one** of the following items:

- Minimum high school GPA of 2.8
- Qualifying ACT scores
- Minimum college GPA 2.2 (min 3 cr.)
- Associate degree or higher
- Qualifying ACCUPLACER® scores
- Additional measures may be considered as determined by the counselor

- Dental Assistant
- Health Information Technology
- Medical Coding Specialist
- Medical Assistant
- Pharmacy Technician

Students considering any of the above programs **must meet one** of the following items:

- Minimum high school GPA of 2.1
- Qualifying ACT scores
- Minimum college GPA 2.0 (min 3 cr.)
- Associate degree or higher
- Qualifying ACCUPLACER® scores
- Additional measures may be considered as determined by the counselor

Northwood Technical College is an Equal Opportunity/Access/Affirmative Action/Veterans/Disability Employer and Educator.

➤ Apply Online for free at NorthwoodTech.edu/apply

The online application takes less than 15 minutes to complete.

➤ Northwood Tech Application Dates

- On or after October 1 for the following fall semester
- On or after February 1 for the following spring semester
- On or after July 1 for the following summer term
- Additional information is listed in "Before You Apply" at NorthwoodTech.edu/admissions/how-to-apply.

If your program requires the ACCUPLACER® or ACT entrance assessment, it may be waived if you have an associate degree or higher or have satisfactory scores that are less than five years old on a recent college entrance test such as ACCUPLACER® or ACT. Official transcripts or test results required. Schedule your entrance assessment through the Student Services Office. Study First! Northwood Tech encourages all students taking the ACCUPLACER® to brush up on their skills before taking the assessment. **Online study tools are available at NorthwoodTech.edu/apply.** Scores will be accepted five years from the test date.

➤ Schedule an Admissions Meeting

After applying, your next step is to call the Student Services Office to schedule your admissions meeting. The purpose of this meeting is to connect you with all the support services available at Northwood Tech to help you have a great experience as a college student. This meeting can be held in person, by phone, or via TEAMS.

➤ Admissions Meeting Tips:

Bring your high school, college or military transcripts. Note: In most cases, unofficial transcripts are accepted. However many of our allied health and public safety programs require an official transcript for admission. Official transcripts are also required to award any transfer credit. If these situations apply to you, request your official transcripts to be sent directly to Northwood Tech as soon as possible.

For more information, or to schedule your assessment and/or admissions meeting, contact the Student Services Office at a campus near you. Call 800.243.9482.

Ashland: 715.682.4591

New Richmond: 715.246.6561

Rice Lake: 715.243.7082

Superior: 715.394.6677

Explore the College and Careers

One of the best ways to see if Northwood Tech is a good fit is for a student to set up an appointment with an admissions advisor. They can help a student decide on a career path, explore the campus, visit program classrooms, meet instructors and current students, and much more. While not required, many students find the following experiences valuable to their career decision:

Campus Tours

Students are invited to call and set up an appointment with a campus admissions advisor for a [campus tour](#) of the Ashland, Rice Lake, New Richmond, or Superior location.

Call 800.243.9482 or
Ashland - 715.685.3039
New Richmond - 715.752.8119
Rice Lake - 715.788.7144
Superior - 715.319.7331

Program Shadowing

Program shadowing is the opportunity to [visit a campus and experience a program](#). Contact the admissions advisor at the campus of choice:

Call 800.243.9482 or
Ashland - 715.685.3039
New Richmond - 715.752.8119
Rice Lake - 715.788.7144
Superior - 715.319.7331

Career Planning and Assessment

In today's world, every person's career journey follows a different path. This path is guided by an individual's past experiences and by decisions that were made throughout their life. The staff at Northwood Tech will work to guide students down the path that will lead to the program or career that is most appropriate for them.

Northwood Tech offers three options to begin the career exploration journey:

- 1) An online career assessment questionnaire to identify which career areas might be the best fit.
[Explore program offerings and other career resources](#)
- 2) A free One-on-One Career Exploration with a Career Specialist to help you evaluate career options. This consists of: self-assessments, personality tests, the Career Clusters interest inventory, labor market trends, employability skills, goal setting, and career decision making.
- 3) A Northwood Tech career counselor will provide guidance in determining which careers are best suited for each individual. Schedule an appointment with a counselor at the campus of your choice. Students will be given the opportunity to complete the Myers-Briggs Type Indicator® and the Strong Interest Inventory® for a low to no cost fee. The counselors will discuss the results of assessments, past employment, education, personal experiences, interests, and other factors that will help students make a career choice that is right for them.

Financial Aid Events

Each year in October, several campuses host a Financial Aid Event. This community service event is designed to answer questions about applying for financial aid. These informational sessions are open to anyone interested in attending any postsecondary institution. For upcoming event dates and locations, contact a financial aid advisor at the Ashland, New Richmond, Rice Lake, or Superior campus.

Admissions Process

If a student would like to enroll as a full- or part-time student in a degree or technical diploma, they must first complete the admissions process. Admission to most degree or diploma programs will qualify students to apply for financial aid.

Complete Application for Admission

While there is no set application deadline, October 1 is the date Northwood Tech begins taking applications for the following fall term. February 1 is the date for the following spring term, and July 1 is the date for the following summer term. Students should apply early since applications are processed in the order in which they are received.

Application acceptance is based on the state technical college system's Administrative Code, Section 10.06 and 10.07. The code ensures that all district residents (persons residing in counties within the Northwood Tech district) receive priority admission over nondistrict state residents, reciprocity students, and nonresidents.

District residents who apply on or before the following dates shall have admission priority:

- For programs commencing any time during the fall semester, the preceding January 1
- For programs commencing any time during the spring semester, the preceding May 1
- For programs commencing any time during the summer semester, the preceding October 1

After the dates specified above, district residents shall have priority equal to non-district state residents for admission to programs.

[Apply online](#)

Get Admitted

Northwood Tech has an easy three-step admissions process you can complete in one visit.

- Apply online
- Review admissions requirements
- Meet with a Northwood Tech counselor

Preparation is key. You'll want to take the time to research your career area of choice, what program is the best fit for you and gather all of your documents. If you need to take the ACCUPLACER placement assessment, you'll also want to make sure you brush-up on the skills you'll need to do well. Online resources and the Academic Support Center instructors are available to help you with that. In your final step, the counselor will meet with you to walk through your goals and help you foresee and overcome any obstacles to your success.

Assessment and Preparation for Admission

The college uses the ACCUPLACER or ACT assessment results and multiple measures (high school GPA, completed college coursework, etc.) to determine skill levels and place students in programs where they will succeed academically.

For programs requiring assessment, students who have successfully met the ACCUPLACER or ACT assessment requirements within the last five years are immediately accepted for course placement and/or program admission. Students who have earned an associate or a baccalaureate degree (with the exception of a degree earned in a foreign country) do not need to complete an assessment. The student should bring score report(s) and/or official transcripts to the admissions meeting.

Note: Accommodations for assessment are available for persons with disabilities. They will need to fill out a request for accommodations and provide appropriate documentation. Students should also make an appointment to meet with the accommodations specialist on campus.

Admissions Meeting

Students must complete an admissions survey and attend an admissions meeting with a counselor to discuss skills, strengths, expectations for college, time management, available resources, and answer any questions the student may have about program(s) and their goals. Students that have completed all of the admission requirements will be admitted to the program of their choice and placed in coursework based on their assessment (if required).

Transcripts

Students are encouraged to submit official copies of all prior academic transcripts (high school, GED/HSED, college, university, and military) to the Student Services office on the Northwood Tech campus they will be attending. Students still in high school should send a transcript of their coursework along with documentation of remaining courses to be completed prior to graduation. High school students who have completed the tenth grade and are participating in the Start College Now program may also be eligible for admission into a Northwood Tech program. Students should check with their high school counselor or a Northwood Tech counselor for more information.

Special Licensing Requirements

Students will need to meet additional admission requirements for technical diplomas and associate degrees connected to state or national licensing or governed by specific state regulations. Call a campus admissions advisor for details.

Waiting Lists

Waiting lists are established when the number of accepted students for a program exceeds the capacity of the program. Only students who meet a program's admissions requirements are offered a place on the waiting list. Students will be offered the option of being placed on a waiting list during the admissions meeting. Northwood Tech's policy regarding waiting lists complies with the Wisconsin Technical College System Board policy. Students may begin general studies coursework and other available classes required for a program as a pre-program student.

Admissions Deferment

Students who have been admitted to a program may request to defer their enrollment for one full year without having to reapply. Contact Student Services for more information.

Declared Program Major

Students have officially declared a major if they have applied to a program and have been accepted. When a student declares a program, they have access to a variety of services. Students with a declared program can test out of courses that are required, receive credit for prior learning, transfer credits from other institutions, and receive assistance from program advisors. Students also qualify to apply for financial aid.

Double Program Major

Combining two degrees or diplomas is a good way to expand a student's career options. Students can add a second degree by filling out an online application. As students complete their double major, courses in common will apply to both programs.

Undeclared Program Major

Students wanting to enroll in credit classes without entering a program of study will be classified in an undeclared program. Students in an undeclared program will only be allowed to enroll in courses in which required prerequisites are met if space is available after students with declared programs have enrolled. Students with an undeclared program do not qualify for financial aid. Students will not be allowed to graduate from a program unless they have officially completed an online application, successfully completed the admissions assessment (if required), and met with a counselor.

Requirements for Admission

Northwood Tech has an open admissions policy to enroll in the college. Additional requirements vary by program. Students should check with an admissions advisor at the appropriate campus. For more information, go to www.NorthwoodTech.edu.

Grade Point Average (GPA) Requirements

Northwood Tech does not require a specific GPA for admission, however, an admissions assessment is required for some programs. Resources are available to develop needed skills for completion of the admissions assessment. In addition, the Academic Support Center on each campus has a variety of refresher courses that students can take before enrolled or while enrolled to enhance their academic and study skills.

Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice, or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

General Information

General Education offers courses in communication, mathematics, science, social science, and behavioral science that provide the foundation for degree, certificate, and diploma programs at Northwood Tech.

Prepared Learner courses equip students with the skills necessary to master college-level curricula. Academic history, self-awareness, and/or length of time away from formal education steer students to these courses. Prepared Learner courses carry college credits and are eligible for financial aid.

Academic Support offers individualized and group instruction in English, social studies, science, reading, mathematics, English Language Learning (ELL), civics, health, career exploration, and employability skills. Persons may attend classes to prepare for entry into specific Northwood Tech courses, to receive academic support with current program course materials, to prepare for employment, to increase knowledge of oral and written communication, and to fulfill personal goals. GED/HSED preparation and testing services are also available.

University Transfer Courses and Degrees

Northwood Tech offers both a University Transfer Degree-Associate to Bachelor's/Arts and a University Transfer Degree-Associate to Bachelor's/Science degree. The University Transfer programs are an academic partnership with UW-Superior, so a full slate of Liberal Arts courses are available to complete the degrees. Courses are available Online, so they are available anywhere you have reliable and available internet access. The combination of Northwood Tech General Education courses and UW-Superior courses enable Northwood Tech students to work toward a full Associate to Bachelor's/Arts or Associate to Bachelor's/Science degree, while still living, working and going to school near home. For more information, see the University Transfer degree pages (209-212).

General Education Course Descriptions

Communication

10801136

English Composition 1 - Credits: 3

This course is designed for learners to develop knowledge and skills in all aspects of the writing process. Planning, organizing, writing, editing and revising are applied through a variety of activities. Students will analyze audience and purpose, use elements of research, and format documents using standard guidelines. Individuals will develop critical reading skills through analysis of various written documents. This course focuses on writing-intensive practices and meets expectations of High Impact Practice courses. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10801196

Oral/Interpersonal Communication - Credits: 3

Focuses on developing effective listening techniques and verbal and nonverbal communication skills through oral presentation, group activity, and other projects. The study of self, conflict, and cultural contexts will be explored, as well as their impact on communication. This course focuses on writing-intensive practices and meets expectations of High Impact Practice courses. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10801197

Technical Reporting - Credits: 3

Prepare and present written, oral, and visual communication products, including instructions, proposals, informal and formal reports. Produce clear, usable communication by incorporating information design principles, arranging content to satisfy diverse audience needs, and presenting visuals for various contexts. Designed as an advanced course to develop collaborative communication practices, information literacy skills, and ethically responsible professional communication strategies. This course focuses on writing-intensive practices and meets expectations of High Impact Practice courses. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10801198

Speech - Credits: 3

Explores the fundamentals of effective oral presentation to small and large groups. Topic selection, audience analysis, methods of organization, research, supporting evidence, delivery techniques, active listening, and other essential elements of speaking successfully, form the basis of the course. Includes informative, persuasive, and occasion speech presentations. Audience requirements to be determined by individual colleges. This course focuses on writing-intensive practices and meets expectations of High Impact Practice courses. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

32801361

Applied Communications - Credits: 2

This basic communication course focuses on effective listening, speaking, reading, and writing in life and at work. Students demonstrate their skills both individually and in groups. Students also produce such employment documents as a cover letter, a resume, and a preliminary job portfolio.

32801362

Advanced Communication Skills - Credits: 2

This course focuses on building effective professional and personal communication skills. Students will practice, prepare, and deliver program-specific written documents, presentations, and interpersonal communication scenarios for diverse audiences. The course also examines the importance of community and engagement, and includes best practices in Computer-Mediated Communication. PREREQUISITE: 32801361 Applied Communications.

10838104

Intro to College Reading - Credits: 2

Provides learners with opportunities to develop and expand reading skills including comprehension and vocabulary. Learners apply reading skills to academic tasks and read to acquire information from a variety of sources.

76851740

Writing Foundations

Writing Foundations is a course designed to improve a student's writing skills to prepare the student for success in Intro to College Writing. Completing the course with a grade of C or higher will allow a student to enter Intro to College Writing.

76851750

Writing Foundations for Trades

Writing Foundations for Trades is a course designed to improve a student's writing skills to prepare the student for success in trades programs.

76858740

Reading Foundations

Reading Foundations is a course designed to improve a student's reading skills to prepare the student for success in Intro to College Reading. Completing the course with a grade of C or higher will allow a student to enter Intro to College Reading.

99831900

Writing Essentials - Credits: 2

This transitional course prepares students for success in English Composition 1. Topics include basic principles of composition, including organization, development, unity, and coherence in paragraphs and multi-paragraph documents. This course cannot be used to meet any General Studies course requirements for graduation in a program. COREQUISITE: 10801136 English Composition 1.

Mathematics

10804107

College Mathematics - Credits: 3

This course is designed to review and develop fundamental concepts of mathematics in the areas of algebra, geometry, trigonometry, measurement and data. Special emphasis is placed on problem solving, critical thinking and logical reasoning, making connections, and using calculators.

10804113

College Technical Mathematics 1A - Credits: 3

Topics include: solving linear equations, graphing, percent, proportions, measurement systems, computational geometry, and right triangle trigonometry. Emphasis will be on the application of skills to technical problems. Successful completion of College Technical Mathematics 1A and College Technical Mathematics 1B is the equivalent of College Technical Mathematics 1.

10804114

College Technical Mathematics 1B - Credits: 2

This course is a continuation of College Technical Mathematics 1A. Topics include: performing operations on polynomials, solving quadratic and rational equations, formula rearrangement, solving systems of equations, and oblique triangle trigonometry. Emphasis will be on the application of skills to technical problems. Successful completion of or concurrent enrollment in College Technical Mathematics 1A is required for course enrollment. Successful completion of College Technical Mathematics 1A and College Technical Mathematics 1B is the equivalent of College Technical Mathematics 1. PREREQUISITE: 10804113 College Technical Mathematics 1A.

10804118

Intermediate Algebra with Applications - Credits: 4

This course offers algebra content with applications. Topics include properties of real numbers, order of operations, algebraic solution for linear equations and inequalities, operations with polynomial and rational expressions, operations with rational exponents and radicals, algebra of inverse, logarithmic and exponential functions. Students in this college transfer course will complete a scholarly research/academic assignment. PREREQUISITE: 10834109 Pre-Algebra, 10804114 College Technical Mathematics 1B, any associate degree or college parallel level WTCS mathematics course, or additional measures may be considered as determined by the counselor.

10804123

Math with Business Applications - Credits: 3

This course integrates algebraic concepts, proportions, percents, simple interest, compound interest, annuities, and basic statistics with business/consumer scenarios. It also applies math concepts to the purchasing/buying and selling processes. Emphasis is placed on the use of complex formulas for sinking funds and for present/future value and payments in both the accumulation and distribution phases of an annuity as well as to the development of formulas for business scenarios such as finding effective interest rates and finding the proceeds of a third-party discount.

10804133

Mathematics and Logic - Credits: 3

Students will apply mathematical problem solving techniques. Topics will include symbolic logic, sets, algebra, Boolean algebra, and number bases.

10804138

Math for Health Professionals - Credits: 2

Following an arithmetic review, this course emphasizes those mathematical skills necessary for success in the nursing field and related health occupations. Emphasis will be placed on computational skills and applications of rational numbers; problem solving skills with ratios, proportions, and percents; basic principles and application of algebra, graphing, and statistics; measurement skills in U.S. Customary and Metric systems as well as apothecary and household systems; and the use of calculators as a tool.

10804189

Introductory Statistics - Credits: 3

Students taking Introductory Statistics display data with graphs, describe distributions with numbers, perform correlation and regression analyses, and design experiments. They use probability and distributions to make predictions, estimate parameters, and test hypotheses. They draw inferences about relationships including ANOVA. Students in this college transfer course will complete a scholarly research/academic assignment. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA). Recommended Prerequisite: Introductory computer skills to include spreadsheets. PREREQUISITES: 10834109 Pre-Algebra, any associate degree or college parallel level WTCS mathematics course, or additional measures may be considered as determined by the counselor.

10804196

Trigonometry with Applications - Credits: 3

Topics include the unit circle, trigonometric functions, graphs, identities, equations, inverse functions, solutions of triangles, complex numbers, polar coordinates, and vectors. Students in this college transfer course will complete a scholarly research/academic assignment. PREREQUISITE: 10804118 Intermediate Algebra with Applications NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10834109

Pre-Algebra - Credits: 3

Provides an introduction to algebra. Includes operations on real numbers, solving linear equations, percent and proportion, and an introduction to polynomials and statistics. Prepares students for elementary algebra and subsequent algebra related courses. This course cannot be used to meet any General Studies course requirements for graduation in a program.

General Education Course Descriptions

20804224

College Algebra with Applications - Credits: 4
Algebraic concepts, techniques, and applications are studied with topics including the complex number system, functions and graphs (polynomial, rational, exponential, and logarithmic), systems of equations, properties of matrices, and binomial theorem. Students in this college transfer course will complete a scholarly research/academic assignment. PREREQUISITES: 10804118 Intermediate Algebra with Applications, any associate degree or college parallel level WTCS mathematics course, or additional measures may be considered as determined by the counselor.

32804303

Applied Math - Credits: 2
This course covers practical applications of whole numbers, fractions, decimals, percent, proportion, and formula evaluation. The course also includes measurement, U.S. and metric systems of measurement, and basic geometry.

32804313

Applied Math 2 - Credits: 2
This course is a continuation of Applied Math. A more thorough coverage of solving equations and rearranging formulas with special applications to formulas used in the mechanical technician programs. Other topics include a study of solid geometry and direct and inverse proportions for work with hydraulics and transmission studies. The course is team-taught with the core instructor and direct application of math skills taught will be assessed in the math class and during time spent with the core instructor. PREREQUISITE: 32804303 Applied Math.

32804325

Applied Technical Math 1 - Credits: 3
This technical diploma course begins with a short review of basic arithmetic skills and continues with the application of these skills. Problem solving involving fractional and decimal dimensions is emphasized. The course also includes introductory algebra with emphasis on utilization of formulas including work with signed numbers. First-degree equation solution is also emphasized.

32804334

Applied Technical Math 2 - Credits: 2
This technical diploma course is a continuation of Applied Technical Math 1. Topics covered include the basic geometry of plane and solid figures, right-triangle trigonometry, oblique-triangle trigonometry, and applications of these topics to trade and industry programs. PREREQUISITE: 32804325 Applied Technical Math 1.

32804335

Advanced Technical Math - Credits: 3
This technical diploma course is a continuation of Applied Technical Math 1. Topics covered include the basic geometry of plane and solid figures, right-triangle trigonometry, oblique-triangle trigonometry, and applications of these topics to trade and technical programs. Additional topics covered in this course are program specific. These topics include applications to machine shop formulas, Cartesian coordinates, point-to-point programming, land-surveying mathematics, and framing-square calculations. PREREQUISITE: 32804325 Applied Technical Math 1.

76854745

Math Foundations
Math Foundations is a course designed to improve a student's math skills to support their success in Pre-Algebra. Students will be able to co-enroll in Pre-Algebra. Completing the course with a grade of C or higher should prepare a student to successfully complete their Pre-Algebra course.

76854740

Math Foundations for Health
Math Foundations for Health is a course designed to improve a student's math skills to prepare the student for success in health programs.

76854750

Math Foundations for Trades
Math Foundations for Trades is a course designed to improve a student's math skills to support their success in Applied Math or Applied Technical Math 1. Students in Math Foundations for Trades will be able to co-enroll in Applied Math or Applied Technical Math 1. Completing the course with a grade of C or higher should prepare a student to successfully complete their Applied Math or Applied Technical Math 1 course.

Science

10806105

Principles of Animal Biology - Credits: 4
Introductory course focused on general biological principles, cell structure and function, genetics, organ system anatomy and physiology, behavior, evolution, and ecology. May include dissection of fresh and/or preserved materials. (This course is a prerequisite to Microbiology) PREREQUISITE: Admission to Veterinary Technician plan.

10806112

Principles of Sustainability - Credits: 3
Prepares the student to develop sustainable literacy, analyze the interconnections among the physical and biological sciences and environmental systems, summarize the effects of sustainability on health and well-being, analyze connections among social, economic, and environmental systems, employ energy conservation strategies to reduce the use of fossil fuels, investigate alternative energy options, evaluate options to current waste disposal and recycling in the U.S., and analyze approaches used by your community to promote and implement sustainability. Students in this college transfer course will complete a scholarly research/academic assignment.

10806114

General Biology - Credits: 4
Introduces general biological concepts and principles. Emphasis is on cell structure and function, genetics, evolution, and taxonomical relationships. Consideration is also given to diversity among the various kingdoms. Students in this college transfer course will complete a scholarly research/academic assignment. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10806134

General Chemistry - Credits: 4
Covers the fundamentals of chemistry. Topics include the metric system, problem solving, periodic relationships, chemical reactions, chemical equilibrium, properties of water; acids, bases, and salts; and gas laws. Students in this college transfer course will complete a scholarly research/academic assignment. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10806140

Chemistry - Credits: 1
This is a combined lecture/laboratory course for those entering health occupations programs. You will study chemical bonds and the solution process; chemical reactions and chemical equilibria; and acids and bases. You will participate in labs where appropriate. No previous background in chemistry is required. Good math skills are helpful.

10806175

Pathophysiology - Credits: 3
This introductory course in pathophysiology covers topics related to alterations of homeostasis and the associated pathophysiological processes. Course studies include the processes involved that generate illness; signs and symptoms of commonly occurring illness states; and effects of disease processes on the cell. Review of normal homeostatic mechanisms is included. Study of these fundamental processes in relation to the pathophysiological processes can enable the students to apply this knowledge to clinical situations. PREREQUISITES: 10806179 Advanced Anatomy and Physiology and 10806197 Microbiology.

10806177

General Anatomy and Physiology - Credits: 4
Examines basic concepts of human anatomy and physiology as they relate to health sciences. Using a body systems approach, the course emphasizes the interrelationships between structure and function at the gross and microscopic levels of organization of the entire human body. It is intended to prepare health care professionals who need to apply basic concepts of whole body anatomy and physiology to informed decision-making and professional communication with colleagues and patients. This course includes a one-credit lab component that supports the course objectives. Students in this college transfer course will complete a scholarly research/academic assignment. (This course also provides the foundation, and is prerequisite to, Advanced Anatomy and Physiology.) NOTE: Successful completion of a chemistry course within the last five years is highly recommended.

10806179

Advanced Anatomy and Physiology - Credits: 4
Advanced Anatomy and Physiology is the second semester in a two-semester sequence in which normal human anatomy and physiology are studied using a body systems approach with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Instructional delivery within a classroom and laboratory setting. Experimentation within a science lab will include analysis of cellular metabolism, the individual components of body systems such as the nervous, neuromuscular, cardiovascular, and urinary. Continued examination of homeostatic mechanisms and their relationship to fluid, electrolyte, acid-base balance and blood. Integration of genetics to human reproduction and development are also included in this course. Students in this college transfer course will complete a scholarly research/academic assignment. PREREQUISITE: 10806177 General Anatomy and Physiology, preferably within the last five years.

10806186

Intro to Biochemistry - Credits: 4
Provides students with skills and knowledge of organic and biological chemistry necessary for application within Nursing and other Allied Health careers. Emphasis is placed on recognizing the structure, physical properties and chemical reactions of organic molecules, body fluids, and acids. Additional emphasis is placed on biological functions and their relationships to enzymes, proteins, lipids, carbohydrates and DNA. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System / Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA). COREQUISITE: Complete one year, or one credit, of high school chemistry or one credit of 10806140 Chemistry (college-level chemistry) with a 2.0 or better. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10806197

Microbiology - Credits: 4
Examines microbial structure, metabolism, genetics, growth and the relationship between humans and microbes. Addresses disease production, epidemiology, host defense mechanisms and the medical impact of microbes. Presents the role of microbes in the environment, industry, and biotechnology. This course includes a one-credit lab component that supports the course objectives. Students in this college transfer course will complete a scholarly research/academic assignment. PREREQUISITE: 10806177 General Anatomy and Physiology, preferably within the last five years or 10806105 Principles of Animal Biology. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

General Education Course Descriptions

10806198

Human Biology - Credits: 4

This is an introductory course that emphasizes the structure of the human body and the functional interrelationships of the body's systems. Consideration is given to the human body and disease, human genetics, human ecology, and the role that humans play in the environment. The course consists of 3 hours of lecture and 2 hours of lab per week. Students in this college transfer course will complete a scholarly research/academic assignment. Note: This course does not meet requirements for or substitute for General Anatomy and Physiology or Anatomy & Physiology I and II.

Social Science

10809122

Introduction to American Government - Credits: 3

Introduces American political processes and institutions. Focuses on rights and responsibilities of citizens and the process of participatory democracy. Learners examine the complexity of the separation of powers and checks and balances. Explores the role of the media, interest groups, political parties and public opinion in the political process. Also explores the role of state and national government in our federal system. Students in this college transfer course will complete a scholarly research/academic assignment. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10809143

Microeconomics - Credits: 3

Microeconomics explores individual decision making. The course focuses on how consumers, producers, and policy impact market outcomes; and how market factors influence consumer choices, producer decisions, and policy actions. Topics include economic decision making, consumption, production, elasticity, costs of production, market structures, market failures, resource markets, and international trade. The goal of this course is to improve personal, professional, and social decision making; better understand consumer and producer behavior; and analyze the impacts of government policy on market outcomes. Students in this college transfer course will complete a scholarly research/academic assignment.

10809144

Macroeconomics - Credits: 3

Macroeconomics explores the economy as a whole. This course focuses on how the aggregate economy impacts individuals, businesses, and policies; and how individuals, businesses, and policies can in turn impact the aggregate economy. Topics include alternate economic systems, aggregate behavior, macroeconomic indicators, business cycles, fiscal policy, monetary policy, and international trade. The goal of this course is to understand and evaluate current national and international economic issues. Students in this college transfer course will complete a scholarly research/academic assignment.

10809166

Introduction to Ethics: Theory and Application - Credits: 3

This course provides a basic understanding of the theoretical foundations of ethical thought. Diverse ethical perspectives will be used to analyze and compare relevant issues. Students will critically evaluate individual, social and professional standards of behavior, and apply a systematic decision-making process to these situations. Students will complete a global awareness project. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10809172

Introduction to Diversity Studies - Credits: 3

This course introduces the study of diversity from a local to a global perspective using a holistic, interdisciplinary approach that encourages exploration and prepares students to work in a diverse environment. The course introduces basic diversity concepts, examines the impact of bias and power differentials among groups, explores the use of culturally responsive communication strategies, and compares forces that shape diversity in an international context. Students will complete a global awareness project. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10809195

Economics - Credits: 3

This course is designed to give an overview of how a market-oriented economic system operates, and it surveys the factors which influence national economic policy. Basic concepts and analyses are illustrated by reference to a variety of contemporary problems and public policy issues. Concepts include scarcity, resources, alternative economic systems, growth, supply and demand, monetary and fiscal policy, inflation, unemployment and global economic issues. Students in this college transfer course will complete a scholarly research/academic assignment. Note: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10809196

Introduction to Sociology - Credits: 3

Introduces students to the basic concepts of sociology: culture, socialization, social stratification, multi-culturalism, and the five institutions, including family, government, economics, religion, and education. Other topics include demography, deviance, technology, environment, social issues, social change, social organization, and workplace issues. Students will complete a global awareness project. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

Behavioral Science

10809159

Abnormal Psychology - Credits: 3

The course addresses the foundations of abnormal psychology and psychological disorders, including their characteristics, possible causes, assessments, diagnostic processes, and treatments. The course includes examination of major historical and theoretical perspectives, research, sociocultural considerations, and elements of psychological wellness. Students will complete a global awareness project. PREREQUISITE: 10809198 Introduction to Psychology. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10809188

Developmental Psychology - Credits: 3

Developmental Psychology is the study of human development throughout the lifespan. This course explores developmental theory and research with an emphasis on the interactive nature of the biological, cognitive, and psychosocial changes that affect the individual from conception to death. Application activities and critical thinking skills will enable students to gain an increased knowledge and understanding of themselves and others. Students will complete a global awareness project. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

10809198

Introduction to Psychology - Credits: 3

This science of psychology course is a survey of multiple aspects of behavior and mental processes. It provides an overview of topics such as research methods, theoretical perspectives, learning, cognition, memory, motivation, emotions, personality, abnormal psychology, physiological factors, social influences, and development. Students will complete a global awareness project. NOTE: This course is recognized for general education transfer as part of the University of Wisconsin (UW) System/Wisconsin Technical College System (WTCS) Universal Credit Transfer Agreement (UCTA).

32809380

Applied Interpersonal Skills - Credits: 2

Improve intrapersonal and interpersonal skills in high demand by employers to enhance life-long learning both professionally and personally. Areas that are highlighted include providing excellent customer service in a diverse workplace, working ethically, improving motivation, applying critical thinking skills, and managing difficult situations.

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

Accounting is an important tool for any business. In this two-year accounting associate degree, you will be prepared to assemble, analyze, and interpret essential information about the operation of an organization. You'll prepare financial statements, cost studies, and tax reports.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Accounting graduates will be able to:

- Process financial transactions throughout the accounting cycle
- Evaluate financial information to support decision making
- Process payroll
- Perform cost accounting tasks
- Perform income tax accounting tasks
- Apply internal controls to minimize risk

Career Outlook

Typical positions available after graduation include:

- Accountant
- Bookkeeper
- Accounts Receivable Specialist
- Accounts Payable Specialist
- Payroll Specialist
- Cost Accounting Specialist
- Tax Accounting Specialist

Some graduates also continue their education in the field of Accounting at a four-year institution.

Potential careers available with further education include:

- Certified Public Accountant
- Accounting Manager

Career Pathways

The Accounting program includes the following pathway options (page 220):

- Accounting Assistant
- Billing and Posting Clerk
- Tax Preparer Assistant

Related Programs

- Financial Services
- Business Management
- Administrative Coordinator

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

You must earn a grade point of 2.0 or better in all required (10101XXX) courses.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10101103

Financial Accounting 2 - Credits: 4

Students will be introduced to corporate accounting. Students will have an understanding of corporate transactions with an emphasis on stocks and bonds. The student will analyze financial statements including the statement of cash flows. Managerial accounting is also introduced in this class. PREREQUISITE: 10101101 Financial Accounting 1.

10101105

Intermediate Accounting 1 - Credits: 4

Intermediate Accounting course (in sequence with 10101107 Intermediate Accounting 2) covering complex accounting theory, financial statement preparation, and analysis of an in-depth nature. PREREQUISITES: 10101103 Financial Accounting 2 and 10103152 MS Excel B.

10101107

Intermediate Accounting 2 - Credits: 4

Intermediate Accounting 2 (in sequence with 10101105 Intermediate Accounting 1) covers complex accounting theory, financial statement preparation, and analysis of an in-depth nature. PREREQUISITE: 10101105 Intermediate Accounting 1.

10101121

Cost and Managerial Accounting - Credits: 4

This course addresses cost accounting principles, procedures, and managerial applications of cost data; theory of job order cost, process cost, and standard cost; and managerial cost decision making. Though not required, 10101103 Financial Accounting 2 is also recommended prior to taking this course. PREREQUISITES: 10101101 Financial Accounting 1 and 10103152 MS Excel B.

10101123

Income Tax Accounting - Credits: 4

This course is an introduction to state and local individual income tax laws. It will prepare you to complete and file individual federal and Wisconsin income tax returns including the Form 1040 and Wisconsin Form 1 with the most common supporting schedules. The course requires the preparation of a series of individual tax returns.

10101124

Payroll Systems and Accounting - Credits: 3

Study of state and federal laws affecting payroll -- Fair Labor Standards Act, Federal and State Unemployment Acts, Federal Insurance Contributions Act, Federal and State Withholding Tax Acts, payroll accounting procedures, and systems design. COREQUISITE: 10101101 Financial Accounting 1

10101131

Accounting Capstone - Credits: 3

Prepares students for real-world accounting. Students will process financial transactions throughout the accounting cycle, analyze financial information to support planning and decision-making, examine internal controls, perform payroll preparation and reporting, and prepare individual tax returns. Coursework is almost entirely project-based. PREREQUISITES: 10103152 MS Excel B, 10101174 QuickBooks Accounting – Beginning, 10101124 Payroll Systems and Accounting, 10101105 Intermediate Accounting 1 and COREQUISITES: 10101123 Income Tax Accounting

10101174

QuickBooks Accounting - Beginning - Credits: 2

Students will learn the QuickBooks accounting software by performing tasks that involve the general ledger, accounts payable, accounts receivable, inventory, payroll, and financial statements. Students will be responsible for finding and correcting errors in the QuickBooks program. PREREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

10101179

Advanced Excel for Accounting - Credits: 2

Students will learn to use MS Excel as it pertains mainly to accounting related functions. Activities will include working with pivot tables, exporting/importing information, continuing with advanced formulas and macros, using analytical options, and developing creativity/application skills in building spreadsheets to replace and enhance manual record keeping, calculations, and reporting. PREREQUISITES: 10101103 Financial Accounting 2 and 10103152 MS Excel B

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10105125

Business Law - Credits: 3

Business Law provides the student with a working knowledge of the legal system, business ethics, and essentials of contracts. Students gain knowledge in logical and analytical thinking, and are encouraged to challenge legal issues and defend their point of view.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Recommended Elective Course:

10105175

Business Internship - Credits: 3

Internship is designed to provide students with on-the-job experiences in actual work situations. These experiences strengthen student competencies through participation in a wide variety of occupational experiences, ranging from routine assignments to specialized work-related duties. Instructor approval is required prior to enrolling in this course.

Accounting Assistant

31-101-1 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

Program Overview

Accounting is an important tool for any business. Upon completion of the one-year Accounting Assistant technical diploma, you will be prepared to work as a bookkeeper in a small business or as an accounting specialist in a larger business. By maintaining accounting records such as receivables, payables, inventory, and payroll, you will help an organization run smoothly.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Accounting Assistant graduates will be able to:

- Process financial transactions throughout the accounting cycle
- Evaluate financial information to support decision making
- Process payroll

Career Outlook

Typical positions available after graduation include:

- Accounting Clerk
- Accounts Receivable Clerk
- Accounts Payable Clerk
- Payroll Clerk
- Bookkeeper

After you complete the Accounting Assistant technical diploma, continue your education at Northwood Tech to earn the Accounting associate degree. Northwood Tech has articulation agreements with a variety of four-year universities. Some graduates may also choose to pursue professional certifications.

Career Pathways

The Accounting Assistant program includes the following pathway option (page 220):

- Billing and Posting Clerk

Accounting Assistant is also a pathway into the following program:

- Accounting

Related Program

- Tax Preparer Assistant

Graduates may choose to continue with the second year of the Accounting associate degree program.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

You must earn a grade point of 2.0 or better in all required (10101XXX) courses.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10101103

Financial Accounting 2 - Credits: 4

Students will be introduced to corporate accounting. Students will have an understanding of corporate transactions with an emphasis on stocks and bonds. The student will analyze financial statements including the statement of cash flows. Managerial accounting is also introduced in this class. PREREQUISITE: 10101101 Financial Accounting 1.

10101124

Payroll Systems and Accounting - Credits: 3

Study of state and federal laws affecting payroll -- Fair Labor Standards Act, Federal and State Unemployment Acts, Federal Insurance Contributions Act, Federal and State Withholding Tax Acts, payroll accounting procedures, and systems design. COREQUISITE: 10101101 Financial Accounting 1.

10101174

QuickBooks Accounting - Beginning - Credits: 2

Students will learn the QuickBooks accounting software by performing tasks that involve the general ledger, accounts payable, accounts receivable, inventory, payroll, and financial statements. Students will be responsible for finding and correcting errors in the QuickBooks program. PREREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Administrative Coordinator (Administrative Professional)

10-106-6 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

The Administrative Coordinator program will prepare you with cutting-edge skills in virtual assisting, event planning, organizing, and scheduling. As a graduate, you will have the competency to coordinate a modern office environment while supporting managers, executives, and teams. You will be equipped with the skills to manage projects, troubleshoot technology, provide exceptional customer service, and craft professional business communication. With this degree, typical career opportunities for grads could include, executive assistant, administrative coordinator, administrative professional, office manager or virtual assistant. This foundation prepares you for many career opportunities and gives you transferable credits to continue your education.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Administrative Coordinator graduates will be able to:

- Demonstrate effective workplace communications
- Apply technology skills to business and administrative tasks
- Perform routine administrative procedures
- Manage administrative projects
- Maintain internal and external relationships
- Model professionalism in the workplace

Career Outlook

Typical positions available after graduation include:

- Administrative Coordinator
- Administrative Professional
- Executive Assistant
- Office Manager
- Virtual Assistant

Career Pathways

The Administrative Coordinator program includes the following pathway options (page 221):

- Office Support Specialist
- Office Technology Assistant
- Microsoft Office

10101174

QuickBooks Accounting - Beginning- Credits: 2

Students will learn the QuickBooks accounting software by performing tasks that involve the general ledger, accounts payable, accounts receivable, inventory, payroll, and financial statements. Students will be responsible for finding and correcting errors in the QuickBooks program. PREREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

10101176

Financial Accounting 1A - Credits: 2

This is a basic accounting course for non-accounting program students. The scope of study focuses on an introduction to business and accounting, analyzing and recording accounting transactions, performing the adjusting process, and completing the accounting cycle. Understanding is based both on theory and application.

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103156

Adobe Photoshop - Credits: 2

Students will become skilled in using the Adobe Photoshop image-editing software package. Students will create and modify graphic images using various tools and techniques. They will learn to create original artwork, manipulate images, and create images for the Web and retouch photographs.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10103184

Advanced Document Applications - Credits: 2

This is the second course in a sequence that develops advanced skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, mail merge, desktop publishing, themes, templates, forms, sort, styles, references, captions, and macros. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365. COREQUISITE: 10103146 MS Word A

10103185

Advanced Spreadsheets and Analytics - Credits: 2

This is the second course in a sequence that develops advanced skills in the use of Microsoft Office Excel software. Students will use spreadsheet software apply advanced features, manage data using PivotTables, and macros. Use software to solve and analyze various business situations. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365 for Windows. COREQUISITE: 10103151 MS Excel A

10106123

Meeting and Event Planning - Credits: 3

In this course students will deepen their understanding of planning meetings and project management. Students learn about event planning and budgeting, negotiation and contracts, income projections, food and beverage coordination, technology utilization, and logistics management.

10106127

Desktop Publishing - Credits: 2

Preparation of professional-looking documents using desktop publishing software or word processing software with desktop publishing capabilities.

10106129

Web and Social Media Technologies - Credits: 3

This course presents the foundational skills necessary to function in a web and social media platform. Students will create a web site using effective web page design concepts including text, graphics, hypertext links, tables, forms, layers, and templates. This course will also introduce students to a broad spectrum of concepts and issues associated with E-Business, cloud based systems and Social Media from marketing to network security to customer service. A general knowledge of working in a Windows environment and keyboarding skills are recommended.

10106139

Administrative Office Management - Credits: 3

This course is designed to develop professional skills and attitudes needed in today's global business environment. Topics include making ethical decisions, working independently and as a team member, and managing time. Telecommunications, mail processing, travel arrangements and conferences, public relations, and ergonomics will be included. Previous word processing and proofreading experience is recommended. PREREQUISITE: 10106146 Document Management & Editing.

10106146

Document Management & Editing - Credits: 3

This course will focus on document formatting requirements for a variety of business documents and correspondence. Students will learn file management, document sharing, and collaborative document editing. Emphasis will be placed on proofreading, proper grammar, mechanics, keying speeds and accuracy. This project-based course uses individual and group activities.

10106166

Virtual Administrative Professional Capstone - Credits: 3

This is a course where students will collaborate in a virtual meeting setting and complete project work for job preparation. Students will create an ePortfolio website to show mastery of program competencies. This is a final semester capstone course and requires a high level of ability designed to provide students with an experience to simulate tasks and duties performed in their field. PREREQUISITE: 10106201 Modern Office Management, 10106139 Administrative Office Management and COREQUISITE: 10106200 Software Integration.

10106199

Business Technology and Success - Credits: 1

Designed to explore the impact of digital technology, communication, and media. Course learners will be able to apply organizational techniques and manage electronic files; explore computer hardware and the web using various software and apps while practicing security and safety techniques. Improve skills in critical thinking, innovation, and personal responsibility through experiential and problem-solving approaches for a workforce-ready mindset.

10106200

Software Integration - Credits: 2

This course is designed to integrate computer applications by exposing students to workplace scenarios. Participants will prepare and enhance documents using word processing, spreadsheets, database, and presentation graphics software, as well as additional programs in this ever-evolving field. PREREQUISITES: 10103106 MS PowerPoint, 10103146 MS Word A, 10103184 Advanced Document Applications, 10103151 MS Excel A, 10103185 Advanced Spreadsheets and Analytics, and 10103162 MS Access A.

10106201

Modern Office Management - Credits: 3

This course provides the learner exposure to records management and electronic filing procedures for efficiency and data security. Learners will explore current business practices such as application integration, technology and trends, basic technology troubleshooting, and customer service techniques for the modern office.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Advanced EMT

30-531-6 Technical Diploma (less than one-year)

Campuses: New Richmond*, Rice Lake*

*Combination of On Site and Online Live instruction

Program Overview

The Advanced EMT program is for students who are seeking advanced skills and a higher level of challenge in an exciting field. Students will develop more enhanced emergency treatment skills including assessment skills and medication administration. Students will also perform a variety of patient assessments and skills including intravenous, intraosseous, intranasal, inhalation and intramuscular injections on real patients. Students will be expected to successfully complete the clinical course after obtaining a Training Center Training Permit. Students who successfully complete the program, with a program plan GPA of 2.0 or better, will be eligible to take the National Registry of EMT's examinations for Advanced Emergency Medical Technician (AEMT) level of certification. Prerequisite: 30-531-3 Emergency Medical Technician.

Special Features

On-site skills labs will be scheduled on select Saturdays at the Rice Lake campus.

Admission Requirements

- Complete Online application form
- Review and sign EMT Proof of Licensure Disclosure
- Provide proof of a current State of Wisconsin EMT license with expiration date

Program-Specific Requirements

- Attend a mandatory orientation session scheduled prior to start of class
- Pay fee and have acceptable results based on the Wisconsin Criminal History Record Check, Wisconsin Caregiver Background Check, Minnesota Caregiver Background Check (if applicable), and/or other states if applicable – Information from the Caregiver Background Check may affect ability to obtain Training Permit from the State of Wisconsin
- Be affiliated with an Advanced EMT service approved by the Wisconsin EMS Unit or approval from the Training Center Medical Director
- Have current immunizations by the first day of class
 - Decision to not receive vaccinations may limit ability to obtain clinical placement based upon meeting site placement requirements
- Demonstrate negative status for tuberculosis (Tb) by the first day of class
 - Provide two negative Mantoux Tests (skin tests) or one blood draw test (QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot)

- Possess current certification of "BLS Basic Life Support" or the equivalent
 - Certification must be active through the completion of the program
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Submit Background Information Disclosure (BID) Form
- Complete Northwood Tech Authorization to Release Student Record Information with third party agency sponsor
- Review and sign Advanced EMT Confidentiality Statement of Understanding Form

Program Outcomes

The Advanced EMT program is approved by the Wisconsin EMS Unit and follows the National Emergency Medical Services Education Standards. Employers will expect graduates to be able to:

- Prepare for incident response and EMS operations
- Integrate pathophysiological principles and assessment findings to provide appropriate patient care
- Demonstrate AEMT skills associated with established standards and procedures for a variety of patient encounters
- Communicate effectively with others
- Demonstrate professional behavior
- Meet state competencies for AEMT certification

Career Outlook

Licensure as an Advanced EMT allows the Advanced EMT to initiate intravenous therapy and administer selected medications as authorized by the Wisconsin EMS DHS, Scope of Practice and the Ambulance Service Medical Director.

Professional Licensure and/or Certification Information

Northwood Tech's Advanced EMT program is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets the requirements for preparation, examinations, or licensure for other states. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

30531336 Advanced EMT - Credits: 3

The Advanced EMT course expands the role and skills of the EMT. Skills involved in obtaining intravenous and intraosseous access, intranasal, intramuscular and subcutaneous medication administration, and fluid therapy will be included. Student must hold a current Wisconsin EMT license. Extensive patient assessment knowledge and skills have been integrated throughout the curriculum, as well as enhanced critical decision making. This class meets the National Emergency Medical Services Education Standards, which qualifies students to certify with the National Registry of Emergency Medical Technicians. PREREQUISITE: Admission to the program.

30531337 Advanced EMT Clinical - Credits: 1

The Advanced EMT course expands the role and skills of the EMT. Skills involved in obtaining intravenous and intraosseous access, intranasal, intramuscular and subcutaneous medication administration, and fluid therapy will be included. Student must hold a current Wisconsin EMT license. Extensive patient assessment knowledge and skills have been integrated throughout the curriculum, as well as enhanced critical decision making. Participants will be required to participate in a clinical experience as part of their training. This class meets the National Emergency Medical Services Education Standards, which qualifies students to certify with the National Registry of Emergency Medical Technicians. PREREQUISITE: Admission to the program and 30531336 Advanced EMT.

Advanced Marine Repair Technician

17-461-1 Technical Certificate

Campus: Ashland

Program Overview

Diagnostics and the repair of outboard motors, inboard engines, marine transmissions, along with sterndrive units will be examples of coursework designed within this advanced certificate. Students are encouraged to select their own project that will increase their level of expertise as a qualified Marine Repair Technician. This certificate is designed to adapt to specific student interests in combination with the advance technological changes taking place within the marine industry.

Special Features

This is a unique certificate in the state.

Prerequisite requirements for this certificate must be met. This certificate has the ability to be adapted to unique interests in the marine repair field.

Admission Requirements

- Complete Online application form

Outcomes

The Advanced Marine Repair Technician Certificate will prepare you to:

- Meet project completion deadlines
- Follow proper repair instructions
- Complete projects that meet professional standards
- Complete self-directed projects
- Demonstrate an in-depth knowledge related to select product-specific training

Career Outlook

Completing this certificate will prepare you to begin your career as a marine repair technician and be able to complete advanced repairs such as (depending on selected learning activities):

- Diagnose and repair outboard motors
- Diagnose and repair sterndrive and inboard engines
- Repair marine transmissions and sterndrive units

Career Pathway

The Advanced Marine Repair Certificate includes the following pathway option (page 244):

- Marine Repair Technician

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
31461344	Advanced Marine Engine Rebuilding*	3 cr.
31461345	Advanced Marine Engine Systems*	3 cr.

TOTAL CREDITS **6 cr.**

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Course Descriptions

31461344

Advanced Marine Engine Rebuilding - Credits: 3

This course is designed to study in detail the process of rebuilding a marine engine or its related major components. The student will choose and provide a major project(s) and rebuild it to the manufacturer's specifications. The student will have to provide the instructor with a list of project(s) and the time estimated for their completion. The instructor will need to approve the project(s) and will guide the student as to the feasibility of completion. The estimated hours of completion will equal 3 credit hours (96 hours of time). The instructor will offer guidance to assure the students success in completion of the project. Lab work will need to be completed during the open time of the marine lab. PREREQUISITE: Successful completion of the Marine Repair Technician program.

31461345

Advanced Marine Engine Systems - Credits: 3

This course is designed to increase the student's knowledge of specific manufacturers' operation systems. The student will be able to complete additional manufacture training programs. There may be an additional cost to the student for some of these programs. Also the student will select areas of interest to study in detail, and provide training to program students and the public. Student to submit an outline of work to be completed that equals the number of credit hours of the course. Lab work will need to be completed during the open time of the marine lab. PREREQUISITE: Successful completion of the Marine Repair Technician program.

Agricultural Business Fundamentals

61-080-4 Pathway Certificate (less than one year)

Campus: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Center: Balsam Lake*

*Combination of Hybrid and On Site instruction

Program Overview

The business side of the farm operation is often times the most critical part of any farm regardless of focus. In this pathway, students will learn what financial records to keep, how to market commodities, analyze financial benchmarks, along with assessing new technology.

Special Features

Agricultural Business Fundamentals courses are offered in a hybrid setting. This allows you to enjoy the freedom of taking classes through the internet live from anywhere. Connect with your instructor and classmates during live classes via the web.

Evening courses will be available for individuals needing to complete continuing education requirements for FSA loans.

Certificate is available part time or over 2 years.

Inquire

For more information on this program or schedule of courses, contact:
Julie Wadzinski, instructor at
Julie.Wadzinski@NorthwoodTech.edu or
715.788.7064

Admission Requirements

- Complete Online application form

Course Descriptions

31094343

Farm Commodities - Credits: 2

This course is designed to introduce students to the purpose, operation, and use of futures and options in managing commodity price risks. The objectives of the course are to understand commodity marketing, futures contracts, options contracts, basis, hedging and speculating strategies as part of a successful commodity risk management program. Students will be introduced to fundamental and technical analysis techniques.

31080370

Operating the Farm Business - Credits: 3

This course will help the student learn many items involved with running a modern farm. These skills include but are not limited to record keeping, selecting proper insurance for the farm, analyzing financial performance, identifying credit needs and sources, planning for crops, and planning for the feeding of livestock.

Program Outcomes

The Agricultural Business Fundamentals Certificate will prepare you to:

- Plan for operation and maintenance of farm facilities and equipment
- Create farm business plans
- Apply marketing principles to agricultural enterprises

Career Outlook

Typical positions available after graduation include:

- Farm Bookkeeper
- Agricultural Administrative Assistant

Career Pathway >

The Agricultural Business Fundamentals certificate is a pathway into the following program (page 229):

- Farm Operation

Related Programs

- Livestock Production
- Crop Production

Agricultural Power and Equipment Technician

32-070-1 Technical Diploma (two-year)

Financial Aid Eligible

Campus: New Richmond

Program Overview

This program prepares students to service and repair diesel-powered agricultural and industrial equipment. This hands-on program covers power trains, electrical/electronic systems, brakes, hydraulics and diesel emissions of these types of equipment. Students will also learn the theory, operation, and repair of tillage, planting, and harvesting equipment.

Special Features

- Within the program Required Courses, you will have the opportunity to earn the OSHA Forklift Certification and Mobile Air Conditioning EPA 609 Certification.
- First year of this program is shared with the Diesel Equipment Technician program.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Agricultural Power and Equipment Technician graduates will be able to:

- Repair electrical systems
- Analyze an electronic system
- Repair hydraulic systems
- Repair internal combustion engines
- Repair power trains/transmissions
- Follow industry safety standards

Career Outlook

Typical positions available after graduation include:

- Equipment Mechanic
- Construction Mechanic
- Diesel Mechanic
- Lawn and Garden Equipment Mechanic
- Parts Manager

Related Programs

- Diesel Equipment Technician
- Truck Driving

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32070326

Basic Engines - Credits: 5

This class will provide the learner with an in depth look at how internal combustion engines operate. The learner will be able to identify, measure, and inspect parts of the internal combustion engine, with diesel engines used in agriculture machinery the main area of focus.

32070338

Diesel Engine Theory - Credits: 1

This course will provide the learner with a basic understanding of the diesel engine. The design and operating principles of the engine, cooling, fuel, intake, exhaust systems, and lubrication systems will be examined. COREQUISITE: 32070326 Basic Engines.

32070339

Mobile Hydraulics Theory - Credits: 1

This course will provide a practical understanding of mobile hydraulic components. Their design, application, operation and maintenance will be studied. A hydraulic training bench will be used in the classroom. PREREQUISITE: 32070367 12-Volt Electrical Circuits

32070341

Power Train Theory - Credits: 1

This course will provide a general overview of clutches, sliding gear, and hydrostatic drives. Design, operation, adjustment, and maintenance will be discussed. PREREQUISITE: 32070366 Advanced Mobile Hydraulics.

32070358

Power Trains 1 - Credits: 5

This course will provide an in-depth study of hydraulically operated and controlled transmissions as they are found on various types of farm tractors. You will learn transmission operation by studying manufacturers' service manuals as well as a prepared text. Lab projects will allow hands-on training. PREREQUISITE: 32070366 Advanced Mobile Hydraulics and COREQUISITE: 32070341 Power Train Theory.

32070361

Diesel Engine Repair - Credits: 5

This course provides the student with both a theoretical and practical background in the basic operating and rebuilding principles of diesel engines. The course includes practical experience in rebuilding, testing, troubleshooting, and tuning diesel engines. Additionally, the student will gain experience in the proper use of tools and equipment. If prerequisite courses have not been completed, the student must have consent of the instructor to enroll. COREQUISITES: 32070326 Basic Engines and 32070338 Diesel Engine Theory.

32070364

Power Trains 2 - Credits: 5

This course provides an opportunity to work on clutches, transmission torque amplifiers, torque converters, differentials, final drives, and power take-off units. Lab time is spent on disassembly, parts identification, operation, and repair of these units. COREQUISITES: 32070358 Power Trains 1 and 32070341 Power Train Theory.

32070365

Mobile Hydraulics - Credits: 5

This course will provide a broad, general, and practical coverage of fluid power components and their design, application, operation, and maintenance. You will learn hydraulics operation by studying manufacturers' service manuals as well as a prepared text. Lab projects will allow hands-on training. PREREQUISITE: 32070367 12 - Volt Electrical Circuits and COREQUISITE: 32070339 Mobile Hydraulics Theory.

32070366

Advanced Mobile Hydraulics - Credits: 5

This course provides an in-depth study on how the basic fluid power components are incorporated into a tractor hydraulic system. This lecture- and lab-based course includes demonstration and practice opportunities. If prerequisite courses have not been completed, student must have consent of instructor to enroll. PREREQUISITE: 32070367 12-Volt Electrical Circuits and COREQUISITES: 32070365 Mobile Hydraulics and 32070339 Mobile Hydraulics Theory.

32070367

12-Volt Electrical Circuits - Credits: 5

This course is designed to study the construction, operation and repair of electrical components and systems used in the agriculture/construction/heavy diesel truck field. Classroom activities will include reading and interpreting wiring diagrams, troubleshooting and repairing electrical circuits, and components (including performing repairs on alternators and starters). Computer based electrical circuits are introduced, with the opportunity to work with diagnostic laptops and scan tools. COREQUISITES: (32070370 12-Volt Electrical Theory and 32070371 Introduction to Live Repair) OR (32404376 DC Automotive Electrical and 32404377 Electrical Systems).

32070369

Mobile HVAC for Heavy Equipment - Credits: 1

Mobile HVAC for heavy equipment will teach the learner the basics of air conditioning systems. Air conditioning fundamentals will be learned along with proper servicing procedures and air conditioning equipment used. In depth study of air conditioning systems from older agriculture equipment will be looked at, along with study of new auto temperature control systems. EPA environmental laws pertaining to mobile air conditioning will be examined.

32070370

12-Volt Electrical Theory - Credits: 2

This course is designed for the learner to understand (12-volt) DC electricity. Classroom trainers along with lab exercises will be used to learn electrical theory. Students will also be introduced to electrical wiring schematic reading, wire harness construction and repair. PREREQUISITE: 32412301 Diesel Safety and Industry Practices.

32070371

Introduction to Live Repair - Credits: 3

This course is designed to familiarize students with the procedures involved in the repair of various types of equipment. Students will gain hands-on experience through the repair of agricultural equipment and over-the-road semi-trucks. The type of equipment varies and must meet the needs of the students and program. PREREQUISITE: 32412301 Diesel Safety and Industry Practices and COREQUISITE: 32070370 12-Volt Electrical Theory.

32412301

Diesel Safety and Industry Practices - Credits: 2

This course will introduce students to the safety and legal requirements and common shop practices of the diesel equipment industry. Personal safety as well as overall shop/job site safety will be emphasized while students learn to operate shop equipment and learn basic repair techniques common to all aspects of the diesel and heavy equipment industry. Skills learned in this course will be directly applied throughout the diesel equipment technician program.

32412309

Advanced Diesel Engine Controls and Emissions - Credits: 1

This course will provide a broad, general and practical coverage of electronic engine controls and multiple after treatment systems/emissions operations, components, and trouble shooting. Classroom and lab activities include comparing different engine systems and how they operate, identifying components and locations, and diagnosing problems. PREREQUISITE: 32070361 Diesel Engine Repair and 32070367 12-Volt Electrical Circuits

32442307

Welding for Mechanics - Credits: 2

Instruction in safe setup and operation of plasma cutting (PAC), oxy-fuel cutting (OFC), SMAW (Stick), GMAW (Mig), FCAW, and/or GTAW (Tig) welding in applications related to general industry practices. Selection of appropriate welding processes with a specific emphasis on typical repair situations including metal identification will be stressed.

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

Architecture is a combination of art, science and communication. The Architectural Commercial Design program emphasizes the science of construction knowledge and communicating that knowledge in drawings through an efficient use of building information modeling (BIM) and computer-aided design (CAD) programs.

Employers are impressed with Northwood Tech graduates' understanding of the entire building process, building connection details and programs like Revit and AutoCAD.

Special Feature

This program is unique in the state.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Architectural Commercial Design graduates will be able to:

- Develop construction documents
- Evaluate building materials
- Develop building designs
- Integrate building systems
- Use computer-aided drafting, building information modeling, and architectural related software
- Utilize office practices and standards
- Utilize the Enrolled Wisconsin Commercial Building Code incorporating the International Building Code (IBC)

Career Outlook

Typical positions available after graduation include:

- Architectural Technician
- BIM Technician
- CAD Technician
- Design Technician
- Store Planner

With additional experience, graduates may move into one of these positions:

- CAD Manager
- BIM Manager
- Project Manager
- Architect

Career Pathway

The Architectural Commercial Design program includes the following pathway option (page 222):

- Drafting Technician

Related Program

- Construction and Cabinetmaking

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10614129

Building Estimating - Credits: 3

This course introduces the student to the basic methods of building estimating and systems for doing quantity surveys. Emphasis is placed on developing the skills received in preparing the kinds of estimates commonly used in architecture and building construction. Practical exercises in developing estimates for wood frame and light commercial structure are included in the course of study. PREREQUISITE: 10614170 Architectural Materials and Methods 1.

10614165

Site Design - Credits: 3

The course focuses on the fundamental design issues of the building site with an introduction to land surveying and topography, land planning and zoning, and environmental regulations. The lab portion of the course provides an opportunity to develop site analysis and design skills through the development of an architectural commercial site design project. PREREQUISITE: 10614176 Architectural Technology 1.

10614170

Architectural Materials and Methods 1 - Credits: 3

This course introduces the student to the materials and methods used in wood frame construction. It familiarizes students with components of modern construction for the purpose of selecting the materials best suited to various construction jobs.

10614171

Architectural Materials and Methods 2 - Credits: 3

This course introduces the student to commercial building materials. Students draw connection details for concrete, steel, and masonry and combinations thereof. Commercial building code analysis and construction practices such as the design process, bidding, and construction administration are also covered. PREREQUISITES: 10614170 Architectural Materials and Methods 1.

10614172

Architectural Drafting and Design 1 - Credits: 4

This course introduces graphic representation in construction. It covers the fundamentals of drafting including line work, lettering, measuring, sketching, projections, and pictorial drawings. Students will use the aforementioned fundamentals to complete a set of drawings for a residence. COREQUISITES: 10614170 Architectural Materials and Methods 1 and 10614176 Architectural Technology 1.

10614173

Architectural Drafting and Design 2 - Credits: 4

This course introduces the student to the design principles needed for wood frame structures and incorporates the many aspects of building aesthetics and working drawings. The final assignment is to plan a set of drawings for a wood frame commercial building. PREREQUISITE: 10614172 Architectural Drafting and Design 1 and 10614176 Architectural Technology 1.

10614174

Architectural Drafting and Design 3 - Credits: 5

In this course the student learns the design principles needed for creating working drawings for multi-level commercial buildings. This course starts with units on accessibility and space planning. As the course progresses, students complete a set of construction documents while applying building codes and incorporating various structural building materials such as precast concrete, masonry, and steel. PREREQUISITES: 10614173 Architectural Drafting and Design 2 and 10614177 Architectural Technology 2 and COREQUISITE: 10614174 Architectural Materials and Methods 2.

10614175

Architectural Drafting and Design 4 - Credits: 5

This final semester course is designed to prepare the student for the challenges of working in an architectural office. The major portion of the course is finalizing a set of architectural working drawings for a commercial building. The course also includes architectural office orientation, specifications, architectural group projects, and commercial building planning considerations as well as several activities directed toward successful job-hunting skills. PREREQUISITE: 10614174 Architectural Drafting and Design 3.

10614176

Architectural Technology 1 - Credits: 3

AutoCAD and related architectural software is utilized to teach learners the fundamentals of architectural computer-aided drafting. Topics from CAD applications in architecture and the equipment required to do actual drafting, modifying, and plotting operations are covered.

10614177

Architectural Technology 2 - Credits: 2

This course is an introduction to the application of BIM software in architectural drafting. Students will apply Revit Architecture software to create a three-dimensional building model that allows for deliverables such as floor plans, building sections, exterior elevations, and schedules. The building model will include walls, openings, floors, stairs, roofs, foundations, and footings. Topics such as datum, annotation, modifying family types, and profiles will be covered. PREREQUISITE: 10614170 Architectural Materials and Methods 1.

10614178

Architectural Technology 3 - Credits: 3

This course builds upon students' prior experience from other courses in which Revit has been instrumental in developing projects. Students will spend part of their time learning advanced concepts in Revit such as creating and editing families, exploring interoperability, exploring 3D viewing options, and other advanced features. Throughout the course, students will also apply those concepts to a project of their choosing. PREREQUISITE: 10614177 Architectural Technology 2.

10614115

Architectural Internship - Credits: 3

Internship is designed to provide students with on-the-job experience in actual work situations. These experiences strengthen student competencies through participation in a wide variety of occupational experiences, ranging from routine assignments to specialized work-related duties. PREREQUISITES: Appropriate Program Courses and a minimum of one year successful associate degree program competencies and/or instructor approval.

10614179

Mechanical Systems - Credits: 3

This course introduces basic principles of plumbing and electrical systems along with heating, ventilating and air conditioning systems in building design and construction. These systems are studied in the context of the overall building design with emphasis on materials, equipment systems design, engineering principles, and sustainable design practices. PREREQUISITE: 10614172 Architectural Drafting and Design 1 and 10614176 Architectural Technology 1.

10614180

Structural Analysis and Design - Credits: 3

Basic concepts of design as applied to steel and timber beams and columns, as well as concrete bases, slabs, columns, and foundations are developed. Emphasis is on developing a sound conception of the related problems faced by the architect, contractor, construction superintendent, and distributors in planning and erecting buildings. PREREQUISITE: 10804196 Trigonometry with Applications.

Campuses: Rice Lake

Program Overview

The Architectural Woodworking & Cabinetmaking technical diploma will provide students with the knowledge and skills necessary to work in cabinet and /or furniture shops, furniture factories, display shops, and finish the interior of homes. Students will learn the fundamentals of cabinetmaking and furniture making along with installation and interior finish, print reading, math concepts, and CNC machine operation. Safety principles and the use of hand and power tools will also be covered.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Architectural Woodworking & Cabinetmaking graduates will be able to:

- Read blueprints
- Identify materials
- Set up machinery
- Operate saws, joiners, planers, shapers, sanders and other woodworking machinery
- Assemble parts

Career Outlook

Typical positions available after graduation include:

- Cabinet Installer
- Cabinetmaker
- Machine Operator
- Furniture Maker
- Interior Finish Carpenter

Career Pathway

The Architectural Woodworking & Cabinetmaking program is a pathway into the following program (page 227):

- Construction and Cabinetmaking

Related Program

- Architectural Commercial Design
- Drafting Technician

** See pages 38-41 for course descriptions.

Course Descriptions

32410300

Cabinet and Furniture Making 1 - Credits: 5

This is a lab/shop/theory application. This course covers the basics of cabinet and furniture construction. Fundamental machine operations and safety rules are taught. The students are required to construct, by approved machine methods, the common joints used in good construction. The study of wood and other materials, hand tools and bench work, shop drawing, design, and layout are a part of the basic course.

32410302

Cabinet and Furniture Making 2 - Credits: 5

This is a lab/shop applications course. The student will be involved in projects according to his/her abilities to provide practical application of the operations learned. COREQUISITE: 32410300 Cabinet and Furniture Making 1.

32410320

CNC Machine Operation - Credits: 2

This course introduces the student to the development and editing of CNC programs. The basic elements of CNC machine setup and operation are covered for the production of acceptable parts. Safety concerns are also addressed. PREREQUISITE: 32804325 Applied Technical Math 1.

32410334

Production Cabinetmaking - Credits: 5

This is a lab/shop/theory application course that focuses on finishing and fine tolerances of the cabinet making trade. This course will provide the skills needed for advanced production cabinetmaking, including materials cut lists, ordering, setting up machines for production cabinetmaking, assembly as well as production wood finishes. PREREQUISITE: 32410302 Cabinet and Furniture Making 2.

32410335

Interior Finish - Credits: 5

This is a lab/shop/theory application that deals with finishing and fine tolerances of the construction trade. Hands-on techniques of installing trim and molding, and designing and building cabinets are covered. PREREQUISITE: 32410302 Cabinet and Furniture Making 2 and COREQUISITE: 32410334 Production Cabinetmaking.

32410339

Print Reading for Building Construction - Credits: 2

This course provides instruction in reading and interpreting shop drawings, residential drawings, and commercial building plans. Emphasis is placed on building terminology and learning conventional techniques of communicating building methods from the designer to the builder. Students learn to visualize the structure and to interpret elevations, plan views, details, and sections from drawings. They also learn to read and interpret building specifications.

Automated Packaging Systems Technician

32-454-1 Technical Diploma (two-year)

Financial Aid Eligible

Campuses: New Richmond

Program Overview

The Automated Packaging Systems Technician program will give you the skills you need to enter a career in the packaging industry. You learn to service and repair a variety of packaging equipment and automated systems. This program emphasizes the maintenance and troubleshooting of electrical, mechanical, fluid power, robotics, and PLC (Programmable Logic Controller) components on packaging machines. Classroom and hands-on instruction on packaging machines plus visits to the packaging industry are all parts of the program. You may participate in the Institute of Packaging Professionals meetings each month as a member of the student chapter.

Program integrates advanced manufacturing (Industry 4.0) competencies to meet the regional need for skilled employees.

Special Features

This is a unique program in the state.

An outstanding feature of this program is experience working on actual automated packaging machinery. The packaging industry, both locally and nationally, provides support to the program by providing scholarships. Coursework will help prepare students to take PMMI and SACA exams for industry certification.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Review and sign the HOMES Grant Tuition Funding Payment Qualifying Form

Program Outcomes

Automated Packaging Systems Technician graduates will be able to:

- Demonstrate safe practices and techniques
- Install power transmission components, fluid power components, and automation components
- Maintain power transmission components, fluid power components, and automation components
- Troubleshoot power transmission components, fluid power components, and automation components
- Electrically connect automation and communication components
- Troubleshoot automated control systems
- Create electrical systems drawings and schematics for automated machines

Career Outlook

Typical positions available after graduation include:

- Field Service Technician
- Maintenance Technician
- Electromechanical Technician/Assembler

Career Pathway >

The Automated Packaging Systems Technician program includes the following pathway option (page 223):

- Mechatronics Basics

Related Program

- Automation for Industrial Systems
- Industrial Systems Specialist
- Industrial Maintenance Technician

TOTAL CREDITS

63 cr.

The Automated Packaging Systems Technician program is supported with funds from the WTCS Grant Funds (\$295,458)

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32150302

Applied IT Basics - Credits: 1

This course provides students with an introduction to basic Information Technology concepts. Students will learn to identify and describe basic PC hardware components. Students will also learn how to install and maintain an Operating System using software utilities. Students will learn the basic components of networks, how devices communicate on a network and how to add a device to an existing data network.

32414335

DC Electricity - Credits: 3

This course is an introduction to electricity. The focus will be on direct current as used in industry. You will learn the basics of series, parallel and combination circuits. You will develop skills in circuit analysis, and electrical measurement using a digital multimeter.

32414336

AC Electricity - Credits: 3

This course is an introduction to alternating current electricity as used in industry. You will study series and parallel alternating current circuits that contain inductance and capacitance, as well as, single and three phase transformers, direct current, single phase and three phase motors. PREREQUISITE: 32414335 DC Electricity.

32414380

Advanced PLC - Credits: 3

This course will provide a foundation for working with microprocessor controls. Students will learn the theory and application of electrical principles as they are applied to control systems found in industry. The learner will use trainers and machine components to provide recognition and understanding of modern microprocessor-based control systems. PREREQUISITE: 32454345 Packaging Systems Equipment Control.

32420314

Basic Machine Shop - Credits: 3

This lab-based course will provide instruction in shop safety, measuring, print reading, and basic setup and operation of saws, mills, and lathes.

32442307

Welding for Mechanics - Credits: 2

Instruction in safe setup and operation of plasma cutting (PAC), oxy-fuel cutting (OFC), SMAW (Stick), GMAW (Mig), FCAW, and/or GTAW (Tig) welding in applications related to general industry practices. Selection of appropriate welding processes with a specific emphasis on typical repair situations including metal identification will be stressed.

32454340

Packaging Machine Maintenance - Credits: 3

You will learn to research and locate suppliers for mechanical, electrical, pneumatic and automation components that are required to maintain and repair equipment. You will learn to read machine electrical diagrams and trace control circuits using a digital multimeter.

32454341

Fluid Power Systems - Credits: 3

This course develops the skills required for the implementation of vacuum, air, and oil used to transmit force for performing useful functions on machines. Students will apply symbols to components and connect components to understand the assembly, operation, and maintenance of fluid power systems. The transmission of force is used in a variety of applications and can be hazardous to individuals who do not understand the related laws of physics.

32454343

Packaging Machine Rebuilding - Credits: 5

The student will learn to plan, organize, and perform various tasks for the repair of packaging machines. Individuals and groups will disassemble mechanical components on packaging equipment simulating the work environment. Rebuilding and repairing machines gives students the opportunity to develop mechanical skill and see the potential problems that may require maintenance on packaging machinery. PREREQUISITE: 32454347 Electromechanical Componentry.

32454344

Schematics, Prints, and Layouts - Credits: 2

This course covers an introduction and use of engineering drawings used to represent machines components. Students will draw sketches and develop interpretation skills required for the correct translation of machine drawings. Students will sketch electrical and control systems symbols that are used in electrical diagrams. COREQUISITE: 32454340 Packaging Machine Maintenance.

32454345

Packaging Systems Equipment Control - Credits: 3

This course gives the students the opportunity to perform the selection, design, installation, and operation of control systems found on automated packaging machines. The student will work with many types of components to gain recognition and skill development in the correct installation of electrical control systems. The modern control system requires specialized skills that are useful for understanding high technology applications such as robotics and climate control. PREREQUISITE: 32414335 DC Electricity.

32454347

Electromechanical Componentry - Credits: 4

This course will develop an understanding of the skills necessary for the application of electromechanical components used in machine control systems. You will have the opportunity to simulate a control system by wiring and testing circuits that use control system devices. PREREQUISITE: 32454345 Packaging Systems Equipment Control.

32454348

Troubleshooting - Credits: 2

The learner will develop the skills necessary for troubleshooting by analyzing the process of problem solving. You will perform troubleshooting procedures on components, machines, and systems. You will learn to think critically as an individual and as a member of a team. Prior knowledge of machine controls is required. PREREQUISITE: 32454347 Electromechanical Componentry.

32454349

Installation of Packaging Machines - Credits: 5

The learner will develop skills necessary to plan, install, and perform system checkouts. You will develop a schedule to simulate a machine installation, provide operator training, and develop a team approach to the installation. A variety of packaging machines will be used for the installation projects. A successful installation requires proper planning, teamwork, and the ability to analyze the machine's performance. PREREQUISITE: 32454347 Electromechanical Componentry.

32454357

Power Transmission Componentry - Credits: 2

The learner will develop skills necessary to install, maintain, and repair mechanical drive system components. The learner will use machine components to develop skills for installing and repairing defective mechanical drive systems. The correct installation and maintenance is required for trouble-free operation. COREQUISITE: 32454345 Packaging Systems Equipment and Control.

32454359

Packaging Materials/Processes - Credits: 2

You will learn about glass, metal, paper and plastic materials that are used in the packaging industry. Each material has special properties that provide benefits for packaging various products. You will learn about the processes that are used to create these materials as they are used in the packaging industry. PREREQUISITE: 32454347 Electromechanical Componentry.

32454362

Processes of Manufacturing - Packaging - Credits: 2

You will learn how to select materials, fabricate parts, and perform quality assurance used in a manufacturing environment. Students will perform a variety of tasks to develop skills necessary for the manufacturing of components. Manufacturing is a fast-paced, highly technical, and globally competitive industry that requires a basic understanding of manufacturing principles.

32454364

Motion Controls - Credits: 2

The student will learn the application of motion controllers used in industry that accurately control position or speed. The student will select the correct motion controller from application requirements as used in industry. Performance will include the installation, connection, configuring, and troubleshooting of basic motion controllers. PREREQUISITES: 32414380 Advanced PLC and 32454347 Electromechanical Componentry.

32454366

Introduction to Robotics - Credits: 2

This course presents an overview of robotics in practice and research with topics including vision, motion planning, mobile mechanisms, kinematics, inverse kinematics, and sensors. PREREQUISITES: 32414335 DC Electricity and 32414336 AC Electricity.

Campus: New Richmond

Program Overview

Process and manufacturing plants employ technicians to keep their machines and processing running, and install and maintain equipment. In this two-year associate degree program, you will be prepared to be employed at the technician level or higher on computers, industrial computer networks, programmable logic controllers (PLCs), and process instruments. You will have both classroom and hands-on laboratory instruction with several systems to gain an understanding of computer and PLC interfacing, control systems, network installation and network administration.

Program integrates advanced manufacturing (Industry 4.0) competencies to meet the regional need for skilled employees.

Special Features

This is a unique program in the state.

Students in the Automation for Industrial Systems program have the opportunity to dual major with the IT-Cybersecurity Specialist or IT-Systems Administration Specialist programs by completing additional coursework (see pages 139-142 for more information on these programs).

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Automation for Industrial Systems graduates will be able to:

- Support basic computer networks
- Support client systems
- Utilize network operating systems
- Apply basic IT security principles
- Demonstrate safe practices and techniques
- Perform installations of controls hardware/software/cabling
- Perform installations and supportive functions for LAN/communication busses
- Perform programming and configuration of Programmable Logic Controllers (PLCs) and Distributed Control Systems (DCSs)
- Integrate control systems
- Troubleshoot hardware/software of PLCs, instrumentation, and control systems
- Develop system documentation

Career Outlook

Typical positions available after graduation include:

- Control Systems Technician
- Instrument Technician
- Programmable Logic Controller (PLC) Technician
- Industrial Automation Technician
- Computer Technician
- Network Technician
- Controls Engineer
- Automation Engineer

Career Pathways

The Automation for Industrial Systems program includes the following pathway options (page 224):

- Industrial Systems Specialist
- IT - Network Technician

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10150111	Cisco CCNA 1 Introduction to Networks*	3 cr.
10150113	Cisco CCNA 2 Routing and Switching Essentials*	3 cr.
10150117	Server Administration 1*	3 cr.
10150139	IT Essentials and Security	2 cr.
10150170	Coding with Python	2 cr.
10154103	Linux Operating Systems*	3 cr.
10154149	Windows Operating Systems*	3 cr.
10605167	Electricity 1*	2 cr.
10605168	Electricity 2*	2 cr.
10631100	Introduction to Process Control	2 cr.
10631102	Industrial Power Electronics*	2 cr.
10631103	Process Control and Instrumentation*	3 cr.
10631104	Smart Instruments*	2 cr.
10631105	Industrial Networks and Communication Busses*	2 cr.
10631106	Supervisory and Distributed Control Systems*	3 cr.
10631107	Industrial Automation Case Project*	1 cr.
10631108	PLC Programming and Interfacing*	3 cr.
10631109	Industrial AC, Motor Control, and Pilot Devices*	3 cr.
10631110	Advanced PLC Programming and Interfacing*	3 cr.
Program Courses Total		47 cr.
General Education Courses**		
10801136	English Composition I	3 cr.
10801196	Oral/Interpersonal Communication or	
10801198	Speech	3 cr.
10804113	College Technical Mathematics 1A	3 cr.
10804114	College Technical Mathematics 1B*	2 cr.
10809166	Introduction to Ethics: Theory and Application or	
10809172	Introduction to Diversity Studies or	
10809195	Economics	3 cr.
10809198	Introduction to Psychology	3 cr.
General Education Courses Total		17 cr.
TOTAL CREDITS		64 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10150111

Cisco CCNA 1 Introduction to Networks - Credits: 3
Cisco CCNA 1 Introduction to Networks (ITN) covers networking architecture, structure, and functions. The course introduces IPv4 and IPv6 addressing structure and design, the fundamentals of Ethernet concepts, media, and operations, the OSI and TCP/IP models and associated protocols to set a strong networking foundation. Wireshark is used to examine protocols on the network. Students configure and troubleshoot routers (IOS), switches and clients for a basic network.

10150113

Cisco CCNA 2 Routing and Switching Essentials - Credits: 3
Cisco CCNA 2 Routing and Switching Essentials (RSE) covers the architecture, components, and operations of routers and switches in a small network. Students learn how to configure, device management, switch ports, security, VLANs, Static and Dynamic routing, DHCP (v4 and v6), NAT and ACLs on routers and switches. At the completion of this course student may achieve a discount voucher for the CCENT certification exam. PREREQUISITE: 10150111 Cisco CCNA 1 Introduction to Networks.

10150117

Server Administration 1 - Credits: 3
This course provides students with the fundamental technologies needed to administer a Windows domain. Students will learn how to manage domain resources including users, workstations, servers and shared folders using Active Directory, role management, Server Manager and RSAT. Students will learn how to secure these domain resources using Group Policy, NTFS and file share permissions. Students will also learn how to use the Domain Naming System (DNS), an integral part of Windows domain environments. PREREQUISITE: 10154149 Windows Operating Systems.

10150139

IT Essentials and Security - Credits: 2
The IT Essentials and Security (ITES) course introduces students to the fundamentals of computer hardware and software, mobile devices, security and networking concepts, and the responsibilities of an IT professional. The latest release includes mobile devices, Linux, and client side virtualization, as well as expanded information about Microsoft Windows operating systems, security, networking, and troubleshooting. This course covers materials on the CompTia A+ certification exam.

10150170

Coding with Python - Credits: 2
This course introduces Python for network engineering. It begins with basic programming topics such as variables, lists, decisions, loops and I/O. Using this knowledge the course teaches students how to automate the configuration of networking equipment. This course also introduces the "Internet of Things" (IoT) and how to use Python to program IoT devices.

10154103

Linux Operating Systems - Credits: 3
In this course the Linux operating system is examined in-depth with emphasis on features, capabilities, tools, and configurations including an introduction to network configurations. PREREQUISITE: 10154149 Windows Operating Systems

10154149

Windows Operating Systems - Credits: 3
A review of the most common command line operations and study of more advanced commands necessary to configure the Windows operating system for a variety of environments. Topics to be studied include creating directories, batch files, menus, custom configurations, file management, multitasking, windowing, security, and disk management utilities. There will be an introduction to usage, configuration, and tools of the Windows operating system.

10605167

Electricity 1 - Credits: 2
Electricity 1 is a lecture/hands-on course designed to introduce students to basic electrical terminology, laws, concepts, instrumentation, and application. Hands-on activities will be stressed to reinforce electrical concepts related to practical applications dealing with computer networks. Topics covered will include electrical safety, terminology and symbols, electrical laws, basic circuits, multimeter use, DC power supplies, and troubleshooting. Critical-thinking skills are emphasized to develop competencies in problem solving and troubleshooting. COREQUISITE: 10804113 College Technical Mathematics 1A or 10804115 College Technical Math 1.

10605168

Electricity 2 - Credits: 2
This course is designed to introduce students to the basic concepts of alternating current. Emphasis is placed on circuit analysis and problem-solving skills necessary for the maintenance of modern industrial electric systems. PREREQUISITE: 10605167 Electricity 1.

10631100

Introduction to Process Control - Credits: 2
The Introduction to Process Control course explains the function of basic devices for measuring and controlling different kinds of variables in process control. It introduces closed-loop control, PID functions, analog and digital devices, and control system applications. It also covers instrumentation symbols and the interpretation and use of process diagrams.

10631102

Industrial Power Electronics - Credits: 2
The Industrial Power Electronics course is a hands-on course dealing with the electronics that are used to control, power, and operate machines and processes in the modern manufacturing plant. The course includes the study and use of the oscilloscope and digital multimeter, thyristors, ICs, and AC, DC, stepper and servo motor drive systems. PREREQUISITE: 10605167 Electricity 1 or equivalent.

10631103

Process Control and Instrumentation - Credits: 3
The Process Control and Instrumentation course offers hands-on skill exercises on controlling and manipulating temperature, pressure, flow, and level in the manufacturing process. Students will be able to identify, connect, operate, troubleshoot, and perform preventive maintenance on the components that form a process control system. PREREQUISITE: 10605167 Electricity 1 or equivalent and COREQUISITE: 10631100 Introduction to Process Control.

10631104

Smart Instruments - Credits: 2
The Smart Instruments course introduces students to smart instruments including temperature devices, pressure devices, and smart control valves. Students will be able to calibrate, configure, and troubleshoot smart devices. Students will be able to identify appropriate applications for smart instruments. PREREQUISITE: 10631100 Introduction to Process Control or equivalent.

10631105

Industrial Networks and Communication Buses - Credits: 2
This course introduces networks, communication buses, and protocols used in industrial applications. Students will be able to discuss strengths and weaknesses of each communications solution and pick the most appropriate for given applications. COREQUISITE: 10631110 Advanced PLC Programming and Interfacing

10631106

Supervisory and Distributed Control Systems - Credits: 3
This course will provide an overview exposure to networked distributed control systems and data acquisition systems. Included are PLCs, data acquisition systems, Single Loop Controllers, Smart Devices, and Distributed Control Systems. Students will connect, configure, and operate a simulated process that includes the elements of distributed control and data acquisition systems. PREREQUISITES: 10631100 Introduction to Process Control and 10631108 PLC Programming and Interfacing or equivalent.

10631107

Industrial Automation Case Project - Credits: 1
The primary focus of this course is to have the students receive exposure and experience with an industrial process control or manufacturing automation system. Students will complete a project or research dealing with an existing process in an area industry or complete an advanced project in the lab dealing with applications of industrial networks, sensors, control, and data acquisition. PREREQUISITES: 10631100 Introduction to Process Control; 10631102 Industrial Power Electronics; 10631103 Process Control and Instrumentation; 10631108 PLC Programming and Interfacing; and 10631109 Industrial AC, Motor Control, and Pilot Devices.

10631108

PLC Programming and Interfacing - Credits: 3
PLC Programming and Interfacing offers students a hands-on approach to implementing industrial control by integrating typical plant floor electrical components with microprocessor-based controllers. Students will learn to identify and connect field inputs and outputs; communicate with, and program microprocessor-based controllers. Students will also connect, communicate with, and develop displays for computer-based operator interfaces. PREREQUISITE: 10605167 Electricity 1.

10631109

Industrial AC, Motor Control, and Pilot Devices - Credits: 3
This course gives students the opportunity to learn about AC theory, circuits, and control devices used in industry. The course begins with an overview of AC theory including resistance, inductance, and capacitance. The course includes topics on AC and DC motors, motor controls, and pilot devices. The student will engage in hands-on activities with real industrial components to enable them to recognize, select, apply, and troubleshoot industrial electrical control circuit components. PREREQUISITE: 10605168 Electricity 2 or equivalent.

10631110

Advanced PLC Programming and Interfacing - Credits: 3
Advanced PLC offers students a hands-on approach to implementing industrial control using modern controllers to implement programs that utilize advanced functions. Students will complete hands-on activities with Allen Bradley ControlLogix PLCs. The course will examine the use of basic instructions and addressing with RSLogix 5000 as well as more advanced PLC instructions in Ladder Logic and Function Block. Other topics include PLC configuration and commissioning, communications with RSLinx, OPC, and RSNetwork, HMI configuration using PanelView, Wonderware and/or RView. PREREQUISITE: 10631108 PLC Programming and Interfacing.

Automotive Service Technician

31-404-2 Technical Diploma (one-year)

Financial Aid Eligible

Campus: Superior

Program Overview

The nine-month program is designed to provide you with skills necessary for entry-level automotive industry positions. You will learn automotive maintenance, repair and diagnosis. As an Automotive Service Technician, you may work on a variety of cars and light trucks or specialize in specific automobile brands or types, depending on your place of employment. A career in automotive service and repair offers a variety in day-to-day work, along with the sense of a job well done when returning a repaired vehicle to its owner.

Special Feature

Automotive Service Technician is accredited by the National Institute for Automotive Service Excellence (ASE) Education Foundation.

ASE Education Foundation evaluates each program's structure, resources and quality of automotive service training. They review this against standards established by industry experts and offer ASE accreditation to programs that meet high quality requirements.

Learn more at www.aseeducationfoundation.org

Education Foundation

Automotive Service Technician is nationally certified through the ASE Education Foundation and the National Coalition of Certification Centers (NC3). NC3 is a value-driven organization and the future model for Career and Technical Education, creating highly-skilled, job-ready professionals through a growing network of educational partners and global industry leaders.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Automotive Service Technician graduates will be able to:

- Demonstrate professionalism appropriate for the auto service industry
- Perform maintenance and light repair of automotive brake systems
- Perform maintenance and light repair of automotive electrical & electronic systems
- Perform maintenance and light repair of automotive steering and suspension systems

Career Outlook

Typical positions available after graduation include:

- Automotive Service Technician
- Drivability Technician
- Brake Technician
- Suspension and Alignment Technician
- Quick Service Technician
- Lube Technician
- Auto Service Writer
- Automotive Parts Technician

Career Pathways

The Automotive Service Technician program includes the following pathway option (page 225):

- Automotive Maintenance & Light Repair Technician

Automotive Service Technician is also a pathway into the following program:

- Automotive Technician

Required Courses are Pending WTCS Approval.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32404351

Automotive Fundamentals - Credits: 3

This course is an introduction to the automotive field. Career opportunities together with employer expectations will be discussed. Students will begin to use required safety practices for both general lab activities and when operating equipment. Vehicle maintenance inspections together with light repairs will take place.

32404352

Engine Repair - Credits: 3

This course is designed to provide the student with the skills needed to diagnose, service, and repair internal combustion engines found on late model vehicles. Emphasis is placed on in-vehicle systems repairs including: lubrication systems, leak diagnosis and repair, engine noise & failure diagnosis, and intake systems. COREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404376

DC Automotive Electrical - Credits: 2

This course will introduce students to Ohm's law, electrical fundamentals, magnetism, and series and parallel circuits. Further studies will include automobile wiring diagrams, electrical test equipment, and basic troubleshooting. COREQUISITE: 32404351 Automotive Fundamentals.

32404377

Electrical Systems - Credits: 3

This course introduces battery, starting, and charging systems; theory of operation; diagnostic techniques; and servicing procedures. This course also includes exterior lighting systems; diagnostics and repair procedures. Wiring diagrams will be used and emphasized throughout the course. COREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404379

Suspension and Alignment - Credits: 3

This course introduces steering system types, suspension geometry, troubleshooting procedures, and repair of suspensions including both two- and four-wheel alignments. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404380

Automotive Brake Systems - Credits: 3

This course introduces students to automotive braking systems, troubleshooting procedures, and repair of brake systems to include manual, power, and anti-lock types. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404381

Engine Performance - Credits: 3

This course is designed to develop the skills needed to diagnose, service, and repair powertrain control, fuel and ignition systems. Emphasis is placed on diagnostic procedures and the problem-solving techniques associated with automotive engine performance and drivability. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404382

Body Electrical Systems - Credits: 3

This course is an introduction to automotive body electrical systems. Students will learn about various body electrical components and how to diagnose and repair body electrical systems. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404385

Air Conditioning and Heating Systems - Credits: 3

This course introduces automotive air conditioning and heating systems. Theory of operation, diagnostic techniques, and servicing of heating and air conditioning systems will be covered. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

Automotive Technician

32-404-2 Technical Diploma (two-year)

Financial Aid Eligible

Campus: Rice Lake

Program Overview

With an emphasis on hands-on experience, in the Automotive Technician program you'll learn essential service techniques including testing, repairing and rebuilding of basic automotive systems. Coursework will prepare you to diagnose and repair concerns in engines, drivetrains, brakes, electrical systems, steering, suspension, transmission systems as well as basic diesel, hybrid and alternative systems.

Special Feature

Automotive Technician is accredited by the National Institute for Automotive Service Excellence (ASE) Education Foundation.

ASE evaluates each program's structure, resources and quality of automotive service training. They review this against standards established by industry experts and offer ASE accreditation to programs that meet high quality requirements.

Program Outcomes

Automotive Technician graduates will be able to:

- Demonstrate professionalism appropriate for the auto service industry
- Perform diagnosis, service, and repair of automotive internal combustion engines
- Perform diagnosis, service, and repair of automotive automatic transmission/transaxle systems
- Perform diagnosis, service, and repair of automotive manual drive train and axles systems
- Perform diagnosis, service, and repair of automotive steering and suspension systems
- Perform diagnosis, service, and repair of automotive brake systems
- Perform diagnosis, service, and repair of automotive electrical & electronic systems
- Perform diagnosis, service, and repair of automotive heating and air conditioning systems
- Perform diagnosis, service, and repair of automotive engine performance systems

Career Outlook

Typical positions available after graduation include:

- Brake Technician
- Air Conditioning Technician
- Auto Transmission Technician
- Automotive Electrical Technician
- Service Writer
- Drive Train Technician
- Suspension and Alignment Technician
- Drivability Technician
- Automotive Technician

Potential careers available with further education include:

- Automotive Service Center Manager
- Automotive Engineer
- Automotive Engineering Technician

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32404351

Automotive Fundamentals - Credits: 3

This course is an introduction to the automotive field. Career opportunities together with employer expectations will be discussed. Students will begin to use required safety practices for both general lab activities and when operating equipment. Vehicle maintenance inspections together with light repairs will take place.

32404352

Engine Repair - Credits: 3

This course is designed to provide the student with the skills needed to diagnose, service, and repair internal combustion engines found on late model vehicles. Emphasis is placed on in-vehicle systems repairs including: lubrication systems, leak diagnosis and repair, engine noise & failure diagnosis, and intake systems. COREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404376

DC Automotive Electrical - Credits: 2

This course will introduce students to Ohm's law, electrical fundamentals, magnetism, and series and parallel circuits. Further studies will include automobile wiring diagrams, electrical test equipment, and basic troubleshooting. COREQUISITE: 32404351 Automotive Fundamentals.

32404377

Electrical Systems - Credits: 3

This course introduces battery, starting, and charging systems; theory of operation; diagnostic techniques; and servicing procedures. This course also includes exterior lighting systems; diagnostics and repair procedures. Wiring diagrams will be used and emphasized throughout the course. COREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404379

Suspension and Alignment - Credits: 3

This course introduces steering system types, suspension geometry, troubleshooting procedures, and repair of suspensions including both two- and four-wheel alignments. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404380

Automotive Brake Systems - Credits: 3

This course introduces students to automotive braking systems, troubleshooting procedures, and repair of brake systems to include manual, power, and anti-lock types. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404381

Engine Performance - Credits: 3

This course is designed to develop the skills needed to diagnose, service, and repair powertrain control, fuel and ignition systems. Emphasis is placed on diagnostic procedures and the problem-solving techniques associated with automotive engine performance and drivability. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404382

Body Electrical Systems - Credits: 3

This course is an introduction to automotive body electrical systems. Students will learn about various body electrical components and how to diagnose and repair body electrical systems. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404383

Automatic Transmissions - Credits: 4

This course includes the principles of construction and operation of automatic transmissions and transaxles. Diagnosis and repair of front-, rear-, and four-wheel drive transmissions will be covered. PREREQUISITE: 32404351 Automotive Fundamentals.

32404385

Air Conditioning and Heating Systems - Credits: 3

This course introduces automotive air conditioning and heating systems. Theory of operation, diagnostic techniques, and servicing of heating and air conditioning systems will be covered. PREREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32404387

Advanced Engine Repair - Credits: 4

Focuses on developing the skills needed to diagnose, service, and repair internal combustion engines. Emphasis is placed on out-of-vehicle engine repair including overhaul procedures. Variable valve timing and cylinder deactivation systems will be included in this course. PREREQUISITE: 32404352 Engine Repair.

32404388

Intro to Diesels and Hybrids - Credits: 2

This course introduces students to the service of the diesel fuel systems used in pickup trucks and automobiles. It will explore the history of hybrid-electric and electric vehicles, safety concerns, maintenance, equipment and troubleshooting procedures related to these vehicles. This course will also explore some of the current and future alternative fueled vehicle configurations. COREQUISITES: 32404376 DC Automotive Electrical and 32404377 Electrical Systems.

32404390

Manual Drive Trains - Credits: 4

This course introduces the operation and repair of manual transmissions, transaxles, drivelines, differential assemblies, and transfer cases. PREREQUISITE: 32404351 Automobile Fundamentals.

32404391

Advanced Body Electrical Systems - Credits: 4

Expands on learner's skills in diagnosing and repairing electrical and electronic systems. Emphasizing their knowledge of proper diagnostic routines, learners performs and evaluates testing and repairs on electrical and electronic accessories, controls, and sensors related to body electrical systems. Can and Bus networking systems will also be part of this course. PREREQUISITE: 32404382 Body Electrical System.

32404392

Advanced Engine Performance - Credits: 4

This course provides students with hands-on practical experience in powertrain diagnosis. This course builds on basic skills and system theory gained in previous courses. PREREQUISITE: 32404381 Engine Performance.

32442307

Welding for Mechanics - Credits: 2

Instruction in safe setup and operation of plasma cutting (PAC), oxy-fuel cutting (OFC), SMAW (Stick), GMAW (Mig), FCAW, and/or GTAW (Tig) welding in applications related to general industry practices. Selection of appropriate welding processes with a specific emphasis on typical repair situations including metal identification will be stressed.

Billing and Posting Clerk

30-101-4 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

When you complete this program you'll be able to use accounting and office software and perform a variety of tasks including basic accounting entry and payroll.

Admission Requirement

- Complete Online application form

Program Outcomes

Billing and Posting Clerk graduates will be able to:

- Process financial transactions throughout the accounting cycle
- Process payroll

Career Outlook

Typical positions available after graduation include:

- Payroll Assistant
- Payroll Clerk
- Accounts Payable Clerk
- Accounts Receivable Clerk
- Bookkeeper
- Accounting Technician

After you complete the Billing and Posting Clerk technical diploma, continue your education at Northwood Tech to earn the Accounting associate degree. Northwood Tech has articulation agreements with a variety of four-year universities. Some graduates may also choose to pursue professional certifications.

Career Pathways

The Billing and Posting Clerk is a pathway into the following programs (page 220):

- Accounting
- Accounting Assistant

Related Program

- Tax Preparer Assistant

You must earn a grade point of 2.0 or better in all required (10101XXX) courses.

Course Descriptions

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10101124

Payroll Systems and Accounting - Credits: 3

Study of state and federal laws affecting payroll -- Fair Labor Standards Act, Federal and State Unemployment Acts, Federal Insurance Contributions Act, Federal and State Withholding Tax Acts, payroll accounting procedures, and systems design. COREQUISITE: 10101101 Financial Accounting 1.

10101174

QuickBooks Accounting - Beginning - Credits: 2

Students will learn the QuickBooks accounting software by performing tasks that involve the general ledger, accounts payable, accounts receivable, inventory, payroll, and financial statements. Students will be responsible for finding and correcting errors in the QuickBooks program. PREREQUISITE: 10101101 Financial Accounting 1 or

10101176 Financial Accounting 1A.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate

formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

Broadband Service Technician Apprentice

50-451-3 Apprenticeship

Campus: Online

Program Overview

The Broadband Service Technician assists with onsite installations, troubleshooting, repairs and maintenance of telecommunication products and equipment that broadband providers sell and lease. The technician will have direct, face-to-face contact with customers and is expected to be proactive with the sale of services and products. Services include, but are not limited to, Telephony, Video/CATV/DBS, Internet, WiFi and/or high-speed networks. Technicians will exceed customer expectations by performing extraordinary customer service by identifying customer needs and providing them with communication solutions. Products and services include, but are not limited to, Local Services, Central Office Services, Structured Cabling, MAC (Moves, Adds and Changes), Voicemail, Audio and/or Video Conferencing and non-regulated CPE.

Special Features

- 12-month training program
- 2,000 hours on-the-job training
- 144 hours of paid related instruction
- Wage scale of apprentice systematically increases throughout the apprenticeship
- The 47455401 Transition to Trainer course (8 hours) is required for completion. Will be taken in the last semester of the apprenticeship.
- This is a unique apprenticeship in the state.

For more details on apprenticeships, please refer to page 28

Qualifications Required by the Bureau of Apprenticeship Standards

- A high school graduate or equivalency and must be able to furnish record of schooling and grades obtained.
- Not less than 17 years of age and must be able to furnish proof of age.
- Physically able to perform the work of the occupation with reasonable accommodations and without hazard to themselves or others.

Course Descriptions

10104198

Managing Human Resources - Credits: 3

Introduces the functions of Human Resource Management in the legal and social context of today's dynamic business environment. Topics include human resource development, employee selection, performance, appraisal, compensation, training, labor relations, affirmative action, and career management.

10116100

Human Resource Management - Credits: 3

In Human Resource Management, the learner applies the skills and tools necessary to effectively value and apply employees' abilities and needs to organization goals. Each learner will demonstrate the application of the supervisor's role in contemporary human resources management, impacts of EEOC, writing job descriptions, recruitment, selection, conducting job interviews, orientation, developing policies and procedures, training, performance management, employee counseling and development, and effective use of compensation and benefit strategies. It is recommended that the learner have experience using a PC/MAC, using the MS Windows operating systems and software suite, browsing Web pages, downloading files, using e-mail, and exchanging files prior to enrolling in this course.

10105100

Introduction to Business - Credits: 3

This is an introductory course designed to develop an understanding of the activities, functions, and principles of business enterprises. The course helps to gain insight into the responsibilities and challenges of operating a business. Emphasis is on the interaction of the various functions required to operate businesses of all sizes. Specifically, the areas of business trends, ownership models, leadership, human resources, marketing, information management, and finance will be explored.

10105125

Business Law - Credits: 3

Business Law provides the student with a working knowledge of the legal system, business ethics, and essentials of contracts. Students gain knowledge in logical and analytical thinking, and are encouraged to challenge legal issues and defend their point of view.

10145101

Entrepreneurship - Credits: 3

This course is designed to develop the planning, organizing, financing, and management functions needed to start a small business. Included are research methods and identification of the resources to create, develop, and implement solutions to problems. Students will also develop appropriate strategies to initiate or maintain a small business.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

Business Graphics

17-106-6 Technical Certificate

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

*Combination of Online, Your Choice or On Site instruction.

Program Overview

Learn the Adobe Creative Suite basics to create graphic based designs for your organization or update projects in place. Students will learn Photoshop, Desktop Publishing, and Web & Social Media skills to engage and attract customers via many marketing platforms and strategies. Numerous social media platforms, website builders, and design-based apps are introduced and used in the creative process while working on project-based designs.

Admission Requirements

- Complete Online application form

Program Outcomes

The Business Graphics Certificate will prepare you to:

- Exhibit visual and creative thinking
- Exhibit conceptual skills
- Complete projects (such as brochures, mailers, business cards, and prepared print media) in a professional and timely manner

Career Outlook

After completing this certificate you will be ready to create, design, and edit business graphics and be employed or assist in such fields as:

- Marketing
- Publication
- Advertising
- Web Design
- Administration
- Office Support
- Management
- Accounting/Finance

Related Programs

- Administrative Coordinator
- Office Support Specialist
- Microsoft Office
- Office Technology Assistant

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10103156	Adobe Photoshop	2 cr.
10106127	Desktop Publishing	2 cr.
10106129	Web and Social Media Technologies	3 cr.
10106147	Advanced Graphics Applications*	3 cr.
TOTAL CREDITS		10 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Course Descriptions

10103156

Adobe Photoshop - Credits: 2

Students will become skilled in using the Adobe Photoshop image-editing software package. Students will create and modify graphic images using various tools and techniques. They will learn to create original artwork, manipulate images, and create images for the Web and retouch photographs.

10106127

Desktop Publishing - Credits: 2

Preparation of professional-looking documents using desktop publishing software or word processing software with desktop publishing capabilities.

10106129

Web and Social Media Technologies - Credits: 3

This course presents the foundational skills necessary to function in a web and social media platform. Students will create a web site using effective web page design concepts including text, graphics, hypertext links, tables, forms, layers, and templates. This course will also introduce students to a broad spectrum of concepts and issues associated with E-Business, cloud based systems and Social Media from marketing to network security to customer service. A general knowledge of working in a Windows environment and keyboarding skills are recommended.

10106147

Advanced Graphics Applications - Credits: 3

Advanced Graphics Applications further enhances the skills students obtained in Adobe Photoshop, vector based illustrations, and desktop publishing software at a more advanced level. Students will also be given independent projects in real-world situations where they can use their creativity, review layout and design principles, utilize their web design experience, and develop their customer service skills. The community independent project will be presented for final approval. The final project will be to create a professional portfolio of their work in electronic form. COREQUISITES: 10103156 Adobe Photoshop, 10106127 Desktop Publishing, and 10106129 Web and Social Media Technologies.

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*

Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10104102

Marketing Principles - Credits: 3

This course focuses on the marketing process as it relates to the operation of a business enterprise. The intent is to provide students with an understanding of how the marketing function fits within the overall structure of the organization. Special attention is given to the role and significance of evaluating customer needs, pricing, distribution, and promotion of products and services.

10104180

Business & Marketing Field Study - Credits: 2

This course will allow the student to analyze what specific occupational field(s) they are best suited for. Included will be an in-depth self-analysis, simulated job application and interviews, a career research report, and work-based experience(s). PREREQUISITE: Minimum of 36 credits of program coursework must be completed prior to enrolling in this course.

10105100

Introduction to Business - Credits: 3

This is an introductory course designed to develop an understanding of the activities, functions, and principles of business enterprises. The course helps to gain insight into the responsibilities and challenges of operating a business. Emphasis is on the interaction of the various functions required to operate businesses of all sizes. Specifically, the areas of business trends, ownership models, leadership, human resources, marketing, information management, and finance will be explored.

10105125

Business Law - Credits: 3

Business Law provides the student with a working knowledge of the legal system, business ethics, and essentials of contracts. Students gain knowledge in logical and analytical thinking, and are encouraged to challenge legal issues and defend their point of view.

10114107

Principles of Finance - Credits: 3

The Principles of Finance course concentrates its study on the financial management of business. Students analyze profitability, cash flow, long-term investment decisions, long-term financing decisions, short-term working capital management, mergers, acquisitions, and business failure.

10104191

Customer Service Management - Credits: 3

This course equips learners to selectively hire, train, manage, and measure customer service providers as well as strategies to recover from difficult service situations. Topics include telephone/online etiquette, active listening and problem solving. Best practices in handling complaints, controlling stress and managing customer expectations will be explored. An examination of internal systems and policies that impact service to include customer relationship management software will be explored. This course is designed to help managers and supervisors of customer service representatives to increase customer satisfaction, loyalty and profitability.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

10101174

QuickBooks Accounting - Beginning - Credits: 2

Students will learn the QuickBooks accounting software by performing tasks that involve the general ledger, accounts payable, accounts receivable, inventory, payroll, and financial statements. Students will be responsible for finding and correcting errors in the QuickBooks program. PREREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10116100

Human Resource Management - Credits: 3

In Human Resource Management, the learner applies the skills and tools necessary to effectively value and apply employees' abilities and needs to organization goals. Each learner will demonstrate the application of the supervisor's role in contemporary human resources management, impacts of EEOC, writing job descriptions, recruitment, selection, conducting job interviews, orientation, developing policies and procedures, training, performance management, employee counseling and development, and effective use of compensation and benefit strategies. It is recommended that the learner have experience using a PC/MAC, using the MS Windows operating systems and software suite, browsing Web pages, downloading files, using e-mail, and exchanging files prior to enrolling in this course.

10104198

Managing Human Resources - Credits: 3

Introduces the functions of Human Resource Management in the legal and social context of today's dynamic business environment. Topics include human resource development, employee selection, performance, appraisal, compensation, training, labor relations, affirmative action, and career management.

10145101

Entrepreneurship - Credits: 3

This course is designed to develop the planning, organizing, financing, and management functions needed to start a small business. Included are research methods and identification of the resources to create, develop, and implement solutions to problems. Students will also develop appropriate strategies to initiate or maintain a small business.

10196157

Strategic Planning - Credits: 1

Analyze current business strategy, recognize trends, develop vision and mission statements, identify benchmarks, measure business against benchmarks, recommend future directions.

10196188

Project Management - Credits: 3

In Project Management, the learner applies the skills and tools necessary to design, implement, and evaluate formal projects. Each learner will demonstrate the application of the role of project management, developing a project proposal, use of relevant software, working with project teams, sequencing tasks, charting progress, dealing with variations, budgets and resources, implementation, and assessment.

10104104

Selling Principles - Credits: 3

This introductory course is designed to acquaint the student with the principles of selling and applications to the marketing of goods and services. Special emphasis is given to developing the selling process. Included are customer relations, sales psychology, steps to successful presentation, closing techniques, and sales motivation.

10104110

Technological Applications in Marketing - Credits: 3

This course is designed to expose the student to current and upcoming technologies impacting the field of marketing.

10104189

Social Media Marketing - Credits: 3

This course follows social media's transformation of advertising from a mass medium to one-to-one communication with immediate feedback. Social media's use for public relations and advertising as well as how to create and deploy a social media campaign will be the main focus of the course. The history and development of social media platforms will be examined as well as today's ethical and legal implications of social media efforts.

10104125

Multi-Media Marketing - Credits: 3

Multi-Media Marketing provides an overview of advertising and public relations efforts in today's business environment. The course will explore what is done in advertising and the reasons why. Public relations activities and their effectiveness will be discussed using real-world examples. Additional topics of study include the social and economic aspects of promotion. PREREQUISITE: 10104102 Marketing Principles.

10104148

Sales Management - Credits: 3

This course examines the elements of operating as part of an effective sales team. As sales is a key component of organizational success, best practices from the industry will be explored. Additional topics include sales team structure, use of technology and issues in compensating/retaining salespeople. PREREQUISITE: 10104104 Selling Principles.

Carpentry Apprentices (ABC)

50-410-9 Apprenticeship

Campus: Rice Lake

Program Overview

Carpenters construct, erect and repair buildings and other structures made of wood, wood substitutes, steel and other materials. Topics covered during the Carpentry Apprentices (ABC) program include, but are not limited to: wood building materials, fasteners and adhesives; hand and power tools; floor systems; wall and ceiling framing; window and exterior doors; blueprint reading and elevations; site layouts; foundations and flat work; concrete and patented forms; reinforcing, handling and placing concrete; tilt up wall systems; exterior finish; roof framing and applications; thermal and moisture protection; stairs; framing with metal studs; drywall installation; interior finishes; metal building; and welding.

TOTAL CREDITS		16 cr.

Course Descriptions

50410771

Carpentry Fundamentals & Floor Systems - Credits: 2

Course competencies align with NCCER Core and Level 1 learning outcomes. Course topics include an orientation to the trade; building materials, fasteners and adhesives; hand and power tool use; introduction to construction drawings, specifications, and layout; flooring systems and trade math.

50410772

Framing Fundamentals, Stair Layout & Building Envelope Systems - Credits: 2

Course competencies align with the remaining NCCER level 1 learning outcomes. Course topics include wall systems; ceiling joists and roof framing; introduction to building envelope systems, and basic stair layout.

50410773

Framing and Exterior Finishing for Carpenter Apprentices - Credits: 2

Course competencies align with NCCER level 2 learning outcomes. Course topics include commercial drawings, cold-formed steel framing, exterior finishing, roofing applications, and thermal and moisture protection.

50410774

Interior Finishing - Credits: 2

Course competencies align with additional NCCER level 2 learning outcomes. Course topics include doors and door hardware; drywall installation; drywall finishing, suspended ceilings; cabinet installation; and window, door, floor, and ceiling trim work.

50410775

Concrete, Rigging & Excavating - Credits: 2

Course competencies align with NCCER level 3 learning outcomes. Course topics include rigging equipment, rigging practices, properties of concrete, reinforcing of concrete, and trenching and excavating.

50410776

Concrete Forming for Carpentry Apprentices - Credits: 2

Course competencies align with additional NCCER Level 3 learning outcomes. Course topics include foundations and slab-on-grade, vertical formwork, horizontal formwork, handling and placing concrete, and tilt-up wall systems.

50410777

Site Layout & Advanced Exterior Systems - Credits: 2

Course competencies align with NCCER level 4 learning outcomes. Advanced carpentry course topics include site layout, angular and distance measurement, advanced roofing systems, and advanced exterior wall systems.

50410778

Advanced Interior Systems & Crew Leadership - Credits: 2

Course competencies align with additional NCCER level 4 learning outcomes. Course topics include advanced interior wall systems, advanced stair systems, construction equipment and safety, site preparation, and fundamentals of crew leadership.

CNC Technician

30-444-2 Technical Diploma (less than one-year)

Campus: Rice Lake

Program Overview

The CNC Technician program prepares students for a career in the machining industry. Students will learn how to set up and program basic three-axis mills and two-axis CNC lathes.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Be at least 16 years old at class start

Program-Specific Requirements

- Review and sign the HOMES Grant Tuition Funding Payment Qualifying Form

Program Outcomes

CNC Technician graduates will be able to:

- Apply basic safety practices in the machine shop
- Interpret industrial/engineering drawings
- Apply precision measuring methods to part inspection
- Perform basic machine tool equipment set-up and operation

Career Outlook

After completing this program, graduates will be ready for their career in a variety of positions such as:

- CNC Machine Operator
- CNC Set-up Operator
- CNC Operator
- Machinist

Career Pathways

CNC Technician is a pathway into the following program:
(page 240):

- Machine Tool Operation - CNC

Required Courses

Number	Course Title	Credits (cr.)
Program Courses

32420361	Introduction to CAD/CAM	1 cr.
32444302	Machining Fundamentals	2 cr.
31444310	Milling and Turning 1	3 cr.
31444311	Milling and Turning 2*	5 cr.
Program Courses Total		12 cr.
General Education Courses**		
32804325	Applied Technical Math 1	3 cr.
General Education Courses Total		3 cr.
TOTAL CREDITS		15 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

HOMES Grant Equal Opportunity, Funding, and Reporting Statement

Equal Opportunity

No person may be denied admission to, participation in, employment at, the benefits of, or be discriminated against in any service, program, course or facility of Northwood Technical College because of the person's political affiliation, age, race, creed, religion, color, handicap (disability), marital status, parental status, sex, national origin, ancestry, sexual orientation, pregnancy, arrest record, conviction record, service in the armed forces, genetic testing, or use or non-use of lawful products off the College premises during non-working or non-class hours.

Funding

The 3-year, \$9.8 million Housing Opportunity & Mobile Education Solutions (HOMES) project is funded by the Wisconsin Department of Workforce Development. Impact Seven will provide an additional \$20 million for sustainable affordable housing options within the district. Northwood Technical College will provide an additional \$1.25 million to conduct advanced manufacturing training for underemployed, unemployed, and special population individuals.

Reporting

General demographic and job placement information of program participants will be used and reported to the Wisconsin Department of Workforce Development as one measurement of success for this grant-funded program.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32420321

Print Reading for Machine Trades - Credits: 1

This course will cover the basic principles of print reading. The emphasis is on interpreting standard lines and symbols in single- and multiple-view working drawings. Topics include print reading procedures, drawing changes, machining specifications, and the reading of prints in specialized areas including ANSI and ISO standards. Strongly recommend a basic understanding of mathematics concepts.

32420361

Introduction to CAD/CAM - Credits: 1

This course will introduce students to computer-aided drafting (CAD) and computer-aided machining (CAM). Students will use appropriate CAD software to prepare mechanical drawings. Students will be introduced to CAD/CAM equipment.

32444302

Machining Fundamentals - Credits: 2

This course will provide the basic machining information needed by the learner in subsequent CNC Machine Tool Operation courses. It will also provide instruction and practice in the use of sawing and drilling machines and related processes.

31444310

Milling and Turning 1 - Credits: 3

This course includes instruction of CNC (Computer Numerical Control) lathes and mills including calling up programs in the machine control unit, loading and deleting programs; setting work offsets; loading and unloading parts; loading tooling and tool offsets; running programs to make parts; and part inspection. By the end of the course, learners will set up work pieces in machines, enter programs, set up tool offsets, enter work offsets, and complete parts and projects.

31444311

Milling and Turning 2 - Credits: 5

This course includes the operation of CNC (Computer Numerical Control) mills and lathes by providing instruction and practice in the use of milling and turning machines. This course will also provide an introduction to job planning for CNC lathes and mills using standard G and M codes, including the use of process plans, inspection sheets, and set up guides will also be covered. This course will also provide the opportunity for learners to write their own job planning and editing of provided programs. By the end of this course, learners will edit programs, change speeds and feeds as needed, and adjust tool and work offsets to produce parts within specified tolerances. COREQUISITE: 31444310 Milling and Turning 1

Community-Based Residential Facility (CBRF) Caregiver

30-575- 1 Technical Diploma (less than one-year)

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

Upon successful completion of this program, you will be added to the Wisconsin CBRF Employee Registry. Coursework will include the following training modules: Fire Safety, Medication Administration and Management, Standard Precautions, First Aid and Choking, Resident's Rights and Challenging Behaviors.

Admission Requirement

- Complete Online application form

Program Outcomes

CBRF Caregiver graduates will be able to:

- Practice safe medication storage and administration
- Advocate for the fair and ethical treatment of all residents
- Respond appropriately to challenging behaviors
- Practice standard precautions in all situations in the residential setting
- Apply first aid and choking emergency procedures
- Apply the basics of fire, fire prevention and emergent response

Career Outlook

CBRF Caregiver program graduates will be well prepared to use their knowledge, skills and abilities in a variety of positions in diverse CBRF settings such as:

- Assisted Living
- Memory Care
- Group Homes
- Transitional Housing

Career Pathway

The Community-Based Residential Facility (CBRF) Caregiver is a pathway into the following program (page 235):

- Human Services Associate

Related Programs

- Substance Abuse Counselor Education
- Gerontology-Aging Services Professional
- Nursing Assistant
- Personal Care Worker

Required Courses

Number	Course Title	Credits (cr.)
10575100	CBRF Caregiver Fundamentals	<u>2 cr.</u>
TOTAL CREDITS		2 cr.

Technical Diploma Availability Pending Review

Professional Licensure and/or Certification Information

Northwood Tech's Community-Based Residential Facility (CBRF) Caregiver program is designed to prepare students to obtain the required credential or to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Description

10575100

CBRF Caregiver Fundamentals - Credits: 2

In this credit-based course, students will obtain the knowledge and skills required to become Community-Based Residential Facility (CBRF) caregivers. Coursework will include the following training modules: DHS 83.20 (2) (b) CBRF Fire Safety, DHS 83.20 (2) (d) CBRF Medication Administration and Management, DHS 83.20 (2) (a) CBRF Standard Precautions, DHS 83.20 (2) (c) CBRF First Aid and Choking, DHS 83.21 (1) CBRF Resident's Rights, and DHS 83.21 (3) CBRF Challenging Behaviors. Upon successful completion of this course, students are added to the Wisconsin CBRF Employee Registry.

Campuses: Rice Lake

Program Overview

The Construction and Cabinetmaking program will provide you with the knowledge and skills necessary for job success in the construction industry. You will learn the fundamentals of building design, construction, layout operation, related mathematics, print reading, estimating, CNC, cabinet construction and materials of industry. You will use hand and power tools that are commonly used in construction and fabrication to assemble furniture, cabinets and build a custom home off site.

Special Feature

This is a unique two-year program in the state that combines cabinetry and residential construction.

The second year of this program includes building a custom home as a capstone project.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Construction and Cabinetmaking graduates will be able to:

- Use hand and power tools and equipment
- Apply industry recognized safety practices and procedures
- Analyze sustainable building practices
- Interpret construction drawings
- Interpret building codes
- Demonstrate industry building practices and material application

Career Outlook

Typical positions available after graduation include:

- Carpenter
- Woodworking Machine Operator
- Furniture Finisher
- Millperson
- Machine Setup Person
- Cabinetmaker/Furniture Maker
- Salesperson
- Estimator
- Drafter
- Material Handling Specialist
- Interior/Exterior Finisher

Career Pathways

The Construction and Cabinetmaking program includes the following pathway options (page 227):

- Architectural Woodworking & Cabinetmaking
- Construction Essentials

Related Program

- Architectural Commercial Design

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32410300

Cabinet and Furniture Making 1 - Credits: 5

This is a lab/shop/theory application. This course covers the basics of cabinet and furniture construction. Fundamental machine operations and safety rules are taught. The students are required to construct, by approved machine methods, the common joints used in good construction. The study of wood and other materials, hand tools and bench work, shop drawing, design, and layout are a part of the basic course.

32410302

Cabinet and Furniture Making 2 - Credits: 5

This is a lab/shop applications course. The student will be involved in projects according to his/her abilities to provide practical application of the operations learned. COREQUISITE: 32410300 Cabinet and Furniture Making 1.

32410303

Construction Framing 1 - Credits: 4

This is a lab/shop applications course that covers the operations required in building layout, and the framing of floors and walls to meet Wisconsin State Code. Competencies are learned through actual hands-on applications. COREQUISITES: 32410339 Print Reading for Building Construction and 32804325 Applied Technical Math 1.

32410304

Advanced Construction Framing (WBL) - Credits: 4

This is a lab/shop/theory application. This course provides instruction in current application techniques of various building materials as applied to construction work on residential/light commercial buildings. The course of study encompasses the procedures of appropriate safe skills and knowledge required to construct/install rafters, roofing, materials, siding, insulations, stairs, platforms, decks, floor coverings, wall coverings, and related materials. PREREQUISITE: 32410315 Construction Framing 2.

32410320

CNC Machine Operation - Credits: 2

This course introduces the student to the development and editing of CNC programs. The basic elements of CNC machine setup and operation are covered for the production of acceptable parts. Safety concerns are also addressed. PREREQUISITE: 32804325 Applied Technical Math 1.

32410326

Site Surveying - Credits: 1

This course is designed to provide the student with the understanding of site plans, the recontouring of sites, the use of builder's surveying equipment, and other related information. PREREQUISITES: 32410339 Print Reading for Building Construction and 32804325 Applied Technical Math 1.

32410329

Building Materials Estimating - Credits: 3

This course introduces the student to the basic methods of estimating and develops a system for doing quantity surveys. The course also prepares the student to make some of the kinds of estimates that are commonly used in architecture and building construction. PREREQUISITES: 32410333 Drafting for Carpentry 2 and 32804325 Applied Technical Math 1 or equivalent.

32410332

Drafting for Carpentry 1 - Credits: 5

This course introduces students to the subject of residential design and construction. The problems faced by builders and designers before actual construction begins are emphasized. Students complete a series of detail drawings to acquaint them with the materials used and the methods of fabrication in sketching, lettering, line weights, and use of the scale are stressed. Standard house plans are utilized to acquaint the student with the drawings used in home construction. Students are also introduced to state, federal, and local codes. PREREQUISITE: 32410339 Print Reading for Building Construction.

32410333

Drafting for Carpentry 2 - Credits: 5

This course introduces SoftPlan software and the use of the Uniform Dwelling Code Book. In this course the students design residential structures based on the needs of individuals. The needs and desires of the client and their family are stressed in assignments. Various types of residential structures are designed. The student is introduced to the use of models and perspective drawings in selling a design to a client. UDC regulations are stressed throughout the drawings. PREREQUISITE: 32410332 Drafting for Carpentry 1.

32410334

Production Cabinetmaking - Credits: 5

This is a lab/shop/theory application course that focuses on finishing and fine tolerances of the cabinet making trade. This course will provide the skills needed for advanced production cabinetmaking, including materials cut lists, ordering, setting up machines for production cabinetmaking, assembly as well as production wood finishes. PREREQUISITE: 32410302 Cabinet and Furniture Making 2.

32410335

Interior Finish - Credits: 5

This is a lab/shop/theory application that deals with finishing and fine tolerances of the construction trade. Hands-on techniques of installing trim and molding, and designing and building cabinets are covered. PREREQUISITE: 32410302 Cabinet and Furniture Making 2 and COREQUISITE: 32410334 Production Cabinetmaking.

32410339

Print Reading for Building Construction - Credits: 2

This course provides instruction in reading and interpreting shop drawings, residential drawings, and commercial building plans. Emphasis is placed on building terminology and learning conventional techniques of communicating building methods from the designer to the builder. Students learn to visualize the structure and to interpret elevations, plan views, details, and sections from drawings. They also learn to read and interpret building specifications.

32410353

Construction Framing 2 - Credits: 4

This is a lab/theory course that covers the operations required in building layout and the framing of floors, walls, roofs, and stairs. The learner will learn the importance of building an energy-efficient home, and will be performing energy tests with diagnostic tools. Competencies are learned through lecture and actual hands-on applications. PREREQUISITES: 32410339 Print Reading for Building Construction, 32804325 Applied Technical Math 1, and COREQUISITE: 32410303 Construction Framing 1.

Construction Essentials

30-410-3 Technical Diploma (less than one-year)

Campus: Custom Delivery

Program Overview

You will find entry-level job success with an opportunity to build your knowledge, skills and professionalism to further your career. You will learn the basic fundamentals of construction framing and drafting along with print reading and math concepts related to construction. Safety principles and the use of hand and power tools will be covered.

Special Features

Northwood Tech's Construction Essentials program is designed to offer at off-campus sites. This mobile delivery option increases training opportunities for high schools and other Northwood Tech partnering agencies.

Inquire

For more information on this program, scheduled sites and how to apply, contact: Deb Kutrieb, Dean of Skilled Trades, deb.kutrieb@northwoodtech.edu or call 715.788.7191.

Program Outcomes

Construction Essentials graduates will be able to:

- Use hand and power tools and equipment
- Apply industry recognized safety practices and procedures
- Interpret construction drawings
- Demonstrate industry building practices and material application

Career Outlook

Typical positions available after graduation include:

- Construction Worker
- Construction/Carpenter Laborer
- Carpenter Assistant
- Carpentry Framer

Career Pathway

The Construction Essentials program is a pathway into the following program (page 227):

- Construction and Cabinetmaking

Related Programs

- Architectural Woodworking & Cabinetmaking
- Drafting Technician

Students learn to visualize the structure and to interpret elevations, plan views, details, and sections from drawings. They also learn to read and interpret building specifications.

Campuses: Rice Lake* and Superior*

*Combination of Hybrid and On Site instruction

Program Overview

The Cosmetology program prepares you with essential theory and hands-on instruction to develop your skills in cosmetology. You'll learn theories and techniques that are reflective of industry standards and apply these skills working with real clients in Northwood Tech's state-of-the-art salons. Upon successful completion, you will be eligible to take the Wisconsin Cosmetology Practitioner License examination.

Special Feature

This designation reflects an educational program consisting of distinctive techniques of scientific hair designing and cosmetology. Techniques from this educational program are taught in educational institutions around the world. For more information, visit pivot-point.com.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirement

- Attend a mandatory orientation session

Program Outcomes

Cosmetology graduates will be able to:

- Perform shampoo, haircut, and style service
- Perform skin care services
- Perform chemical services
- Perform nail services
- Develop business practices for industry success

Career Outlook

Typical positions available after graduation include:

- Cosmetologist
- Color Technician
- Make-Up Artist
- Nail Technician
- Skin Care/Esthetics

With additional experience, graduates may move into one of these positions:

- Manager
- Owner
- Platform Artist
- Instructor
- Independent Contractor
- Consultant

Course Descriptions

31502382

Hair Sculpture - Credits: 3

Develop skills, utilizing proper tools and equipment, in haircutting, hair tapering (clipper cuts), and razor cutting on manikins and clients. COREQUISITES: 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, and 31502387 Introductory Client Services.

31502383

Hair Design - Credits: 3

Develop skills, utilizing proper tools and equipment, in hairstyling, curling, thermal waving, finger waving, roller setting, pincurl placement, blow drying, shampoos, scalp and hair treatments, conditioning, reconditioning, hair analysis and care of hairpieces, wigs and wefts on manikins and clients. COREQUISITES: 31502382 Hair Sculpture, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, and 31502387 Introductory Client Services.

31502384

Chemical Texture - Credits: 3

Develop skills, utilizing proper tools and equipment, in hair straightening, hair relaxing, thermal hair straightening, blow-outs, and permanents applying chemistry principles on manikins and clients. COREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, and 31502387 Introductory Client Services.

31502385

Hair Color - Credits: 3

Develop skills, utilizing proper tools and equipment, in hair coloring, tinting, and bleaching while applying chemistry principles and law of color inclusive of color correction techniques, hair damage assessment, and appropriate product selection on manikins and clients. COREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502386 Cosmetology Fundamentals, and 31502387 Introductory Client Services.

31502386

Cosmetology Fundamentals - Credits: 4

Examine industry trends and fundamental cosmetology topics related to individual cosmetologist hygiene/grooming, professional communication, and personal and professional development. Focus on anatomy, physiology, and disorders of the hair, skin and nails and the study of bacteriology, decontamination, safety and first aid required in establishments, including Wisconsin cosmetology state statutes and administrative codes. Develop knowledge and familiarity with salon point-of-sale software. COREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, and 31502387 Introductory Client Services.

31502387

Introductory Client Services - Credits: 2

Apply practical techniques learned in the classroom for hair sculpture, hair design, chemical texture, hair color and communication skills with clients, inclusive of individual student needs, including point-of-sale process and salon operations. COREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, and 31502386 Cosmetology Fundamentals.

31502388

Intermediate Client Services - Credits: 3

Develop practical techniques learned in the classroom for hair sculpture, hair design, chemical texture, hair color, and communication skills with clients, inclusive of individual student needs, with continued application of point-of-sale process and salon operations. PREREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, 31502387 Introductory Client Services, and COREQUISITES: 31502389 Advanced Cosmetology Techniques, 31502394 Esthetics, 31502395 Nail Care and Design, and 31502396 Advanced Client Services.

31502389

Advanced Cosmetology Techniques - Credits: 2

Practice advanced techniques learned in the classroom for hair sculpture, hair design, chemical texture, and hair color with manikins and clients, inclusive of individual student needs. PREREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, 31502387 Introductory Client Services, and COREQUISITES: 31502388 Intermediate Client Services, 31502394 Esthetics, 31502395 Nail Care and Design, and 31502396 Advanced Client Services.

31502394

Esthetics - Credits: 1

Develop skills, utilizing proper tools and equipment, in hair removal, beard and mustache shaping, facial treatments, makeup, eyelashes, light therapy, and basic principles of electricity on manikins and clients. PREREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, 31502387 Introductory Client Services, and COREQUISITES: 31502388 Intermediate Client Services, 31502389 Advanced Cosmetology Techniques, 31502395 Nail Care and Design, and 31502396 Advanced Client Services.

31502395

Nail Care and Design - Credits: 1

Develop skills, utilizing proper tools and equipment, in manicures, pedicures, and varied nail enhancement techniques on manikins and clients. PREREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, 31502387 Introductory Client Services, and COREQUISITES: 31502388 Intermediate Client Services, 31502389 Advanced Cosmetology Techniques, 31502394 Esthetics, and 31502396 Advanced Client Services.

31502396

Advanced Client Services - Credits: 5

Enhance practical techniques learned in the classroom for hair sculpture, hair design, chemical texture, hair color, esthetics, nails, and communication skills with clients, inclusive of individual student needs, with continued application of point-of-sale process and salon operations. PREREQUISITES: 31502382 Hair Sculpture, 31502383 Hair Design, 31502384 Chemical Texture, 31502385 Hair Color, 31502386 Cosmetology Fundamentals, 31502387 Introductory Client Services, and COREQUISITES: 31502388 Intermediate Client Services, 31502389 Advanced Cosmetology Techniques, 31502394 Esthetics, and 31502395 Nail Care and Design.

Cosmetology Apprenticeship

50-502-1 Apprenticeship

Campus: Online

Program Overview

Cosmetology is a vibrant career with many employment and career opportunities. Salons, spas, barber shops, and beauty supply companies are in need of professional stylists. A career in cosmetology combines professional techniques with creativity to provide a challenging career with many rewards. The cosmetology apprenticeship program provides the theory training to allow the student to satisfy the Wisconsin state requirements to become a licensed professional.

Special Features

- Two year training program
- 3,712 hours on-the-job training
- 292 hours of paid related instruction
- After completing the program, apprentices must pass the state test to be licensed as a practitioner
- Wage scale of apprentice systematically increases throughout the apprenticeship
- The 47455401 Transition to Trainer course (8 hours) is required for completion. Will be taken in the last year of the apprenticeship.
- The Mock Board Prep (8 hours) course is an optional course students can complete during the last semester of the apprenticeship.

For more information on apprenticeships, see page 28

Qualifications required by the Bureau of Apprenticeship Standards

- Be at least seventeen (17) years of age.
- Be employed full time, at least thirty-two (32) hours or more per week, including paid related instruction.
- Adhere to all requirements in Section XVII: Hours of Work, (32 hours or more per week, including related instruction).
- Make a commitment to the apprenticeship program policies and procedures.
- Be physically able to perform the duties of the occupation with reasonable accommodations if necessary.
- Provide their own or reliable transportation to related classroom instruction and on-the-job training.
- If the apprentice is still in high school, he or she must meet the requirements in the Apprenticeship Manual and may work part-time.

Inquire

Contact, Eric Lockwood, Director, Apprenticeships and Academics, 715.246.1871, eric.lockwood@NorthwoodTech.edu

How to Get Started

To become an apprentice in the state of Wisconsin, one must first be indentured by the State Bureau of Apprenticeships Standards (BAS).

- Contact an employer on your own
- Once you have an employer/sponsor, contact the Bureau of Apprenticeship Standards, to initiate the application process. between you and your employer.

Pre-Admission Requirements

- Submit the Bureau of Apprenticeship Standards Apprenticeship Application
- Employer will be asked to complete an application by the Bureau of Apprenticeship Standards (Employer/Sponsor Application)
- **NOTE:** Prior to applying at Northwood Tech, students are also required to submit the Apprenticeship Application to the Bureau of Apprenticeship Standards (Eau Claire Office). The contact for the [Bureau of Apprenticeship Standards](#) is Long Vang, Apprenticeship Training Representative, at long.vang@dwd.wisconsin.org, 715.874.4627
- Have a signed apprenticeship contract from the Bureau of Apprenticeship Standards on file with Northwood Tech.

Admission Requirements

- Complete the Online Northwood Tech application form
- Confirmation of admission from Northwood Tech Academic Affairs Apprenticeship Office

Program-Specific Requirements

- Confirmation of admission from Northwood Tech Academic Affairs Apprenticeship Office

Program Outcomes

Cosmetology Apprentice graduates will be able to:

- Summarize safety and sanitation procedures
- Summarize the current Wisconsin administrative codes and statutes for cosmetology
- Demonstrate interpersonal skills for success
- Compare haircutting services

- Compare shampoo services
- Compare skin care services
- Compare texture services
- Compare hair color services
- Compare hairstyling and finishing techniques
- Compare nail services
- Develop strategies to market products and services

Career Outlook

Typical positions available upon completion include:

- Beautician
- Cosmetologist
- Hair Dresser
- Hair Stylist
- Stylist

Professional Licensure and/or Certification Information

Northwood Tech's Cosmetology Apprenticeship meets the requirements of the Bureau of Apprenticeship Standards in Wisconsin. Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure in states other than Wisconsin should contact the appropriate apprenticeship bureau or licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

50502501

Orientation/Professional Development - Credits: .5

Examines the policies and responsibilities of the Cosmetology program. Learners apply practices related to maintaining a healthy mind and body, and in determining personal qualities related to health and human relations. Also focuses on developing personal life management skills.

50502502

Salon Ecology - Credits: .5

Focuses on different types of organisms to prevent the spread of disease in a salon environment. Students explore basic safety and first aid methods in the salon.

50502503

Salon Business - Credits: .5

Introduces the student to all the responsibilities of owning a salon. Students develop a personal career-building plan incorporating a variety of areas to help them reach success in the profession. The theory of hair color and chemical texturizing (permanent waving and chemical relaxing) is studied and applied. Learners develop skills in how to handle the physical and chemical changes in the hair as each service is performed in order to achieve successful outcomes in the profession.

50502505

Trichology - Credits: .5

Focus will be on the structure of the hair root and hair shaft, including descriptions of the three layers of the hair. Discussion will include the chemical bonds that make up the hair and how the bonds are affected by the services performed in the salon. Hair and scalp disorders, diseases, and hair loss will be addressed.

50502506

Haircutting - Credits: 1

Students will learn basic haircutting procedures to include disinfection and proper use of tools.

50502507

Hairstyling - Credits: 1.25

Focus will be on styling the hair to include fingerwaving, pincurling, roller-setting, blow-drying, thermal curling, thermal pressing, braiding, and long hairstyling. Product knowledge will be discussed. Safety and sanitation procedures will be addressed.

50502508

Chemistry for Cosmetology Apprentice - Credits: .5

This .5 credit course looks at the study of Matter and the pH scale as it relates to the profession of Cosmetology.

50502509

Hair Color - Credits: 1

This course focuses on the law of color, consultations skills, basic application techniques and formulation to safely and effectively perform a color service.

50502510

Chemical Texturing - Credits: 1

Focuses on the theory of Chemical Texturizing and the application techniques and procedures related to Permanent Waving, Chemical Relaxing, and Soft Curl (Curl Reforming) Permanent Waves.

50502512

Study of the Skin - Credits: 1

Explores the structure, composition, and related glands of the skin. Students also characterize skin diseases and disorders as contagious or non-contagious to protect themselves and their clients. Also covers skin care services to include facials, waxing, delegated medical procedures, e.g., microdermabrasion, electricity/light therapy, and anatomy.

50502513

Cosmetology Law/Rules, History/Business - Credits: .75

Focuses on laws and rules affecting cosmetology in the state of Wisconsin.

50502515

Study of the Nail - Credits: .5

Applies techniques for basic manicures and pedicures. Artificial nails will also be addressed. The structure of the nail will be studied. The diseases and disorders of the nail will also be examined.

Criminal Justice - Law Enforcement 720 Academy

30-504-2 Technical Diploma (less than one-year)

Financial Aid Eligible

Campus: Rice Lake Program Overview

The Criminal Justice - Law Enforcement 720 Academy will provide students with the right skills to handle complex situations encountered as a Law Enforcement Officer at municipal, county, or state government levels.

To become eligible to work as an officer in the State of Wisconsin, the student must have basic policing skills. The Wisconsin Department of Justice's (WisDOJ) Law Enforcement Standards Board has established criteria. Admission is restricted to those who qualify under WisDOJ administrative rules. Upon completing the Academy, the student becomes certifiable for a period of three years from the date of completion. This makes the student eligible for formal certification as a Basic Law Enforcement Officer upon hiring by a law enforcement agency.

Candidates for the Criminal Justice - Law Enforcement 720 Academy must undergo criminal history and traffic record checks and will be required to submit fingerprints. All non-sponsored candidates must participate in a personal screening interview and all candidates must pass a physical readiness test for entrance. See <http://wilenet.widoj.gov> for additional information from the Law Enforcement Standards Board.

Admission Requirements

- Complete paper application form
- Review and sign Functional Abilities Disclosure
- Review and sign Background Check Disclosure

Program-Specific Requirements

Step 1:

- Have earned a high school diploma or GED certificate.
- Possess a valid Wisconsin driver's license or other such valid operator's permit recognized by the Wisconsin Department of Transportation as authorizing operation of a motor vehicle.
- Be at least 18 years of age and a United States citizen, and complete form DJ-LE-322, Birth Certificate Verification, to provide verification of age and citizenship.

Step 2:

- Complete the Physical Readiness Test (PRT) prior to the start of the academy. Information on the PRT is located on WILENET. Successful completion of the PRT is valid for one calendar year from date of completion. Students must be able to complete these standards:

Physical Readiness Test (PRT)	Entrance Standards
1.5 mile run	20:20 minutes
300m run	82 seconds
Push ups	18
Sit-ups	24
Vertical Jump	11.5 inches
Agility Run	23.4 seconds

Step 3:

- Non-sponsored students (*Pre-Service Student: An individual who meets the minimum recruitment qualifications set by the Law Enforcement Standards Board (LESB) and enrolls in preparatory training at his or her own expense prior to employment*).
 - Non-sponsored students must have earned at least 40 accredited college credits. The college credit standard is defined in terms of semester credits. Quarter credits may be converted to semester credits by multiplying quarter credits by two-thirds. Generally, 60 quarter credits are equivalent to 40 semester credits. Applicants must provide an official college transcript.
 - Complete an oral interview with a panel of criminal justice executives or with teaching or counseling staff affiliated with the training

school. To be accomplished after successful completion of the Physical Readiness Test (PRT).

-Undergo a DOJ criminal history records check and fingerprinting. The DOJ will assign a location for fingerprinting. An unpardoned felony conviction or misdemeanor crime of domestic violence conviction will prohibit a student from attending the unified tactics portion of preparatory law enforcement officer training, and will prohibit employment as a law enforcement officer.

-Undergo a physical. A physical will be conducted to verify that the candidate can meet the physical standards required. The physical will be conducted by a licensed physician, physician assistant or nurse practitioner utilizing the Physician's Assessment form (DJ-LE-322), or a form similar to DJ-LE-322, which provides the physician with a job description on which to base the assessment. The candidate will also complete a personal medical history, a copy of which is to be submitted to the examining physician, nurse practitioner or physician assistant for reference.

- Sponsored students (*Recruit: A sworn officer who has not been certified within the past three years, currently employed on a probationary or temporary basis in compliance with the minimum recruitment qualifications set by the Law Enforcement Standards Board (LESB), who is enrolled in preparatory training at a LESB-certified academy.*)

-Sponsored students must work with sponsoring agency for pre-employment and educational requirements.

-If employed, the employing agency must provide a copy of completed form DJ-LE-303, Verification of Employment Standards and Application for Certification, to enroll an officer in preparatory training. This form documents that the student has met all of the required employment standards.

-Submit required letter of sponsorship from employing law enforcement agency.

-Submit Professional History Report with sponsoring agency listed sent directly to the Northwood Technical College Criminal Justice – Law Enforcement 720 Academy Program Director.

Step 4:

- Complete form DJ-LE-310, Student Authorization for Release of Information.
- Complete form DJ-LE-327, Application for Enrollment in Law Enforcement, Jail or Secure Juvenile Detention Officer Training.

Program Outcomes

Criminal Justice - Law Enforcement 720 Academy graduates will be able to:

- Think critically
- Manage emergencies
- Communicate effectively
- Demonstrate professionalism
- Conduct investigations
- Interact with others
- Demonstrate tactical skills

Career Outlook

Typical positions available after graduation include:

- Police Officer
- Deputy Sheriff
- Other Certified Law Enforcement Positions

Professional Licensure and/or Certification Information

The Northwood Tech Criminal Justice - Law Enforcement 720 Academy adheres to the uniform student performance objectives as established by the Wisconsin Department of Justice, Bureau of Training and Standards. The program is certified by the Wisconsin Department of Justice. Northwood Tech has not made a determination whether this program meets the requirements for preparation, examinations, or licensure for other states. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

30504500

Overview of Patrol Response - Credits: 2

Through classroom lecture, and on-campus lab, and WI Department of Justice integration exercises students will learn and apply skills addressed in the following WI Department of Justice 720 Academy curriculum framework Phase I topics: Critical Thinking and Decision-Making, Basic Response (RESPOND), Radio Procedures, Introduction to TraCS, Traffic Law Enforcement I, First Aid, CPR/AED, and Naloxone/Narcan, and Physical Fitness. This course will also include the WI DOJ 720 Academy Integration Exercises.

30504501

Physical Fitness - Credits: 1

Through classroom lecture and on-campus lab students will apply Phases I-III Physical Fitness WI Department of Justice 720 Academy curriculum framework and Officer Wellness Suicide Prevention.

30504502

Application of Investigations - Credits: 1

Through classroom lecture, on-campus lab, and WI Department of Justice 720 Academy integration exercises students will learn and apply skills addressed in the following Phase III topics of the Department of Justice 720 Academy curriculum framework: Ethics II: Moral Reasoning and Professional Conduct, Cultural Competence II, Interrogations, Testifying in Court, Crimes III and Physical Evidence Collection.

30504503

Overview of Criminal Justice - Credits: 1

Through classroom lecture and WI Department of Justice 720 Academy integration exercises, students will learn and apply skills addressed in the following WI Department of Justice 720 Academy Phase I curriculum framework topics: Academy Orientation, Fundamentals of Criminal Justice, Ethics I, Cultural Competence, Agency Policy, and Professional Communication Skills I.

30504504

Principles of Emergency Vehicle Response - Credits: 2

Through classroom lecture, and on-campus lab, and WI Department of Justice 720 Academy integration exercises students will learn and apply skills addressed in the following Department of Justice 720 Academy Phase II topics: Emergency Vehicle Operation and Control (EVOIC) and Vehicle Contacts II.

30504505

Sensitive Crimes - Credits: 2

Through classroom lecture, and on-campus lab and WI Department of Justice 720 Academy integration exercises, students will learn and apply skills addressed in the following Department of Justice 720 Academy curriculum framework Phase III topics: Domestic, Juvenile Law, Victims, Sexual Assault, and Child Maltreatment. The DOJ Phase III Written Examination will be administered in this course.

30504506

Overview of Investigations - Credits: 2

Through classroom lecture, and on-campus lab, and WI Department of Justice 720 Academy integration exercises students will learn and apply skills addressed in the following Department of Justice 720 Academy curriculum framework Phase I topics: Constitutional Law I, Crimes I, Interviews, and Report Writing I. The DOJ Phase I Written Examination will be administered in this course.

30504507

Application of Traffic Response - Credits: 3

Through classroom lecture, and on-campus lab, and WI Department of Justice integration exercises, students will learn and apply skills addressed in the following Phase III topics from the WI Department of Justice 720 Academy curriculum framework: Traffic Law Enforcement - Core and Radar, Traffic Crash Investigations & Incident Management, Operating a Motor Vehicle While Intoxicated (OMVWI), Standardized Field Sobriety Tests (SFST), Hazardous Materials and Weapons of Mass Destruction (WMD), Incident Command Systems and NIMS, and Report Writing.

30504508

Principles of Investigations - Credits: 1

Through classroom lecture, and on-campus lab, and WI Department of Justice 720 Academy integration exercises students will learn and apply skills addressed in the following Phase II topics of the WI Department of Justice 720 Academy curriculum framework: Constitutional Law II, Physical Evidence Collection, and Crisis Management. The Phase II Written Exam will be given in this course.

30504509

Principles of Tactics - Credits: 5

Through classroom lecture and on-campus lab and integration exercises, students will learn and apply skills addressed in the following Phase II topics from the Department of Justice 720 Academy curriculum frameworks including: Professional Communication Skills II, DAAT, Firearms II, Tactical Response, and Tactical Emergency Critical Care For Law Enforcement Officers.

30504510

Overview of Tactics - Credits: 1

Through classroom lecture, and on-campus lab, and WI Department of Justice 720 Academy integration exercises, students will learn and apply skills addressed in the following Department of Justice 720 Academy curriculum framework Phase I topics: Fundamentals of Firearms, Vehicle Contacts I, and Officer Wellness I, and DAAT I.

30504511

Scenario Assessment - Credits: 1

Scenario Assessment is a capstone course to assess the learner's cumulative knowledge through the use of scenarios in the certifiable Law Enforcement curriculum. COREQUISITES: All Criminal Justice - Law Enforcement 720 Academy Courses.

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

*Combination of On Site, Online, and Hybrid instruction

Program Overview

Protective services today require employees that are knowledgeable, ethical, have strong communication skills and are adaptable to ever-changing technological and societal changes. The Criminal Justice Studies Associate Degree program will prepare you for various positions in law enforcement, probation/parole, corrections, juvenile detention, police dispatching, security, or others. Additional positions in protective services may require a bachelors degree, such as with the FBI or other state/federal agencies.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor
- NOTE: A successful background check will be required prior to being admitted in the Criminal Justice - Law Enforcement 720 Academy or the Jail Academy. Information from the Criminal History Record Check may affect ability to find employment after graduation.

Program Outcomes

Criminal Justice Studies graduates will be able to:

- Illustrate the interrelationships of the three core components of the criminal justice system
- Analyze situational responses
- Apply communication skills as a criminal justice professional
- Conduct investigations
- Examine the professional code of ethics for a criminal justice practitioner
- Explore personal wellness strategies for the criminal justice professions
- Explain the role of criminal justice professionals in working with diverse populations

Career Outlook

Typical positions available after graduation include:

- Youth Care Workers
- Detention Workers
- Private Investigators
- Security Officers
- Dispatcher
- Park and Forestry Personnel
- Victim Witness Advocate

After completing the associate degree program, graduates may apply for the 200 Basic Jail Officer Academy or Criminal Justice - Law Enforcement 720 Academy. Typical positions available after completing an academy include:

- Police Officer
- Deputy Sheriffs
- Correctional Officers
- Probation/Parole Agent

With additional education or work experience, graduates may also pursue a position as a(n):

- Adult/Juvenile Administrator
- Institutional Case Worker/Social Worker
- Probation/Parole Administrator
- Youth Counselor/Case Aide
- Youth Detention Home Supervisor
- State Patrol/Troopers
- DNR Warden

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10504161

Courts/Jurisdiction - Credits: 3

This introductory course explores the development of the American judicial system. Students will examine the operational procedures of the federal, state, municipal, and specialized court systems as they impact law enforcement and/or corrections.

10504163

Criminal Justice-Introduction - Credits: 3

Students will explore the evolution of criminal justice systems, including courts, corrections, and law enforcement. Understand career pathways within the criminal justice system, including roles, functions, and professionalism.

10504164

Introduction to Criminal Law - Credits: 3

Identify basic concepts of criminal law. Students will explore the elements of various crimes against persons, property and crimes involving drugs, alcohol, or other criminal activity. Understand the diverse sentence structures in the criminal justice system.

10504165

Communication Strategies - Credits: 3

Students will learn about the communication process and techniques used to make them effective, professional communicators. Verbal and nonverbal communication strategies will be incorporated for a variety of situations and populations. Professional communication skills, including Motivational Interviewing (MI), interviewing, and interrogation techniques will be emphasized.

10504167

Policing Strategies - Credits: 3

Students will learn various policing strategies. Emphasis will be placed on community policing philosophies and problem solving using community resources. Understand how to identify and develop partnerships in the community to promote positive community relationships.

10504168

Wellness - Credits: 2

Understand how to maintain a healthy lifestyle, including stress management and relaxation, weight control, effective sleep, minimization of alcohol and tobacco use, financial stability, and spirituality. Recognize factors contributing to suicide within the criminal justice profession.

10504169

Criminal Justice Due Process - Credits: 3

Learn key concepts and principles of due process and constitutional law. The U.S. Constitution, particularly the Bill of Rights, will be analyzed as it applies to the criminal justice professionals. Legal precedent setting cases and state law will be reviewed.

10504172

Criminology - Credits: 3

This introductory course examines the nature, demographics, and impact of crime in the United States. Using a scientific approach, students will analyze the theoretical causation of criminal activity. Explore legal and political implications of crime prevention and control.

10504173

Criminal Justice Investigations - Credits: 3

Gain general knowledge of investigative strategies and techniques. Learn basic information on identifying, processing and preserving various types of evidence, and processing crime scenes. Interview and interrogation techniques will be practiced within legal guidelines of Miranda.

10504174

Correctional Institutions - Credits: 3

Students will study the evolution of punishment, jails, and prisons. Emphasis will be given to institutional subgroups, evidence based practice and rehabilitative institutional programs and services.

10504175

Juvenile Justice System - Credits: 3

Compare and contrast the juvenile and adult justice systems. The historical aspect of the juvenile system will be studied and compared to the modern day system. Juvenile sanctions and dispositions, including rehabilitation and therapy, will be discussed. Laws covering child maltreatment and children in need of protection services will be recognized.

10504176

Criminal Justice Ethics - Credits: 3

This course explores the ethical, legal, and criminal justice professional issues. It is designed to teach a process of ethical decision-making and to increase awareness of the complexities in the criminal justice system for criminal justice professionals.

10504177

Traffic Law Enforcement - Credits: 3

Gain a basic knowledge of Wisconsin traffic laws. General skills of detecting traffic violations, issuing traffic citations, directing traffic, and crash investigation will be gained. Identify responsibilities of a first responding officer, how to manage the response to a scene, and take necessary steps to enable effective follow-up as needed.

10504146

Probation/Parole - Credits: 3

Explore the function, duties, and role of probation and parole. Learn the types of offenses, sentencing process, presentence investigation, revocation procedures, transitioning, and alternatives to incarceration. Identify and implement classification and assessment tools proved to be effective in evidence based practice.

10504181

Criminal Justice Report Writing - Credits: 3

Learn basic requirements, guidelines, and skills for proper and professional written documentation of activities in a criminal justice setting. The student will explain the context of report writing, take effective field notes, organize information in reports, write narratives, and describe what information should/should not be included in certain types of reports.

10504183

Criminal Justice Capstone - Credits: 2

This course is the capstone work-based experience for the Criminal Justice Studies program. It is designed to encourage students to think critically and solve challenging problems. Students will design, develop, and perform a project either in an actual work experience or a simulated project. The project will be designed to utilize skills typical of a graduate in the field. Instructor approval is required prior to enrolling in this course. PREREQUISITE: 32 Credits of 10504XXX coursework must be completed.

10504184

Emerging Issues in Criminal Justice - Credits: 3

This course will explore contemporary trends and key issues associated within the criminal justice field. Drawing from student experience in learning, students will come up with solutions for responding to current issues. Topics may include implicit bias, mental health, CIT (Crisis Intervention Training), drug/alcohol effects, social media and technology, homeland security, and other current issues. PREREQUISITE: 32 credits of 10504XXX coursework must be completed.

Crop Production

61-080-3 Pathway Certificate (less than one year)

Campus: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Center: Balsam Lake*

*Combination of Hybrid and On Site instruction

Program Overview

The Crop Production pathway certificate will teach you the fundamentals of soil science and basic agronomy skills. Couple those skills with farm records and financials, and you will be prepared to rejoin your family's crop operation or manage your own farm after successful completion of this certificate.

Special Features

Crop Production courses are offered in a hybrid setting. This allows you to enjoy the freedom of taking classes through the internet live from anywhere.

Connect with your instructor and classmates during live classes via the web.

Evening courses will be available for individuals needing to complete continuing education requirements for FSA loans.

Certificate is available part time or over 2 years.

Labs will be on Fridays. These hands-on learning experiences will be held on-campus or at farm sites throughout the year.

Inquire

For more information on this program or schedule of courses, contact: Julie Wadzinski, instructor at Julie.Wadzinski@NorthwoodTech.edu or 715.788.7064.

Admission Requirements

- Complete Online application form

Course Descriptions

31080371

Soil Management - Credits: 3

Soil Management is important to the productivity and profitability of a farmer. The farmer is a steward of the land and an environmentalist. The farmer must take care of the soil or he will not be a farmer for long! The student in this class will learn how to prepare a land use plan, collect and interpret soil samples results, develop a plan for fertilizer use on crops, develop a plan for storage and use of manure, analyze new farm issues and practices to determine future use, evaluate tillage equipment and methods, and to practice farm and environmental safety.

31080372

Crop Management - Credits: 3

This course will help the student learn many items involved with agricultural crop production. These skills include but are not limited to management practices, pest control, harvesting options and practices, economics, planting practices, seed and variety selection, etc.

31080375

Farm Records and Analysis - Credits: 3

This course emphasizes the practical use of a farm record system in managing the farm through farm and financial analysis. Includes the establishment of farm business goals, selection and use of farm credit, farm business arrangements, farm estate planning, and farm income taxes. Instruction is provided on the use of computers and/or computer records and financial analysis of the farm business and finance strategy to meet the learner's needs. Production and financial decisions will be made based on the learner's farm business analysis. All competencies will be assessed using the learner's farm or with simulations established by the instructor.

Program Outcome

The Crop Production Certificate will prepare you to:

- Utilize agronomic resources for optimal farm production

Career Outlook

Typical positions available after graduation include:

- Field Technician
- Field Applicator
- Custom Operator
- Agricultural Equipment Operator

Career Pathway >

The Crop Production program is a pathway into the following program (page 229):

- Farm Operation

Related Programs

- Livestock Production
- Agricultural Business Fundamentals

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10104102

Marketing Principles - Credits: 3

This course focuses on the marketing process as it relates to the operation of a business enterprise. The intent is to provide students with an understanding of how the marketing function fits within the overall structure of the organization. Special attention is given to the role and significance of evaluating customer needs, pricing, distribution, and promotion of products and services.

10104191

Customer Service Management - Credits: 3

This course equips learners to selectively hire, train, manage, and measure customer service providers as well as strategies to recover from difficult service situations. Topics include telephone/online etiquette, active listening and problem solving. Best practices in handling complaints, controlling stress and managing customer expectations will be explored. An examination of internal systems and policies that impact service to include customer relationship management software will be explored. This course is designed to help managers and supervisors of customer service representatives to increase customer satisfaction, loyalty and profitability.

10114107

Principles of Finance - Credits: 3

The Principles of Finance course concentrates its study on the financial management of business. Students analyze profitability, cash flow, long-term investment decisions, long-term financing decisions, short-term working capital management, mergers, acquisitions, and business failure.

10105100

Introduction to Business - Credits: 3

This is an introductory course designed to develop an understanding of the activities, functions, and principles of business enterprises. The course helps to gain insight into the responsibilities and challenges of operating a business. Emphasis is on the interaction of the various functions required to operate businesses of all sizes. Specifically, the areas of business trends, ownership models, leadership, human resources, marketing, information management, and finance will be explored.

10196188

Project Management - Credits: 3

In Project Management, the learner applies the skills and tools necessary to design, implement, and evaluate formal projects. Each learner will demonstrate the application of the role of project management, developing a project proposal, use of relevant software, working with project teams, sequencing tasks, charting progress, dealing with variations, budgets and resources, implementation, and assessment.

Customer Service Specialist

17-105-2 Technical Certificate

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice, or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

Customer service specialists are in high demand in every organization. The ability to communicate clearly, listen effectively and provide exceptional customer service are essential skills for these positions. The Customer Service Specialist Certificate prepares you to serve a diverse customer base in business.

Admission Requirements

- Complete Online application form

Program Outcomes

The Customer Service Specialist certificate will prepare you to:

- Communicate clearly in a professional manner
- Provide ethical service to a diverse customer base
- Demonstrate effective listening skills
- Use appropriate technology (software and equipment) for customer service tasks
- Align products and services to customer needs

Career Outlook

After completing the Customer Service Specialist certificate, students' career opportunities will be strengthened with the ability to effectively and professionally communicate and provide both internal and external customer service to a global and diverse business community.

This certificate is a pathway to further credentials.

Course Descriptions

10104102

Marketing Principles - Credits: 3

This course focuses on the marketing process as it relates to the operation of a business enterprise. The intent is to provide students with an understanding of how the marketing function fits within the overall structure of the organization. Special attention is given to the role and significance of evaluating customer needs, pricing, distribution, and promotion of products and services.

10104104

Selling Principles - Credits: 3

This introductory course is designed to acquaint the student with the principles of selling and applications to the marketing of goods and services. Special emphasis is given to developing the selling process. Included are customer relations, sales psychology, steps to successful presentation, closing techniques, and sales motivation.

10104191

Customer Service Management - Credits: 3

This course equips learners to selectively hire, train, manage, and measure customer service providers as well as strategies to recover from difficult service situations. Topics include telephone/online etiquette, active listening and problem solving. Best practices in handling complaints, controlling stress and managing customer expectations will be explored. An examination of internal systems and policies that impact service to include customer relationship management software will be explored. This course is designed to help managers and supervisors of customer service representatives to increase customer satisfaction, loyalty and profitability.

10196138

Conflict Resolution and Confrontation Skills - Credits: 1

In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Dementia Care

61-544-2 Pathway Certificate

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online and Your Choice instruction

Program Overview

You will gain relevant and emerging information related to dementia types, symptoms and progression. You will be provided with practical tools and strategies that promote effective communication, honor human dignity, and support the importance of advanced planning. You will examine ways to positively impact your community through advocacy, education and other cutting edge initiatives based on coursework and experiential learning activities.

Special Features

- Flexible course selection and schedules
- 8-week rotating block courses offered in Online and Your Choice evening formats
- Part-time and full-time program options with flexible entry and exit
- Ideal for people entering the job market or choosing to enhance their current careers in service delivery or leadership roles within the gerontology field
- Blend program offerings with Healthcare, Emergency Services, Human Services, or Business Programs
- This is a unique program in the state

Admission Requirements

- Complete Online application form

Complete application and register for classes:

Registration

Outcomes

The Dementia Care Certificate will prepare you to:

- Analyze the physical, social, psychological, and spiritual aspects of aging throughout the lifespan
- Analyze the physical, social, psychological, and spiritual aspects of dementia
- Apply ethical and legal practice consistent with a gerontology professional
- Identify the role of the gerontology professional in the connection of service delivery
- Identify strategies to cultivate an age-friendly community

Career Outlook

Upon completion of the Dementia Care certificate you will be well prepared to use your knowledge, skills and abilities to work with older adults in a variety of positions in diverse settings such as:

- Hospitals
- Hospice
- Home Health Care and Assisted Living
- Long-Term Care, Nursing Homes and Group Homes
- Adult Care
- Senior Centers
- Community, Non-Profit and Government Agencies
- Counseling Centers
- Business and Industry

Career Pathway

The Dementia Care program is a pathway into the following program (page 231):

- Gerontology - Aging Services Professional

Related Programs

- Nursing - Associate Degree
- Human Services Associate
- Occupational Therapy Assistant
- Medical Assistant
- Paramedic Technician
- EMT - Paramedic
- Nursing Assistant
- Gerontology for Professionals

Required Courses

Program Courses		
10544100	Communication of Aging	3
10544107	Death and Dying	3
10544105	Alzheimer's and Dementia	3
10544111	Legal and Financial Issues of Aging	3
TOTAL CREDITS		12

You must earn a grade point of 2.0 or better in all 10544XXX courses.

Course Descriptions

10544100

Communication of Aging - Credits: 3

Develop effective communication strategies and supportive interview techniques that enhance rapport and relationships with aging populations. Apply ethical principles, standards and boundaries that acknowledge self-determination.

10544107

Death and Dying - Credits: 3

Explore societal, cultural, and personal views of death, dying, and bereavement. Examine losses experienced during the course of aging beyond the physical and emotional process of death and dying. Determine strategies for healthy transitions in coping with loss.

10544105

Alzheimer's and Dementia - Credits: 3

Examine the signs, symptoms and stages of Alzheimer's and other forms of dementia and how these diseases affect physiology and brain function. This course focuses on the principles of communicating and providing care to individuals with memory loss and confusion while learning the best practices for dealing with behavior changes, challenges with the activities of daily living, and strategies to assist caregivers.

10544111

Legal and Financial Issues of Aging - Credits: 3

Analyze legal and financial concepts and structures including Power of Attorney for health care/finance, guardianships, trusts, reallocation of assets, spending down, Medicare/Medicaid benefits, supplemental insurance, Social Security, elder abuse/neglect, financial exploitation, and relevant governmental policies. Apply knowledge through advocacy to benefit aging adults on local, state and federal levels.

Campus: Rice Lake

* Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Program Overview

Dental assistants with documented skills also may carry out a variety of laboratory, clinical and office duties. Some dental assistants manage the office and are responsible for patient scheduling and bookkeeping functions. Most dental assistants work in general or specialized dental offices, either for individual dentists or for groups of dentists. Some dental assistants may choose to work for insurance companies, dental laboratories, or dental supply companies. The dental assistant also may find employment with federal agencies such as the Veterans Affairs; United States Public Health Services; the Armed Forces; or a state, county or city health facility.

The program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval without reporting requirements". The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611. The Commission's Web address is: <https://coda.ada.org/>

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states, if applicable
- Pass a physical exam, have current immunizations, and demonstrate negative status for tuberculosis (Tb)
- COVID vaccination---highly recommended
NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.

- Possess current certification of "BLS Basic Life Support"
- Review and sign Health Sciences Confidentiality Statement
- Review and sign dental office visit form
- Review and sign dental assistant program permission form
- Participate in a mandatory program orientation session

Program Outcomes

Dental Assistant graduates will be able to:

- Perform a variety of advanced supportive dental procedures
- Manage infection and hazard control
- Produce diagnostic intraoral and extraoral radiographs on a variety of patients
- Perform advanced dental laboratory procedures
- Demonstrate professional behaviors, ethics, and appearance
- Perform dental office business procedures

Career Outlook

Typical positions available after graduation include:

- Dental Assistant
- Dental Receptionist
- Dental Office Manager
- Dental Practice Manager
- Dental Lab Technician
- Dental Laboratory Assistant
- Dental Insurance Claims Processor
- Dental Sales Representative
- Dental Treatment Coordinator
- Dental Specialty Assistant
- Maxillofacial Dental Assistant
- Endodontic Dental Assistant
- Prosthodontic Dental Assistant
- Orthodontic Dental Assistant
- Pediatric Dental Assistant
- Periodontic Dental Assistant

** See pages 38-41 for course descriptions.

You must earn a grade point of 2.0 or better in all required courses.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details.

NOTE: all hours are based on a 16-week calculation with the exception of Dental Assistant Clinical-Advanced (31508311) which needs to be at an 18-week hour calculation due to total hour requirements for the program.

All students must earn a minimum of 300 clinical experience hours. These hours are completed during 31508306 Dental Assistant Clinical and 31508311 Dental Assistant Clinical-Advanced.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10508101

Dental Health Safety - Credits: 1

Prepares dental auxiliary students to respond proactively to dental emergencies, control infection, prevent disease, adhere to OSHA Standards, and safely manage hazardous materials. Students also take patient vital signs and collect patient medical/dental histories. BLS Basic Life Support certification is a prerequisite; students will be required to show proof of certification before beginning the course. This course is a WTCS aligned course required in both the Dental Hygienist and Dental Assistant programs. PREREQUISITES: Current certification in BLS Basic Life Support and acceptance into the Dental Assistant program.

10508103

Dental Radiography - Credits: 2

Prepares dental auxiliary students to operate x-ray units and expose bitewing, periapical, extra oral, and occlusal radiographs. Emphasis is placed on protection against x-ray hazards. Students also process, mount, and evaluate radiographs for diagnostic value. In this course students demonstrate competency on a manikin. In addition, students expose bitewing radiographs on a peer, role-play patient. Students gain further experience in exposing radiographs on patients in the clinical portion of their program. This course also provides the background in radiographic theory required for students to make informed decisions and adjustments. COREQUISITES: 10508101 Dental Health Safety, 10508113 Dental Materials, 10508304 Dental and General Anatomy, 31508302 Dental Chairside, and 31508306 Dental Assistant Clinical.

10508113

Dental Materials - Credits: 2

Prepares dental auxiliary students to handle and prepare dental materials such as liners, bases, cements, amalgam, resin restorative materials, gypsum products, and impression materials. They also learn to take alginate impressions on manikins and clean removable appliances. This course is aligned to serve students in the Dental Hygienist and Dental Assistant programs. COREQUISITES: 10508101 Dental Health Safety, 10508103 Dental Radiography, 10508304 Dental and General Anatomy, 31508302 Dental Chairside, and 31508306 Dental Assistant Clinical.

10508120

Dental Office Management - Credits: 2

Prepares dental auxiliary students to manage telephones, appointments, recall systems, and inventory. Students also develop the skills needed to process accounts receivable and payable, collections, and third party reimbursements. Students use dental software programs. PREREQUISITE: Successful completion of all first term courses and COREQUISITES: 31508308 Dental Chairside Advanced, 31508309 Dental Laboratory Procedures, 31508310 Dental Radiography – Advanced, and 31508311 Dental Assistant Clinical – Adv.

10508304

Dental and General Anatomy - Credits: 2

Prepares dental assistant students to apply fundamentals of general and dental anatomy to informed decision-making and to professional communication with colleagues and patients. PREREQUISITE: Acceptance into the Dental Assistant program and COREQUISITES: 10508101 Dental Health Safety, 10508103 Dental Radiography, 10508113 Dental Materials, 31508302 Dental Chairside, and 31508306 Dental Assistant Clinical.

31508302

Dental Chairside - Credits: 5

Prepares dental assistant students to chart oral cavity structures, dental pathology, and restorations and to assist a dentist with basic dental procedures including examinations, pain control, amalgam restoration, and cosmetic restoration. Students will also develop the ability to educate patients about preventive dentistry, brushing and flossing techniques, and dental procedures, using lay terminology. Throughout the course, students will apply decoding strategies to the correct use and interpretation of dental terminology. COREQUISITES: 10508101 Dental Health Safety, 10508103 Dental Radiography, 10508113 Dental Materials, 10508304 Dental and General Anatomy, and 31508306 Dental Assistant Clinical.

31508306

Dental Assistant Clinical - Credits: 3

Students apply skills developed in Dental and General Anatomy, Dental Health Safety, Dental Chairside, Dental Materials, Dental Radiography, and Professionalism in a clinical setting with patients. Emphasizes integration of core abilities and basic occupational skills. COREQUISITES: 10508101 Dental Health Safety, 10508304 Dental and General Anatomy, 31508302 Dental Chairside, 10508113 Dental Materials, 10508103 Dental Radiography, and 31508307 Dental Assistant Professionalism.

31508307

Dental Assistant Professionalism - Credits: 1

Prepares dental assistant students for professional success in a dental practice or another dental health care environment. Students develop professional appearance and image. More importantly, they learn to work within ethical guidelines and legal frameworks. In preparation for entering the work force, dental assistants customize or develop their portfolios and lay out an on-going professional development plan. PREREQUISITE: Acceptance into the Dental Assistant program.

31508308

Dental Chairside Advanced - Credits: 5

Prepares dental assistant students to adapt chairside skills to assisting with dental specialties as they are performed in general practice. Focuses on pediatric dentistry, orthodontics, oral and maxillofacial surgery, endodontics, periodontics, and prosthodontics. Students will also develop the ability to assist with sealants, perform coronal polishing, and apply topical fluoride and topical anesthetics. PREREQUISITE: Successful completion of all first term courses and COREQUISITES: 10508120 Dental Office Management, 31508309 Dental Laboratory Procedures, 31508310 Dental Radiography – Advanced, and 31508311 Dental Assistant Clinical – Adv.

31508309

Dental Laboratory Procedures - Credits: 4

Prepares Dental Assistant students to produce alginate impressions and fabricate diagnostic models, oral appliances, temporary restorations, and custom trays. Students also polish oral appliances. PREREQUISITE: Successful completion of all first term courses and COREQUISITES: 10508120 Dental Office Management, 31508308 Dental Chairside Advanced, 31508310 Dental Radiography – Advanced, and 31508311 Dental Assistant Clinical – Adv.

31508310

Dental Radiography - Advanced - Credits: 1

Builds on principles and skills developed in Dental Radiography. Dental Assisting students expose full mouth series, extra-oral and specialized radiographs on adult and child patients. Emphasis is placed on protection against x-ray hazards. Students will also process, mount, and evaluate radiographs for diagnostic value. In addition, they will use radiographs to explain dental health and treatment plans to patients. PREREQUISITE: Successful completion of all first term courses and COREQUISITES: 10508120 Dental Office Management, 31508308 Dental Chairside Advanced, 31508309 Dental Laboratory Procedures, and 31508311 Dental Assistant Clinical – Adv.

31508311

Dental Assistant Clinical - Adv - Credits: 2

Dental Assisting students apply skills developed in Dental Chairside - Advanced, Dental Lab Procedures, Dental Radiography - Advanced, and Dental Office Procedures in a clinical setting with patients. Emphasizes integration of core abilities and basic and advanced occupational skills. PREREQUISITE: Successful completion of all first term courses and COREQUISITES: 10508120 Dental Office Management, 31508308 Dental Chairside Advanced, 31508309 Dental Laboratory Procedures, and 31508310 Dental Radiography - Advanced.

Diesel Equipment Technician

32-412-4 Technical Diploma (two-year)

Financial Aid Eligible

Campus: New Richmond

Program Overview

This program prepares students to service and repair Diesel powered medium and heavy duty over the road trucks. This hands-on program covers powertrains, electrical/electronics systems, chassis, suspension, hydraulics, air brakes, and diesel emissions.

Special Feature

Diesel Equipment Technician and Agricultural Power and Equipment Technician have a common first year.

Sponsorships

Northwood Tech's Diesel Equipment Technician program is sponsored by Noregon Systems and Pepsi, allowing technicians to practice real-time diagnostic repair and become certified in using the J-Pro Aftermarket computer interface.

Northwood Tech's Diesel Equipment Technician program is sponsored by River States Freightliner, providing students the opportunity to receive recognitions through Daimler for Freightliner and Western Star trucks using OEM software diagnostics.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Diesel Equipment Technician graduates will be able to:

- Diagnose major systems in diesel industry
- Repair major systems in diesel industry
- Service major systems in diesel industry
- Practice personal and professional work habits
- Document complaint, cause and correction

Career Outlook

Typical positions available after graduation include:

- Diesel Equipment Technician
- Fleet Maintenance Technician
- Equipment Mechanic
- Equipment Technician

Related Programs

- Truck Driving
- Agricultural Power and Equipment Technician

General Education Courses**

32801361	Applied Communications	2 cr.
32801362	Advanced Communication Skills	2 cr.
32804303	Applied Math	2 cr.
32804313	Applied Math 2	2 cr.
General Education Courses Total		8 cr.

TOTAL CREDITS 58 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

Courses available at the Rice Lake or Superior Campus. Corequisite override required by Academic Dean (for Automotive programs) for student to enroll in 32404376 DC Automotive Electrical and/or 32404377 Electrical Systems.

Courses available at the New Richmond Campus

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32070326

Basic Engines - Credits: 5

This course will provide the learner with an in depth look at how internal combustion engines operate. The learner will be able to identify, measure, and inspect parts of the internal combustion engine, with diesel engines used in agriculture machinery the main area of focus.

32070370

12 - Volt Electrical Theory - Credits: 2

This course is designed for the learner to understand (12-volt) DC electricity. Classroom trainers along with lab exercises will be used to learn electrical theory. Students will also be introduced to electrical wiring schematic reading, wire harness construction and repair. PREREQUISITE: 32412301 Diesel Safety and Industry Practices.

32404376

DC Automotive Electrical - Credits: 2

This course will introduce students to Ohm's law, electrical fundamentals, magnetism, and series and parallel circuits. Further studies will include automobile wiring diagrams, electrical test equipment, and basic troubleshooting. COREQUISITE: 32404351 Automotive Fundamentals.

32070338

Diesel Engine Theory - Credits: 1

This course will provide the learner with a basic understanding of the diesel engine. The design and operating principles of the engine, cooling, fuel, intake, exhaust systems, and lubrication systems will be examined. COREQUISITE: 32070326 Basic Engines.

32070339

Mobile Hydraulics Theory - Credits: 1

This course will provide a practical understanding of mobile hydraulic components. Their design, application, operation and maintenance will be studied. A hydraulic training bench will be used in the classroom. PREREQUISITE: 32070367 12 - Volt Electrical Circuits.

32070371

Introduction to Live Repair - Credits: 3

This course is designed to familiarize students with the procedures involved in the repair of various types of equipment. Students will gain hands-on experience through the repair of agricultural equipment and over-the-road semi-trucks. The type of equipment varies and must meet the needs of the students and program. PREREQUISITE: 32412301 Diesel Safety and Industry Practices and COREQUISITE: 32070370 12-Volt Electrical Theory.

32404377

Electrical Systems - Credits: 3

This course introduces battery, starting, and charging systems; theory of operation; diagnostic techniques; and servicing procedures. This course also includes exterior lighting systems; diagnostics and repair procedures. Wiring diagrams will be used and emphasized throughout the course. COREQUISITES: 32404351 Automotive Fundamentals and 32404376 DC Automotive Electrical.

32070361

Diesel Engine Repair - Credits: 5

This course provides the student with both a theoretical and practical background in the basic operation and rebuilding principles of diesel engines. The course includes practical experience in rebuilding, testing, troubleshooting, and tuning diesel engines. Additionally, the student will gain experience in the proper use of tools and equipment. If prerequisite courses have not been completed, the student must have consent of the instructor to enroll. COREQUISITES: 32070326 Basic Engines and 32070338 Diesel Engine Theory.

32070365

Mobile Hydraulics - Credits: 5

This course will provide a broad, general, and practical coverage of fluid power components and their design, application, operation, and maintenance. You will learn hydraulics operation by studying manufacturers' service manuals as well as a prepared text. Lab projects will allow hands-on training. PREREQUISITE: 32070367 12 - Volt Electrical Circuits and COREQUISITE: 32070339 Mobile Hydraulics Theory.

32070367

12 - Volt Electrical Circuits - Credits: 5

This course is designed to study the construction, operation and repair of electrical components and systems used in the agricultural/construction/heavy diesel truck field. Classroom activities will include reading and interpreting wiring diagrams, troubleshooting and repairing electrical circuits, and components (including performing repairs on alternators and starters). Computer based electrical circuits are introduced, with the opportunity to work with diagnostic laptops and scan tools. COREQUISITES: (32070370 12 - Volt Electrical Theory and 32070371 Introduction to Live Repair) or (32404376 DC Automotive Electrical and 32404377 Electrical Systems).

32070369

Mobile HVAC for Heavy Equipment - Credits: 1

Mobile HVAC for heavy equipment will teach the learner the basics of air conditioning systems. Air conditioning fundamentals will be learned along with proper servicing procedures and air conditioning equipment used. In depth study of air conditioning systems from older agricultural equipment will be looked at, along with study of new auto temperature control systems. EPA environmental laws pertaining to mobile air conditioning will be examined.

32412301

Diesel Safety and Industry Practices - Credits: 2

This course will introduce students to the safety and legal requirements and common shop practices of the diesel and heavy equipment industry. Personal safety as well as overall shop/job site safety will be emphasized while students learn to operate shop equipment and learn basic repair techniques common to all aspects of the diesel industry. Skills learned in this course will be directly applied throughout the diesel equipment technician program.

32412302

Diesel Truck Brake Systems - Credits: 3

This course is a practical study in performing diagnosis and repair of heavy truck braking systems. PREREQUISITE: 32412301 Diesel Safety and Industry Practices and 32070361 Diesel Engine Repair

32412303

Diesel Truck Chassis Systems - Credits: 3

This course is a practical study in performing diagnosis and repair of heavy truck chassis systems and components. PREREQUISITE: 32412304 Diesel Truck Powertrains

32412304

Diesel Truck Powertrains - Credits: 3

This course is a practical study in performing diagnosis and repair of heavy truck transmissions, differentials, and drivelines. PREREQUISITE: 32412301 Diesel Safety and Industry Practices and 32070361 Diesel Engine Repair

32412306

Alternative Fuels - Credits: 1

A practical study of the theories and procedures for the operation an preventive maintenance of non-traditional fuels and systems. PREREQUISITE: 32070361 Diesel Engine Repair

32412307

Diesel Truck Inspection - Credits: 2

This course is a practical study of performing Federal Department of Transportation (DOT) inspections and Federal Motor Carrier Safety Administration (FMCSA) guidelines on diesel trucks and equipment for highway use. Student will learn what defects to inspect. COREQUISITE: 32412310 Diesel Preventive Maintenance

32412308

Diesel Live Repair - Credits: 3

This course is designed to familiarize the student with the procedures involved in the repair of highway equipment. Hands-on experience will be gained through the repair of medium and heavy duty diesel trucks. The type of equipment may vary to meet the needs of the students and programs. PREREQUISITE: 32070371 Introduction to Live Repair

32412309

Advanced Diesel Engine Controls and Emissions - Credits: 1

This course will provide a broad, general, and practical coverage of electronic engine controls and multiple after treatment systems/emissions operations, components, and trouble shooting. Classroom and lab activities include comparing different engine systems and how they operate, identifying components and locations, and diagnosing problems. PREREQUISITE: 32070361 Diesel Engine Repair and 32070367 12-Volt Electrical Circuits

32412310

Diesel Preventive Maintenance - Credits: 2

This course is practical study in performing heavy truck preventive maintenance services. Students will learn how to follow a preventive maintenance schedule to prevent costly repairs and unsafe conditions. PREREQUISITE: 32412304 Diesel Truck Powertrains and 32412302 Diesel Truck Brake System

32442307

Welding for Mechanics - Credits: 2

Instruction in safe setup and operation of plasma cutting (PAC), oxy-fuel cutting (OFC), SMAW (Stick), GMAW (Mig), FCAW, and/or GTAW (Tig) welding in applications related to general industry practices. Selection of appropriate welding processes with a specific emphasis on typical repair situations including metal identification will be stressed

Drafting Technician

31-614-3 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland, New Richmond, Rice Lake, Superior

Join your classes through the Internet live from anywhere (through Online Live). Connect with your instructor and classmates during live classes via the web.

Program Overview

The Drafting Technician will work in various positions within the engineering, architectural, construction and manufacturing industries. Students will create working drawings and technical drawings from rough sketches or from scratch. Skills include the visualization of forms and shapes from blueprints and sketches, applying technical knowledge, attention to details, and competence on the latest versions of AutoCAD and REVIT software.

Special Feature

- This is a unique program in the state.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Drafting Technician graduates will be able to:

- Develop construction documents
- Examine basic construction materials and systems
- Use computer-aided drafting and architectural related software
- Utilize office practices and standards
- Utilize the Enrolled Wisconsin Commercial Building Code incorporating the International Building Code (IBC)

Career Outlook

Typical positions available after graduation include:

- Designer
- CAD Technician
- CAD Designer

Career Pathways

The Drafting Technician program includes the following pathway option (page 222):

- Architectural Commercial Design

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10614170	Architectural Materials and Methods 1	3 cr.
10614172	Architectural Drafting and Design 1*	4 cr.

10801196	Oral/Interpersonal Communication	3 cr.
10804118	Intermediate Algebra with Applications*	4 cr.
General Education Courses Total		7 cr.
TOTAL CREDITS		26 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

Course Descriptions

10614170

Architectural Materials and Methods 1 - Credits: 3
This course introduces the student to the materials and methods used in wood frame construction. It familiarizes students with components of modern construction for the purpose of selecting the materials best suited to various construction jobs.

10614172

Architectural Drafting and Design 1 - Credits: 4
This course introduces graphic representation in construction. It covers the fundamentals of drafting including line work, lettering, measuring, sketching, projections, and pictorial drawings. Students will use the aforementioned fundamentals to complete a set of drawings for a residence. COREQUISITES: 10614170 Architectural Materials and Methods 1 and 10614176 Architectural Technology 1.

10614173

Architectural Drafting and Design 2 - Credits: 4
This course introduces the student to the design principles needed for wood frame structures and incorporates the many aspects of building aesthetics and working drawings. The final assignment is to plan a set of drawings for a wood frame commercial building. PREREQUISITE: 10614172 Architectural Drafting and Design 1 and 10614176 Architectural Technology 1.

10614176

Architectural Technology 1 - Credits: 3
AutoCAD and related architectural software is utilized to teach learners the fundamentals of architectural computer-aided drafting. Topics from CAD applications in architecture and the equipment required to do actual drafting, modifying, and plotting operations are covered.

10614177

Architectural Technology 2 - Credits: 2
This course is an introduction to the application of BIM software in architectural drafting. Students will apply Revit Architecture software to create a three-dimensional building model that allows for deliverables such as floor plans, building sections, exterior elevations, and schedules. The building model will include walls, openings, floors, stairs, roofs, foundations, and footings. Topics such as datum, annotation, modifying family types, and profiles will be covered. PREREQUISITE: 10614170 Architectural Materials and Methods 1.

10614179

Mechanical Systems - Credits: 3
This course introduces basic principles of plumbing and electrical systems along with heating, ventilating and air conditioning systems in building design and construction. These systems are studied in the context of the overall building design with emphasis on materials, equipment systems design, engineering principles, and sustainable design practices. PREREQUISITE: 10614172 Architectural Drafting and Design 1 and 10614176 Architectural Technology 1.

Early Childhood Education

10-307-1 Associate Degree (two-year)

Financial Aid Eligible

Campuses: New Richmond, Rice Lake, Superior

Program Overview

The Early Childhood Education program will prepare you to work as a teacher or caregiver in an early childhood setting. You will have the opportunity to combine hands-on learning and student teaching experiences in community-based early childhood settings with related academic work at the college. As a student, you'll take a variety of courses related to early childhood development, curriculum, behavior guidance and working with families that will prepare you for success in this high-demand field. Graduates of this program will be recognized as Wisconsin Registry Career Level 12.

Special Features

Earn an Early Childhood Education degree in two years through Online or On Site classes.

General Education courses are offered in a variety of delivery methods including Online, Your Choice, or On Site instruction

Agreements between the Wisconsin Technical College System (WTCS) and the following baccalaureate degree-granting institutions allow graduates to transfer credits to:

- UW-Green Bay
- UW-Oshkosh
- UW-River Falls
- UW-Milwaukee
- UW-Stevens Point
- UW-Stout
- UW-Superior
- UW-Whitewater
- Concordia University Wisconsin
- Lakeland University
- Northland College
- Viterbo University

Contact the receiving institution for specific details.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Review and sign Background Check Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Submit required Background Check information and fee
 - Have an acceptable Wisconsin Caregiver Background Check and/or Minnesota Caregiver Background Check, as applicable - Information from the Caregiver Background Check may affect ability to secure field experience placement and the ability to find employment after graduation
 - Complete Staff Health Report - Child Care Provider form (physical form)
 - COVID vaccination--highly recommended
- NOTE:** Northwood Technical College cannot guarantee field experience placement or ability to progress in the program if a student is not able to meet the field experience site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other field experience requirements required by the field experience site. Northwood Technical College cannot guarantee field experience placement if the field experience site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the field experience start date.

There are four field experiences required in the Early Childhood Education program. Students will spend time off-campus for these courses, including: 48 hours for ECE: Field Experience 1, 96 hours for both ECE: Field Experience 2 and ECE: Field Experience 3, and 128 hours for ECE: Field Experience 4. Class contact time is also required as part of the field experience.

Program Outcomes

Early Childhood Education graduates will be able to:

- Apply child development theory to practice
- Cultivate relationships with children, family, and the community
- Assess child growth and development
- Use effective, research-based practices in teaching and learning
- Demonstrate professionalism
- Integrate health, safety, and nutrition practices

Career Outlook

Typical positions available after graduation include:

- Child Care Teacher
- Preschool Teacher
- Family Child Care Provider
- Infant or Toddler Caregiver
- Early Childhood Special Needs Assistant
- Public School Teacher Aide/Assistant
- Program Director/Administrator
- Head Start Assistant
- Au Pair/ Nanny

Career Pathways

The Early Childhood Education program includes the following pathway options (page 228):

- E-Connect - Child Care Services
- Group Child Care Essentials

Related Programs

- Human Services Associate
- Occupational Therapy Assistant

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

An Experiential Portfolio and/or Challenge Exam cannot be used as credit for prior learning for this course

+ You must earn a 2.0 or better in this course

Professional Licensure and/or Certification Information

Northwood Tech's Early Childhood Education Associate Degree is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10307108

ECE: Early Language and Literacy - Credits: 3

This course explores strategies to encourage the development of early language and literacy knowledge and skill building in children birth to 8 years of age.

10307110

ECE: Social Studies, Art, & Music - Credits: 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of social studies, art, music, and movement (SSAMM).

10307112

ECE: STEM - Credits: 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of science, technology, engineering and mathematics (STEM).

10307148

ECE: Foundations of Early Childhood Education - Credits: 3

This 3-credit course introduces the early childhood profession through a historical overview of the field. The course will explore program trends, quality indicators, and developmentally appropriate practices for children birth to age 8.

10307151

ECE: Infant & Toddler Development - Credits: 3

This 3-credit course explores infant and toddler development as it applies to an early childhood education setting. This course focuses children conception through thirty-six months. This course includes training for Wisconsin Breastfeeding Friendly Child Care certification.

10307160

ECE: Field Experience 1 - Credits: 3

In this 3-credit introductory field experience course, you will be introduced to the foundations of early childhood education under guided supervision of a mentor teacher in an early childhood setting, working with children birth through age 8. This course meets the requirements for the Wisconsin Model Early Learning Standards 18-hour training. PREREQUISITE: Admission to Early Childhood Education/E-CHILD or E-Connect-Child Care Services or dean approval.

10307167

ECE: Health, Safety, & Nutrition - Credits: 3

This 3-credit course examines the topics of health, safety, and nutrition within the context of the early childhood educational setting. This course includes training for Abusive Head Trauma, SIDS, and Mandated Reporter certifications.

10307170

ECE: Field Experience 2 - Credits: 3

In this 3-credit intermediate field experience course, you will assist the mentor teacher in carrying out classroom routines and implementing developmentally appropriate learning experiences that promote child development and learning through play. PREREQUISITE: 10307160 ECE: Field Experience 1

10307179

ECE: Child Development - Credits: 3

This 3-credit course examines child development within the context of the early childhood education setting. This course focuses on children ages 3-8 years.

10307187

ECE: Children with Differing Abilities - Credits: 3

This 3-credit course focuses on the child with differing abilities in an inclusive early childhood education setting while examining strategies for cultivating partnerships with families and community supports.

10307188

ECE: Guiding Children's Behavior - Credits: 3

This 3-credit course examines positive strategies to guide children's behavior in the early childhood education setting. This course meets the requirements of the Wisconsin Pyramid Model training.

10307190

ECE: Field Experience 3 - Credits: 3

In this 3-credit advanced field experience course, you will support young children's development through observation, assessment, and implementation of developmentally appropriate teaching strategies. PREREQUISITE: 10307170 ECE: Field Experience 2

10307195

ECE: Family & Community Relationships - Credits: 3

This 3-credit course will examine the role of relationships with family and community in early childhood education. In this course, students will complete the Strengthening Families Training.

10307210

ECE: Field Experience 4 - Credits: 3

In this final 3-credit pre-professional field experience course, you will demonstrate a comprehensive understanding of children and families as you practice the lead teacher role to design, implement, and evaluate a connected unit of learning experiences. PREREQUISITES: 10307160 ECE: Field Experience 1, 10307170 ECE: Field Experience 2 and 10307190 ECE: Field Experience 3.

Campus: Online

Program Overview

E-CHILD is an innovative Early Childhood Education associate degree program that blends online learning with community-based student teaching and prepares you to work as a teacher or caregiver in an early childhood setting. As a student, you'll take a variety of courses related to early childhood development, curriculum, behavior guidance and working with families to prepare you for success in this high-demand field. You will engage in a variety of online teaching and learning experiences, including virtual live face-to-face classroom sessions one evening per week, with optional open teaching labs and technical support available. Graduates of this program will be recognized as Wisconsin Registry Career Level 2.

E-CHILD is designed to build meaningful relationships, maximize educational technology and promote timely program completion.

Special Features

Earn an Early Childhood Associate degree online.

- Engage in a variety of online teaching and learning experiences
- Interact face to face in a virtual classroom setting with instructor and peers, one evening per week
- Technical Support available
- Community-based student teaching

Agreements between the Wisconsin Technical College System (WTCS) and the following baccalaureate degree-granting institutions allow graduates to transfer credits to:

- UW-GreenBay
- UW-Oshkosh
- UW-River Falls
- UW-Milwaukee
- UW-Stevens Point
- UW-Stout
- UW-Superior
- UW-Whitewater
- Concordia University Wisconsin
- Lakeland University
- Northland College
- Viterbo University

Contact the receiving institution for specific details.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Review and sign Background Check Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Submit Background Check information and fee)
 - Have an acceptable Wisconsin Caregiver Background Check and/or Minnesota Caregiver Background Check, as applicable
 - Information from the Caregiver Background Check may affect ability to secure field experience placement and the ability to find employment after graduation
 - Complete Staff Health Report - Child Care Provider form (physical form)
 - COVID vaccination--highly recommended
- NOTE:** Northwood Technical College cannot guarantee field experience placement or ability to progress in the program if a student is not able to meet the field experience site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other field experience requirements required by the field experience site. Northwood Tech offers a wide array of credit-based early childhood education courses, credentials, and degree options that align with the Youngstar requirements. For more information, go to www.NorthwoodTech.edu/ece.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10307108

ECE: Early Language and Literacy - Credits: 3

This course explores strategies to encourage the development of early language and literacy knowledge and skill building in children birth to 8 years of age.

10307110

ECE: Social Studies, Art, & Music - Credits: 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of social studies, art, music, and movement (SSAMM).

10307112

ECE: STEM - Credits: 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of science, technology, engineering and mathematics (STEM).

10307148

ECE: Foundations of Early Childhood Education - Credits: 3

This 3-credit course introduces the early childhood profession through a historical overview of the field. The course will explore program trends, quality indicators, and developmentally appropriate practices for children birth to age 8.

10307151

ECE: Infant & Toddler Development - Credits: 3

This 3-credit course explores infant and toddler development as it applies to an early childhood education setting. This course focuses children conception through thirty-six months. This course includes training for Wisconsin Breastfeeding Friendly Child Care certification.

10307160

ECE: Field Experience 1 - Credits: 3

In this 3-credit introductory field experience course, you will be introduced to the foundations of early childhood education under guided supervision of a mentor teacher in an early childhood setting, working with children birth through age 8. This course meets the requirements for the Wisconsin Model Early Learning Standards 18-hour training. PREREQUISITE: Admission to Early Childhood Education/E-Child or E-Connect-Child Care Services or dean approval.

10307167

ECE: Health, Safety, & Nutrition - Credits: 3

This 3-credit course examines the topics of health, safety, and nutrition within the context of the early childhood educational setting. This course includes training for Abusive Head Trauma, SIDS, and Mandated Reporter certifications.

10307170

ECE: Field Experience 2 - Credits: 3

In this 3-credit intermediate field experience course, you will assist the mentor teacher in carrying out classroom routines and implementing developmentally appropriate learning experiences that promote child development and learning through play. PREREQUISITE: 10307160 ECE: Field Experience 1

10307179

ECE: Child Development - Credits: 3

This 3-credit course examines child development within the context of the early childhood education setting. This course focuses on children ages 3-8 years.

10307187

ECE: Children with Differing Abilities - Credits: 3

This 3-credit course focuses on the child with differing abilities in an inclusive early childhood education setting while examining strategies for cultivating partnerships with families and community supports.

10307188

ECE: Guiding Children's Behavior - Credits: 3

This 3-credit course examines positive strategies to guide children's behavior in the early childhood education setting. This course meets the requirements of the Wisconsin Pyramid Model training.

10307190

ECE: Field Experience 3 - Credits: 3

In this 3-credit advanced field experience course, you will support young children's development through observation, assessment, and implementation of developmentally appropriate teaching strategies. PREREQUISITE: 10307170 ECE: Field Experience 2

10307195

ECE: Family & Community Relationships - Credits: 3

This 3-credit course will examine the role of relationships with family and community in early childhood education. In this course, students will complete the Strengthening Families Training.

10307210

ECE: Field Experience 4 - Credits: 3

In this final 3-credit pre-professional field experience course, you will demonstrate a comprehensive understanding of children and families as you practice the lead teacher role to design, implement, and evaluate a connected unit of learning experiences. PREREQUISITES: 10307160 ECE: Field Experience 1, 10307170 ECE: Field Experience 2 and 10307190 ECE: Field Experience 3.

Campus: Online (On Site and/or Online + Community-Based Student Teaching)

Program Overview

E-Connect-Child Care Services is an innovative Early Childhood Education one-year technical diploma that incorporates the first year of the Early Childhood Education associate degree. Choose from online or face-to-face courses, or mix and match. This coursework, combined with community-based student teaching, prepares you to work as a teacher or caregiver in an early childhood setting. As a student, you'll take a variety of courses related to early childhood development, curriculum, behavior guidance, and working with families to prepare you for success in this high-demand field. Graduates of this technical diploma will be recognized as Wisconsin Registry Career Level 11.

Special Features

- Earn an E-Connect - Child Care Services technical diploma in one year through On Site, Online and Online Live (synchronous) classes - mix and match.
- Meets "Year One" technical studies coursework required to obtain the Early Childhood Education associate degree with seamless opportunities for degree completion.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Review and sign Background Check Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Submit Background Check information and fee
 - Have an acceptable Wisconsin Caregiver Background Check and/or Minnesota Caregiver Background Check, as applicable - Information from the Caregiver Background Check may affect ability to secure field experience placement and the ability to find employment after graduation
 - Complete Staff Health Report - Child Care Provider form (physical form)
 - COVID vaccination---highly recommended
- NOTE:** Northwood Technical College cannot guarantee field experience placement or ability to progress in the program if a student is not able to meet the field experience site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other field experience requirements required by the field experience site. Northwood Technical College cannot guarantee field experience placement if the field experience site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the field experience start date.

There are two field experiences required in the E-Connect - Child Care Services program. ECE: Field Experience 1 requires a minimum of 48 hours of off-campus field experience and ECE: Field Experience 2 requires a minimum of 96 hours of off-campus field experience. Class contact time is also required as part of the field experience.

Program Outcomes

E-Connect - Child Care Services graduates will be able to:

- Relate knowledge of child development to practice
- Create relationships with children, family, and the community
- Apply observation, documentation, and assessment strategies
- Implement developmentally appropriate teaching and learning experiences
- Demonstrate professional practice
- Follow health, safety, and nutrition practices

Career Outlook

Typical positions available after graduation include:

- Child Care Teacher
- Child Care Assistant Teacher
- Family Child Care Provider
- Infant or Toddler Caregiver
- Au Pair/Nanny
- Early Childhood Special Needs Assistant
- Public School Teacher Aide/Assistant

Career Pathways >

The E-Connect - Child Care Services program includes the following pathway option (page 228):

- Group Child Care Essentials

E-Connect - Child Care Services is also a pathway into the following programs:

- Early Childhood Education
- E-Child

Required Courses

Number	Course Title	Credits (cr.)
10307108	ECE: Early Language and Literacy	3 cr.
10307110	ECE: Social Studies, Art, & Music	3 cr.
10307148	ECE: Foundations of Early Childhood Education	3 cr.
10307151	ECE: Infant & Toddler Development	3 cr.
10307160	ECE: Field Experience 1+	3 cr.
10307167	ECE: Health, Safety, & Nutrition	3 cr.
10307170	ECE: Field Experience 2*#+	3 cr.
10307179	ECE: Child Development	3 cr.
10307188	ECE: Guiding Children's Behavior	3 cr.

TOTAL CREDITS 27 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

An Experiential Portfolio and/or Challenge Exam cannot be used as credit for prior learning for this course

+You must earn a 2.0 or better in this course

Professional Licensure and/or Certification Information

Northwood Tech's E-Connect - Child Care Services Technical Diploma is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Northwood Tech offers a wide array of credit-based early childhood education courses, credentials, and degree options that align with the Youngstar requirements. For more information, go to www.NorthwoodTech.edu/ece.

<http://www.wisconsinearlychildhood.org/programs/teach/>

Course Descriptions

10307108

ECE: Early Language and Literacy - Credits: 3

This course explores strategies to encourage the development of early language and literacy knowledge and skill building in children birth to 8 years of age.

10307110

ECE: Social Studies, Art, & Music - Credits: 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of social studies, art, music, and movement (SSAMM).

10307148

ECE: Foundations of Early Childhood Education - Credits: 3

This 3-credit course introduces the early childhood profession through a historical overview of the field. The course will explore program trends, quality indicators, and developmentally appropriate practices for children birth to age 8.

10307151

ECE: Infant & Toddler Development - Credits: 3

This 3-credit course explores infant and toddler development as it applies to an early childhood education setting. This course focuses children conception through thirty-six months. This course includes training for Wisconsin Breastfeeding Friendly Child Care certification.

10307160

ECE: Field Experience 1 - Credits: 3

In this 3-credit introductory field experience course, you will be introduced to the foundations of early childhood education under guided supervision of a mentor teacher in an early childhood setting, working with children birth through age 8. This course meets the requirements for the Wisconsin Model Early Learning Standards 18-hour training. PREREQUISITE: Admission to Early Childhood Education/E-CHILD or E-Connect-Child Care Services or dean approval.

10307167

ECE: Health, Safety, & Nutrition - Credits: 3

This 3-credit course examines the topics of health, safety, and nutrition within the context of the early childhood educational setting. This course includes training for Abusive Head Trauma, SIDS, and Mandated Reporter certifications.

10307170

ECE: Field Experience 2 - Credits: 3

In this 3-credit intermediate field experience course, you will assist the mentor teacher in carrying out classroom routines and implementing developmentally appropriate learning experiences that promote child development and learning through play. PREREQUISITE: 10307160 ECE: Field Experience 1

10307179

ECE: Child Development - Credits: 3

This 3-credit course examines child development within the context of the early childhood education setting. This course focuses on children ages 3-8 years.

10307188

ECE: Guiding Children's Behavior - Credits: 3

This 3-credit course examines positive strategies to guide children's behavior in the early childhood education setting. This course meets the requirements of the Wisconsin Pyramid Model training.

Electrical Construction Apprenticeship

50-413-3 Apprenticeship

Campuses: Rice Lake

*Combination of Online, On Site and Hybrid instruction

Program Overview

Electricians plan, diagram, install, and repair electrical fixtures, apparatus, and control equipment such as switches, relays, and circuit breaker panels. They measure, cut, bend, thread, assemble, install electrical conduit (pipe or tubing), and pull wire through conduit. They test circuits' continuity to ensure the compatibility and safety of components, using instruments; such as the ohmmeter, megger, and other testing equipment. Electricians assemble, install, and wire electrical systems that operate heating, lighting, power, air conditioning, and refrigeration components; electrical machinery; electronic equipment and controls; and signal and communication systems.

Special Features

- Four year program
- 8,000 hours on-the-job training
- 576 hours of paid related instruction
- 104 hours of unpaid related instruction on own time
- First six months is the probationary period
- A state journeyman examination at the completion of the apprenticeship
- Wage scale of apprentice systematically increases throughout the apprenticeship
- The 47455401 Transition to Trainer course (8 hours) is required for completion. Will be taken in the last year of the apprenticeship.

For more information on apprenticeships, see page 28

Qualifications required by the Bureau of Apprenticeship Standards

- The minimum age of an apprentice is established to be 17 years of age. (Applicant must provide evidence of minimum age respecting any applicable State Laws or regulations.)
- All apprentices must be high school graduates, from a state accredited or state approved school, have a GED or High School Equivalency Certificate. High school transcript or proof of equivalency must be provided to the Committee on request.
 - WI Statute 118.15 (4), states that "instruction in a home-based private educational program that meets all of the criteria under s. 118.165 (1) may be substituted for attendance at a public or private school." Providers of the instruction must file form PI-1206 "Home-Based Private Educational Program" annually with the Department of Public Instruction (DPI). This form may be used as proof of instruction.
- Applicants will be physically capable of performing the essential functions of the Construction Electrician apprenticeship program, with or without a reasonable accommodation, and without posing a direct threat to the health and safety of the individual or others.
- All applicants must take one of the following assessments and satisfy the minimum scores: ACT: 16 Reading and 15 Math. Next Gen Accuplacer: 244 Reading, 235 Arithmetic and 237 Algebra. Scores will be accepted 5 years from the test date.
- The apprentice applicant must have the ability to get to and from school and work. Individual employers may require a valid driver's license at the time of placement as an apprentice.
- The apprentice applicant must have satisfactorily (with a passing grade of "C" or better) completed one year of high school algebra or its equivalency.
 - Equivalent courses are defined as: one (1) full year of high school Geometry, Algebra II, Trigonometry, or Calculus that are satisfactorily completed with

a passing grade of "C", or one (1) post high school Algebra, Geometry, Algebra II, Trigonometry, or Calculus course with a passing grade of "C".

- If an applicant does not meet the math requirements as specified in the above section, the applicant will be required to take and satisfactorily pass the 32804325 Applied Technical Math 1 course through Northwood Technical College with a "C" or better before being registered as an apprentice.

- To qualify as an equivalent, each course is required to be satisfactorily completed in its entirety, and each course will be considered separately.

- Must be approved by the Northwest Electrical Committee prior to being admitted to this apprenticeship.

Inquire

Contact, Eric Lockwood, Director, Apprenticeships and Academies, 715.246.1871, eric.lockwood@NorthwoodTech.edu

How to Get Started

To become an apprentice in the state of Wisconsin, one must first be indentured by the State Bureau of Apprenticeships Standards (BAS).

- Contact an employer on your own.
- Once you have an employer/sponsor, contact the Bureau of Apprenticeship Standards, to initiate the application process between you and your employer.

Admission Requirements

- Complete the Northwood Tech application form – Please contact Michelle Marshall at 715.246.1877 or michelle.marshall@northwoodtech.edu to obtain a Northwood Tech application

NOTE: Prior to applying at Northwood Tech, students are also required to submit an application to the Bureau of Apprenticeship Standards (Eau Claire Office).

The contact for the Bureau of Apprenticeship Standards is Long Vang, Apprenticeship Training Representative, at long.vang@dwd.wisconsin.org, 715.874.4627

- Complete Accuplacer Next Gen entrance assessment (individuals with valid ACT scores from within the last 5 years do not have to test) (academic admission requirements apply – see page 33 for more information)

Program-Specific Requirements

- Confirmation of admission from Northwood Tech Academic Affairs Apprenticeship Office

Program Outcomes

Electrical Construction Apprenticeship graduates will be able to:

- Apply AC and DC theory
- Apply electrical code requirements
- Apply operational principles to transformer installations
- Examine electric motor theory and applications
- Apply electric motor control theory and applications
- Analyze variable speed drives
- Interpret electrical and equipment drawings
- Communicate trade and occupational related information effectively

Related Program

- Technical Studies - Journeyworker (page 207)

Career Outlook

Typical positions available upon completion include:

- Electrician
- Control Electrician
- Electrical Journey Person
- Electrical Troubleshooter
- Housing Maintenance Electrician
- Industrial Electrician
- Inside Wireman
- Maintenance Electrician
- Paper Mill Electrician
- Wireman

Professional Licensure and/or Certification Information

Northwood Tech's Electrical Construction Apprenticeship meets the requirements of the Bureau of Apprenticeship Standards in Wisconsin. Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure in states other than Wisconsin should contact the appropriate apprenticeship bureau or licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

50413540

Electrician I - Credits: 2

Course explores electrical theories and DC circuits and applies those theories to construction related situations. Apprentices will review energy sources, electrical devices, current, voltage and resistance. Course covers how current, voltage, and power relate in various DC circuits. Hands-on labs will reinforce applications of concepts to developing trade skills.

50413541

Electrician II - Credits: 2

Course explores electrical theories and AC circuits and applies those theories to trade related situations. Concepts including reactance, vectors, and capacitance will be introduced. Apprentices will apply related concepts to various AC circuits. Hands-on labs will reinforce applications of concepts and help develop trade skills.

50413542

Electrician III - Credits: 2

Apprentices will continue learning about AC theory and electrical safety related work practices. The course will continue to examine transformers and apply principles to various installations and situations. Safety requirements related to rigging and signaling are included in this course.

50413543

Electrician IV - Credits: 2

Course continues the orientation to the trade. Apprentices will also examine conductor sizing and ampacities, working with branch circuits, services, devices, and assemblies. Electrical applications and NEC requirements will be covered. Additional safety related work practices associated with OSHA, NFPA, and job site hazards are included in the course. Blueprint reading and use of test instruments are introduced.

50413544

Electrician V - Credits: 2

Apprentices will learn about transformers and continue examining various electrical codes and practices related to the trade.

50413545

Electrician VI - Credits: 2

Conduit fabrication and related trade skills are included in this course. Trade math including fractions, decimals, and geometry will be applied to various situations. Offsets, bends, saddles and more fabrication techniques will be examined. Use of hand and power equipment will be explored. Hands-on lab projects will build skills required by electricians on a variety of job sites.

50413546

Electrician VII - Credits: 2

Apprentices learn about motors and generators in this course. Code and safety practices are reviewed. Code calculations help develop trade skills and apply concepts to job situations. Blueprint reading skills are applied to industrial applications. Lightning concepts are introduced.

50413547

Electrician VIII - Credits: 2

Course examines basic principles and concepts involved in motor controls. Control diagrams, and electrical theories related to motor controls are covered. Apprentices are introduced to motor control devices and components including electromechanical and solid state equipment. Safety requirements are identified and applied to various situations. NEC code calculations are discussed.

Emergency Medical Technician

30-531-3 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*

*Combination of On Site and Online Live instruction

Program Overview

Emergency Medical Technicians are the crucial link in the healthcare system. Graduates of the EMT program must complete the National Registry of Emergency Medical Technicians Exam for licensing. If successful, students will be eligible to apply for licensure as an EMT.

Graduates will know how to respond quickly to various life threatening emergencies. Students must be 18-years-old for licensing and will also be required to complete 10 patient contacts after obtaining a Training Center Training Permit. Students who successfully complete the program, with a program plan GPA of 2.0 or better, will be eligible to take the National Registry of EMT's cognitive and psychomotor examinations for Emergency Medical Technician (EMT) level of certification.

Special Features

Emergency Medical Technician (EMT) training is offered at various off-campus locations for your convenience.

On-site skills labs will be scheduled Thursdays and Saturdays at various locations.

Admission Requirements

- Complete Online application form

Program-Specific Requirements

- Be at least 17 years old
 - Attend a mandatory orientation session scheduled prior to start of class
 - Pay fee and have acceptable results based on the Wisconsin Criminal History Record Check, Wisconsin Caregiver Background Check, Minnesota Caregiver Background Check (if applicable), and/or other states if applicable
 - Information from the Caregiver Background Check may affect ability to obtain Training Permit from the State of Wisconsin
 - Provide current immunization history by the first day of class
 - Decision to not receive vaccinations may limit ability to obtain clinical placement based upon meeting site placement requirements
 - Demonstrate negative status for tuberculosis(Tb) by the first day of class.
 - Provide two negative Mantoux Tests (skin tests) or one blood draw test (QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot)
 - Review and sign Background Check Disclosure
 - Review and sign Functional Abilities Disclosure
 - Submit Background Information Disclosure (BID) Form
 - Complete Northwood Tech Authorization to Release Student Record Information with third party agency sponsor
 - Review and sign EMT Confidentiality Statement of Understanding Form
- NOTE:** Students will be required to complete the mandatory 47531437 BLS Basic Life Support or equivalent after the start of the program (BLS Basic Life Support is scheduled within the program).

Program Outcomes

The Emergency Medical Technician program is approved by the Wisconsin Department of Health Services because it uses the current National Emergency Medical Services Education Standards. Graduates will be able to:

- Prepare for incident response and EMS operations
- Integrate pathophysiological principles and assessment findings to provide appropriate patient care
- Demonstrate EMT skills associated with established standards and procedures for a variety of patient encounters
- Communicate effectively with others
- Demonstrate professional behavior
- Meet state competencies for EMT certification

Career Outlook

Emergency Medical Technicians are the crucial link in the healthcare system. Graduates of the EMT program must complete the National Registry of Emergency Medical Technicians Exam for licensing. If successful, graduates will be eligible to apply for licensure as an:

- EMT

Related Programs

- EMT - Paramedic
- Paramedic Technician
- Advanced EMT

Required Courses

Number	Course Title	Credits (cr.)
30531330	Emergency Medical Technician	5 cr.
TOTAL CREDITS		5 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Note: In order to successfully complete the program, you must complete the clinical portion of the class, which includes 10 documented patient contacts

Professional Licensure and/or Certification Information

Northwood Tech's EMT Technical Diploma is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets the requirements for preparation, examinations, or licensure for other states. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Description

30531330

Emergency Medical Technician - Credits: 5

This course prepares students for all aspects of emergency medical care, both medical and trauma situations, sanctioned by the Wisconsin Division of Health, at the basic level. Following the most current Wisconsin Revision of the National Standard Curriculum, this course includes didactic and practical skill information in the following areas: legal aspects, anatomy and physiology, patient assessment, critical thinking skills, airway adjuncts, fractures and dislocations, spinal injuries, soft tissue wounds, pharmacology, stroke, cardiac, diabetic, respiratory, altered mental status, pediatric, geriatric, ambulance operations, and triage. Successful completion of this course prepares the learner for the National Registry of EMT's cognitive and psychomotor examinations for Emergency Medical Technician (EMT) level of certification. **PREREQUISITE:** Admission to the program.

Emergency Medical Technician - Paramedic

31-531-1 Technical Diploma

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*

*Combination of On Site and Online Live instruction

Program Overview

The 16 - month Emergency Medical Technician - Paramedic (EMT - Paramedic) program is identical to the coursework in the Paramedic Technician associate degree program. The program offers students the opportunity to further their professional EMS careers. Instruction is based upon the U.S. DOT Administration/Wisconsin Department of Health Services and EMS curriculum - Paramedic Technician curriculum. Students are prepared with the knowledge and skills to work competently as an EMT - Paramedic. The program consists of classroom lectures, practical skills labs, laboratory simulations, and hospital and pre-hospital clinical experiences. Certifications in Advanced Cardiac Life Support and Pediatric Advanced Life Support are included, as well as neonatal advanced life support competencies. Students who successfully complete the program, with a grade point of 2.0 or better in all required courses, will be eligible to take the National Registry of EMT's examinations for Paramedic level of certification.

Students completing the 16-month EMT - Paramedic program have the option of returning to complete the associate degree program by completing all of the general education coursework outlined on page 190.

The Emergency Medical Technician - Paramedic program is accredited by the Commission on Accreditation of Allied Health Programs (www.caahep.org) upon recommendation of the Committee on Accreditation of Education Programs for the Emergency Medical Services Professions (CoAEMSP). This will enable graduates to take the NREMT Paramedic certification examinations upon successful completion of all portions of the Program Courses.

Special Features

- Core lecture coursework will be offered via Online Live on two evenings per week to all campus locations.
- On site skills labs will be scheduled every other Friday and Saturday at the Rice Lake Campus (per course schedule)
- The EMT - Paramedic program will be scheduled over 16 months, which includes clinicals over the summer term.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final transcript with confer date
- Provide proof of a current State of Wisconsin EMT license with expiration date
- Review and sign EMT Proof of Licensure Disclosure
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Attend a mandatory program orientation session
- Have current immunizations by the first day of class
 - Decision to not receive vaccinations may limit ability to obtain clinical placement based upon meeting site placement requirements
- Demonstrate negative status for tuberculosis (Tb) by the first day of class.
 - Provide two negative Mantoux Tests (skin tests) or one blood draw test (QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot)
- Pay fee and have acceptable results based on the Wisconsin Criminal History Record Check, Wisconsin Caregiver Background Check, Minnesota Caregiver Background Check (if applicable), and/or other states, if applicable
 - Information from the Caregiver Background Check may affect ability to obtain to secure clinical
- Review and sign EMT - Paramedic Confidentiality Statement of Understanding Form
- Submit signed Syllabi Form, Background Information Disclosure (BID) Form, and a Student ID Form
- Complete Northwood Tech Authorization to Release Student Record Information with third party agency sponsor
- Possess current certification of "BLS Basic Life

Support" or equivalent

- Certification must remain active through the completion of the program

Program Outcomes

EMT - Paramedic graduates will be able to:

- Prepare for incident response and EMS operations
- Integrate pathophysiological principles and assessment findings to provide appropriate patient care
- Demonstrate paramedic skills associated with established standards and procedures for a variety of patient encounters
- Communicate effectively with others
- Demonstrate professional behavior
- Meet state and national competencies listed for paramedic certification(s)

Career Outlook

Graduates of the program will be ready to start their career as paramedic technicians in a variety of healthcare settings including:

- Ambulance services
- Dispatch centers
- First responder units
- Hospitals/Emergency Departments
- Industrial Safety Departments
- Rescue squads
- Urgent care facilities

With further education, advancement potential may include:

- Critical Care Transport Paramedic
- Ambulance Service Training Coordinator
- EMS Shift Supervisor
- EMS Instructor
- Ambulance Service Manager
- Flight Paramedic

Career Pathways ➤

The EMT-Paramedic program is a pathway into the following program (page 249):

- Paramedic Technician

Related Programs

- Advanced EMT
- Emergency Medical Technician

10531911

EMS Fundamentals - Credits: 2

This course provides the paramedic student with comprehensive knowledge of EMS systems, safety, well-being, legal issues, and ethical issues, with the intended outcome of improving the health of EMS personnel, patients, and the community. The students will obtain fundamental knowledge of public health principles and epidemiology as related to public health emergencies, health promotion, and illness/injury prevention. Introducing students to comprehensive anatomical and medical terminology and abbreviations will foster the development of effective written and oral communications with colleagues and other health care professionals. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission.

10531912

Paramedic Medical Principles - Credits: 4

This course addresses the complex depth of anatomy, physiology, and pathophysiology of major human systems while also introducing the paramedic students to the topics of shock, immunology, and bleeding. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission.

10531913

Adv. Patient Assessment Principles - Credits: 3

This course teaches the paramedic student to integrate scene and patient assessment findings with knowledge of epidemiology and pathophysiology to form a field impression. By utilizing a structured and organized assessment process with knowledge of anatomy, physiology, pathophysiology, life span development, and changes that occur to the human body with time, the students will learn to develop a list of differential diagnoses through clinical reasoning, along with the ability to modify the assessment as necessary to formulate a treatment plan for their patients. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission. COREQUISITE: 10531912 Paramedic Medical Principles.

10531914

Adv. Pre-hospital Pharmacology - Credits: 3

This course provides the paramedic student with the comprehensive knowledge of pharmacology required to formulate and administer a pharmacological treatment plan intended to mitigate emergencies and improve the overall health of the patient. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission.

10531915

Paramedic Respiratory Management - Credits: 2

This course teaches the paramedic student to integrate complex knowledge of anatomy, physiology, and pathophysiology into the assessment to develop and implement a treatment plan with the goal of assuring a patient airway, adequate mechanical ventilation, and respiration for patients of all ages. Specific knowledge pertaining to the respiratory system is also provided to ensure the student is prepared to formulate a field impression and implement a comprehensive treatment plan for a patient with a respiratory complaint. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531914 Advanced Pre-hospital Pharmacology.

10531916

Paramedic Cardiology - Credits: 4

This course teaches the paramedic student to integrate assessment findings with principles of cardiovascular anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for a patient with a cardiovascular complaint. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531915 Paramedic Respiratory Management.

10531917

Paramedic Clinical/Field 1 - Credits: 3

This course provides the student with the opportunity to enhance his or her learning through the practice of paramedicine in field and health care environment experiences with actual patients under the supervision of instructors or approved preceptors. Student may also have the opportunity to participate in formal high-fidelity human patient simulator experiences as a part of this course. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission, 10531918 Advanced Emergency Resuscitation and 10531921 Special Patient Populations.

10531918

Advanced Emergency Resuscitation - Credits: 1

By teaching Advanced Cardiac Life Support (ACLS) and Pediatric Advanced Life Support (PALS) methodologies and protocols, this course prepares the paramedic student in the integration of comprehensive knowledge of causes and pathophysiology into the management of shock, respiratory failure, respiratory arrest, cardiac arrest, and peri-arrest states with an emphasis on early intervention to prevent respiratory and/or cardiac arrest if possible. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and 10531916 Paramedic Cardiology.

10531919

Paramedic Medical Emergencies - Credits: 4

This course teaches the paramedic student to integrate assessment findings with principles of anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for a patient with a medical complaint. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531918 Advanced Emergency Resuscitation.

10531920

Paramedic Trauma - Credits: 3

This course teaches the paramedic student to integrate assessment findings with principles of anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for an acutely injured patient. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531913 Advanced Patient Assessment Principles.

10531921

Special Patient Populations - Credits: 3

This course teaches the paramedic student to integrate assessment findings with principles of anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for patients with special needs. Gynecological emergencies, along with special considerations in trauma are also included within this course. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531913 Advanced Patient Assessment Principles.

10531922

EMS Operations - Credits: 1

This course provides the paramedic student with the knowledge of operational roles and responsibilities to ensure patient, public, and EMS personnel safety. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and 10531921 Special Patient Populations.

10531923

Paramedic Capstone - Credits: 1

This course provides the student with a final opportunity to incorporate their cognitive knowledge and psychomotor skills through labs and scenario-based practice and evaluations prior to taking the National Registry written and practical examinations. Technical skills attainment (TSA) for each student will be compiled and/or documented within this course as required by the DHS-approved paramedic curriculum. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531922 EMS Operations.

10531924

Paramedic Clinical/Field 2 - Credits: 4

This course provides the student with the opportunity to enhance his or her learning through the practice of paramedicine in field and health care environment experiences with actual patients under the supervision of instructors or approved preceptors. Students may also have the opportunity to participate in formal high-fidelity human patient simulator experiences as a part of this course. Successful completion of this course requires the student to meet all clinical competency requirements at the paramedic level as defined by WI DHS EMS. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and 10531917 Paramedic Clinical/Field 1.

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Center: Balsam Lake*

*Combination of Hybrid and On Site instruction

Program Overview

The Farm Operation program includes courses in livestock management and nutrition, crop and soil management, commodities and marketing, emerging trends in agriculture and farm records and analysis. This program is designed to give students the critical thinking skills necessary for profitable decision making. The Farm Operation Technical Diploma will give you both classroom and in the field instruction.

Special Features

Farm Operation courses are offered in a hybrid setting. This allows you to enjoy the freedom of taking classes through the internet live from anywhere.

Connect with your instructor and classmates during live classes via the web.

Labs will be on Fridays. These hands-on learning experiences will be held on-campus or at farm sites throughout the year.

Additional travel may be required for On the Farm 1 and On the Farm 2.

Evening courses will be available for individuals needing to complete continuing education requirements for FSA loans.

Program available part time or over 2 - 3 years.

Inquire

For more information on this program or schedule of courses, contact: Julie Wadzinski, instructor at Julie.Wadzinski@NorthwoodTech.edu or 715.788.7064.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Farm Operation graduates will be able to:

- Utilize agronomic resources for optimal farm production
- Evaluate livestock management plans
- Plan for operation and maintenance of farm facilities and equipment
- Create a farm business plan
- Apply marketing principles to agricultural enterprises

Career Outlook

Typical positions available after graduation include:

- CSA Owner
- Organic Farmer
- Farm Owner
- Farm Manager/Operator
- Farm/Field Crop Manager
- Livestock Farmer
- Breeder
- Farm Worker
- Dairy Laborer
- Dairy Herdsperson

Career Pathways

The Farm Operation program includes the following pathway options (page 229):

- Agricultural Business Fundamentals
- Crop Production
- Livestock Production

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
31094343	Farm Commodities	2 cr.
31080370	Operating the Farm Business	3 cr.
31080371	Soil Management	3 cr.
31080372	Crop Management	3 cr.
31080373	Livestock Nutrition	3 cr.
31080374	Livestock Management	3 cr.
31080375	Farm Records and Analysis	3 cr.
31080376	On the Farm 1	2 cr.
31080377	On the Farm 2	2 cr.
31080378	Emerging Trends in Agriculture	<u>3 cr.</u>
TOTAL CREDITS		27 cr.

Course Descriptions

31094343

Farm Commodities - Credits: 2

This course is designed to introduce students to the purpose, operation, and use of futures and options in managing commodity price risks. The objectives of the course are to understand commodity marketing, futures contracts, options contracts, basis, hedging and speculating strategies as part of a successful commodity risk management program. Students will be introduced to fundamental and technical analysis techniques.

31080370

Operating the Farm Business - Credits: 3

This course will help the student learn many items involved with running a modern farm. These skills include but are not limited to record keeping, selecting proper insurance for the farm, analyzing financial performance, identifying credit needs and sources, planning for crops, and planning for the feeding of livestock.

31080371

Soil Management - Credits: 3

Soil Management is important to the productivity and profitability of a farmer. The farmer is a steward of the land and an environmentalist. The farmer must take care of the soil or he will not be a farmer for long! The student in this class will learn how to prepare a land use plan, collect and interpret soil samples results, develop a plan for fertilizer use on crops, develop a plan for storage and use of manure, analyze new farm issues and practices to determine future use, evaluate tillage equipment and methods, and to practice farm and environmental safety.

31080372

Crop Management - Credits: 3

This course will help the student learn many items involved with agricultural crop production. These skills include but are not limited to management practices, pest control, harvesting options and practices, economics, planting practices, seed and variety selection, etc.

31080373

Livestock Nutrition - Credits: 3

The Livestock Nutrition course will instruct the student in the following areas: anatomy and physiology of livestock; nutrient requirements for calves, heifers, and cows; ration balancing for calves, heifers, lactating cows, and dry cows; determine livestock feed needs; evaluate by-product feeds and feed additives; low input livestock feeding; metabolic disorders; and current issues in agriculture. Individualized instruction will be held at the student's on-the-job work location. The class also involves credit for on-the-job experience.

31080374

Livestock Management - Credits: 3

Animal agriculture has changed dramatically in the past decade and will continue to change at an even more rapid rate in the future. With advanced technology, animals have been cloned from tissue cells other than the gametes. This may allow us to produce animal products other than the traditional milk, meat, and fiber of the past. Along with positive changes, we have new animal diseases, concerns for the environment, human health, and these things are happening in a very volatile, economic climate. This course will help you analyze the current situation and make plans to take advantage of the changes in animal agriculture brought about by technological advances. Only by taking advantage of this change will we be able to survive economically in a world market.

31080375

Farm Records and Analysis - Credits: 3

This course emphasizes the practical use of a farm record system in managing the farm through farm and financial analysis. Includes the establishment of farm business goals, selection and use of farm credit, farm business arrangements, farm estate planning, and farm income taxes. Instruction is provided on the use of computers and/or computer records and financial analysis of the farm business and finance strategy to meet the learner's needs. Production and financial decisions will be made based on the learner's farm business analysis. All competencies will be assessed using the learner's farm or with simulations established by the instructor.

31080376

On the Farm 1 - Credits: 2

In this course, students will enhance their knowledge with on farm practice of soil management strategies, crop management practices, risk management assessment, and analyzing farm records.

31080377

On the Farm 2 - Credits: 2

In this course, students will enhance their knowledge with on farm practice of Livestock management records, interpreting rations and feed analysis, understanding emerging trends in agriculture and analyzing farm records

31080378

Emerging Trends in Agriculture - Credits: 3

In this course, students will learn about the technological advances in production agricultural, relevant policy changes in legislation, consumer trends and new niche ventures. The production technology section will focus on data analysis and management from multiple sources including: robotic milkers, activity monitors, rumination meters, precision feeding, precision planting and harvesting data, satellite imagery and soil sampling.

Program Overview

In the Financial Services program, you will learn how to manage your personal finances as well as business finances. Imagine helping others get out of debt, save for retirement or increase profits and net worth. If you have a passion for helping yourself and others succeed, then the financial services program is the right choice for you.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Financial Services graduates will be able to:

- Apply Time Value of Money Concepts
- Evaluate Financial Data
- Assess Financial Investments
- Evaluate Insurance Concepts
- Apply Accounting Principles
- Evaluate Financial Markets

Career Outlook

Typical positions available after graduation include:

- Business Manager or Owner
- Customer Service Representative
- Loan Officer or Personal Banker
- Sales or Sales Manager
- Financial Analyst
- Investment Advisor
- Insurance Sales or Broker
- Real Estate Sales or Broker
- Stockbroker
- Accountant/Bookkeeper

Career Pathway

The Financial Services program includes the following pathway option (page 230):

- Financial Services Customer Representative

Related Programs

- Accounting
- Business Management

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10101103

Financial Accounting 2 - Credits: 4

Students will be introduced to corporate accounting. Students will have an understanding of corporate transactions with an emphasis on stocks and bonds. The student will analyze financial statements including the statement of cash flows. Managerial accounting is also introduced in this class. PREREQUISITE: 10101101 Financial Accounting 1.

10101138

Budgeting and Cost Control - Credits: 2

By using the tools and techniques learned in the class, students will understand how to use financial information to manage a business, make better financial decisions, increase business profitability, and improve cash flow. With a detailed review of what the numbers in the financial statements represent and how managers and owners use that information to be more successful in controlling and growing their business operations, students will learn how to use financial information to build an effective and realistic budget that can be used to control costs, improve profits and gain a competitive advantage. COREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103126

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10104102

Marketing Principles - Credits: 3

This course focuses on the marketing process as it relates to the operation of a business enterprise. The intent is to provide students with an understanding of how the marketing function fits within the overall structure of the organization. Special attention is given to the role and significance of evaluating customer needs, pricing, distribution, and promotion of products and services.

10104104

Selling Principles - Credits: 3

This introductory course is designed to acquaint the student with the principles of selling and applications to the marketing of goods and services. Special emphasis is given to developing the selling process. Included are customer relations, sales psychology, steps to successful presentation, closing techniques, and sales motivation.

10105125

Business Law - Credits: 3

Business Law provides the student with a working knowledge of the legal system, business ethics, and essentials of contracts. Students gain knowledge in logical and analytical thinking, and are encouraged to challenge legal issues and defend their point of view.

10114103

Money and Banking - Credits: 3

Money and Banking introduces students to money and the financial system, interest rates, financial institutions, and the Federal Reserve.

10114107

Principles of Finance - Credits: 3

The Principles of Finance course concentrates its study on the financial management of business. Students analyze profitability, cash flow, long-term investment decisions, long-term financing decisions, short-term working capital management, mergers, acquisitions, and business failure.

10114125

Personal Finance - Credits: 3

Personal Finance introduces students to money management, taxes, financial services, credit, real estate, insurance, stocks, bonds, mutual funds, retirement planning, and estate planning.

10114150

Investments - Credits: 3

Investments introduces students to stock and bond valuation models, options, futures, future options, international investing, and the spot market. In addition, the student will learn about various investment careers and the various licensing requirements, regulations, and laws that impact the investment community.

10114192

Principles of Insurance - Credits: 3

Principles of Insurance introduces students to insurance contracts, legal principles, and utilizing insurance as a risk management tool using automotive, homeowners, life, health, and commercial insurance.

10196189

Team Building and Problem Solving - Credits: 3

In Team Building and Problem Solving, the learner applies the skills and tools necessary to facilitate problem solving in a team environment. Each learner will demonstrate the application of the benefits and challenges of group work, necessary roles in a team, stages of team development, different approaches to problem solving, consensus, systematic process of problem definition, data acquisition, analysis, developing alternative solutions, solution implementation, evaluation, and documentation.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Financial Services Customer Representative

30-114-1 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice, and On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

Upon completion of the Financial Services Customer Representative program, you will have an understanding of where money goes and strategies for building financial security and wealth. Topics include credit cards, student loans, budgeting, saving, debt avoidance, debt reduction, negotiating deals, taxes, retirement, investing, buying a car, buying a house, planning or big purchases and insurance.

Admission Requirement

- Complete Online application form

Program Outcomes

Financial Services Customer Representative graduates will be able to:

- Apply time value of money concepts
- Evaluate financial data
- Apply accounting principles

Career Outlook

Typical positions available after graduation include:

- Bank Teller
- Customer Service Representative
- Member Services Representative
- Cashier
- Sales Associate
- Loan Analyst
- Loan Processor

Career Pathway >

The Financial Services Representative is a pathway into the following program (page 230):

- Financial Services

Funeral Service

10-528-1 Associate Degree (two-year)

Financial Aid Eligible

Campus: Ashland*, New Richmond*, Rice Lake*, Superior*, Online* and MATC**

Shared Program with Milwaukee Area Technical College (MATC)

*First year coursework will be available at Northwood Tech through multiple delivery options, including On Site, Online, or Your Choice instruction

**Second year coursework will be available at MATC through a high-flex delivery system, including face to face, virtual or recorded lecture. Students will be required to travel to MATC (West Allis Campus) for labs/tours.

Program Overview

This program prepares you for a career as a licensed funeral director and embalmer in a profession that demands compassion, dedication and creativity. Our rigorous curriculum trains students to become among the best funeral directors in the expanding death-care profession. Once accepted into the program, students are immersed in all facets of the funeral profession. Students are provided a variety of unique learning opportunities through lectures, hands-on labs, field trips, seminars, guest speakers and internships. Facilities include classrooms, state-of-the-art embalming and restorative art labs, arrangement conference room, merchandise selection room and funeral chapel. Students who complete the program will earn an associate degree and be eligible to take the National Board Exam for funeral directors (required for licensure). Coursework will include embalming, arranger training, grief studies, business management, religious funeral practices, and regulatory compliance.

Special Features

- This is a shared program with Milwaukee Area Technical College, please see their college webpage for more details including program and graduation requirements: [Funeral Service | MATC](#)
- Students are able to enroll in the Wisconsin Funeral Director's Apprentice. The coursework for this apprenticeship is available through MATC (FUNERL 500); it is a 16-hour face-to-face training course: [Wisconsin Licensed Funeral Director's Apprentice Course | MATC](#). To enroll in the apprenticeship, the student must have a HS diploma or equivalent and be 18 or older
- Degree will be conferred by Milwaukee Area Technical College.

Admission Requirements

- Complete Northwood Tech Online application form
- Submit a copy of Confirmation of Acceptance from Milwaukee Area Technical College (MATC) to Northwood Tech Student Services
 - Complete an admissions application to MATC Funeral Service program to receive this confirmation.
- Review and sign the Academic Partnership with Milwaukee Area Technical College (MATC) Disclosure Statement
- Complete admissions meeting with a Northwood Tech counselor

Program Specific Requirement

- Prior to petitioning with Northwood Tech (March):
 - Successfully complete or enroll in all required courses as documented on the Required Courses Document: [Funeral Service Required Courses | Northwood Technical College](#). Please note grade requirements.
 - Enroll, complete and obtain the Funeral Director's Apprentice license through MATC.
 - Secure funeral service field experience site. NOTE: Please work directly with the MATC Program Director if assistance is needed to secure a site.
- Petition to attend second year at MATC
- After successful petition with Northwood Tech (prior to first term at MATC):
 - Successfully complete all required coursework at Northwood Tech
 - Required travel to MATC during second year of program

Cumulative GPA of 2.5 (or higher) required

** See pages 38-41 for course descriptions

[^]This MATC program is approved at 64 total credits (41 technical students and 23 General Education). Due to transferability, Northwood Tech students will take 2 courses at 4 credits, which will meet the requirements of two 3-credit courses at MATC: General Chemistry (4 credits) transfers into Thanatochemistry (3 credits) and Financial Accounting 1 (4 credits) transfers into Financial Accounting (3 credits).

Program Outcomes

Employers will expect graduates of this program to be able to:

- Explain the importance of funeral service professionals in developing relationships with the families and communities they serve
- Identify standards of ethical conduct in funeral service practice
- Interpret how federal, state, and local laws apply to funeral service in order to ensure compliance
- Apply principles of public health and safety in the handling and preparation of human remains
- Demonstrate technical skills in embalming and restorative art that are necessary for the preparation and handling of human remains
- Demonstrate skills required for conducting arrangement conferences, visitations, services, and ceremonies
- Describe the requirements and procedures for burial, cremation, and other accepted forms of final disposition of human remains
- Describe methods to address the grief-related needs of bereaved
- Explain management skills associated with operating a funeral establishment
- Demonstrate verbal and written communication skills and research skills needed for funeral service practice

Career Outlook

The demand for licensed funeral directors and embalmers continues to grow. Graduates of this program have a high likelihood of employment in a variety of locations and work settings.

This Funeral Service degree program is recognized by the Wisconsin Funeral Directors Examining Board.

Possible careers include:

- Funeral Director
- Embalmer

Accreditation

The Funeral Service degree program at Milwaukee Area Technical College – West Allis Campus is accredited by the American Board of Funeral Service Education (ABFSE), 992 Mantua Pike, Suite 108, Woodbury Heights, NJ 08097; (816) 233-3747. Web: www.abfse.org.

This Funeral Service degree program is recognized by the Wisconsin Funeral Directors Examining Board.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10105125

Business Law - Credits: 3

Business Law provides the student with a working knowledge of the legal system, business ethics, and essentials of contracts. Students gain knowledge in logical and analytical thinking, and are encouraged to challenge legal issues and defend their point of view.

Milwaukee Area Technical College course descriptions are available in the MATC College Catalog or on the MATC website.

Gerontology - Aging Services Professional

10-544-1 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online and Your Choice instruction.

Program Overview

You will acquire comprehensive and interdisciplinary training to prepare you to work with older adults in a variety of positions and in diverse settings such as community, non-profit and government agencies, counseling centers, adult care, memory care, senior centers, home health care, assisted living, long-term care, nursing homes, group homes, hospitals, hospice, and business and industry. This innovative and flexible program blends online and experiential learning with community-based fieldwork (135 hours) and is designed to fit into busy life schedules. You can choose part-time or full-time program options and mix and match coursework.

Special Features

- This is a unique program in the state
- Flexible course selection and schedules
- 8 week rotating block courses offered in Online and Your Choice evening formats
- Part-time and full-time program options with flexible entry and exit
- Ideal for people entering the job market or choosing to enhance their current careers in service delivery or leadership roles within the gerontology field
- Blend program offerings with Healthcare, Emergency Services, Human Services, or Business Programs

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Review and sign Background Check Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirement

- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, Minnesota Caregiver Background Check, and/or other states background check if applicable
 - Information from the Caregiver Background Check may affect ability to secure fieldwork placement and the ability to find employment after graduation
- COVID vaccination---highly recommended
NOTE: Northwood Technical College cannot guarantee fieldwork placement or ability to progress in the program if a student is not able to meet the fieldwork site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other fieldwork requirements required by the fieldwork site. Northwood Technical College cannot guarantee fieldwork placement if the fieldwork site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the fieldwork start date.

Program Outcomes

Gerontology - Aging Services Professional graduates will be able to:

- Evaluate the physical, social, psychological, and spiritual aspects of aging throughout the lifespan
- Exhibit ethical and legal practice consistent with a gerontology professional
- Distinguish the role of the gerontology professional in the coordination of service delivery

- Cultivate an age-friendly community

Career Outlook

Gerontology - Aging Services Professional program graduates will be well prepared to use their knowledge, skills and abilities working with older adults in a variety of positions in diverse settings such as:

- Community, Non-Profit and Government Agencies
- Counseling Centers
- Adult Care
- Senior Centers
- Home Health Care and Assisted Living
- Long-term Care, Nursing Homes and Group Homes
- Hospitals
- Hospice
- Business and Industry

Potential Job Titles:

- Aging Services Provider
- Advocacy Specialist
- Geriatric Care Specialist
- Dementia Care Specialist/Provider
- Benefits Coordinator
- Client Navigation Specialist
- Activity/Recreation Coordinator
- Housing/Transportation Specialist
- Program Planner
- Private Service Provider

Career Pathways

The Gerontology - Aging Services Professional program includes the following pathway certificate options (page 231):

- Gerontology for Professionals
- Dementia Care

Related Programs

- Nursing-Associate Degree
- Occupational Therapy Assistant
- Paramedic Technician
- EMT-Paramedic
- Human Services Associate
- Criminal Justice Studies
- Nonprofit Leadership
- Medical Assistant
- Nursing Assistant

** See pages 38-41 for course descriptions.

Credit for prior learning not applicable for these courses.

You must earn a grade point of 2.0 or better in all 105XXXXX courses.

All students must earn a minimum of 135 hours of fieldwork hours. These hours are completed during 10544112 Gerontology Fieldwork.

Northwood Tech's Gerontology-Aging Services Professional program is now the second associate degree program in the United States to achieve national accreditation through the Accreditation for Gerontology Education Council. (AGEC)

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10520103

Ethics in Human Services - Credits: 3

This course explores the ethical, legal, and professional issues facing the human services worker. It is designed to teach a process of ethical decision-making and to increase awareness of the complexities in practice. Students are introduced to the current state and federal statutes, regulations, and judicial decisions that govern the professional practice in human services. Standards, code of ethics, clients' rights, and confidentiality are emphasized.

10520112

Family Systems - Credits: 3

This course focuses on issues related to families and family functioning relevant to the human services field. Major areas of focus will include child maltreatment, domestic violence, and addiction, with emphasis on relevant helping skills and services.

10544100

Communication of Aging - Credits: 3

Develop effective communication strategies and supportive interview techniques that enhance rapport and relationships with aging populations. Apply ethical principles, standards and boundaries that acknowledge self-determination.

10544101

Social Gerontology - Credits: 3

Explore aging in respect to social roles and processes. Topics include history of aging, demographics, family relationships, social supports, economics, retirement, loss, poverty and politics of aging.

10544102

Psychological Aspects of Aging - Credits: 3

Recognize how experience and history affect the value and societal expectations of each generation. Understand diversity among older adults including, but not limited to, race; ethnicity; culture; sexual orientation; and physical, cognitive and developmental disabilities.

10544104

Physical Aspects of Aging - Credits: 3

Analyze normal and pathological changes occurring in the aging human body with special emphasis on age-related chronic diseases. Topics addressed include analysis of biological theories of aging, cultural/ ethnic influence on aging pathologies, and other factors impacting the aging process.

10544105

Alzheimer's and Dementia - Credits: 3

Examine the signs, symptoms and stages of Alzheimer's and other forms of dementia and how these diseases affect physiology and brain function. This course focuses on the principles of communicating and providing care to individuals with memory loss and confusion while learning the best practices for dealing with behavior changes, challenges with the activities of daily living, and strategies to assist caregivers.

10544106

Healthy Aging - Credits: 3

Investigate practices that promote healthy aging including nutrition, physical activity, prevention practices, and commonly prescribed medications for the older adult. Emphasis will focus on the "well" elderly population and practices identified to address current aging trends.

10544107

Death and Dying - Credits: 3

Explore societal, cultural, and personal views of death, dying, and bereavement. Examine losses experienced during the course of aging beyond the physical and emotional process of death and dying. Determine strategies for healthy transitions in coping with loss.

10544108

Developing the Gerontology Professional - Credits: 3

Examine the various roles of the aging services professional and the contexts in which they work. Apply relationship building, communication, ethical standards, self-care planning and practices, documentation, and other related skills to case studies and real life situations. Function as an interdisciplinary team member addressing the complex needs of aging adults. PREREQUISITE: 10520103 Ethics in Human Services and successful completion of 15 credits of 105201XX or 105441XX coursework.

10544110

Programs of Aging Services - Credits: 3

Explore the wide spectrum of programs and services available to older adults that address a variety of physical, mental, emotional, social, financial, legal, spiritual, and recreational needs. Examine social policy as it relates to aging and available federal funding for the aging consumer including community resources, eligibility criteria, and how to access and coordinate services. Additional topics include supplementing social networking and enhancing mental health functioning.

10544111

Legal and Financial Issues of Aging - Credits: 3

Analyze legal and financial concepts and structures including Power of Attorney for health care/finance, guardianships, trusts, reallocation of assets, spending down, Medicare/Medicaid benefits, supplemental insurance, Social Security, elder abuse/neglect, financial exploitation, and relevant governmental policies. Apply knowledge through advocacy to benefit aging adults on local, state and federal levels.

10544112

Gerontology Fieldwork - Credits: 3

Examine the scope, values, and principles of the gerontology profession. Coursework introduces the typical roles and duties of aging services professionals. Students assess their own motivations, attitudes, and interests. In addition to the regular classroom hours, observation and fieldwork in a community-based setting working with older adults is required. Students must complete or have on file current, valid Background Information Disclosure (BID) and Caregiver Background Check (Wisconsin, Minnesota, and/or other states if applicable) forms, as part of this course. PREREQUISITE: 10544108 Developing the Gerontology Professional, 10520103 Ethics in Human Services and COREQUISITES: Successful completion or co-enrollment in all other core program courses.

Gerontology for Professionals

61-544-1 Pathway Certificate

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online and Your Choice instruction

Program Overview

You will be able to directly apply your acquired theory, knowledge and practical skills within a variety of professional settings. This pathway certificate is designed to enhance the education and experience of practitioners who work directly with older adults in healthcare and clinical settings, community-based programs, residential facilities, and private or for-profit business and industry.

Special Features

- Flexible course selection and schedules
- 8-week rotating block courses offered in Online and Your Choice evening formats
- Part-time and full-time program options with flexible entry and exit
- Ideal for people entering the job market or choosing to enhance their current careers in service delivery or leadership roles within the gerontology field
- Blend program offerings with Healthcare, Emergency Services, Human Services, or Business Programs
- This is a unique program in the state

Admission Requirements

- Complete Online application form

Complete application and register for classes:

Registration

Program Outcomes

The Gerontology for Professionals certificate will prepare you to:

- Analyze the physical, social, psychological, and spiritual aspects of aging throughout the lifespan
- Apply ethical and legal practice consistent with a gerontology professional
- Identify the role of the gerontology professional in the connection of service delivery
- Identify strategies to cultivate an age-friendly community

Career Outlook

Upon completion of the Gerontology for Professionals certificate you will be well prepared to use your knowledge, skills and abilities to work with older adults in a variety of positions in diverse settings such as:

- Hospitals
- Hospice
- Home Health Care and Assisted Living
- Long-Term Care, Nursing Homes and Group Homes
- Adult Care
- Senior Centers
- Community, Non-Profit and Government Agencies
- Counseling Centers
- Business and Industry

Career Pathway

The Gerontology for Professionals program is a pathway into the following program (page 231):

- Gerontology - Aging Services Professional

Related Programs

Group Child Care Essentials

61-307-6 Pathway Certificate

Campuses: New Richmond, Rice Lake, Superior, Online

Program Overview

As a student in the Group Child Care Essentials certificate, you will gain a better understanding of the knowledge and skills required of a child care teacher. This pathway certificate was developed with two courses from the Wisconsin Technical College System statewide curriculum for the associate degree in Early Childhood Education. Completers of this certificate will meet the Wisconsin Department of Children and Families licensing guidelines for teachers in group child care centers and will be recognized as Wisconsin Registry Career Level 7.

Special Features

- All of the courses ladder into the E-Connect - Child Care Services Technical Diploma and E-CHILD / Early Childhood Education Associate Degree programs.
- Training meets requirements for licensed group center lead teacher
- Completers of this pathway certificate will be recognized as Wisconsin Registry Career Level 7

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure

Professional Licensure and/or Certification Information

Northwood Tech's Group Child Care Essentials is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Program Outcomes

The Group Child Care Essentials pathway certificate will prepare you to:

- Assess the development of preschool children
- Provide a healthy, safe, and nutritionally sound preschool environment
- Integrate strategies that support diversity and anti-bias perspectives

Career Outlook

Upon completion of this certificate you will be ready for careers in:

- Child Care Centers
- Preschools or Nursery Schools
- Family Child Care Homes

Typical Positions Include:

- Child Care Teacher
- Assistant Child Care Teacher

Career Pathways

The Group Child Care Essentials program is a pathway into the following programs (page 228):

- E-Connect - Child Care Services
- Early Childhood Education
- E-CHILD

Related Program

- Professional Credential for Infant/Toddlers (Wisconsin)

Northwood Tech offers a wide array of credit-based early childhood education courses, credentials, and degree options that align with the Youngstar requirements. For more information, go to www.NorthwoodTech.edu/ece.

Course Descriptions

10307167

ECE: Health, Safety, & Nutrition - Credits: 3

This 3-credit course examines the topics of health, safety, and nutrition within the context of the early childhood educational setting. This course includes training for Abusive Head Trauma, SIDS, and Mandated Reporter certifications.

10307179

ECE: Child Development - Credits: 3

This 3-credit course examines child development within the context of the early childhood education setting. This course focuses on children ages 3-8 years.

Campus: Online

Program Overview

A degree in Health Information Technology (HIT) gives graduates the ability to work in healthcare with a focus on managing health information rather than on direct patient interaction. With this degree you will gain competency in medical coding, ensuring the integrity of health information, analyzing data, adhering to legal and regulatory standards, leading a team and quality management. You'll master this content through simulated learning activities and with the use of academic software applications (electronic health records, encoders, etc.).

Special Features

- All courses will be offered online
- The program may be completed in a full-time or part-time format
- Students participate in a supervised clinical experience (fourth semester).

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check fee
- Have an acceptable National Criminal Background Check and state-specific caregiver background check for where the HIT clinical experience will be completed
- Pass a physical exam, have current immunizations and demonstrate negative status for tuberculosis (Tb)
- COVID vaccination---highly recommended

NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®. TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.

- Review and sign Health Sciences Confidentiality Statement
- Review and complete the computer skills inventory
- Review Health Information Technology program orientation materials
- Meet with Health Information Technology program advisor to determine program sequencing and completion goals

Program Outcomes

Health Information Technology graduates will be able to:

- Apply data governance principles to ensure the quality of health data
- Apply coding and reimbursement systems
- Model professional behaviors and ethics
- Apply informatics and analytics in data use
- Apply organizational management techniques

Career Outlook

Typical positions available after graduation include:

- Health Information Technician
- HIM Supervisor
- Insurance/Business Specialist

Career Pathway

The Health Information Technology program includes the following pathway option (page 232):

- Medical Coding Specialist

The Health Information Management accreditor of Northwood Technical College is the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). The College's accreditation for the Health Information Technology degree in Health Information Management has been reaffirmed through 2024-2025.

All inquires about the program's accreditation status should be directed by mail to CAHIIM, 200 East Randolph Street, Suite 5100, Chicago, IL, 60601; by phone at 312.235.3255; or by email at info@cahiim.org.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

10501107

Digital Literacy for Healthcare - Credits: 2

The focus of this course is the use of technology in healthcare. Learners use common business software applications, including word processing, presentation, spreadsheet, and databases. Communication methods using technology are addressed. Learners gain experience with using the electronic health record (EHR). Healthcare EHR security issues, social media use, and digital healthcare resources are examined.

10530159

Healthcare Revenue Management - Credits: 3

Prepares learners to compare and contrast health care payers and evaluate the reimbursement cycle and compliance with regulations. Learners assign payment classifications with entry level proficiency using computerized encoding and grouping software. COREQUISITES: 10530162 Foundations of HIM, 10530182 Human Disease for the Health Professions, 10530184 CPT Coding, 10530197 ICD Diagnosis Coding, and 10530199 ICD Procedure Coding.

10530161

Health Quality Management - Credits: 3

Explores the programs and processes used to manage and improve healthcare quality. Addresses regulatory requirements as related to performance measurement, assessment, and improvement, required monitoring activities, risk management and patient safety, utilization management, and medical staff credentialing. Emphasizes the use of critical thinking and data analysis skills in the management and reporting of data. PREREQUISITE: 10530163 Healthcare Stats and Analytics.

10530162

Foundations of HIM - Credits: 3

Introduces learners to the healthcare delivery system, and the external forces that influence healthcare delivery. Sets an understanding for the expectations and standards related to professional ethics, confidentiality and security of health information. Differentiates the use and structure of healthcare data elements, data standards, and the relationships between them. Prepares learners to collect and maintain health data to ensure a complete and accurate health record. PREREQUISITE: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist and COREQUISITE: 10501107 Digital Literacy for Healthcare.

10530163

Healthcare Stats and Analytics - Credits: 3

Explores the management of medical data for statistical purposes focusing on descriptive and inferential statistics including definition, collection, calculation and compilation of numerical data. Examines data analytics, retrieval, presentation and research methodologies. PREREQUISITE: 10530162 Foundations of HIM and 10804189 Introductory Statistics.

10530164

Intro to Healthcare Informatics - Credits: 3

Emphasizes the role of information technology in healthcare through an investigation of the electronic health record (EHR), business, and health information software applications. Learners will develop skills to assist in enterprise information management and database architecture design and implementation. PREREQUISITES: 10530162 Foundations of HIM and 10501107 Digital Literacy for Healthcare.

10530165

Intermediate Coding - Credits: 3

Prepares students to assign ICD and CPT/HCPCS codes supported by medical documentation and official coding guidance to support appropriate reimbursement. Students will participate in CDI activities, including preparation of appropriate physician queries in accordance with compliance guidelines. PREREQUISITES: 10530184 CPT Coding and 10530197 ICD Diagnosis Coding and successful completion of COREQUISITE: 10530199 ICD Procedure Coding is required prior to taking Intermediate Coding.

10530166

HIT Capstone - Credits: 1

Explore technical skills and professional attributes desired for the HIM profession, and conduct activities to assess one's own readiness to enter the health information industry. COREQUISITE: 10530196 Professional Practice.

10530167

Management of HIM Resources - Credits: 3

Examines the principles of management to include planning, organizing, human resource management, directing, and controlling as related to the health information department. PREREQUISITE: 10530162 Foundations of HIM.

10530178

Healthcare Law & Ethics - Credits: 2

Examines regulations for the content, use, confidentiality, disclosure, and retention of health information. An overview of the legal system and ethical issues are addressed. PREREQUISITE: 10530162 Foundations of HIM.

10530182

Human Disease for the Health Professions - Credits: 3

Prepares learners to interpret clinical documentation that they will encounter in a variety of healthcare settings. Emphasis is placed on understanding the common disorders and diseases of each body system to include the etiology (cause), signs and symptoms, diagnostic tests and results, and medical treatments and surgical procedures. PREREQUISITE: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist and COREQUISITES: 10501101 Medical Terminology and 10806177 General Anatomy and Physiology.

10530184

CPT Coding - Credits: 3

Prepares learners to assign CPT/HCPCS codes, supported by medical documentation, with entry level proficiency. Learners apply instructional notations, conventions, rules, and official coding guidelines when assigning codes to case studies and actual medical record documentation. COREQUISITES: 10501101 Medical Terminology, 10530182 Human Disease for the Health Professions and 10806177 General Anatomy and Physiology.

10530196

Professional Practice - Credits: 3

Applies previously acquired skills and knowledge by means of clinical experiences in the technical procedures of health record systems and discussion of clinical situations. Student may participate in a supervised clinical experience in healthcare facilities. PREREQUISITE: 10530165 Intermediate Coding and COREQUISITES: 10530161 Health Quality Management, 10530167 Management of HIM Resources, and 10530166 HIT Capstone.

10530197

ICD Diagnosis Coding - Credits: 3

Prepares students to assign ICD diagnosis codes supported by medical documentation. Students apply instructional notations, conventions, rules, and official coding guidelines when assigning ICD diagnosis codes to case studies and actual medical record documentation. PREREQUISITE: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist and COREQUISITES: 10501101 Medical Terminology, 10530182 Human Disease for the Health Professions and 10806177 General Anatomy and Physiology.

10530199

ICD Procedure Coding - Credits: 2

Prepares students to assign ICD procedure codes supported by medical documentation with entry-level proficiency. Students apply instructional notations, conventions, rules, and official coding guidelines when assigning ICD procedure codes to case studies and actual medical record documentation. PREREQUISITES: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist 10501101 Medical Terminology, and 10806177 General Anatomy and Physiology and COREQUISITE: 10530182 Human Disease for the Health Professions.

Health Office Professional

31-160-1 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

*Combination of Online, Your Choice or On Site instruction.

Program Overview

The Health Office Professional (HOP) technical diploma combines medical office skills with computer skills to prepare you for employment on the administrative side of healthcare working in physician's offices, clinics, hospitals, nursing homes and other health organizations.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Health Office Professional graduates will be able to:

- Perform routine healthcare administrative procedures
- Demonstrate effective workplace communications
- Apply technology skills to business and administrative tasks
- Maintain internal and external relationships
- Model professionalism

Career Outlook

Typical positions available after graduation include:

- Medical Office Specialist
- Medical Secretary
- Medical Receptionist
- Hospital Admissions Representative
- Customer Service Representative
- Medical Scheduler
- Health Information Clerk

Career Pathways

The Health Office Professional program includes the following pathway option (page 245):

- Healthcare Receptionist

Health Office Professional is also a pathway into the following program:

- Medical Administrative Professional

Related Programs

- Medical Billing Specialist
- Office Support Specialist

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10103125	MS Outlook	1 cr.
10103146	MS Word A	1 cr.
10103151	MS Excel A	1 cr.
10103184	Advanced Document Applications*	2 cr.
10106146	Document Management & Editing	3 cr.
10160135	Medical Documentation Essentials*	3 cr.
10160140	Medical Office Administration*	3 cr.
10160143	Medical Office Procedures and Customer Service	2 cr.
10160150	Telehealth Essentials	1 cr.
10196138	Conflict Resolution and Confrontation Skills	1 cr.
10501101	Medical Terminology	<u>3 cr.</u>
Program Courses Total		21 cr.
General Education Courses**		
10801136	English Composition 1	3 cr.
10801196	Oral/Interpersonal Communication	3 cr.
10804123	Math with Business Applications	<u>3 cr.</u>
General Education Courses Total		9 cr.
TOTAL CREDITS		30 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

Required Courses are Pending WTCS Approval

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103184

Advanced Document Applications - Credits: 2

This is the second course in a sequence that developed skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, mail merge, desktop publishing, themes, templates, forms, sort, styles, references, captions, and macros. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365. COREQUISITE: 10103146 MS Word A

10160135

Medical Documentation Essentials - Credits: 3

This course is designed to expand the student's medical vocabulary and develop skill in keyboarding, formatting, editing, storing, and printing medical documents. Emphasis is placed on speed building and accuracy improvement. PREREQUISITES: 10501101 Medical Terminology and 10103184 Advanced Document Applications

10160140

Medical Office Administration - Credits: 3

Simulates handling patients and employees, applying customer service skills, and the use of computers in a medical/clinical setting. Hands-on experience in scheduling appointments, work in electronic medical records, establishing a fee schedule, and practice management. Utilizes Microsoft Office software, electronic billing software, electronic medical record software, telephone systems, internet, fax and e-mail. PREREQUISITE: 10160143 Medical Office Procedures and Customer Service.

10160143

Medical Office Procedures and Customer Service - Credits: 2

This course develops professional skills and attitudes needed in a medical business environment. Skills developed include an ability to communicate effectively with patients and other medical office staff, manage time effectively, schedule patients, greet patients, use the telephone properly, process mail, apply ergonomics and office safety, and use medical computer software efficiently.

10106146

Document Management & Editing - Credits: 3

This course will focus on document formatting requirements for a variety of business documents and correspondence. Students will learn file management, document sharing, and collaborative document editing. Emphasis will be placed on proofreading, proper grammar, mechanics, keying speeds and accuracy. This project-based course uses individual and group activities.

10160150

Telehealth Essentials - Credits: 1

This course will develop the skills needed to apply Telemedicine in a healthcare setting. Skills developed include facilitating Telehealth visits by communicating effectively with patients and other medical office staff, applying legal procedures for Telehealth visits, managing time effectively, and maintaining professionalism and confidentiality while working in various Telehealth settings.

10196138

Conflict Resolution and Confrontation Skills - Credits: 1

In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

Healthcare Receptionist

30-160-2 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

*Combination of Online, Your Choice or On Site instruction.

Program Overview

The Healthcare Receptionist short-term diploma prepares students to perform a variety of office support functions within a health care organization. This embedded technical diploma fully ladders into the Health Office Professional technical diploma and the Medical Administrative Professional associate degree.

Admission Requirement

- Complete Online application form

Program Outcomes

Healthcare Receptionist graduates will be able to:

- Perform routine healthcare administrative procedures
- Apply technology skills to business and administrative tasks
- Maintain internal and external relationships
- Model professionalism

Career Outlook

Typical positions available after graduation include:

- Patient Services Representative
- Medical Scheduler
- Medical Information Clerk
- Appointment Coordinator
- Patient Access Representative

Career Pathways

The Healthcare Receptionist program is a pathway into the following programs (page 245):

- Medical Administrative Professional
- Health Office Professional

Related Programs

- Medical Billing Specialist
- Office Technology Assistant

Students will learn file management, document sharing, and collaborative document editing. Emphasis will be placed on proofreading, proper grammar, mechanics, keying speeds and accuracy. This project-based course uses individual and group activities.

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

Campus: Superior

Program Overview

The program operates out of Northwood Tech's state-of-the-art facility on the Superior campus. The program has industry partnerships with Trane USA, Snap-on Tools, and the National Coalition of Certification Centers. Students will learn skills in the areas of electricity, heating, residential air conditioning, refrigeration, geothermal, sheet metal fabrication, direct digital controls (DDC), and commercial HVAC applications. You can leave with industry credentialing in the areas of refrigerant handling safety, tool usage, and control systems. Foundational skills and principles learned in this program prepare you to work in the commercial and residential HVAC/R industry. Periodic site visits with active HVAC/R equipment are incorporated throughout the two-year program to enhance student learning. Students also attend several local training seminars, and conferences that feature industry experts so they can stay on top of industry trends, and training. Full-time students can complete the program in four semesters.

Special Features

This is a unique program in the state.

This program is certified by the National Coalition of Certifications (NC3). NC3 has developed a comprehensive workforce development program for training and professional certifications.

NC3 was established to address the need for strong industry partnerships with educational institutions in order to develop, implement, and sustain industry-recognized certifications that have strong validation and assessment standards.

NC3 has developed a comprehensive, workforce development program for training and professional certifications. NC3 members are provided with expert consultation – from facility planning, faculty training, and the support necessary for professional certification programs.

HVAC/R Certifications: Students are eligible to take the following Certification Exams:

- ACCA A2L Refrigerant Training
- NC3/Trane: Building Automation Systems (BAS) 1 – Intro to HVAC Systems and Building Controls
- NC3/Snap-On: 575 Multimeter Certification
- NC3: Building Performance Instruments (BPI) - Flue Gas Analysis
- NC3: Building Performance Instruments (BPI) - Fluid Integrity
- NC3: Building Performance Instruments (BPI) - Indoor Air Quality
- NC3: Building Performance Instruments (BPI) - Installation & Diagnostics
- NC3: Building Performance Instruments (BPI) - Leak Detection
- NC3: Building Performance Instruments (BPI) - RPM and Vibration Testing
- NC3/Trane: Residential – Air Flow
- NC3/Trane: Residential – Air-to-Air Heat Pumps
- NC3/Trane: Residential – Refrigeration Diagnostics
- NC3/Trane: Residential - Variable Speed Motors
- EPA Section 608 Technician Certification

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

HVAC/R graduates will be able to:

- Install HVAC/R components
- Service HVAC/R systems
- Troubleshoot HVAC/R systems
- Evaluate HVAC/R system designs

Career Outlook

Typical positions available after graduation include:

- Commercial Refrigeration Technician
- Residential HVAC Technician
- Commercial HVAC/R Technician
- Industrial HVAC/R Technician
- Mechanical Contractor HVAC/R Technician
- Facilities HVAC/R Technician
- Wholesale Service Representative

With additional education and/or work experience, graduates may find other opportunities for employment:

- Energy Management Technician
- Business Owner HVAC/R
- Practice Engineering of HVAC/R Systems

Career Pathways

The HVAC/R program includes the following pathway options (page 233):

- HVAC Installation Technician
- Refrigeration Essentials

NC3 Certification Exam Administered.

EPA Section 608 Technician Certification Exam Administered.

ACCA A2L Refrigerant Training Certification Exam Administered

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32150302

Applied IT Basics - Credits: 1

This course provides students with an introduction to basic Information Technology concepts. Students will learn to identify and describe basic PC hardware components. Students will also learn how to install and maintain an Operating System using software utilities. Students will learn the basic components of networks, how devices communicate on a network and how to add a device to an existing data network.

32601300

Air Conditioning Fundamentals - Credits: 2

Topics covered include air conditioning principles and terms, physical principles of air movement and humidity, methods of conditioning air for comfort and health, the proper use of psychrometers, dry bulb thermometers, hygrometers, pitot tubes, recorders, manometers and barometers, and the reading and interpretation of psychrometric charts and scales. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the NC3/Trane: Residential - Air Flow AND NC3: Building Performance Instruments (BPI) - Indoor Air Quality certification)

32601301

Basic Mechanical Fundamentals - Credits: 3

This course is designed to introduce the learner to the basic fundamental skills necessary to work in the HVAC/R Industry. Instruction will be given in learning the various types of piping and tubing used in air conditioning, heating, and refrigeration; types of fittings, bending, brazing, soft soldering tubing, black iron pipe work, using hand tools, and the recognition and practice of safety procedures while working on heating, air conditioning, and refrigeration systems. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) - Leak Detection certification)

32601303

Principles of AC/DC - Credits: 3

This course provides an introduction to DC and AC electricity. The students will be able to perform basic resistance, current, voltage, and power calculations and measurements in both DC and AC circuits. Knowledge and use of test equipment will focus on multimeters and oscilloscopes. Critical-thinking skills are emphasized to develop competencies in problem solving and troubleshooting. This is a lab- and lecture-based course that provides hands-on and theoretical learning. COREQUISITE: 32804325 Applied Technical Math 1. (This course will prepare you to take the NC3/Snap-On: 575 Multimeter certification)

32601304

Heating Systems - Credits: 2

Topics include introduction to heat principles, temperature measurement, fuels and other sources of heat, combustion, basic heating systems, basic furnace design, gas furnace design and operation, venting of furnaces, chimney or exhaust gases, and system controls. PREREQUISITE: Admission to HVAC/R Plan or HVAC Installation Technician Plan. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) - Flue Gas Analysis certification)

32601305

Electrical Controls and Systems - Credits: 3

Topics in this course include basic electricity review, control circuits, symbols, diagrams, protection devices, transformers, relays, thermostats, single-phase motors, capacitors, control components, and troubleshooting ACR system wiring diagrams. Electrical experience equivalent to 32601303 Principles of AC/DC is recommended.

32601306

HVAC/R Print Reading - Credits: 2

Topics include print reading; understanding, interpreting, and utilizing architectural working drawings; safety procedures; drafting techniques; and lettering. PREREQUISITE: Admission to HVAC/R Plan or HVAC Installation Technician Plan.

32601307

Heating System Applications - Credits: 3

Topics include installation, start-up, and service of gas- and oil-fired heating equipment; air conditioning and air-to-air heat pump systems; and electrical and mechanical testing/analyzing of system components. PREREQUISITES: 32601301 Basic Mechanical Fundamentals and 32601304 Heating Systems. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) - Installation and Diagnostics, NC3/Trane: Residential - Air-to-Air Heat Pumps, AND NC3/Trane: Residential - Variable Speed Motors certifications)

32601308

Electronic Energy Management - Credits: 3

This course serves as an introduction to how a heating, venting, and air conditioning control system is used to operate a building's mechanical equipment so as to maintain the desired environmental conditions. PREREQUISITE: 32601309 Control Circuit Applications.

32601309

Control Circuit Applications - Credits: 3

Topics include control circuit terminology, measuring devices, and control systems. The principles of self-contained, electromechanical, and electronic-electric controls are examined and applied to control systems operation and design. PREREQUISITE: 32601305 Electrical Controls and Systems.

32601310

Sheet Metal Fabrication - Credits: 2

The layout and fabrication of a variety of sheet metal fittings. PREREQUISITE: 32601301 Basic Mechanical Fundamentals.

32601311

Hydronic Heating - Credits: 3

Topics include heating ignition systems, oil boiler installation and start up, venting of gas-fired boilers, heating with hot water, multiple boiler systems basics, and zoning hydronic heating systems. PREREQUISITES: 32601301 Basic Mechanical Fundamentals and 32601304 Heating Systems. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) - Fluid Integrity certification)

32601312

Refrigeration Applications - Credits: 3

Topics include domestic and commercial refrigeration systems, applications, installation, servicing, troubleshooting, heat loads and piping, controls, and special refrigeration components. PREREQUISITES: 32601300 Air Conditioning Fundamentals, 32601301 Basic Mechanical Fundamentals, and 32601317 Refrigeration Fundamentals. (This course will prepare you to take the ACCA A2L Refrigerant Training certification)

32601313

HVAC/R Electronic Troubleshooting/Repair (WBL) - Credits: 2

This course is designed for the advanced student who has already completed the theoretical and basic hands-on classes. In this class the student will be responsible for troubleshooting and repairing a variety of HVAC/R equipment. The student will be required to diagnose the faulty equipment, select the proper replacement parts, return the equipment to a working condition, and prepare a detailed work order listing all work performed. PREREQUISITE: 32601309 Control Circuit Applications. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) - RPM and Vibration Testing certification)

32601314

Heat Load Estimation - Credits: 1

This course will teach the student how to use "Manual J" from ACCA. The student will develop the skills to do residential heating and cooling heat loads. Students will calculate heat loss and also losses or gains due to infiltration, sun loads etc. The student will do calculations on actual buildings using ACCA industry standard form J-1. The student will also be pricing energy upgrades such as insulation, window improvements, etc. and calculating payback and fuel savings. PREREQUISITE: Admission to HVAC/R Plan.

32601315

Geothermal Systems - Credits: 2

This course is designed to introduce the student to the basic concepts of geothermal heating and cooling. Students will be introduced to the concepts of geothermal heating and cooling using geothermal pumps, ground source heat exchangers, indoor heat exchangers, connecting devices, and circulating fluid configurations and fusions. PREREQUISITES: 32601301 Basic Mechanical Fundamentals, 32601317 Refrigeration Fundamentals, and 32601305 Electrical Controls and Systems.

32601316

Building Automation Systems - Credits: 2

A building automation system, or BAS, is an umbrella energy management system that oversees HVAC control systems, heating, and other energy management systems in the building. A BAS itself can combine existing mechanical and electrical systems with microprocessors, and computers. Today's buildings require smarter and better technology and it is up to specially trained technicians to manage them efficiently. Students will gain a working knowledge of computers, networks as well as electrical control systems. PREREQUISITE: 32601305 Electrical Controls and Systems. (This course will prepare you to take the NC3/Trane: Building Automation Systems (BAS) 1 - Intro to HVAC Systems and Building Controls certification)

32601317

Refrigeration Fundamentals - Credits: 3

Topics include refrigeration principles and terms, thermodynamic processes, refrigerants, vapor compression cycles, mechanical refrigeration system components, use of electrical controls, refrigeration applications, and refrigeration tools and materials. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the EPA Section 608 Technician Certification AND NC3/Trane: Residential - Refrigeration Diagnostics certification)

Hospitality Foundations

30-109-2 Technical Diploma (less than one-year)

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

Hospitality Foundations is a 16-week program preparing students for career opportunities in the area of entry-level hospitality and other customer service employment settings. This skilled based training is developed to help students learn essential hospitality duties through interactive course activities and community-based training experience, while enhancing personal awareness, career effectiveness, and professionalism.

Inquire:

For more information for the New Richmond and Rice Lake campuses, contact:

Erin McDonough

Program Coordinator

Phone: 715.246.1881

Erin.McDonough@NorthwoodTech.edu

For more information for the Ashland campus, contact:

Karen Mattson

Program Coordinator/Instructor

Phone: 715-685-3069

Karen.Mattson@NorthwoodTech.edu

For more information for the Superior campus, contact:

Eric Lockwood

Director, Apprentice & Academies

Phone: 715.246.1871

Eric.Lockwood@NorthwoodTech.edu

Program-Specific Requirements

- Participate in a Program Informational Meeting
- Complete and return all required forms
 - High school transcript (include most recent attendance record if not included on transcript, if available)
 - Student Questionnaire
 - Functional Abilities Disclosure
 - Northwood Technical College paper

application form

-Professional reference form from a teacher or community agency (this document can be submitted separately if preferred)

Note: Northwood Tech will review completed application materials and notify students of their college admissions status.

Program Outcomes

Hospitality Foundations graduates will be able to:

- Identify personal strengths, barriers and transferable skills specific to work place environment.
- Demonstrate employability skills to seek and maintain employment in the hospitality service industry.
- Apply functional abilities specific to customer service and hospitality through competency-based learning.
- Identify environmental problems and correct unsafe working conditions.

Career Outlook

Graduates will be prepared for entry-level positions in diverse settings, including:

- Hotels
- Restaurants
- Event Centers
- Environmental Services

Required Courses

Course Descriptions

30109330

Hospitality Applications - Credits: 2

Hospitality Applications is an 8-week course that offers hands-on learning opportunities to practice and apply hospitality tasks required to seek entry-level employment. Students will be guided in applying and demonstrating positive interpersonal skills and professional customer service skills, while focusing on maintaining a safe work environment, safe food facilities and positive worker habits. Hospitality Applications enhances students' knowledge through application of tasks and demonstration of skills through classroom learning and lab experiences.

30109331

Safety and Sanitation Fundamentals - Credits: 1

Safety and Sanitation Fundamentals is an 8-week course that helps students develop a foundation in detecting safety hazards and bring awareness to best practices to maintain safe facilities. Students will explore safe working habits targeting areas such as principles of safe lifting, proper use of

cleaners and chemicals, personal hygiene and health, proper storage and handling of foods, as well as cleaning and sanitizing.

30109332

Guest Relations Fundamentals - Credits: 1

Guest Relations Fundamentals is an 8-week course introducing students to the importance of working with others in a constructive and cooperative working relationship. Students will explore ways to better handle challenging customers and be provided experiences to recognize positive interpersonal skills and professional customer service.

30109333

Hospitality Internship - Credits: 1

In this 1-credit internship students will apply course competencies in employment opportunities at Northwood Tech and community-based placements. The course competencies include: apply essential hospitality tasks, demonstrate interpersonal skills, demonstrate

customer service skills, apply safe food, facilities, and worker habits, apply constructive and cooperative working relationships with others, and apply strategies to better handle challenging customers. COREQUISITES: 30109330 Hospitality Applications, 30109331 Safety and Sanitation Fundamentals and 30109332 Guest Relations Fundamentals.

30890320

Working Smart - Credits: 1

This course will work in collaboration with student internship, second 8 weeks, to address employability skills in a natural, work-based learning environment. Students will continue the development and enhancement of job seeking skills, while practicing job retention skills such as problem-solving, time management, accountability, self-awareness and working relationships. COREQUISITES: 30109330 Hospitality Applications, 30109331 Safety and Sanitation Fundamentals and 30109332 Guest Relations Fundamentals.

Human Resource Management

10-116-2 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

The Human Resources program prepares you to support organizations in effectively recruiting, coaching, training, managing and compensating employees. You will also learn how the Equal Employment Opportunity Commission (EEOC) and the Occupational Safety & Health Administration (OSHA) influence workplaces and how you can help your organization meet compliance regulations.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Human Resource Management graduates will be able to:

- Design an organizational workforce plan
- Develop training programs
- Analyze organizational total rewards programs
- Incorporate employment law into business practices
- Apply employee relations techniques

Career Outlook

Typical positions available after graduation include:

- Compensation and Benefits Specialist
- Employment Specialist
- Human Resources Coordinator
- Human Resources Specialist
- Recruitment Specialist
- Training and Development Specialist
- Payroll Analyst
- Human Resources Generalist
- Human Resources Assistant

Course Descriptions

(See pages 38-41 for General Education course descriptions)

- 10101176**
Financial Accounting 1A - Credits: 2
This is a basic accounting course for non-accounting program students. The scope of study focuses on an introduction to business and accounting, analyzing and recording accounting transactions, performing the adjusting process, and completing the accounting cycle. Understanding is based both on theory and application.
- 10103106**
MS PowerPoint - Credits: 1
A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.
- 10103146**
MS Word A - Credits: 1
This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.
- 10103151**
MS Excel A - Credits: 1
This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.
- 10103152**
MS Excel B - Credits: 1
Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.
- 10104191**
Customer Service Management - Credits: 3
This course equips learners to selectively hire, train, manage, and measure customer service providers as well as strategies to recover from difficult service situations. Topics include telephone/online etiquette, active listening and problem solving. Best practices in handling complaints, controlling stress and managing customer expectations will be explored. An examination of internal systems and policies that impact service to include customer relationship management software will be explored. This course is designed to help managers and supervisors of customer service representatives to increase customer satisfaction, loyalty and profitability.
- 10106199**
Business Technology and Success - Credits: 1
Designed to explore the impact of digital technology, communication, and media. Course learners will be able to apply organizational techniques and manage electronic files; explore computer hardware and the web using various software and apps while practicing security and safety techniques. Improve skills in critical thinking, innovation, and personal responsibility through experiential and problem-solving approaches for a workforce-ready mindset.
- 10116100**
Human Resource Management - Credits: 3
In Human Resource Management, the learner applies the skills and tools necessary to effectively value and apply employees' abilities and needs to organization goals. Each learner will demonstrate the application of the supervisor's role in contemporary human resources management, impacts of EEOC, writing job descriptions, recruitment, selection, conducting job interviews, orientation, developing policies and procedures, training, performance management, employee counseling and development, and effective use of compensation and benefit strategies. It is recommended that the learner have experience using a PC/MAC, using the MS Windows operating systems and software suite, browsing Web pages, downloading files, using e-mail, and exchanging files prior to enrolling in this course.
- 10116101**
Introduction to Payroll and HRIS - Credits: 3
In keeping in line with electronic recordkeeping, human resources and payroll have followed suit. Tracking employee information and payroll transactions is handled efficiently and securely using human resources information systems and payroll software. The learner will come to understand how this type of software works. Payroll calculation will be highly emphasized taking into account all the federal and state laws and filing requirements.
- 10116102**
Employment Law - Credits: 3
Course examines employment, labor and social issues in the work environment through the laws that govern the employer/union and employer/employee relationships. Topics explored include: unemployment compensation; workers' compensation; hiring and firing practices; sexual harassment in the workplace; the Americans with Disabilities Act; and the intricacies of federal and Wisconsin equal employment opportunity laws. Students will use in-depth case analyses, oral presentation, and debates. PREREQUISITE: 10116100 Human Resource Management.
- 10116103**
Compensation Management - Credits: 3
Compensation encompasses the remuneration issues of employment. It will cover all aspects of wage and salary administration including job design, job analysis, pay range development, salary surveys, bonus programs, state and federal compensation law and performance management in regards to pay practices. PREREQUISITE: 10116100 Human Resource Management.
- 10116104**
Recruitment and Selection - Credits: 3
Getting the right employees in the right job is really an art. Learn the methods of recruitment used to attract employees to your organization. Once recruitment takes place, then selection of the most suitable candidate for an opening takes place. This process is highly governed by state and federal law which must be learned and used as the basis for lawful selection of employees. PREREQUISITE: 10116100 Human Resource Management.
- 10116105**
Employee Relations and Labor Law - Credits: 2
The course provides students with both the common and complex issues related to human behavior in the workplace as it relates to employee relations, state and federal mandates and laws. In-depth examination of relationships among workers, management, laws and government are the major focus of this course. PREREQUISITE: 10116100 Human Resource Management.
- 10116106**
Onboarding and Training - Credits: 3
The onboarding and training course prepares participants to be able to orient, train and take new hires through the onboarding process so they have the greatest opportunity to be successful, productive employees in the workplace. Key topics are: training and development, delivery techniques, assessing employee strengths, and methods to determine where employees may focus talent improvement
- processes. Course will also explore the value of engaging in company culture including techniques for success within that culture. PREREQUISITE: 10116100 Human Resource Management.
- 10116107**
Benefit Administration - Credits: 3
With the ever changing health care laws, this benefits course will address the evolution of benefit offerings in health insurance as well as the other benefit areas. Taking the total reward approach, other topics to be covered include dental insurance, disability insurance, paid time off, government mandated benefits and optional work arrangements. PREREQUISITE: 10116100 Human Resource Management.
- 10116108**
Human Resource Capstone - Credits: 3
The Human Resource Capstone course emphasizes application of advanced principles of human resource management. These principles include the application of the EEOC regulations, recruitment and selection, orientation and training, payroll and benefit administration, interpersonal skills management and business management. Learners are required to design and complete a human resource management project that begins with the fundamentals and extends to application within their workplace. NOTE: This course is only offered in the spring term. COREQUISITES: 10196145 Contemporary Business for Supervisors, 10116101 Introduction to Payroll and HRIS, 10116106 Onboarding and Training, 10116107 Benefit Administration, 10116103 Compensation Management, 10196199 Ethics in Business, 10116102 Employment Law, and 10196138 Conflict Resolution and Confrontation Skills
- 10196136**
Safety in the Workplace - Credits: 3
An introduction to safety and loss prevention in the workplace with an emphasis on the supervisor's responsibility for maintaining a safe, productive environment. Students will study safety concepts, hazard controls, developing safety and health programs, and federal- and state-mandated regulations.
- 10196138**
Conflict Resolution and Confrontation Skills - Credits: 1
In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.
- 10196145**
Contemporary Business for Supervisors - Credits: 2
In this course, you will review how the basic management styles affect the people, processes, and profitability of a business. You will also learn how to balance the organization's needs for profits with employees' basic needs within a global context. You will review and study the basic concepts and the supervisor's role regarding return on investment, return on equity, profit centers, financial statements, and overall departmental operations.
- 10196199**
Ethics in Business - Credits: 3
This course will focus on business practices from an ethical point of view. The student will examine such topics as morality/ethical theory, utilitarianism, Kantian ethics, justice and the market system, whistle blowing, trade secrets/conflict of interest, privacy, advertising, product safety, corporate social responsibility, international business.

Human Resources and Payroll Generalist

31-116-2 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available online at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

As a Human Resources and Payroll Generalist, you apply the skills and tools necessary to effectively value and apply employees' abilities and needs in support of organizational goals. You will demonstrate the application of the generalist's responsibilities in contemporary human resource management, supporting employees' growth and development, the impacts of employment law, prepare and maintain employment records, writing job descriptions, recruitment and selection, conducting job interviews, onboarding, interpreting policies and procedures, and effective use of compensation and benefit strategies. You will gain experience using Microsoft Office products and Human Resource Information Systems software suites.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Human Resources and Payroll Generalist graduates will be able to:

- Support effective employee relations
- Create accurate employee records
- Incorporate employment law into administrative practices

Career Outlook

Typical positions available after graduation include:

- Human Resources Administrative Assistant
- Human Resources Associate
- Human Resources Coordinator
- Human Resources Technician
- Human Resources Assistant
- Payroll Assistant
- Payroll Coordinator
- Payroll Specialist

Career Pathways

The Human Resources and Payroll Generalist is a pathway into the following program (page 234).

Human Services Associate

10-520-3 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland, New Richmond, Rice Lake, Superior

Hybrid instruction

Program Overview

In this program, you will acquire the skills needed to support people of diverse racial, ethnic and cultural backgrounds. Work within county human services agencies, community-based organizations, residential treatment programs, schools, inpatient facilities and other settings that help people in need. Assist a variety of populations including youth, families, elders and persons with disabilities. You can choose from multiple careers focused on substance abuse counseling, domestic and family violence, community development, prevention and criminal justice. Once you complete the program, you will have successfully met the required 360 hours of approved specialized education in substance use disorder counseling in accordance with the Wisconsin Department of Safety and Professional Services, added to the Wisconsin Community-Based Residential Facility (CBRF) Employee Registry.

Special Features

- Throughout the program, students will have multiple opportunities to directly explore the Human Services field through community-based observation and extended field experiences within designated organizations and agencies
- Graduates may opt to directly enter the workforce and/or choose to complete their Bachelor's Degree in Social Work or other Human Services-related field, as per existing articulation agreements or transfer guides
- Graduates will meet the 360 hour educational requirements needed for Wisconsin Substance Abuse Counselor certification, as preapproved by the Wisconsin Department of Safety & Professional Services. (Certification also requires state examination and supervised counseling experience outside of this program, <https://dsps.wi.gov/Documents/SACurrentPreCertificationEducation.pdf>)
- Graduates will be added to the Wisconsin Community-Based Residential Facility (CBRF) Employee Registry

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Review and sign Background Check Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Complete and sign Background Information Disclosure Form (BID)
- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check and/or Minnesota Caregiver Background Check as applicable - Information from the Caregiver Background Check may affect ability to secure fieldwork placement and the ability to find employment after graduation.

Program Outcomes

Human Services Associate graduates will be able to:

- Model a commitment to cultural competence
- Uphold the ethical standards and values for human service professionals
- Demonstrate professionalism
- Utilize community resources
- Apply human services interventions and best practices
- Cultivate professional relationships

Career Outlook

Typical positions available after graduation may include:

- Case Worker
- Community Outreach/Support Worker
- Income Maintenance Worker
- Human Services/Information and Referral Specialist
- Substance Abuse Counselor (with specialized field experience)
- Intake Worker
- Prevention Worker
- Residential Manager
- Social Services Assistant
- Volunteer Coordinator
- Adult Day Care Worker
- Human Services Technician
- Counselor Assistant
- Residential Counselor
- Youth Care Counselor
- Family Advocate
- Activities Assistant
- Visitation Worker
- Program Aide

Career Pathways

The Human Services Associate program includes the following pathway options (page 235):

- Substance Abuse Counselor Education
- Community-Based Residential Facility (CBRF) Caregiver

Related Programs

Professional Licensure and/or Certification Information

Northwood Tech's Human Services Associate program is designed to meet the State of Wisconsin's 360 hour educational requirements needed for Wisconsin Substance Abuse Counselor certification, as preapproved by the Wisconsin Department of Safety & Professional Services. (Certification also requires state application, examination and supervised counseling experience outside of this program). However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in the state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10520101

Introduction to Human Services - Credits: 3

Students examine the scope, values, and principles of the human service profession. Coursework introduces the typical roles and duties of human services workers. Students assess their own motivations, attitudes, and interests. In addition to the regular classroom hours, volunteer work in a community human services agency is required. Students must complete or have on file current, valid Background Information Disclosure (BID) and Caregiver Background Check (annual Wisconsin and Minnesota) forms, as part of this course.

10520102

Interviewing - Credits: 3

This course provides an introduction to interviewing and recordkeeping skills practiced in human service agencies. Students learn principles and techniques needed to conduct informational and supportive interviews including maintaining clinical records, documenting referrals, staffings, and supervision. Students practice interviewing skills during class.

10520103

Ethics in Human Services - Credits: 3

This course explores the ethical, legal, and professional issues facing the human services worker. It is designed to teach a process of ethical decision-making and to increase awareness of the complexities in practice. Students are introduced to the current state and federal statutes, regulations, and judicial decisions that govern the professional practice in human services. Standards, code of ethics, clients' rights, and confidentiality are emphasized.

10520104

Issues in Alcohol and Other Drug Abuse - Credits: 3

Students gain a basic understanding of the use and abuse of alcohol and other drugs. Emphasis is on historical and social perspectives of drug use, trends of use, and legal and social responses to problematic alcohol and illicit drug use. Additionally, this course provides an accurate description of the effects of psychoactive drugs, identifies methods of substance abuse treatment, and introduces the student to local treatment services.

10520105

Introduction to Counseling - Credits: 3

This course is designed to provide the student with an overview of the major counseling theories and techniques and applications to various situations. Students will apply concepts and skills through practice in initiating, structuring, and terminating counseling sessions. COREQUISITE: 10520106 Methods of Social Casework

10520106

Methods of Social Casework - Credits: 3

This course provides an introduction to case management theory, models, and techniques, along with the management and coordination of case records. Key components include intake assessment, creating a plan of service, coordinating care, referral techniques, client self-determination, and ethical issues.

10520107

Gerontology - Credits: 3

The focus of this course is on mental health issues, physical health issues, socioeconomic factors, and other issues that impact the aging process and the individual's adaptation to it. Dynamics of the individual, social support systems, community support systems, and the various programs that are in place to help those with special issues in the aging process will be examined.

10520108

Child and Adolescent Behavior - Credits: 3

This course examines issues related to child development, juvenile delinquency, and mental health. The course will explore healthy and appropriate child development and issues such as abuse and neglect, which alter development. Juvenile delinquency will explore common behavioral concerns of adolescents and what treatment options exist. Finally, prevalent mental health issues of children and adolescents will be explored as well as treatment including common medications.

10520110

Group Facilitation - Credits: 3

An introduction to theory and practice of group dynamics and processes are covered in this course. Knowledge areas include ethical considerations, effective group leadership, and stages of group development. Learners will record and critique practice group sessions, function as group members, and demonstrate effective group facilitation skills. COREQUISITE: 10510102 Interviewing.

10520112

Family Systems - Credits: 3

This course focuses on issues related to families and family functioning relevant to the human services field. Major areas of focus will include child maltreatment, domestic violence, and addiction, with emphasis on relevant helping skills and services.

10520113

Field Experience 1 - Credits: 3

Students develop skills as human services professionals by working directly or indirectly with clients in community agencies. This experience is designed to enhance the knowledge, skills, and behaviors essential for human services workers in the professional setting. An agency supervisor and a faculty member facilitate this learning experience. Students must complete or have on file current, valid Background Information Disclosure (BID) and Caregiver Background Check (annual Wisconsin and Minnesota) forms, as part of this course. PREREQUISITES: 10520101 Introduction to Human Services, 10520102 Interviewing, 10520103 Ethics in Human Services, 10520104 Issues in Alcohol and Other Drug Abuse, 10520106 Methods of Social Casework, and COREQUISITES: 10520105 Introduction to Counseling and 10520115 Substance Abuse Assessment and Treatment.

10520114

Field Experience 2 - Credits: 3

Students continue their on-the-job training in a community agency. Additional hands-on experiences working with clients and agency staff provide students with the opportunity to apply and refine skills learned in coursework areas. An agency supervisor and a faculty member facilitate this learning experience. Students must complete or have on file current, valid Background Information Disclosure (BID) and Caregiver Background Check (annual Wisconsin and Minnesota) forms, as part of this course. PREREQUISITE: 10520113 Field Experience 1.

10520115

Substance Abuse Assessment and Treatment - Credits: 3

This course will gain further understanding of substance abuse and dependence, assessment and treatment interventions. Emphasis is on assessment, diagnostics, and treatment of substance use disorders. Students will also gain further understanding of levels of care, community-based sober support, referrals and family system interventions. PREREQUISITE: 10520104 Issues in Alcohol and Other Drug Abuse and COREQUISITES: 10520110 Group Facilitation and 10520106 Methods of Social Casework

10575100

CBRF Caregiver Fundamentals - Credits: 2

In this credit-based course, students will obtain the knowledge and skills required to become Community-Based Residential Facility (CBRF) caregivers. Coursework will include the following training modules: DHS 83.20 (2) (b) CBRF Fire Safety, DHS 83.20 (2) (d) CBRF Medication Administration and Management, DHS 83.20 (2) (a) CBRF Standard Precautions, DHS 83.20 (2) (c) CBRF First Aid and Choking, DHS 83.21 (1) CBRF Resident's Rights, and DHS 83.21 (3) CBRF Challenging Behaviors. Upon successful completion of this course, students are added to the Wisconsin CBRF Employee Registry.

HVAC Installation Technician

31-601-2 Technical Diploma (one-year)

Financial Aid Eligible

Campus: Superior

Program Overview

The HVAC Installation Technician program will give students the skills to install new heating, cooling, and ventilation systems, inspect current HVAC systems for effectiveness and safety, perform preventative maintenance on HVAC systems to increase longevity, and conduct performance tests with specialized tools. Students will be prepared to test for the EPA Section 608 Technician Certification and multiple NC3 Certifications.

Special Feature

Students are eligible to take the following Certification Exams:

- NC3: Building Performance Instruments (BPI) – Indoor Air Quality
- NC3: Building Performance Instruments (BPI) – Leak Detection
- NC3/Trane: Residential – Air Flow
- NC3: Building Performance Instruments (BPI) – Flue Gas Analysis
- NC3/Snap-On: 575 Multimeter Certification
- NC3/Trane: Residential - Refrigeration Diagnostics
- EPA Section 608 Technician Certification

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

HVAC Installation Technician graduates will be able to:

- Install residential heating, ventilation and air conditioning equipment
- Commission (startup) and service residential heating, ventilation and air conditioning equipment
- Install commercial heating, ventilation and air conditioning equipment
- Commission (startup) and service commercial heating, ventilation, and air conditioning equipment
- Install commercial refrigeration equipment
- Commission (startup) and service commercial refrigeration equipment

Career Outlook

Typical positions available after graduation include:

- HVAC Installer
- HVAC Mechanic
- Service Technician
- Systems Mechanic

Career Pathways

The HVAC Installation Technician program includes the following pathway option (page 233):

- Refrigeration Essentials

HVAC Installation Technician is also a pathway into the following program:

- Heating, Ventilation, & Air Conditioning / Refrigeration (HVAC/R)

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
32601300	Air Conditioning Fundamentals*#	2 cr.
32601301	Basic Mechanical Fundamentals*#	3 cr.
32601303	Principles of AC/DC*#	3 cr.
32601304	Heating Systems*#	2 cr.
32601305	Electrical Controls and Systems	3 cr.
32601306	HVAC/R Print Reading*	2 cr.
32601310	Sheet Metal Fabrication*	2 cr.
32601317	Refrigeration Fundamentals*#,#,#	3 cr.
Program Courses Total		20 cr.
General Education Courses**		
32801361	Applied Communications	2 cr.
32804325	Applied Technical Math 1	3 cr.
32804334	Applied Technical Math 2*	2 cr.
General Education Courses Total		7 cr.
TOTAL CREDITS		27 cr

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

NC3 Certification Exam Administered.

EPA Section 608 Technician Certification Exam Administered

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32601300

Air Conditioning Fundamentals - Credits: 2

Topics covered include air conditioning principles and terms, physical principles of air movement and humidity, methods of conditioning air for comfort and health, the proper use of psychrometers, dry bulb thermometers, hygrometers, pitot tubes, recorders, manometers and barometers, and the reading and interpretation of psychrometric charts and scales. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the NC3/Trane: Residential – Air Flow AND NC3: Building Performance Instruments (BPI) – Indoor Air Quality certifications)

32601301

Basic Mechanical Fundamentals - Credits: 3

This course is designed to introduce the learner to the basic fundamental skills necessary to work in the HVAC/R Industry. Instruction will be given in learning the various types of piping and tubing used in air conditioning, heating, and refrigeration; types of fittings, bending, brazing, soft soldering tubing, black iron pipe work, using hand tools, and the recognition and practice of safety procedures while working on heating, air conditioning, and refrigeration systems. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) – Leak Detection certification)

32601303

Principles of AC/DC - Credits: 3

This course provides an introduction to DC and AC electricity. The students will be able to perform basic resistance, current, voltage, and power calculations and measurements in both DC and AC circuits. Knowledge and use of test equipment will focus on multimeters and oscilloscopes. Critical-thinking skills are emphasized to develop competencies in problem solving and troubleshooting. This is a lab- and lecture-based course that provides hands-on and theoretical learning. COREQUISITE: 32804325 Applied Technical Math 1. (This course will prepare you to take the NC3/Snap-On: 575 Multimeter Certification)

32601304

Heating Systems - Credits: 2

Topics include introduction to heat principles, temperature measurement, fuels and other sources of heat, combustion, basic heating systems, basic furnace design, gas furnace design and operation, venting of furnaces, chimney or exhaust gases, and system controls. PREREQUISITE: Admission to HVAC/R Plan or HVAC Installation Technician Plan. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) – Flue Gas Analysis certification)

32601305

Electrical Controls and Systems - Credits: 3

Topics in this course include basic electricity review, control circuits, symbols, diagrams, protection devices, transformers, relays, thermostats, single-phase motors, capacitors, control components, and troubleshooting ACR system wiring diagrams. Electrical experience equivalent to 32601303 Principles of AC/DC is recommended.

32601306

HVAC/R Print Reading - Credits: 2

Topics include print reading; understanding, interpreting, and utilizing architectural working drawings; safety procedures; drafting techniques; and lettering. PREREQUISITE: Admission to HVAC/R Plan or HVAC Installation Technician Plan.

32601310

Sheet Metal Fabrication - Credits: 2

The layout and fabrication of a variety of sheet metal fittings. PREREQUISITE: 32601301 Basic Mechanical Fundamentals

32601317

Refrigeration Fundamentals - Credits: 3

Topics include refrigeration principles and terms, thermodynamic processes, refrigerants, vapor compression cycles, mechanical refrigeration system components, use of electrical controls, refrigeration applications, and refrigeration tools and materials. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the EPA Section 608 Technician Certification AND NC3/Trane: Residential – Refrigeration Diagnostics certification)

Individualized Technical Studies

10-825-X Associate Degree (two-year) Specific career clusters listed below

Financial Aid Eligible

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

Complete a program plan with Northwood Tech Director of Curriculum and Assessment by identifying your own career goals and what you need to get there.

This program is typically designed for students who: have a high school diploma or G.E.D., are currently employed, are able to articulate a specific career objective, would benefit from the combination of associate degree courses from two or more major areas, and are seeking academic credit for work and/or other experience related to a specific career goal.

Specific Career Cluster Plans include:

1082518	ITS - Agriculture, Food and Natural Resources
108252	ITS - Architecture and Construction
108253	ITS - Arts, Audio-Visual Technology and Communications
108254	ITS - Business, Management and Administration
108255	ITS - Education and Training
108256	ITS - Finance
108257	ITS - Government and Public Administration
108258	ITS - Health Sciences
108259	ITS - Hospitality and Tourism
1082510	ITS - Human Services
1082511	ITS - Information Technology
1082512	ITS - Law, Public Safety and Security
1082513	ITS - Manufacturing
1082514	ITS - Marketing, Sales and Service
1082515	ITS - Science, Technology, Engineering and Mathematics
1082516	ITS - Transportation, Distribution and Logistics

Inquire:

For more information, contact:
Ryon List, Director of Curriculum and Assessment. Phone: 715-685-3086
ryon.list@NorthwoodTech.edu

Program Outcomes

The Individualized Technical Studies program is NOT intended to become a catch-all for students with little or no career focus, nor is it intended to prepare students for occupations that have little or no job market demand.

It is also NOT simply an accumulation of credit hours leading to a degree. Finally, this degree program option is NOT designed to give students the opportunity to make minor course changes to current existing programs.

Rather, it is a preplanned program of study.

The technical studies option is typically designed for students who:

- Have a high school diploma or G.E.D.
- Are currently employed
- Are able to articulate a specific career objective
- Would benefit from the combination of associate degree courses from two or more major areas
- Are seeking academic credit for work and/or other experience related to a specific career goal

Career Outlook

This degree gives students the flexibility to meet the educational goals of new and emerging occupational fields. Employers also benefit from the flexible program that helps them meet their own specific employee training needs as new technologies and methods emerge in the business world.

Required Courses

Course Title	Credits
Communication	6
Social Science	3
Behavioral Science	3
Math and/or Science	3
Additional Elective Courses	6
Total	21
(See list of General Education courses on pages 38-41)	

Individualized Program Courses 40

Each student will be required to complete a minimum of 40 credit hours of individualized technical studies and may utilize courses from all departments of the college. A minimum of 20 of these credits must be focused in one career cluster. The selection of these courses must be relevant to the student's identified career goals and provide sufficient hours of concentration in one or two specific technical areas to ensure technical competence in achieving their occupational goals.

TOTAL PROGRAM CREDITS 61

Industrial Maintenance Technician

32-462-1 Technical Diploma (two-year)

Financial Aid Eligible

Campus: Superior

Program Overview

The Industrial Maintenance Technician program will give you practical "hands-on" experience in welding, hydraulics, machining, plumbing, electricity and mechanical maintenance. Opportunities for advancement increase with further education.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Industrial Maintenance Technician graduates will be able to:

- Demonstrate safe work procedures
- Install industrial equipment and systems
- Maintain industrial equipment and systems
- Troubleshoot industrial equipment and systems
- Repair industrial equipment and systems
- Communicate technical information

Career Outlook

Typical positions available after graduation include:

- Maintenance Technician Assistant
- Maintenance Technician Foreperson
- Maintenance Machinist
- Maintenance Technician
- Maintenance Welding

Graduates may also enter the trades of Machine Repair, Machine Rebuilder, and Millwright. Graduates may advance to such positions as Maintenance Leadperson, Maintenance Mechanic / Millwright Apprentice, Foreperson, or Superintendent.

Related Programs

- Automation for Industrial Systems
- Machine Tool Technician
- Welding

Course Descriptions

(See pages 38-41 for General Education course descriptions)

31442370

Gas Metal Arc Welding 1 - Credits: 3

This course introduces the student to the basics of GMAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques.

31442373

Shielded Metal Arc Welding 1 - Credits: 3

This course introduces the student to the basics of SMAW welding. It includes the study of the type of metals and equipment utilized when welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard welding techniques.

31442374

Shielded Metal Arc Welding 2 - Credits: 2

This course introduces the student to the next level of SMAW welding. It includes the study of the type of metals and equipment utilized when welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard welding techniques. COREQUISITE: 31442373 Shielded Metal Arc Welding 1.

31442379

Gas Tungsten Arc Welding 1 - Credits: 2

This course introduces the student to the basics of GTAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques.

32414340

Basic Electrical Theory - Credits: 2

This course is designed to introduce the student to the basic concepts of electricity. Students will be introduced to basic electrical components such as resistors, switches, indicators, relays, and basic testing equipment. Reading wiring diagrams will be introduced during this course.

32414341

Electrical Systems - Credits: 3

This course introduces the student to advanced interpretation of the various wiring and ladder diagrams used in electrical systems. The selection and application of interconnecting wiring and control devices used in industrial electrical control systems will be the focus of this course. COREQUISITE: 32414340 Basic Electrical Theory.

32414343

Industrial Systems Control - Credits: 3

This course is designed to introduce the student to the basics of the programmable logic controllers used in industry. Training in ladder logic, logic gates, Boolean equations, and truth tables will be given. Basic program and troubleshooting will be the focus of this course. COREQUISITE: 32414340 Basic Electrical Theory.

32419301

Hydraulics/Pneumatics - Credits: 3

This course is designed to introduce the student to the theory of fluid power. The common gas laws will be analyzed. The basic system of a hydraulic unit and pneumatic unit will be the focus of this laboratory-based course. Common applications of different circuits will be explored and constructed.

32420305

Maintenance Machining - Credits: 3

This course is designed to introduce the student to the basic machines and procedures of machines common to the industrial maintenance industry.

32420310

Print Reading - Credits: 2

This course will cover the basic principles of print reading. The emphasis will be on interpreting lines and symbols in single- and multiple-view working drawings. Topics include print reading procedures, sketching, drawing changes, and the reading of prints in maintenance areas of machining, fabrication, piping systems, and welding.

32462305

Rigging - Credits: 2

During this course the student will be introduced to the safety procedures, the common hardware components, and the equipment used in industry for rigging to lift and move machines and equipment. The student will demonstrate industry standard rigging and lifting procedures in a laboratory-based environment.

32462306

Fabrication Processes - Credits: 2

This course is designed to introduce the student to the basics of fabrication processes that are common to the industrial maintenance field along with the tools and components used in these processes. This course is a theory-based course with hands-on lab applications.

32462308

Piping Systems - Credits: 2

This course is designed to introduce the student to basic plumbing of air, water, and other process systems found in industrial plants. Layout, cutting, threading, and installing these systems will be the focus of this course.

32462309

Pump Applications - Credits: 2

This course is designed to enable the student to explore the theory of fluid pumping applications common to industry. General troubleshooting and maintenance procedures will be stated and practiced during this competency lab-based course.

32462312

Bearings and Lubrication - Credits: 1

This course is designed to introduce the student to the applications of bearings and lubrication processes used in industries. Instruction will be given in the basic principles of operations, preventive maintenance, and repair procedures of all bearing types common to industry.

32462314

Machine Leveling and Alignments - Credits: 2

This course is designed to introduce the student to the standard applications of machine leveling and alignment of shafts, couplings, bearings, and machines common to industries. This course will cover several leveling and alignment procedures that meet industry standards.

32462317

Industrial Safety - Credits: 1

This course is designed to introduce the student to safety topics required by OSHA for general industries. Safety committees and their function in the workplace will also be discussed. The history of OSHA and the role it plays in industry, along with the roles of all workers and employers toward safety, will be the focus of this course.

32462320

Gears, Belts, and Chain Drives - Credits: 1

This course is designed to introduce the student to the applications of gears, belts, and chain drives used in industry. Instruction will be given in the basic principles of operation, installation, preventive maintenance, and repair procedures of these components to industry standards.

32462321

Conveyors (WBL) - Credits: 2

This course is designed to introduce the student to bulk handling belt conveyor systems common to many industries. While examining the different systems used that make up an effective belt conveyor, the student will design a system of their own. Standard applications, preventive maintenance, repair, and installation of conveyors will be the focus of this course. The screw, flat belt, and roller conveyors will also be examined. A strong background in mechanical drive and fabrication is recommended.

32462322

Conveyor Systems Repair Lab - Credits: 3

This course is designed to provide a "real" work-like environment where the student is placed in a team environment to build a conveyor from the design that was created in the conveyors theory class. All welding, machining, and the fabrication of the conveyor will be done by the team. The ordering of parts and components, along with creating a journal of the project, will be a team function. COREQUISITE: 32462321 Conveyors (WBL).

32462330

Fluid Systems Repair Lab (WBL) - Credits: 2

This course is designed to give the student a chance to apply fluid power system skills in a shop environment. Students will work on projects that will require troubleshooting of fluid systems and components, and construction of fluid systems common to industry. COREQUISITES: 32419301 Hydraulics/Pneumatics, 32462308 Piping Systems, and 32462309 Pump Applications.

Campus: New Richmond

Program Overview

This program is intended and recommended for individuals with a background in electrical equipment, electricity, or IT. Process and manufacturing plants employ technicians to keep their machines and processing running and install and maintain equipment. With this one-year technical diploma, you will be prepared to be employed at the technician level or higher on industrial computer networks, programmable logic controllers (PLCs) and process instruments. You will have both classroom and hands-on laboratory instruction with several systems to gain an understanding of controller and PLC interfacing, control systems and network installation.

Special Feature

This is a unique program in the state.

This program is intended and recommended for individuals with a background in electrical equipment, electricity, or IT.

Inquire

For more information on this program, and how to apply, contact: Jon Haglin, Instructor at Jon.Haglin@NorthwoodTech.edu or 715.246.1844.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Industrial Systems Specialist graduates will be able to:

- Demonstrate safe practices and techniques
- Perform installations of controls hardware/software/cabling
- Perform programming and configuration of Programmable Logic Controllers (PLCs) and Distributed Control Systems (DCSs)
- Integrate control systems
- Troubleshoot hardware/software of PLCs, instrumentation, and control systems
- Develop system documentation

Career Outlook

Typical positions available after graduation include:

- Field Service Technician
- Instrumentation and Controls Technician (I&C)
- Electrical and Instrument Technician (E&I)
- Service Technician
- Electrical Maintenance Technician

Career Pathways

The Industrial Systems Specialist program is a pathway into the following program (page 224):

- Automation for Industrial Systems

Related Programs

- Automated Packaging Systems Technician
- IT - Systems Administration Specialist

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10605167

Electricity 1 - Credits: 2

Electricity 1 is a lecture/hands-on course designed to introduce students to basic electrical terminology, laws, concepts, instrumentation, and application. Hands-on activities will be stressed to reinforce electrical concepts related to practical applications dealing with computer networks. Topics covered will include electrical safety, terminology and symbols, electrical laws, basic circuits, multimeter use, DC power supplies, and troubleshooting. Critical-thinking skills are emphasized to develop competencies in problem solving and troubleshooting. COREQUISITE: 10804113 College Technical Mathematics 1A or 10804115 College Technical Math 1.

10605168

Electricity 2 - Credits: 2

This course is designed to introduce students to the basic concepts of alternating current. Emphasis is placed on circuit analysis and problem-solving skills necessary for the maintenance of modern industrial electric systems. PREREQUISITE: 10605167 Electricity 1.

10631100

Introduction to Process Control - Credits: 2

The Introduction to Process Control course explains the function of basic devices for measuring and controlling different kinds of variables in process control. It introduces closed-loop control, PID functions, analog and digital devices, and control system applications. It also covers instrumentation symbols and the interpretation and use of process diagrams.

10631102

Industrial Power Electronics - Credits: 2

The Industrial Power Electronics course is a hands-on course dealing with the electronics that are used to control, power, and operate machines and processes in the modern manufacturing plant. The course includes the study and use of the oscilloscope and digital multimeter, thyristors, ICs, and AC, DC, stepper and servo motor drive systems. PREREQUISITE: 10605167 Electricity 1 or equivalent.

10631103

Process Control and Instrumentation - Credits: 3

The Process Control and Instrumentation course offers hands-on skill exercises on controlling and manipulating temperature, pressure, flow, and level in the manufacturing process. Students will be able to identify, connect, operate, troubleshoot, and perform preventive maintenance on the components that form a process control system. PREREQUISITE: 10605167 Electricity 1 or equivalent and COREQUISITE: 10631100 Introduction to Process Control.

10631104

Smart Instruments - Credits: 2

The Smart Instruments course introduces students to smart instruments including temperature devices, pressure devices, and smart control valves. Students will be able to calibrate, configure, and troubleshoot smart devices. Students will be able to identify appropriate applications for smart instruments. PREREQUISITE: 10631100 Introduction to Process Control or equivalent.

10631105

Industrial Networks and Communication Busses - Credits: 2

This course introduces networks, communication busses, and protocols used in industrial applications. Students will be able to discuss strengths and weaknesses of each communications solution and pick the most appropriate for given applications. COREQUISITE: 10631110 Advanced PLC Programming and Interfacing.

10631106

Supervisory and Distributed Control Systems - Credits: 3

This course will provide an overview exposure to networked distributed control systems and data acquisition systems. Included are PLCs, data acquisition systems, Single Loop Controllers, Smart Devices, and Distributed Control Systems. Students will connect, configure, and operate a simulated process that includes the elements of distributed control and data acquisition systems. PREREQUISITES: 10631100 Introduction to Process Control and 10631108 PLC Programming and Interfacing or equivalent.

10631107

Industrial Automation Case Project - Credits: 1

The primary focus of this course is to have the students receive exposure and experience with an industrial process control or manufacturing automation system. Students will complete a project or research dealing with an existing process in an area industry or complete an advanced project in the lab dealing with applications of industrial networks, sensors, control, and data acquisition. PREREQUISITES: 10631100 Introduction to Process Control; 10631102 Industrial Power Electronics; 10631103 Process Control and Instrumentation; 10631108 PLC Programming and Interfacing; and 10631109 Industrial AC, Motor Control, and Pilot Devices.

10631108

PLC Programming and Interfacing - Credits: 3

PLC Programming and Interfacing offers students a hands-on approach to implementing industrial control by integrating typical plant floor electrical components with microprocessor-based controllers. Students will learn to identify and connect field inputs and outputs; communicate with, and program microprocessor-based controllers. Students will also connect, communicate with, and develop displays for computer-based operator interfaces. PREREQUISITE: 10605167 Electricity 1.

10631109

Industrial AC, Motor Control, and Pilot Devices - Credits: 3

This course gives students the opportunity to learn about AC theory, circuits, and control devices used in industry. The course begins with an overview of AC theory including resistance, inductance, and capacitance. The course includes topics on AC and DC motors, motor controls, and pilot devices. The student will engage in hands-on activities with real industrial components to enable them to recognize, select, apply, and troubleshoot industrial electrical control circuit components. PREREQUISITE: 10605168 Electricity 2 or equivalent.

10631110

Advanced PLC Programming and Interfacing - Credits: 3

Advanced PLC offers students a hands-on approach to implementing industrial control using modern controllers to implement programs that utilize advanced functions. Students will complete hands-on activities with Allen Bradley ControlLogix PLCs. The course will examine the use of basic instructions and addressing with RSLogix 5000 as well as more advanced PLC instructions in Ladder Logic and Function Block. Other topics include PLC configuration and commissioning, communications with RSLinx, OPC, and RSNetwork, HMI configuration using PanelView, Wonderware and/or RSView. PREREQUISITE: 10631108 PLC Programming and Interfacing.

Information Technology - Cybersecurity Specialist

10-151-2 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond, Rice Lake, Superior

Full program available at the New Richmond, Rice Lake, and Superior campuses

*First year coursework available at the Ashland campus and complete your full program at any of our other campuses.

Program Overview

The IT - Cybersecurity Specialist program will give students hands-on experience with networking, operation systems, virtualization and security. Students will build a strong IT base as they install and configure Windows and Linux environments and create networks for a business like environment. Students will study attacks and security practices to protect data as they configure security settings, test and monitoring configurations. Students will configure and test routers, switches, firewalls, VPNs, IDS/IPS, workstations and servers with using vendor tools and open source resources. The Cybersecurity program also supports remote learning through the use of equipment pods in their Netlab (24/7).

Special Features

Northwood Technical College's Information Technology – Cybersecurity Specialist program is now recognized as a top-choice training program by the U.S. government after earning the designation through the Centers of Academic Excellence in Cyber Defense (CAE-CD) program.

Northwood Tech is affiliated with the following industry partners providing students with access to a variety of materials and software: Cisco, CompTIA, Microsoft, Palo Alto and VMware.

Northwood Tech locations are Cisco Networking Academies, Red Hat Academies, Palo Alto Networks Cybersecurity Academies, and Northwood Tech is a CompTIA academy partner. VUE testing centers are available at each location.

vmware IT ACADEMY

Red Hat Academy

The IT – Cybersecurity Specialist program prepares students for a number of certifications related to the field. Students may choose to complete certifications, many through the on campus VUE testing center. Industry certifications students may pursue include CompTIA A+, Network+, Linux+, Security+, PenTest+, CySA+, Cisco CCNA, Cisco Cyber-Ops, CEH and CISSP.

As a member of the Cisco, VMWare, and Red Hat academies, students in the IT programs receive free access to vendor software and tools. The cybersecurity program also supports remote learning through the use of equipment pods in their Netlab (24/7).

Students in the IT – Cybersecurity Specialist program have the opportunity to dual major with the IT – Systems Administration Specialist program by completing additional coursework (see page 141 for more information on the IT - Systems Administration Specialist program).

Graduates have the option to transfer coursework to complete a Bachelor's Degree at UW-Stout, and other institutions, with degree completion programs.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

IT - Cybersecurity Specialist graduates will be able to:

- Identify security strategies
- Implement secure infrastructures
- Conduct security testing
- Analyze security data
- Mitigate risk
- Develop security documentation

Career Outlook

Typical positions available after graduation include:

- Network Administrator
- Network Support Specialist
- Cyber Security Specialist
- Network Security Specialist
- Network Specialist
- Computer Specialist
- SOC Analyst

Career Pathways

The Information Technology - Cybersecurity Specialist program includes the following pathway options (page 236):

- IT - Network Technician

Related Programs

- IT - Systems Administration Specialist
- IT - Web and Software Developer
- Industrial Systems Specialist
- Automation for Industrial Systems

2024/2025

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10150102

Information Security - Credits: 3

This course will cover hardware, software, and the physical environment related to IT security. The processes of defense, prevention, detection, and response will be studied. Typical types of attacks will be studied and potential solutions or defenses will be explored. Networking and operating system experience is required along with a code of ethics. This course covers topics related to the CompTIA Security+ exam. PREREQUISITE: 10154103 Linux Operating Systems.

10150109

Wireless Networking and Security - Credits: 3

In this course students will study the fundamentals of radio frequency (RF) and 802.11 technologies. They will be installing configuring, monitoring, securing and troubleshooting wireless devices. These skills will be applied to autonomous systems and wireless LAN controllers (WLC) to support business requirement. Site surveys will be conducted. Testing of secured implementations, identifying rouge devices and identify wireless attacks will be studied. This course will cover materials found on the Cisco Wireless Network Fundamentals (WIFUND) exam for the CCNA Wireless certification. PREREQUISITE: 10150113 Cisco CCNA 2 Routing and Switching Essentials.

10150111

Cisco CCNA 1 Introduction to Networks - Credits: 3

Cisco CCNA 1 Introduction to Networks (ITN) covers networking architecture, structure, and functions. The course introduces IPv4 and IPv6 addressing structure and design, the fundamentals of Ethernet concepts, media, and operations, the OSI and TCP/IP models and associated protocols to set a strong networking foundation. Wireshark is used to examine protocols on the network. Students configure and troubleshoot routers (IOS), switches and clients for a basic network.

10150112

Cisco CCNA 3 Enterprise Networking, Security and Automation - Credits: 3

The CCNA 3 v7 Required Courses describes the architectures and considerations related to designing, securing, operating, and troubleshooting enterprise networks. Students gain skills to configure and troubleshoot OSPF, Access control lists, Network address translation (NAT), WAN technologies, quality of service (QoS), cyber security threats, mechanisms used for secure remote access (VPN), software-defined networking, virtualization, network management and network automation concepts (APIs) that support the digitalization of networks. PREREQUISITE: 10150113 Cisco CCNA 2 Routing and Switching Essentials.

10150113

Cisco CCNA 2 Routing and Switching Essentials - Credits: 3

Cisco CCNA 2 Routing and Switching Essentials (RSE) covers the architecture, components, and operations of routers and switches in a small network. Students learn how to configure, device management, switch ports, security, VLANs, Static and Dynamic routing, DHCP (v4 and v6), NAT and ACLs on routers and switches. At the completion of this course student may achieve a discount voucher for the CCENT certification exam. PREREQUISITE: 10150111 Cisco CCNA 1 Introduction to Networks.

10150117

Server Administration 1 - Credits: 3

This course provides students with the fundamental technologies needed to administer a Windows domain. Students will learn how to manage domain resources including users, workstations, servers and shared folders using Active Directory, role management, Server Manager and RSAT. Student will learn how to secure these domain resources using Group Policy, NTFS and file share permissions. Student will also learn how to use the Domain Naming System (DNS), an integral part of Windows domain environments. PREREQUISITE: 10154149 Windows Operating Systems.

10150139

IT Essentials and Security - Credits: 2

The IT Essentials and Security (ITES) course introduces students to the fundamentals of computer hardware and software, mobile devices, security and networking concepts, and the responsibilities of an IT professional. The latest release includes mobile devices, Linux, and client side virtualization, as well as expanded information about Microsoft Windows operating systems, security, networking, and troubleshooting. This course covers materials on the CompTia A+ certification exam.

10150170

Coding with Python - Credits: 2

This course introduces Python for network engineering. It begins with basic programming topics such as variables, lists, decisions, loops and I/O. Using this knowledge the course teaches students how to automate the configuration of networking equipment. This course also introduces the "Internet of Things" (IoT) and how to use Python to program IoT devices.

10151101

Firewall and VPN Management - Credits: 3

This course covers the configuration and management of firewall and VPN technologies. Students will be exposed to products from manufactures like: CISCO, Palo Alto, Sonic Wall and Check Point. In depth hands-on exercises are used to instruct the student in the related technologies including NAT, PAT, ACL construction, application gateways, stateful packet inspection, application layer and URL filtering. Student will configure and test VPN connection for remote access and site-to-site connections. PREREQUISITE: 10150113 Cisco CCNA 2 Routing and Switching Essentials

10151102

Digital Forensics and Incident Response - Credits: 2

This course provides an overview of computer forensics. Operating system structures and file/disk structures (partitions, MBR, GPT) will be covered for Windows, Android and Linux. Imaging of drives and memory will be done using computer forensic hardware and software tools. The details of data acquisition will identify artifacts for the operating system, files system, browsers, and email. File and password recovery will be performed with data carving tools. Students will generate reports to document their activities. Tools used may include FTK, dd, Kail. PREREQUISITE: 10154103 Linux Operating Systems

10151103

Penetration Testing - Credits: 3

This course will provide an overview of the tools and techniques commonly used for exposing the vulnerabilities of an organization's IT systems. Hands-on labs are used to introduce the proper selection and application of a given tool, with a focus on security techniques to prevent or mitigate such attacks. Along with this, students will explore options for documenting and reporting on the outcome of the tests to stakeholders. PREREQUISITE: 10150102 Information Security

10151104

Intrusion Detection and Prevention - Credits: 3

This course provides a broad overview of the tools and techniques commonly used for detecting network sourced attacks. In depth hands-on exercises are used to instruct the student in the proper selection and application of a given tool for the intended task. Also included are basic strategies for documenting and reporting on detected events. The student must demonstrate the ability to plan, design, and implement a network IDS/IPS that fulfills the security needs of a common business or organization. Tools used may include: Security Onion, firepower, Palo Alto, tcpdump, snort, barnyard, etc... PREREQUISITE 10501102 Information Security

10151105

Threat Hunting - Credits: 3

This course will examine different types of logs and alerts to identify issues and threats. Students will become familiar with policies, procedures, event correlation and continuous monitoring programs to help identify incidents. Network traffic will be monitored for anomalies. Tools used may include: Security Onion, SIEM OSSEC, ELK, OSSIM, solar wins, Prelude, splunk. PREREQUISITE 10150102 Information Security and COREQUISITE: 10151104 Intrusion Detection and Prevention.

10151106

Networking Security Capstone - Credits: 2

The network security capstone project will give students exposure to configuring, designing, monitoring, and protecting a business-like environment. The instructor will give students a milestone to meet each week for the students to implement and document. The project will utilize knowledge from many different program courses to implement and secure the equipment in their pod. On completion of the project, students will be submitting their documentation for program outcome evaluation aligned with the technical skills attainment (TSA). Students will be given a rubric to meet the evaluation criteria. PREREQUISITE: 10151101 Firewall and VPN Management and COREQUISITES: 10151104 Intrusion Detection and Prevention and 10151105 Threat Hunting

10151107

Emerging Technologies in Cybersecurity - Credits: 3

This exciting course provides the student with the opportunity to research and explore current and rapidly evolving technologies with an eye towards how they affect an organization. Students will discuss the disruptive nature of new technologies on individuals, businesses, and the society at large. Some of these technologies include robotics, encryption, social media, biometrics, SmartHome controllers, remote access, genetic tracing, and Big Data. The student will develop a project plan that implements a new technology into an existing business or organizational model and identify the impacts the new technology will have on the organization. PREREQUISITE: 10150112 Cisco CCNA 3 Enterprise Networking, Security and Automation

10154103

Linux Operating Systems - Credits: 3

In this course the Linux operating system is examined in-depth with emphasis on features, capabilities, tools, and configurations including an introduction to network configurations. PREREQUISITE: 10154149 Windows Operating Systems.

10154149

Windows Operating Systems - Credits: 3

A review of the most common command line operations and study of more advanced commands necessary to configure the Windows operating system for a variety of environments. Topics to be studied include creating directories, batch files, menus, custom configurations, file management, multitasking, windowing, security, and disk management utilities. There will be an introduction to usage, configuration, and tools of the Windows operating system.

Information Technology - Systems Administration Specialist

10-154-7 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland, New Richmond*, Rice Lake, Superior

Full program available at the Ashland, Rice Lake, and Superior campuses.

*First year coursework fully available at the New Richmond campus and complete your full program Online or at any of our other campuses.

Program Overview

The first year of the IT-Systems Administration Specialist program provides you with a foundation in computer systems along with strong networking skills. These skills will allow you to support and manage computer systems and the networks connecting them.

The second year of the program focuses on server administration, database administration, virtualization and cloud computing concepts. Students learn how to securely install, configure and manage servers in a virtualized environment. The courses provide skills to help prepare students for the VMware Certified Professional (VCP), AWS Certified Solutions Architect, CompTIA A+, Network+, Linux+ and Server+ certifications.

Special Features

Northwood Tech is affiliated with the following industry partners providing students with access to a variety of materials and software: AWS, Cisco, CompTIA, Microsoft, and VMware.

Northwood Tech locations are Cisco Networking Academies and Red Hat Academies, and Northwood Tech is a CompTIA academy partner. Vue testing centers are available at each location.

As a member of the Red Hat, AWS, VMware, and Cisco Academies students in the IT programs receive free access to vendor software.

Students in the IT – Systems Administration Specialist program have the opportunity to dual major with the IT – Cybersecurity Specialist program by completing additional coursework (see page 139 for more information on the IT - Cybersecurity Specialist program). Students can fulfill Elective Courses by taking classes from either program

Graduates have the option to transfer coursework to complete a Bachelor's Degree at UW-Stout, and other institutions, with degree completion programs.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Information Technology - Systems Administration Specialist graduates will be able to:

- Support server operations
- Manage virtualization technologies
- Manage client operating systems
- Manage services in a cloud environment
- Develop scripts for IT automation

Career Outlook

Typical positions available after graduation include:

- Systems Administrator
- Microsoft Server Administrator
- Network Technician
- VMware vSphere Administrator
- Database Administrator
- Cloud Technician

With additional education and/or work experience, graduates may find employment as:

- Network Administrator
- Information Security Analyst
- Data Center Manager

Career Pathway

The Information Technology - Systems Administration Specialist program includes the following pathway option (page 237):

- IT - Network Technician

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10150111

Cisco CCNA 1 Introduction to Networks - Credits: 3
Cisco CCNA 1 Introduction to Networks (ITN) covers networking architecture, structure, and functions. The course introduces IPv4 and IPv6 addressing structure and design, the fundamentals of Ethernet concepts, media, and operations, the OSI and TCP/IP models and associated protocols to set a strong networking foundation. Wireshark is used to examine protocols on the network. Students configure and troubleshoot routers (IOS), switches and clients for a basic network.

10150113

Cisco CCNA 2 Routing and Switching Essentials - Credits: 3
Cisco CCNA 2 Routing and Switching Essentials (RSE) covers the architecture, components, and operations of routers and switches in a small network. Students learn how to configure, device management, switch ports, security, VLANs, Static and Dynamic routing, DHCP (v4 and v6), NAT and ACLs on routers and switches. At the completion of this course student may achieve a discount voucher for the CCENT certification exam. PREREQUISITE: 10150111 Cisco CCNA 1 Introduction to Networks.

10150117

Server Administration 1 - Credits: 3
This course provides students with the fundamental technologies needed to administer a Windows domain. Students will learn how to manage domain resources including users, workstations, servers and shared folders using Active Directory, role management, Server Manager and RSAT. Students will learn how to secure these domain resources using Group Policy, NTFS and file share permissions. Students will also learn how to use the Domain Naming System (DNS), an integral part of Windows domain environments. PREREQUISITE: 10154149 Windows Operating Systems.

10150118

Server Administration 2 - Credits: 3
This course introduces students to some of the most important server roles for systems administrators. These roles will include DHCP, storage, and Hyper-V virtualization. Students will learn how to Manage IP addresses on a network. They will learn how to create and secure file and block level storage. They will also learn how to create, manage and network virtual machines in a secure environment. PREREQUISITE: 10154149 Windows Operating Systems.

10150139

IT Essentials and Security- Credits: 2
The IT Essentials and Security (ITES) course introduces students to the fundamentals of computer hardware and software, mobile devices, security and networking concepts, and the responsibilities of an IT professional. The latest release includes mobile devices, Linux, and client side virtualization, as well as expanded information about Microsoft Windows operating systems, security, networking, and troubleshooting. This course covers materials on the CompTIA A+ certification exam.

10150170

Coding with Python - Credits: 2
This course introduces Python for network engineering. It begins with basic programming topics such as variables, lists, decisions, loops and I/O. Using this knowledge the course teaches students how to automate the configuration of networking equipment. This course also introduces the "Internet of Things" (IoT) and how to use Python to program IoT devices.

10152100

Database Concepts and SQL - Credits: 3
This course is a comprehensive introduction to database concepts. The interaction between software applications and databases will be discussed. Database terminology will be introduced. Students will learn how to manage, design, and construct relational databases. The first four weeks will focus on using Microsoft Access. The second four weeks will work with Microsoft SQL Server learning how to work with the SQL language to create tables, join tables, query data, write summary queries, insert, update, and delete data.

10154103

Linux Operating Systems - Credits: 3
In this course the Linux operating system is examined in-depth with emphasis on features, capabilities, tools, and configurations including an introduction to network configurations. PREREQUISITE: 10154149 Windows Operating Systems

10154141

VMware Certified Professional - Credits: 3
This course is an introduction to Enterprise virtualization using VMware vSphere, ESXi and vCenter. Students receive hands-on experience in the installation, configuration and management of VMware. This course also covers storage and networking concepts important to virtualization. This course fulfills the "VMware vSphere: Install, Configure, Manage" requirement to take the VCP certification exam. PREREQUISITE: 10150113 Cisco CCNA 2 Routing and Switching Essentials.

10154165

Introduction to System Center - Credits: 2
This course will introduce Microsoft System Center Configuration Manager (SCCM). Students will learn administrative procedures to setup a Configuration Manager environment, create and deploy applications and packages, manage software updates, deploy Windows operating systems, and perform basic reporting. PREREQUISITE: 10150117 Server Administration 1.

10154166

Introduction to PowerShell Automation - Credits: 3
Scripting technologies are used to automate system management tasks and create system management utilities. Students will learn basic programming logic concepts to develop scripts. Windows PowerShell is utilized to administer and automate tasks in Microsoft network environments. PREREQUISITE: 10150117 Server Administration 1.

10154144

Ethical Hacking - Credits: 3
Ethical hacking students will scan, test and secure their own systems. Students in the lab environment will apply practical experience to implement essential security for systems. Studies will include how perimeter defenses are applied to their own networks. The processes of escalating privileges, Intrusion Detection, Policy Creation, Social Engineering, DDoS Attacks, Buffer Overflows and Virus will be studied from an ethical and defense point of view to help secure resources in the information technology. PREREQUISITES: 10150117 Server Administration 1 and 10154103 Linux Operating Systems.

10154145

Database Administration - Credits: 3
This course covers basic concepts of database administration including setting up and securing users, tuning operations, database security, and backups. This course also covers web server administration and web site deployment as well as basics of SharePoint administration. PREREQUISITES: 10150117 Server Administration 1 and 10152100 Database Concepts and SQL.

10154146

Cloud Computing - Credits: 3
This course will examine how storage and virtualization technologies are making possible the enormous rise of cloud computing. The course will look at the impact that cloud computing is having on traditional datacenters. It will also discuss security and disaster recovery from a cloud computing perspective. PREREQUISITE: 10154141 VMware Certified Professional.

10154147

Capstone Project - Credits: 2
This course is the capstone work-based experience for the IT - Systems Administration Specialist program. Learners will design, develop, and perform a project either in an actual work experience or a simulated project. The project will be designed to utilize skills typical of a graduate in the field. Weekly simulated timesheets, job progress reports, and oral reports to management will be used to track project progress. Successful completion will require project documentation. PREREQUISITES: 10154141 VMware Certified Professional, 10150118 Server Administration 2, 10154103 Linux Operating Systems and 10154165 Introduction to System Center and COREQUISITE: 10154145 Database Administration.

10154148

IT Field Experience - Credits: 1
Provides work experience in IT Field related to course work within the program. The experience should complement program courses to implement practical application of skills students obtain. By consent of instructor, a special project(s) may be substituted for the field experience. COREQUISITE: 10154147 Capstone Project.

10154149

Windows Operating Systems - Credits: 3
A review of the most common command line operations and study of more advanced commands necessary to configure the Windows operating system for a variety of environments. Topics to be studied include creating directories, batch files, menus, custom configurations, file management, multitasking, windowing, security, and disk management utilities. There will be an introduction to usage, configuration, and tools of the Windows operating system.

Information Technology - Web and Software Developer

10-152-7 Associate Degree (two-year)

Financial Aid Eligible

Campuses: New Richmond, Online

Program Overview

Web and software development teaches you how to solve problems. You will learn how to read/write in multiple languages, understand the concepts of object oriented programming, smart software design, troubleshooting, debugging and creating solutions.

Special Feature

The Information Technology - Web and Software Developer program is available online.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Information Technology - Web and Software Developer graduates will be able to:

- Design web and software applications
- Apply data persistence technologies
- Develop software applications
- Develop web applications
- Develop documentation
- Use infrastructures
- Analyze new technologies

Career Outlook

Typical positions available after graduation include:

- Web Developer
- Software Developer
- Database Developer
- Full Stack Developer

Related Programs

- IT - Cybersecurity Specialist
- IT - Systems Administration Specialist

This course is a comprehensive introduction to database concepts. The interaction between software applications and databases will be discussed. Database terminology will be introduced. Students will learn how to manage, design, and construct relational databases. The first four weeks will focus on using Microsoft Access. The second four weeks will work with Microsoft SQL Server learning how to work with the SQL language to create tables, join tables, query data, write summary queries, insert, update, and delete data.

10152101

Web Design and Development - Credits: 3

Students plan and develop well-designed websites that combine effective navigation and a balanced use of text, images, and color. Emphasis is on understanding HTML5, Cascading Style Sheets (CSS), accessibility, and responsive Web design. Students use media queries, CSS Flexbox and CSS Grid to create responsive websites that are easily viewable across a wide range of devices.

10152102

Advanced Website Development - Credits: 3

Students gain hands-on experience with the design and implementation of dynamic websites. Topics include JavaScript, jQuery, Ajax, and APIs with which students thoroughly explore event-driven techniques, data storage, accessing the DOM, and JSON. Students use media queries, CSS Flexbox and CSS Grid to create responsive websites that are easily viewable across a wide range of devices. Students deploy a website to a web server using FTP. PREREQUISITE: 10152101 Web Design and Development and 10152135 Program Logic.

10152106

Java Programming - Beginning - Credits: 3

Beginning Java familiarizes the student with the fundamentals of the Java language including data types, operators, expressions, and conditional statements. Students learn how to set up an environment for developing Java web programs, define classes and utilize class objects. Students explore object-oriented programming concepts including encapsulation and abstraction. Other topics include string manipulation, Collections, Array Lists, Exception Handling, and creating professional looking end-user interfaces. This course covers software architectural patterns, such as model-view-controller (MVC). Students also learn to communicate with a database. PREREQUISITES: 10152135 Program Logic and COREQUISITE: 10152101 Web Design and Development

10152107

Java Programming - Advanced - Credits: 3

Advanced Java provides an in-depth look at advanced features of the Java language. With a solid grasp of Java language basics, students explore more object-oriented concepts, practice their database communication skills, and take a deeper dive into connection pools. Students develop Java applications for the web using Java Server Pages (JSP), and Servlets. Topics include JSPs, Servlets, session management, Expression Language (EL), JSP Standard Tag Library (JSTL), and JavaBeans. Students develop applications that communicate with a database. PREREQUISITE: 10152106 Java Programming - Beginning COREQUISITE: 10152102 Advanced Website Development

10152108

Enterprise Java Programming - Credits: 3

The third course in the Java sequence continues exploring advanced Java topics within a Java web development platform. Students hone their skills in JSPs, Servlets, session management, Expression Language (EL), JSP Standard Tag Library (JSTL), and JavaBeans. New concepts include, application security, listeners, filters, encryption, as well as, working with HTTP requests and responses headers. Students continue to develop applications that communicate with a database. PREREQUISITE: 10152107 Java Programming - Advanced.

10152110

Programming in SQL - Credits: 3

This course covers using Microsoft SQL Server and SQL Server Management Studio to design and create databases, tables, views, functions and stored procedures. Students will learn to script all creation and modification of tables, views, and stored procedures. Students will also explore how to encrypt data, and best practices for working with SQL server. PREREQUISITE: 10152100 Database Concepts and SQL.

10152111

Systems Analysis and Design - Credits: 3

This course covers the introduction to principles and techniques for analyzing and building requirements for a software solution. Included will be the definition of the problem, fact gathering, and evaluation of alternative solutions. A majority of the course will focus on understanding the importance of finding and documenting the business requirements for a project. Students will also work with various design and project management software tools. **NOTE: This course should be taken in the fall semester, prior to the final spring semester. This course will be used to build the requirements for the final capstone project that will be completed in 10152113 Applications Development** PREREQUISITE: 10152117 Advanced .NET Programming

10152112

Server-Side Web Development - Credits: 3

This course will familiarize the student with techniques to create Server Side processing for building fully functional Web applications. Topics covered include the use of Server Side Scripting, functions, sessions, GET, POST and session management. Students will work with PHP and MariaDB and will learn the fundamental programming concepts to build interactive data based web applications. PREREQUISITE: 10152117 Advanced .NET Programming and 10152102 Advanced Website Development and COREQUISITE: 10152110 Programming in SQL.

10152113

Applications Development - Credits: 3

The purpose of this capstone course is to provide the student with experience developing applications in a business environment. Students apply analysis, design, database, and programming techniques to develop a fully functional software application. The project progresses through all the stages of the development process including planning, analysis, design, construction, and testing. The project will be built using the design the student created in the Systems Analysis and Design course. During the construction of the project, the student will demonstrate the skills they have learned in their prior courses and will use industry standard tools and frameworks to design, build and document the progress of their project. PREREQUISITES: 10152107 Java Programming - Advanced and 10152111 Systems Analysis and Design and COREQUISITE: 10152118 Enterprise Programming in .NET.

10152115

Beginning .NET Programming - Credits: 3

Introduction to the concepts and techniques of programming in the .NET environment using the C# language. Topics covered include requirement analysis, program design, coding, and debugging. The majority of projects will be Windows form applications. COREQUISITE: 10152135 Program Logic.

10152116

Web Tools of the Trade - Credits: 2

In Web Tools of the Trade, students explore modern JavaScript and ways to make use of third-party web tools, libraries, and APIs. Besides working with web tools, students will also explore current events and hot topics in technology. PREREQUISITE: 10152102 Advanced Website Development

10152117

Advanced .NET Programming - Credits: 3

This course provides the student with an object-oriented view of the .NET development environment using C#. Topics include Lists, Classes, Debugging, Error Handling, Data Access connecting to an SQL server, and designing clean readable code. Windows Forms will be used for the majority of applications. PREREQUISITE: 10152115 Beginning .NET Programming and 10152135 Program Logic.

10152118

Enterprise Programming in .NET - Credits: 3

This course is designed to provide students with an enterprise view of the .NET development environment. The course will use Visual Studio development environment to create fully functional websites using ASP.NET and C#. Multiple techniques will be used for database access. Students will start with web forms and move into the MVC model for development. PREREQUISITE: 10152117 Advanced .NET Programming.

10152119

Development in Emerging Technologies - Credits: 3

This course focuses on developing applications that perform well on mobile devices. Students learn best practices for programming, testing, and deploying mobile applications. Students use device emulators for coding and testing mobile applications. Students effectively use layouts, themes, menus, and preferences to produce professional looking mobile applications. Students create applications that communicating with a SQLite database. PREREQUISITES: 10152102 Advanced Website Development, 10152115 Beginning .NET Programming, and COREQUISITE: 10152107 Java Programming - Advanced.

10152135

Program Logic - Credits: 3

In Program Logic, students learn to develop clear consistent strategies to create computer-programming solutions. Student analyze problems, review requirements, develop test plans, and then create solutions. Students learn to focus on understanding the logic behind each solution. Students also learn the proper use data types, variables and variable scope, as well as, methods, decision structures and repetition structures. Although this course emphasizes programming logic, students develop working computer programs.

Injection Mold Set-Up (Plastic) Apprenticeship

50-420-1 Apprenticeship

Campuses: New Richmond

Program Overview

Injection molding machine setters set up and tend machines that transform plastic compounds into a wide variety of consumer goods such as toys, tubing and auto parts. They install plastic injection molds on the molding machine; make necessary connections of the electrical, hydraulic and cooling systems to the mold; ensure that the correct plastic material, plastic melt temperatures, shot size, injection speed and pressures are set; and cycle the machine and adjust the molding parameters until acceptable parts are produced.

Units of instruction include electricity, hydraulics and pneumatics; statistical process control; plastic mold design and blueprint reading; technical mathematics; basic tool room machine shop operations; and an overview of many of the plastic molding processes other than injection molding.

Special Features

- Four-year training program
- 7,744 hours on-the-job training
- 576 hours of paid related instruction
- Wage scale of apprentice systematically increases throughout the apprenticeship
- The 47455401 Transition to Trainer course (8 hours) is required for completion. Will be taken in the last semester of the apprenticeship.

For more information on apprenticeships, see page 28

Qualifications Required by the Bureau of Apprenticeship Standards

- A high school graduate or equivalency and must be able to furnish record of schooling and grade obtained.
- Not less than 18 years of age and must be able to furnish proof of age.
- Physically able to perform the work of the occupation with reasonable accommodations and without hazard to themselves or others.

Inquire

Contact, Eric Lockwood, Director, Apprenticeships and Academies, 715.246.1871, eric.lockwood@NorthwoodTech.edu

How to Get Started

To become an apprentice in the state of Wisconsin, one must first be indentured by the State Bureau of Apprenticeships Standards (BAS).

- Contact an employer on your own. Employment is a requirement of entering an apprenticeship.
- Once you have an employer/sponsor, contact the Bureau of Apprenticeship Standards, to initiate the application process.

Admission Requirements

- Complete the Northwood Tech application form
– Please contact Michelle Marshall at 715.246.1877 or michelle.marshall@northwoodtech.edu to obtain a Northwood Tech application

NOTE: Prior to applying at Northwood Tech, students are also required to submit an application to the Bureau of Apprenticeship Standards (Eau Claire Office). The contact for the Bureau of Apprenticeship Standards is Long Vang, Apprenticeship Training Representative, at long.vang@dwd.wisconsin.org, 715.874.4627

Program-Specific Requirements

- Confirmation of admission from Northwood Tech Academic Affairs Apprenticeship Office

Program Outcomes

Injection Mold Set-Up (Plastic) Apprentice graduates will be able to:

- Classify the structure and properties of plastics
- Install (and maintain) molds
- Set-up injection molding machines
- Compare plastic processes used in the industry
- Analyze mold design and construction
- Interpret industrial prints and schematics
- Apply mathematics to industrial situations
- Solve problems by troubleshooting equipment components and processes
- Apply automation principles to injection molding and plastics

Career Outlook

Typical positions available upon completion include:

- Injection Mold Setup Technician
- Set Up Technician
- Automation Technician
- Injection Molding Setup Technician
- Finishing Technician
- Molding Technician
- Mold Technician
- Injection Molding Process Technician
- Injection Molding Set-up Technician

Career Pathway

The Injection Mold Set-Up (Plastic) Apprenticeship includes the following pathway option (page 238):

- Injection Mold (Set-Up) Certified Pre-Apprenticeship (CPA)

Related Program

- Technical Studies - Journeyworker (page 207)

Course Descriptions

50413701

Fundamentals of Electricity for Apprentices - Credits: 1

Explore the principles and applications of direct current and Ohm's Law, and examine the various types of circuits and meters during this apprenticeship course. Discuss additional topics such as electrical power, magnetism, relays, energy, and transducers. Electrical testing and measurement will be reviewed, and electrical safe work practices will be examined.

50419501

Hydraulics for Apprentices - Credits: 1

Gain the knowledge of the uses and applications of hydraulics required in the apprentice trades. Hydraulic systems, devices and components will be examined. Job duties and tasks related to safety, inspection, testing, maintenance and repair will be included.

50419502

Pneumatics for Apprentices - Credits: 1

Gain the knowledge of the uses and applications of pneumatics required in the apprentice trades. Pneumatic systems, devices and components will be examined. Job duties and tasks related to safety, inspection, testing, maintenance and repair will be included.

50463713

Schematics for Apprentices - Credits: 1

Explore the basics of schematic print reading for the injection mold set up apprentice, and study topics including hydraulics, pneumatics, and electrical schematics. Print types, symbols, technical specifications, and how this information is used by the trade are included.

50463714

Introduction to Injection Molding - Credits: 2

Build skills and apply reading electrical, hydraulic, and pneumatic schematics to plastic injection molding in this course designed for the injection mold setup apprentice. Study topics such as injection molding, thermosets and thermoplastics, mold set up and start up, and the structure and properties of plastic.

50463715

Injection Mold Design - Credits: 2

This course is designed to introduce apprentices to blueprint reading and mold design. Apprentices will be introduced to various aspects of piece part design, mold design, and mold construction as they build skills in interpreting industrial prints. Course competencies include mold teardown and analysis, 3D modeling, and rapid prototyping.

50463716

Fundamentals of Plastics Processing - Credits: 2

This course provide the injection mold setup person with an examination of plastics properties and structures; explores plastics processing and manufacturing; and reviews material selection and testing, material drying, and polymer heating, flow and solidification. Techniques for troubleshooting processes are introduced.

50463717

Plastic Process Design & Troubleshooting - Credits: 2

Study various molding processes, including the injection molding process, during this course for the injection mold set up apprentice. This course provides the injection mold setup person with an examination of process optimization, quality, product testing, scientific injection molding principles, and fundamentals of learning manufacturing. Project based activities will help develop problem-solving and troubleshooting skills in the apprentices' final semester of related instruction.

50664718

Automation for Apprentices - Credits: 2

Examine industrial automation and applications to various trades. Automation terminology, concepts and applications will be examined. Automated systems, components and devices will be reviewed. Robotics used in modern manufacturing plants will be compared and analyzed. Job duties and tasks associated with safety, inspection, testing, maintenance, repair and servicing will be the primary emphasis.

50664719

Automation for Injection Mold Setup Apprentices - Credits: 1

Automation principles will be applied to injection molding machines and set-up operations.

50804504

Industrial Math 1 - Credits: 1

Explore the topics of applied arithmetic and algebra. Study concepts related to measurement, fractions, decimals, percent, ratio and proportion, signed numbers, formula substitution, solutions to equations, tapers and gears. Calculate the areas and volumes of common geometric shapes.

Leadership Development

10-196-1 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

Leadership Development is designed for people who are, or aspire to become a manager, supervisor or leader in the business and professional world. The program provides you with the skills to deal with the everyday management processes of developing employees into high performing, cross-functional and interactive work teams.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Leadership Development graduates will be able to:

- Utilize continuous improvement strategies to achieve performance excellence
- Apply effective leadership skills
- Support organizational human resource practices
- Perform management functions to achieve organizational objectives

Career Outlook

Typical positions available after graduation include:

- Business Leader
- Supervisor
- Manager
- Team Leader
- Group Leader
- Department Head
- Coach
- Mentor

Career Pathway

The Leadership Development program includes the following pathway options (page 239):

- Leadership Essentials
- Supervisory Leadership Certificate

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101176

Financial Accounting 1A - Credits: 2

This is a basic accounting course for non-accounting program students. The scope of study focuses on an introduction to business and accounting, analyzing and recording accounting transactions, performing the adjusting process, and completing the accounting cycle. Understanding is based both on theory and application.

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10104191

Customer Service Management - Credits: 3

This course equips learners to selectively hire, train, manage, and measure customer service providers as well as strategies to recover from difficult service situations. Topics include telephone/online etiquette, active listening and problem solving. Best practices in handling complaints, controlling stress and managing customer expectations will be explored. An examination of internal systems and policies that impact service to include customer relationship management software will be explored. This course is designed to help managers and supervisors of customer service representatives to increase customer satisfaction, loyalty and profitability.

10106199

Business Technology and Success - Credits: 1

Designed to explore the impact of digital technology, communication, and media. Course learners will be able to apply organizational techniques and manage electronic files; explore computer hardware and the web using various software and apps while practicing security and safety techniques. Improve skills in critical thinking, innovation, and personal responsibility through experiential and problem-solving approaches for a workforce-ready mindset.

10116100

Human Resource Management - Credits: 3

In Human Resource Management, the learner applies the skills and tools necessary to effectively value and apply employees' abilities and needs to organization goals. Each learner will demonstrate the application of the supervisor's role in contemporary human resources management, impacts of EEOC, writing job descriptions, recruitment, selection, conducting job interviews, orientation, developing policies and procedures, training, performance management, employee counseling and development, and effective use of compensation and benefit strategies. It is recommended that the learner have experience using a PC/MAC, using the MS Windows operating systems and software suite, browsing Web pages, downloading files, using e-mail, and exchanging files prior to enrolling in this course.

10196117

Applied Supervision - Credits: 3

This course emphasizes application of advanced principles of supervision and project management. These principles include planning and organizing; implementation and control; and assessment. Learners are provided the opportunity to design and complete supervisory projects. Beginning with the fundamentals and extending to application, this course allows learners to undertake improvement projects within their workplace. PREREQUISITE: Students must be enrolled in the Leadership Development program and have completed 40 credits.

10196134

Legal Issues for Supervisors - Credits: 3

Provides an overview of the general legal responsibilities of an organization. Analyzes the current employment laws in the U.S. and their impact on employer/employees. Examines the supervisor's role in dealing with harassment in the workplace. Compares how appeals can be addressed in both union and nonunion environment.

10196136

Safety in the Workplace - Credits: 3

An introduction to safety and loss prevention in the workplace with an emphasis on the supervisor's responsibility for maintaining a safe, productive environment. Students will study safety concepts, hazard controls, developing safety and health programs, and federal- and state-mandated regulations.

10196138

Conflict Resolution and Confrontation Skills - Credits: 1

In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.

10196145

Contemporary Business for Supervisors - Credits: 2

In this course, you will review how the basic management styles affect the people, processes, and profitability of a business. You will also learn how to balance the organization's needs for profits with employees' basic needs within a global context. You will review and study the basic concepts and the supervisor's role regarding return on investment, return on equity, profit centers, financial statements, and overall departmental operations.

10196164

Personal Skills for Supervisors - Credits: 3

In Personal Skills for Supervisors, the learner applies the skills and tools necessary to deal with the time management, stress, and related challenges to a supervisor. Each learner will demonstrate the application of time management techniques, personal planning, continuous learning, valuing rights and responsibilities of others, effective communication, assertiveness, and dealing effectively with stress.

10196168

Organizational Development - Credits: 3

In Organizational Development, the learner applies the skills and tools necessary to effectively deal with organization behavior and change. Each learner will demonstrate the application of the impacts of globalization on an organization, dealing with organization culture, dealing with change and future challenges affecting the total organization, organization decision making, vision, goals, performance management and planning, and the role of organization structure.

10196188

Project Management - Credits: 3

In Project Management, the learner applies the skills and tools necessary to design, implement, and evaluate formal projects. Each learner will demonstrate the application of the role of project management, developing a project proposal, use of relevant software, working with project teams, sequencing tasks, charting progress, dealing with variations, budgets and resources, implementation, and assessment.

10196189

Team Building and Problem Solving - Credits: 3

In Team Building and Problem Solving, the learner applies the skills and tools necessary to facilitate problem solving in a team environment. Each learner will demonstrate the application of the benefits and challenges of group work, necessary roles in a team, stages of team development, different approaches to problem solving, consensus, systematic process of problem definition, data acquisition, analysis, developing alternative solutions, solution implementation, evaluation, and documentation.

10196190

Leadership Development - Credits: 3

In Leadership Development, the learner applies the skills and tools necessary to fulfill his/her role as a modern leader. Each learner will demonstrate the application of evaluating leadership effectiveness and organization requirements, individual and group motivation strategies, implementing mission and goals, ethical behavior, personal leadership style and adaptation, impacts of power, facilitating employee development, coaching, managing change, and effective conflict resolution.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

10196192

Managing for Quality - Credits: 3

In Managing for Quality, the learner applies the skills and tools necessary to implement and maintain a continuous improvement environment. Each learner will demonstrate the application of a personal philosophy of quality, identifying all stakeholder relationships, meeting/exceeding customer expectations, a system-focused approach, using appropriate models and tools, managing a quality improvement project, and measuring effectiveness of continuous improvement activities.

Leadership Essentials

30-196-6 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

A series of courses to assist you in developing the skills of current and future managers to lead today's workforce. Leadership Essentials focuses on leading people within an organization toward strategic goals, through corporate changes, or in directing processes and procedures.

Admission Requirement

- Complete Online application form

Program Outcomes

Leadership Essentials graduates will be able to:

- Perform leadership functions to achieve organizational objectives
- Facilitate effective employee relations

Career Outlook

Typical positions available after graduation include:

- Office Coordinator
- Office Supervisor
- Customer Service Specialist
- Group Coordinator
- Team Lead

Organizations need employees who can initiate change, make decisions and inspire teams. Leadership Essentials can be a huge factor in acquiring these types of skills. In fact, the top two skills desired by companies are in leadership and communication. This technical diploma will help you to meet their needs AND your professional and career goals.

Career Pathways

Leadership Essentials is a pathway into the following programs (pages 239 and 247):

- Leadership Development
- Nonprofit Leadership

Required Courses

Number	Course Title	Credits (cr.)
10196164	Personal Skills for Supervisors	3 cr.
10196189	Team Building and Problem Solving	3 cr.
10196190	Leadership Development	3 cr.
10196191	Supervision	3 cr.
TOTAL CREDITS		12 cr.

Course Descriptions

10196164

Personal Skills for Supervisors - Credits: 3

In Personal Skills for Supervisors, the learner applies the skills and tools necessary to deal with the time management, stress, and related challenges to a supervisor. Each learner will demonstrate the application of time management techniques, personal planning, continuous learning, valuing rights and responsibilities of others, effective communication, assertiveness, and dealing effectively with stress.

10196189

Team Building and Problem Solving - Credits: 3

In Team Building and Problem Solving, the learner applies the skills and tools necessary to facilitate problem solving in a team environment. Each learner will demonstrate the application of the benefits and challenges of group work, necessary roles in a team, stages of team development, different approaches to problem solving, consensus, systematic process of problem definition, data acquisition, analysis, developing alternative solutions, solution implementation, evaluation, and documentation.

10196190

Leadership Development - Credits: 3

In Leadership Development, the learner applies the skills and tools necessary to fulfill his/her role as a modern leader. Each learner will demonstrate the application of evaluating leadership effectiveness and organization requirements, individual and group motivation strategies, implementing mission and goals, ethical behavior, personal leadership style and adaptation, impacts of power, facilitating employee development, coaching, managing change, and effective conflict resolution.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

Livestock Production

61-080-2 Pathway Certificate (less than one year)

Campus: Ashland*, New Richmond*, Rice Lake*, Superior*
Outreach Center: Balsam Lake*

*Combination of Hybrid and On Site instruction

Program Overview

The Livestock Production pathway certificate gives students the fundamentals of livestock management and husbandry along with an understanding of nutrition. Coupled with a class in farm records and analysis, students will leave with the skillset to manage and make critical decisions surrounding the day-to-day business of a livestock operation.

Special Features

Livestock Production courses are offered in a hybrid setting. This allows you to enjoy the freedom of taking classes through the internet live from anywhere.

Connect with your instructor and classmates during live classes via the web.

Evening courses will be available for individuals needing to complete continuing education requirements for FSA loans.

Certificate is available part time or over 2 years.

Labs will be on Fridays. These hands-on learning experiences will be held on-campus or at farm sites throughout the year.

Course Descriptions

31080373

Livestock Nutrition - Credits: 3

The Livestock Nutrition course will instruct the student in the following areas: anatomy and physiology of livestock; nutrient requirements for calves, heifers, and cows; ration balancing for calves, heifers, lactating cows, and dry cows; determine livestock feed needs; evaluate by-product feeds and feed additives; low input livestock feeding; metabolic disorders; and current issues in agriculture. Individualized instruction will be held at the student's on-the-job work location. The class also involves credit for on-the-job experience.

31080374

Livestock Management - Credits: 3

Animal agriculture has changed dramatically in the past decade and will continue to change at an even more rapid rate in the future. With advanced technology, animals have been cloned from tissue cells other than the gametes. This may allow us to produce animal products other than the traditional milk, meat, and fiber of the past. Along with positive changes, we have new animal diseases, concerns for the environment, human health, and these things are happening in a very volatile, economic climate. This course will help you analyze the current situation and make plans to take advantage of the changes in animal agriculture brought about by technological advances. Only by taking advantage of this change will we be able to survive economically in a world market.

31080375

Farm Records and Analysis - Credits: 3

This course emphasizes the practical use of a farm record system in managing the farm through farm and financial analysis. Includes the establishment of farm business goals, selection and use of farm credit, farm business arrangements, farm estate planning, and farm income taxes. Instruction is provided on the use of computers and/or computer records and financial analysis of the farm business and finance strategy to meet the learner's needs. Production and financial decisions will be made based on the learner's farm business analysis. All competencies will be assessed using the learner's farm or with simulations established by the instructor.

Program Outcome

The Livestock Production Certificate will prepare you to:

- Evaluate livestock management plans

Career Outlook

Typical positions available after graduation include:

- Farm Laborers
- Feeder
- Animal/Livestock Handler

Career Pathway >

Livestock Production is a pathway into the following program (page 229):

- Farm Operation

Related Programs

- Agricultural Business Fundamentals
- Crop Production

Required Courses

Number	Course Title	Credits (cr.)
31080373	Livestock Nutrition	3 cr.
31080374	Livestock Management	3 cr.
31080375	Farm Records and Analysis	3 cr.
TOTAL CREDITS		9 cr.

Machine Tool Operation

31-420-1 Technical Diploma (one-year)

Financial Aid Eligible

Campus: Ashland

Program Overview

Machine Tool Operation is a nine-month technical diploma program designed to provide in-depth study and hands-on skills in the machine processing of a variety of metals.

You will become proficient in the set up and operation of manual mills, lathes, grinders, drills and saws as you complete increasingly complex projects while holding tight tolerances. Various pieces of precision measuring equipment are used to check quality. Additional work in blueprint reading, heat-treating and computer numerical controlled (CNC) machining is required to complete the Machine Tool Operation program.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Machine Tool Operation graduates will be able to:

- Apply basic safety practices in the machine shop
- Interpret industrial/engineering drawings
- Apply precision measuring methods to part inspection
- Perform basic machine tool equipment set-up and operation
- Perform programming, set up, and operation of CNC machine tools

Career Outlook

Typical positions available after graduation include:

- Machine Operator
- Machinist Apprentice
- Machine Setup Operator

With further training, graduates may advance to:

- All-round Machinist
- Tool and Die Maker
- Machine Programming
- Machine Shop Operator
- Tool-machine Setup Operator

Career Pathway

Machine Tool Operation is a pathway into the following program (page 241):

- Machine Tool Technician

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
32420321	Print Reading for Machine Trades	1 cr.
32420325	Machine Tool Operation 1	4 cr.
32420326	Machine Tool Operation 2*	4 cr.
32420327	Machine Tool Operation 3*	4 cr.
32420328	Machine Tool Operation 4 (WBL)*	4 cr.
32420329	Machine Tool Theory 1	2 cr.
32420330	Machine Tool Theory 2	2 cr.
32420365	CNC Fundamentals	2 cr.

32801361	Applied Communications	2 cr.
32804325	Applied Technical Math 1	3 cr.
General Education Courses Total		5 cr.

TOTAL CREDITS 28 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

Course Descriptions

32420321

Print Reading for Machine Trades - Credits: 1

This course will cover the basic principles of print reading. The emphasis is on interpreting standard lines and symbols in single- and multiple-view working drawings. Topics include print reading procedures, drawing changes, machining specifications, and the reading of prints in specialized areas including ANSI and ISO standards. Strongly recommend a basic understanding of mathematics concepts.

32420325

Machine Tool Operation 1 - Credits: 4

Students will be assigned introductory, specifically designed projects that will be machined using the engine lathe, milling machine, drill press, and various saws. Students will be in a job-like setting. The capability and safe use of machine tools will be stressed.

32420326

Machine Tool Operation 2 - Credits: 4

Students will be assigned basic, specifically designed projects that will be machined using the engine lathe, milling machine, drill press, and various saws. Students will also machine parts on conversationally-programmed CNC lathes and vertical mills. Students will be in a job-like setting. The capability and safe use of machine tools will be stressed. COREQUISITE: 32420325 Machine Tool Operation 1.

32420327

Machine Tool Operation 3 - Credits: 4

A continuation of Machine Tool Operation featuring advanced operations on milling machines, grinders, lathes, and drill presses. CNC operation and programming on a vertical mill and a turning center are introduced. Also included are machine maintenance and precision measurement. The capability and safe use of machine tools will be stressed. PREREQUISITE: 32420326 Machine Tool Operation 2.

32420328

Machine Tool Operation 4 (WBL) - Credits: 4

Machine Tool Operation 4 features advanced operations on milling machines, grinders, lathes, and drill presses. CNC programming and operation on vertical mills and turning centers will be emphasized. The capability and safe use of machine tools will be stressed. COREQUISITE: 32420327 Machine Tool Operation 3.

32420329

Machine Tool Theory 1 - Credits: 2

This course will cover the basic principles of machine tool theory. The course will emphasize safety in the machine shop, measurement, metal cutting technology, basic lathe and mill operations, drilling machines, saws, layout procedures, and an introduction to CNC machining. The capability and safe use of machine tools will be stressed.

32420330

Machine Tool Theory 2 - Credits: 2

This course will cover principles of machine tool theory emphasizing conventional and CNC machining operations. There will be in-depth training on the engine lathe, milling machines, CNC programming and operation, grinding machines, and metallurgy. The capability and safe use of machine tools will be stressed.

32420365

CNC Fundamentals - Credits: 2

This course introduces the student to the development and editing of Computer Numerical Control (CNC) programs. The basic elements of CNC machine setup and operation are covered for the production of acceptable parts. Safety concerns are also addressed. Strongly recommend a basic understanding of algebra, geometry, and trigonometry.

Machine Tool Operation - CNC (CNC Machine Operator/Programmer)

31-444-1 Technical Diploma (one-year) - Program Availability Varies

Financial Aid Eligible

Campus: Rice Lake

Program Overview

Machine Tool Operation - CNC program is a 9-month technical diploma program designed to provide in-depth study and hands-on skills for the machine tool industry.

Students become proficient in the set up and operation of CNC mills and lathes, as well as manual mills, lathes, drills, and saws. Students write set sheets, build fixtures, program parts, set-up, and machine parts using the students' own processes and CNC programs. They also perform inspection to ensure quality and precision.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Machine Tool Operation - CNC graduates will be able to:

- Apply basic safety practices in the machine shop
- Interpret industrial/engineering drawings
- Apply precision measuring methods to part inspection
- Perform basic machine tool equipment set-up and operation
- Perform programming, set-up, and operation of CNC machine tools

Career Outlook

After completing this program, graduates will be ready for their career in a variety of positions such as:

- Machine Tool Operator
- Apprentice Machinist
- CNC Machinist
- Maintenance Machinist
- CNC Programmer

Career Pathways

The Machine Tool Operation - CNC program includes the following pathway option (page 240):

- CNC Technician

Required Courses

** See pages 38-41 for course descriptions.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

31444310

Milling and Turning 1 - Credits: 3

This course includes instruction of CNC (Computer Numerical Control) lathes and mills including calling up programs in the machine control unit, loading and deleting programs; setting work offsets; loading and unloading parts; loading tooling and tool offsets; running programs to make parts; and part inspection. By the end of the course, learners will set up work pieces in machines, enter programs, set up tool offsets, enter work offsets, and complete parts and projects.

31444311

Milling and Turning 2 - Credits: 5

This course includes the operation of CNC (Computer Numerical Control) mills and lathes by providing instruction and practice in the use of milling and turning machines. This course will also provide an introduction to job planning for CNC lathes and mills using standard G and M codes, including the use of process plans, inspection sheets, and set up guides will also be covered. This course will also provide the opportunity for learners to write their own job planning and editing of provided programs. By the end of this course, learners will edit programs, change speeds and feeds as needed, and adjust tool and work offsets to produce parts within specified tolerances. COREQUISITE: 31444310 Milling and Turning 1

31444312

Milling and Turning 3 - Credits: 3

This course includes the operation of CNC (Computer Numerical Control) mills and lathes including selection of tools, custom-made fixtures and other work holding devices such 4-jaw chucks, collets, and use of tail stocks to provide part support. Use of fixed cycles are introduced. Learners will be provided the opportunity to set the project, load and edit programs, change and modify tooling and programs to complete the required parts without the need to have the changes approved. This is the first class that the students will have both the opportunity and skills to complete a project using their own process. PREREQUISITE: 31444311 Milling and Turning 2

31444313

Milling and Turning 4 - Credits: 4

This course includes more advanced processes and tooling as it builds upon skills learned in the previous courses in the Milling and Turning sequence. Applications include selection of tools and work-holding devices, auto setting of tool offsets and work coordinate positions, load and editing programs, proofing programs, and making machine parameter adjustments. Advanced level programming will include canned machine cycles and use of software to assist in complex profiles. Learners will write complete programs, machine processes and set-up instruction. Including monitoring tool wear and offset updates designing and building customer-made fixtures for manufacturing and inspection. Learners will machine multiple parts to prove out programs and produce projects. This course will also provide an introduction and instruction to manual surface grinding set ups and operations. PREREQUISITE: 31444311 Milling and Turning 2 and COREQUISITE: 31444312 Milling and Turning 3

31444314

Milling and Turning 5 - Credits: 4

This course will continue to develop the skills and knowledge needed for entry into a machining workplace environment by providing instruction and practice in the use of milling, turning and grinding machines and the various manufacturing processes performed on them. It also includes an introduction to the automated surface grinding machines. This course allows the students to perfect the skills learned in the pre-requisite Milling and Turning courses. Students will have the opportunity to complete the capstone project using the tooling, machines and processes they deem best to meet the project requirements, though guidance will be given as needed. Students will be responsible for all aspects of their project using the skills learned in earlier classes such as material selection, tooling, work holding, inspection requirements, programming, editing, assembly, and documentation of the project. PREREQUISITE: 31444311 Milling and Turning 2 and COREQUISITE: 31444313 Milling and Turning 4

32444302

Machining Fundamentals - Credits: 2

This course will provide the basic machining information needed by the learner in subsequent CNC Machine Tool Operation courses. It will also provide instruction and practice in the use of sawing and drilling machines and related processes.

32420320

CAD/CAM Applications - Credits: 2

Computer-Aided Design (CAD) and Computer-Assisted Manufacturing (CAM) have become standard tools used almost wherever CNC production in metalworking takes place. Students will use the CAD/CAM software to build geometry, tool and material libraries, and define cutting paths/patterns. Post-processing of these CAD/CAM files will generate CNC programs in machine-specific G-code format. PREREQUISITE: 32420361 Introduction to CAD/CAM or 32420365 CNC Fundamentals.

32420321

Print Reading for Machine Trades - Credits: 1

This course will cover the basic principles of print reading. The emphasis is on interpreting standard lines and symbols in single- and multiple-view working drawings. Topics include print reading procedures, drawing changes, machining specifications, and the reading of prints in specialized areas including ANSI and ISO standards. Strongly recommend a basic understanding of mathematics concepts.

32420361

Introduction to CAD/CAM - Credits: 1

This course will introduce students to computer-aided drafting (CAD) and computer-aided machining (CAM). Students will use appropriate CAD software to prepare mechanical drawings. Students will be introduced to CAD/CAM equipment.

Machine Tool Technician

32-420-1 Technical Diploma (two-year)

Financial Aid Eligible

Campus: Superior

Program Overview

The two-year Machine Tool Technician program at Northwood Tech will prepare you to operate and set up machine tools for the machining industry. You will learn general machining skills based on the skills and knowledge identified by the Metalworking Industry Skill Standards Board. You will gain skills in production planning, quality control, metallurgical processes, precision measuring, using an engineer's handbook and interpreting prints. Computer-aided machining and programming techniques are emphasized.

Special Feature

Machine Tool Technician is scheduled over 1.5 years, including the summer term.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Machine Tool Technician graduates will be able to:

- Apply basic safety practices in the machine shop
- Interpret industrial/engineering drawings
- Apply precision measuring methods to part inspection
- Perform basic machine tool equipment set up and operation
- Perform programming, set up, and operation of CNC machine tools
- Perform advanced CNC machining operations

Career Outlook

Typical positions available after graduation include:

- Machine Tool Operator
- Apprentice Machinist
- Machine Setup Person
- Tool Room Machinist
- CNC Machinist
- Maintenance Machinist
- CNC Programmer

Career Pathway

The Machine Tool Technician program includes the following pathway option (page 241):

- Machine Tool Operation

Related Program

- Industrial Maintenance Technician

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32420312

CNC Programming - Turning - Credits: 2

Students will learn about program structure (startup, work, shutdown), and basic G-codes including variations caused by machine type and programmer style. They will write simple programs and edit prewritten programs in order to hone their skill. The goal will be to start out simple and move to programs that are both efficient and effective. PREREQUISITE: 32420365 CNC Fundamentals or consent of instructor.

32420313

CNC Turning Operations - Credits: 2

CNC turning centers produce many of the cylindrical shapes machined in production machine shops today. This course will include machine/control familiarization, machine startup procedures, program transfers, work holding preparation, tooling preparation, setting tooling offsets, and part origins. In addition, students learn how to run the first part including dry runs and making minor tool offset adjustments. PREREQUISITE: 32420365 CNC Fundamentals or consent of instructor.

32420315

CNC Programming - Milling - Credits: 2

Productive users of CNC machining centers benefit from the execution of effective and efficient CNC programs. Students will become familiar with frequently used G-codes and will be exposed to canned cycles. They will learn how to convert print specifications into CNC G-code format using linear and circular interpolation functions as well as utilizing the benefits of canned cycles for drilling, reaming, tapping, and boring holes. Programs will be entered and edited on personal computers and at the CNC Machining Center. PREREQUISITE: 32420365 CNC Fundamentals or consent of instructor.

32420316

CNC Milling Operations - Credits: 2

CNC machining centers will be utilized in this course for the production of machined parts. This course will include machine/control familiarization, machine startup procedures, program transfers, work-holding preparation, tooling preparation, setting tooling offsets, and part origins. In addition, students will learn how to run the first part including dry runs and making minor tool offset adjustments. PREREQUISITE: 32420365 CNC Fundamentals or consent of instructor.

32420318

Production Machining 1 - Credits: 4

This course is intended to develop the advanced skills and knowledge needed for entry into a production machining environment. The student machinist will use knowledge and skills developed in previous study to solve production machining problems. Emphasis will be placed on machine elements and prototype development and testing. PREREQUISITES: 32420330 Machine Tool Theory 2 and 32420328 Machine Tool Operation 4 (WBL).

32420320

CAD/CAM Applications - Credits: 2

Computer-Aided Design (CAD) and Computer-Assisted Manufacturing (CAM) have become standard tools used almost wherever CNC production in metalworking takes place. Students will use the CAD/CAM software to build geometry, tool and material libraries, and define cutting paths/patterns. Post-processing of these CAD/CAM files will generate CNC programs in machine-specific G-code format. PREREQUISITE: 32420361 Introduction to CAD/CAM or 32420365 CNC Fundamentals.

32420321

Print Reading for Machine Trades - Credits: 1

This course will cover the basic principles of print reading. The emphasis is on interpreting standard lines and symbols in single- and multiple-view working drawings. Topics include print reading procedures, drawing changes, machining specifications, and the reading of prints in specialized areas including ANSI and ISO standards. Strongly recommend a basic understanding of mathematics concepts.

32420325

Machine Tool Operation 1 - Credits: 4

Students will be assigned introductory, specifically designed projects that will be machined using the engine lathe, milling machine, drill press, and various saws. Students will be in a job-like setting. The capability and safe use of machine tools will be stressed.

32420326

Machine Tool Operation 2 - Credits: 4

Students will be assigned basic, specifically designed projects that will be machined using the engine lathe, milling machine, drill press, and various saws. Students will also machine parts on conversationally-programmed CNC lathes and vertical mills. Students will be in a job-like setting. The capability and safe use of machine tools will be stressed. COREQUISITE: 32420325 Machine Tool Operation 1.

32420327

Machine Tool Operation 3 - Credits: 4

A continuation of Machine Tool Operation featuring advanced operations on milling machines, grinders, lathes, and drill presses. CNC operation and programming on a vertical mill and a turning center are introduced. Also included are machine maintenance and precision measurement. The capability and safe use of machine tools will be stressed. PREREQUISITE: 32420326 Machine Tool Operation 2.

32420328

Machine Tool Operation 4 (WBL) - Credits: 4

Machine Tool Operation 4 features advanced operations on milling machines, grinders, lathes, and drill presses. CNC programming and operation on vertical mills and turning centers will be emphasized. The capability and safe use of machine tools will be stressed. COREQUISITE: 32420327 Machine Tool Operation 3.

32420329

Machine Tool Theory 1 - Credits: 2

This course will cover the basic principles of machine tool theory. The course will emphasize safety in the machine shop, measurement, metal cutting technology, basic lathe and mill operations, drilling machines, saws, layout procedures, and an introduction to CNC machining. The capability and safe use of machine tools will be stressed.

32420330

Machine Tool Theory 2 - Credits: 2

This course will cover principles of machine tool theory emphasizing conventional and CNC machining operations. There will be in-depth training on the engine lathe, milling machines, CNC programming and operation, grinding machines, and metallurgy. The capability and safe use of machine tools will be stressed.

32420377

Production Fixturing and Quality - Credits: 1

This course will introduce the student to the elements involved in the manufacture of a product. The course will include designing and building fixtures for use on a production project. The student will also develop the process plans and create quality documentation for this production project.

32420378

Production Machining 2 - Credits: 3

This course will continue to develop the advanced skills and knowledge needed for entry into a production machining environment. The student machinist will use knowledge and skills to developed in previous study to solve production machining problems. Emphasis will be placed on the efficient manufacture of parts in higher quantities and of higher quality. PREREQUISITES: 32420330 Machine Tool Theory 2 and 32420328 Machine Tool Operation 4 (WBL) and COREQUISITE: 32420318 Production Machining 1.

32420364

Multiaxis Programming and Operations - Credits: 2

This course will provide the students the opportunity to program, set-up and operate 4th and 5th axis vertical CNC Milling Centers.

32420365

CNC Fundamentals - Credits: 2

This course introduces the student to the development and editing of Computer Numerical Control (CNC) programs. The basic elements of CNC machine setup and operation are covered for the production of acceptable parts. Safety concerns are also addressed. Strongly recommend a basic understanding of algebra, geometry, and trigonometry.

32420375

Job Shop Machining 1 - Credits: 4

This course is intended to develop the skills and knowledge needed in a job shop environment. The student machinist will use knowledge and skills developed in previous study to solve typical job shop problems. PREREQUISITES: 2420330 Machine Tool Theory 2 and 32420328 Machine Tool Operation 4 (WBL).

32420376

Job Shop Machining 2 - Credits: 4

This course is intended to develop the advanced skills and knowledge needed in a job shop environment. The student machinist will use knowledge and skills developed in previous study to solve typical job shop problems. This course builds on Job Shop Machining 1 experiences and provides additional skills in cutting tool selection and material characteristics. PREREQUISITES: 32420330 Machine Tool Theory 2 and 32420328 Machine Tool Operation 4 (WBL) and COREQUISITE: 32420375 Job Shop Machining 1.

Campus: New Richmond

Program Overview

The Machine Tooling Technics program emphasizes mold and toolmaking for the plastic injection molding industry including using computerized machining equipment. You will use basic machining skills along with math and print reading. You will gain skills in precision measurement, metallurgical processes, in-depth programming, operation on CNC milling machines and lathes, theory courses in toolmaking and CAD/CAM operation.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Machine Tooling Technics graduates will be able to:

- Apply basic safety practices in the machine shop
- Interpret industrial/engineering drawings
- Apply precision measuring methods to part inspection
- Perform basic machine tool equipment set-up and operation
- Perform programming, set up, and operation of CNC Machine Tools
- Perform tool, die, and/or mold operations

Career Outlook

Typical careers available after graduation include:

- Tool and Die Mold Maker
- Machinist Apprentice
- Machine Operator
- CNC Machinist
- Setup Person
- Programmer
- Maintenance Machinist

Career Pathways

The Machine Tooling Technics program includes the following pathway options (page 242):

- Entry Level Machining
- Multi-Axis CNC Milling

Course Descriptions

(See pages 38-41 for General Education course descriptions)

32420306

Machine Shop Theory 1 - Credits: 2

This course provides the student with knowledge in the areas of safety, speed and feed calculations, layout equipment, cutting tools, and machine tool equipment. Also introduces and studies the more technical shop operations of threading, tapping, boring, carbide tooling, and principles of metal cutting. Principles of metal cutting include the machinability of metals and how it relates to chip formation. Students will study the makeup of carbide tooling, how carbide is affected by operating conditions, and various carbide characteristics, sizes, shapes, grades, and applications as identified by the American Standards Association. The content supports activities in Applied Machine Tooling 1 and 2.

32420307

Machine Shop Theory 2 - Credits: 2

This course is a continuation of Machine Shop Theory 1. This lecture-based course will use lecture, group work, and individual projects to introduce you to surface grinding, CNC theory, application, programming, and inspection procedures. PREREQUISITE: 32420306 Machine Shop Theory 1.

32420308

Applied Machine Tooling 1 - Credits: 4

This lab-based course will provide instruction in shop safety, measuring, print reading, and basic setup and operation of saws, mills, and lathes.

32420309

Applied Machine Tooling 2 - Credits: 4

This lab-based course will introduce the student to threading, boring, precision and taper turning, and inspection procedures using optical comparators and coordinate measuring machines. COREQUISITES: 32420308 Applied Machine Tooling 1 and 32420321 Print Reading for Machine Trades.

32420311

Materials for Machine Tooling Technics - Credits: 1

During this course students will learn the basic principles of metallurgy related to mechanical, physical, and chemical properties of materials used for Machine Tooling Technics. Materials covered will be steel, cast iron, aluminum, copper, and plastics. Lab activities will include hardening, tempering, and hardness testing. This course will give the student the ability to make material selections and perform problem solving for specific applications that they will encounter in industry.

32420321

Print Reading for Machine Trades - Credits: 1

This course will cover the basic principles of print reading. The emphasis is on interpreting standard lines and symbols in single- and multiple-view working drawings. Topics include print reading procedures, drawing changes, machining specifications, and the reading of prints in specialized areas including ANSI and ISO standards. Strongly recommend a basic understanding of mathematics concepts.

32420334

CAD/CAM Demo - Credits: 2

This course builds on CAD Basics and Mastercam with additional CAD drawing concepts and CAM projects. Learners will utilize Solidworks and Mastercam applications to complete their learning objectives. Students will gain competency in file management by saving, converting, and working with different file types. Learners will create geometry in each application and convert files between CAD and CAM. Students will apply various tool paths to the designs they have created. Surface creation and machining exercises will be demonstrated by each individual. Each learner will design and detail a plastic part including a plotted final drawing to the correct scale. PREREQUISITES: 32420321 Print Reading for Machine Trades and 32420339 Mastercam.

32420336

Applied Machine Tooling 3 - Credits: 4

Students will further build their skills in machining and develop confidence in their ability to produce good workpieces. Students will continue to use the tools and procedures introduced in Machine Shop Theory 1. Students will also be introduced to surface grinding, coordinate measuring machine inspection, optical comparator, and CNC programming, setup, and machining. PREREQUISITES: 32420306 Machine Shop Theory 1 and 32420309 Applied Machine Tooling 2.

32420337

Applied Machine Tooling 4 - Credits: 4

This lab-based course further develops students' skills in CNC vertical mill and CNC lathe setup, operation, and programming. Students will set up increasingly complex projects on both the CNC lathe and CNC vertical mill. Students will learn how to troubleshoot CNC setups, programs, and tooling variations. Students will also troubleshoot and run their own programs created in Machine Shop Theory 2 and Mastercam. Finally, students will complete surface grinding projects. COREQUISITES: 32420307 Machine Shop Theory 2 and 32420336 Applied Machine Tooling 3.

32420338

CAD Basics - Credits: 1

This course offers instruction on individual computer workstations in a computer lab. This computer-aided drafting (CAD) instruction uses SolidWorks software that is capable of creating 3D drawings. In this course you will spend a majority of the time creating 3D models and exploring the concepts of working in 3D space. Students will create complete and fully dimensioned 3-view part prints ready to be transferred to paper.

32420339

Mastercam - Credits: 2

This introductory course prepares students for using Computer-Aided Machining (CAM) software to create CNC machining programs. This CAM instruction utilizes Mastercam software that is capable of creating 2D and 3D wire drawings, from which toolpaths to machine part features can be generated. Students will complete a variety of exercises before working on 2D machining projects. Students will create complete CNC process projects including drawings, toolpaths, CNC code, and all setup sheets and diagrams. These projects will be shop ready for machining. PREREQUISITE: 32420338 CAD Basics.

32420343

Machine Tooling Technics 3 - Credits: 3

In this course, the learner will start to build one plastic injection mold. Learners will do several projects to gain competency, which will include milling and grinding blocks square, programming and machining a graphite electrode. Learners will gain additional skills in the operation of basic and advanced machine tools in the area of milling, drilling, boring, reaming, grinding, and CNC milling. PREREQUISITES: 32420321 Print Reading for Machine Trades, 32420371 Machine Tooling Technics 2, and COREQUISITE: 32420391 Toolmaking Theory.

32420344

Machine Tooling Technics 4 - Credits: 3

In this course, the learner complete building one plastic injection mold. Learners will do several projects to gain competency, which will include electrical discharge machining, grinding/fitting inserts to a pocket, grinding ejector pins to length, mold polishing, a project that requires problem solving set-up problems, and final assembly of a plastic injection mold. Learners will gain additional skills in the operation of basic and advanced machine tools in the area of milling, drilling, boring, reaming, grinding, CNC milling, and EDMing operations. PREREQUISITES: 32420321 Print Reading for Machine Trades, 32420371 Machine Tooling Technics 2, and COREQUISITE: 32420391 Toolmaking Theory, 32420343 Machine Tooling Technics 3.

32420357

Advanced Machining Concepts - Credits: 1

In this course students will learn about advanced CNC programming and setup techniques, electrical discharge machining, and advanced inspection techniques.

32420370

Machine Tooling Technics 1 - Credits: 4

In this course learners will learn to set up, program, and run CNC mills, lathes, and EDM equipment. Learners will continue to build competencies in surface grinding, tool and cutter grinding, and manual milling. PREREQUISITE: 32420337 Applied Machine Tooling 4.

32420371

Machine Tooling Technics 2 - Credits: 4

In this course learners will build upon their machining skills using CNC mills, lathes, and EDM equipment. Learners will continue to build competencies in surface grinding, tool and cutter grinding, and manual milling. Learners will create, program, and run CNC programs with helical interpolation, subroutines, cutter compensation, and multiple fixture offsets. Learners will practice final grinding and fitting operations. COREQUISITE: 32420370 Machine Tooling Technics 1.

32420391

Toolmaking Theory - Credits: 2

This course provides the classroom instruction that supports shop activities in semester four of the Machine Tooling Technics program. It is a lecture course that addresses the technology of various types of plastic injection mold dies. Major emphasis will be placed on the theory, design, and building of plastic injection molds. Small group activities will be utilized to enhance student learning.

Maintenance Mechanic/Millwright Apprentice

50-423-1 Apprenticeship

Campus: New Richmond, Rice Lake

Program Overview

As a maintenance mechanic, machine repairer or millwright, you will install, dismantle or move machinery and heavy equipment according to layout plans, blueprints or other drawings. You will keep machines, mechanical equipment or the structure of an establishment in repair. Duties may involve pipe fitting, boiler making, insulating, welding, machining, carpentry, repairing electrical or mechanical equipment, installing, aligning and balancing new equipment and repairing buildings, floors or stairs. Essentially you will repair the buildings and everything mechanically within its contents.

Special Features

- Four-year training program
- 7,424 hours on-the-job training
- 576 hours of paid related instruction
- Wage scale of apprentice systematically increases throughout the apprenticeship
- The 47455401 Transition to Trainer course (8 hours) is required for completion. Will be taken in the last year of the apprenticeship.

For more information on apprenticeships, see page 28

Qualifications required by the Bureau of Apprenticeship Standards

- High School graduate or equivalency.
- Not less than 18 years of age.
- Must be physically able to perform the work of the trade with reasonable accommodations and without hazard to themselves or others. Applicants may be required to furnish a statement of physical condition from a physician at the time of the job offer. Applicants may be required to undergo drug or alcohol testing at the time of selection as an apprentice.
- Must be able to work in the United States.

Inquire

Contact, Eric Lockwood, Director, Apprenticeships and Academies, 715.246.1871, eric.lockwood@NorthwoodTech.edu

How to Get Started

To become an apprentice in the state of Wisconsin, one must first be indentured by the State Bureau of Apprenticeships Standards (BAS).

- Contact an employer on your own. Employment is a requirement of entering an apprenticeship.
- Once you have an employer/sponsor, contact the Bureau of Apprenticeship Standards, to initiate the application process.

Admission Requirements

- Complete the Northwood Tech application form
 - Please contact Michelle Marshall at 715.246.1877 or michelle.marshall@northwoodtech.edu to obtain a Northwood Tech application

NOTE: Prior to applying at Northwood Tech, students are also required to submit an application to the Bureau of Apprenticeship Standards (Eau Claire Office). The contact for the Bureau of Apprenticeship Standards is Long Vang, Apprenticeship Training Representative, at long.vang@dwd.wisconsin.org, 715.874.4627

Program-Specific Requirements

- Confirmation of admission from Northwood Tech Academic Affairs Apprenticeship Office

Program Outcomes

Maintenance Mechanic/Millwright Apprentice graduates will be able to:

- Demonstrate proper rigging techniques
- Select an appropriate power transmission system for a given application
- Identify suitable pumps for given applications
- Recommend bearings for given applications
- Plan for fabricating parts and assemblies according to specifications
- Apply operational and troubleshooting principles to fluid power systems
- Layout an equipment installation plan
- Plan maintenance schedules for a given system

Career Outlook

Typical positions available upon completion include:

- Maintenance Technician
- Industrial Machinery Mechanic
- Industrial Mechanic
- Loom Fixer
- Loom Technician
- Machine Adjuster
- Machine Mechanic
- Mechanic
- Overhauler
- Maintenance Millwright
- Millwright
- Millwright Business Representative
- Precision Millwright

Career Pathway

The Maintenance Mechanic/Millwright Apprentice includes the following pathway option (page 243):

- Maintenance Mechanic/Millwright Certified Pre-Apprenticeship (CPA)

Related Program

- Technical Studies - Journeyworker (page 207)

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
50423501	Millwright 1	2 cr.
50423502	Millwright 2	2 cr.
50423503	Millwright 3	2 cr.
50423504	Millwright 4	2 cr.
50423505	Millwright 5	2 cr.
50423506	Millwright 6	2 cr.
50423507	Millwright 7	2 cr.
50423508	Millwright 8	2 cr.
TOTAL CREDITS		16 cr.

Course Descriptions

50423501

Millwright 1 - Credits: 2

This course introduces apprentices to pipe sizes, materials and schedules, examines fittings, tubing and valves, and develops skills related to layout, installation, and maintenance. The course compares different pump types and their applications. Apprentices will complete a field inspection of pumps and learn how to troubleshoot, remove, overhaul, install, and perform preventative maintenance on pumps. Apprentices will examine packing, seals, and gaskets and compare materials and applications.

50423502

Millwright 2 - Credits: 2

This course provides instruction to apprentices concerning many aspects of inspecting, servicing, and troubleshooting pneumatic, hydraulics systems and components. Apprentices will learn safety related issues and be taught proper safety procedures for working with pneumatic systems and components. This course introduces principles of vacuum systems and interpreting vacuum system schematics. Apprentices will then develop skills related to installing, repairing, replacing, and applying troubleshooting principles to vacuum systems and components.

50423503

Millwright 3 - Credits: 2

This course covers couplings and alignment; bearings; belts, sheaves, pulleys and drives. The course compares different coupling types and examines common misalignment problems. Skills development is related to inspecting, troubleshooting, aligning, lubricating, and preparing couplings for removal and installation. Apprentices will examine bearing types and applications. Skill development is related to bearing selection, removal, mounting, lubrication, and diagnosing bearing failure. Apprentices will develop skills related to inspecting, troubleshooting, removing, selecting, and installing belt drive systems.

50423504

Millwright 4 - Credits: 2

In this course, apprentices will compare types of rigging equipment and their uses; determine safe loads, rig and crib loads, and move a load with cranes and hoists in this course. Apprentices will lay out equipment installations, plan for moving equipment, and set and level equipment. This course examines chain, belt, and other types of conveyors and related components. Apprentices will compare fasteners and their uses, analyze fastener failures, and install mechanical fasteners.

50423505

Millwright 5 - Credits: 2

This course covers machining basics, pint reading, metallurgy, and precision measurements. Types of measuring instruments will be compared. Measuring skills using tapes, steel rules, micrometers, calipers, indicators, and gauges will be developed. Course competencies include comparing the types of prints, interpreting structural drawings, identifying parts from prints, and develops apprentice sketching drawing skills. Apprentices are introduced to the basic machines and procedures of machines common to the industrial maintenance. Skills are developed regarding metallurgical concepts.

50423506

Millwright 6 - Credits: 2

This course examines drive transmission systems and their applications, including roller chains. Apprentices will develop skills inspecting power transmission systems and troubleshooting mechanical drive systems. Apprentices will compare gear types and applications and develop skills inspecting gear assemblies, troubleshooting gear problems, removing gears and components, and reassembling gear drive systems. This course examines both preventative and predictive maintenance concepts as they apply to millwright work processes and machine maintenance.

50423507

Millwright 7 - Credits: 2

This course is designed to introduce the apprentices to the basic concepts of electricity. Apprentices will be introduced to basic electrical components such as resistors, switches, indicators, relays, and basic testing equipment. Reading wiring diagrams will be introduced during this course. The course introduces the apprentices to advanced interpretation of the various wiring and ladder diagrams used in electrical systems. The selection and application of interconnecting wiring and control devices used in industrial electrical control systems will be the focus of this course.

50423508

Millwright 8 - Credits: 2

This course compares common welding processes and develops apprentice skills related to welding, cutting, heating, and using oxy-gas. Welding with arc, MIG and TIG is included, along with common cutting and joining techniques. Apprentices will compare types of sheet metal and tools used by the trade and develop skills related to fabricating sheet metal and structural steel, and then erecting structural steel.

Management Certificate

17-196-9 Technical Certificate

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

Outreach Center: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice and On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

The Management Certificate is a series of courses to develop the practical skills for dealing with the day-to-day management of a business or organization.

Admission Requirements

- Complete Online application form

Program Outcomes

The Management Certificate will prepare you to:

- Make good management decisions
- Create healthy working relationships within organizations
- Determine the strategic direction of a department or organization
- Gain practical skills to overcome daily workplace challenges
- Categorize managerial styles
- Apply key management concepts to various situations
- Practice delegating tasks

Career Outlook

Managers are found in every field – manufacturing, food service, banking, retail, and education. The management positions can range from front-line supervisors to upper-level managers and executives. The need to fill management positions will continue to grow as organizations continue to look for employees who can work well with others, inspire those around them, and develop human resources.

Required Courses

Number	Course Title	Credits (cr.)
10116100	Human Resource Management	3 cr.
10116105	Employee Relations and Labor Law*	2 cr.
10196136	Safety in the Workplace	3 cr.
10196192	Managing for Quality	3 cr.
TOTAL CREDITS		11 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Course Descriptions

10116100

Human Resource Management - Credits: 3

In Human Resource Management, the learner applies the skills and tools necessary to effectively value and apply employees' abilities and needs to organization goals. Each learner will demonstrate the application of the supervisor's role in contemporary human resources management, impacts of EEOC, writing job descriptions, recruitment, selection, conducting job interviews, orientation, developing policies and procedures, training, performance management, employee counseling and development, and effective use of compensation and benefit strategies. It is recommended that the learner have experience using a PC/MAC, using the MS Windows operating systems and software suite, browsing Web pages, downloading files, using e-mail, and exchanging files prior to enrolling in this course.

10116105

Employee Relations and Labor Law - Credits: 2

The course provides students with both the common and complex issues related to human behavior in the workplace as it relates to employee relations, state and federal mandates and laws. In-depth examination of relationships among workers, management, laws and government are the major focus of this course. PREREQUISITE: 10116100 Human Resource Management.

10196136

Safety in the Workplace - Credits: 3

An introduction to safety and loss prevention in the workplace with an emphasis on the supervisor's responsibility for maintaining a safe, productive environment. Students will study safety concepts, hazard controls, developing safety and health programs, and federal- and state-mandated regulations.

10196192

Managing for Quality - Credits: 3

In Managing for Quality, the learner applies the skills and tools necessary to implement and maintain a continuous improvement environment. Each learner will demonstrate the application of a personal philosophy of quality, identifying all stakeholder relationships, meeting/exceeding customer expectations, a system-focused approach, using appropriate models and tools, managing a quality improvement project, and measuring effectiveness of continuous improvement activities.

Marine Repair Technician

31-461-4 Technical Diploma (three semesters)

Financial Aid Eligible

Campus: Ashland

Program Overview

Students will be prepared for a career in the marina and marine service, and repair business. This three-semester program includes instruction in marine engine service, service in marine propulsion systems, operation, diagnosis, repair, equipment installation, maintenance, and rigging new boats. Students will work on two- and four-cycle gasoline engines, drive systems, transmissions, electrical systems, and consumer-supplied products.

Special Features

- Unique in the state of Wisconsin
- Service school options
- 6,000-square-foot lab
- EFI and direct injection engines
- American Boat and Yacht Council (ABYC)
- Association of Marine Technicians (AMTECH)
- Wisconsin Marine Association (WMA)
- Off-site training at local marinas and dealerships
- Actual service experience through community-supplied projects
- Students may enter the program either fall or spring semester

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Employers will expect the Marine Repair Technician graduate to be able to:

- Service marine engines
- Service marine propulsion systems
- Service diesel engines
- Demonstrate welding and metalworking skills
- Demonstrate industry-recognized safety practices

Career Outlook

Graduates of the Marine Repair Technician program find great demand for their skills. Typical positions available after graduation include:

- Inboard Engine Technician
- Outboard Motor Technician
- Boat Rigging Technician
- Electronic Equipment Installation Technician
- Marine Sales Representative
- Marine Service Technician
- Marine Service Supervisor

Career Pathway

The Marine Repair Technician program includes the following pathway option (page 244):

- Marine Repair Essentials

Continue your education to earn a technical certificate:

- Advanced Marine Repair Certificate

Course Descriptions

(See pages 38-41 for General Education course descriptions)

31461314

Outboard Motors - Credits: 5

This course provides an introduction to the marine industry. Students will learn how to work safely in a shop environment and use service tools and information. Students will learn the theory of how two- and four-stroke outboard motors operate. This course will teach students how to repair, maintain, and rebuild two-stroke and four-stroke outboard motors. Also, students will learn about fuel, ignition, manual and electric starting systems, and charging systems. Small gearcase operation and repair are also covered.

31461315

Marine Electricity/Electronics - Credits: 2

This course is designed to teach the theory of DC electricity. Students will learn how to read electrical schematics and build and repair electrical circuits found in typical boats. The student will be able to diagnose, troubleshoot, and correctly use test equipment to repair boat and engine electrical problems. Emphasis is placed on safety, tools, proper use of test equipment, specifications, and schematics. Practical applications will include real world shop experiences that will reinforce learned electrical concepts. COREQUISITE: 31461314 Outboard Motors.

31461330

Marine Welding - Credits: 1

Marine Welding is intended to provide the technician with a sound basic background in the marine welding field. Upon completion, the student will be able to select the proper materials for repairing or fabricating welding projects, choose the correct welding method for a specific application, and complete a welding project safely. Tig welding for repair of aluminum fabrication items; MIG, ARC, and OXY acetylene principles are covered in this course. COREQUISITE: 31461314 Outboard Motors.

31461317

Marine Engine Systems - Credits: 5

This course will provide students with advanced theory and hands-on experience to troubleshoot and repair marine engine fuel, oiling, cooling, starting, charging, and ignition systems. Also, students will learn about carburetor/ignition system synchronization and linkage adjustments, and storage procedures. Students will complete complex troubleshooting projects on running marine engines. PREREQUISITES: 31461314 Outboard Motors.

31461318

Outboard Gear Cases/Rigging - Credits: 5

Outboard motor gearcases, hydraulic trim and tilt, and steering systems are covered in this course. Students will learn how to diagnose failures, rebuild, and shim a variety of gearcases. Different types and brands of steering systems are covered. Students will learn how to repair, install, and replace steering systems. Trim and tilt units will be tested and repaired. This will give students a good working knowledge of hydraulics and troubleshooting procedures for various brands of trim and tilt systems. Installation of outboard motors on boat transoms and mechanical, fuel, oil, and electrical connections will be covered. PREREQUISITE: 31461314 Outboard Motors.

31461319

Sterndrive Systems - Credits: 5

Sterndrive transmissions, sterndrive transom plates, sterndrive trim and tilt, and power steering are covered in this course. Students will learn how to diagnose failures, rebuild, and shim a variety of gearcases. Different types of transom plates will be covered and will include shift, bellows, gimble ring, and bell housing repairs. Hydraulic lift systems will be studied and the student will learn how to repair and diagnose failures of cylinders, pumps, motors, and electrical systems related to trim systems. Marine power steering systems include the study of control valves, power steering pumps, and boat steering systems. PREREQUISITE: 31461314 Outboard Motors.

31461321

Introduction to Can-Bus Systems - Credits: 2

This course will provide students with the operational theory of marine can-bus communication network systems. Students will understand how the marine engine and its accessories communicate with display systems located at the boat's helm. Students will view different manufacturers' systems and be able to adapt specialized connectors to NMEA standard connectors and aftermarket accessories. Students will assemble and calibrate a working can-bus system onto an engine and helm display unit and engine control assembly. PREREQUISITE: 31461314 Outboard Motors.

31461322

Inboard Engines - Credits: 5

This course will teach students the theory of how a four-stroke marine engine operates. Students will gain the skills needed to rebuild inboard four-stroke marine engines. Students will also learn the fundamentals of inboard fuel, ignition, starting, and charging systems. COREQUISITE: 31461314 Outboard Motors.

31461323

Inboard Transmission Systems - Credits: 2

Inboard straight shaft transmissions are covered in this course. Velvet Drive transmissions will be the main training project. Hurth and Paragon transmissions will be covered to a lesser degree. Related components such as engine alignment, shafts, couplers, stuffing boxes, struts, strut bearing replacement, etc., will be examined also. PREREQUISITE: 31461314 Outboard Motors.

31461325

Marine Diesel - Credits: 1

This course provides a basic working knowledge of marine diesel engines and their systems. Marine diesel theory, fuel and air delivery, and lubrication and cooling systems will be covered. Bleeding of fuel systems, adjustment of valve trains and injector pumps, and other maintenance issues will also be studied. COREQUISITE: 31461314 Outboard Motors.

31461346

Marine Engine Computer Control Systems - Credits: 5

In this course, students will understand the theory of computer-controlled fuel, ignition, oiling, and control systems used on inboard and outboard engines. Systems included are sterndrive and outboard motor EFI, and outboard direct fuel injection. Students will repair and troubleshoot these systems using a variety of computer diagnostic software. PREREQUISITE: 31461314 Outboard Motors.

Mechatronics Basics

30-454-1 Technical Diploma (less than one-year)

Campus: New Richmond, Rice Lake, Custom Delivery

Program Overview

The Mechatronics Basics program will give students the skills to repair, install, adjust, or maintain industrial production and processing machinery. Students are also trained on how to lubricate machinery, change parts, or perform other routine machinery maintenance. Northwood Tech is a partner school with PMMI, certification tests are available upon request.

Special Features

- This is a unique program in the state.
- Program is available part time over one academic year (Rice Lake Campus).

Admission Requirements

- Complete Online application form
- Be at least 16 years old at class start
- Review and sign Functional Abilities Disclosure

Program-Specific Requirements

- Review and sign the HOMES Grant Tuition Funding Payment Qualifying Form

Program Outcomes

Mechatronics graduates will be able to:

- Demonstrate safe practices and techniques
- Install power transmission components, fluid power components, and automation components
- Maintain power transmission components and fluid power components

Career Outlook

Typical positions available after graduation include:

- Entry Level Electro-Mechanical Assembler
- Maintenance Technician
- Service Technician

Career Pathway >

Mechatronics Basics is a pathway into the following program (page 223)

- Automated Packaging Systems Technician

HOMES Grant Equal Opportunity, Funding, and Reporting Statement

Equal Opportunity

No person may be denied admission to, participation in, employment at, the benefits of, or be discriminated against in any service, program, course or facility of Northwood Technical College because of the person's political affiliation, age, race, creed, religion, color, handicap (disability), marital status, parental status, sex, national origin, ancestry, sexual orientation, pregnancy, arrest record, conviction record, service in the armed forces, genetic testing, or use or non-use of lawful products off the College premises during non-working or non-class hours.

Funding

The 3-year, \$9.8 million Housing Opportunity & Mobile Education Solutions (HOMES) project is funded by the Wisconsin Department of Workforce Development. Impact Seven will provide an additional \$20 million for sustainable affordable housing options within the district. Northwood Technical College will provide an additional \$1.25 million to conduct advanced manufacturing training for underemployed, unemployed, and special population individuals.

Reporting

General demographic and job placement information of program participants will be used and reported to the Wisconsin Department of Workforce Development as one measurement of success for this grant-funded program.

Required Courses

Number	Course Title	Credits
Program Courses:		
32414335	DC Electricity	3 cr
32414336	AC Electricity *	3 cr
32454341	Fluid Power Systems	3 cr
32454345	Packaging Systems	
	Equipment Control *	3 cr
32454357	Power Transmission	
	Componentry *	2 cr

TOTAL CREDITS 14 cr

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Course Descriptions

32414335

DC Electricity - Credits: 3

This course is an introduction to electricity. The focus will be on direct current as used in industry. You will learn the basics of series, parallel and combination circuits. You will develop skills in circuit analysis, and electrical measurement using a digital multimeter.

32414336

AC Electricity - Credits: 3

This course is an introduction to alternating current electricity as used in industry. You will study series and parallel alternating current circuits that contain inductance and capacitance, as well as, single and three phase transformers, direct current, single phase and three phase motors. PREREQUISITE: 32414335 DC Electricity.

32454341

Fluid Power Systems - Credits: 3

This course develops the skills required for the implementation of vacuum, air, and oil used to transmit force for performing useful functions on machines. Students will apply symbols to components and connect components to understand the assembly, operation, and maintenance of fluid power systems. The transmission of force is used in a variety of applications and can be hazardous to individuals who do not understand the related laws of physics.

32454345

Packaging Systems Equipment Control - Credits: 3

This course gives the students the opportunity to perform the selection, design, installation, and operation of control systems found on automated packaging machines. The student will work with many types of components to gain recognition

and skill development in the correct installation of electrical control systems. The modern control system requires specialized skills that are useful for understanding high technology applications such as robotics and climate control. PREREQUISITE: 32414335 DC Electricity.

32454357

Power Transmission Componentry - Credits: 2

The learner will develop skills necessary to install, maintain, and repair mechanical drive system components. The learner will use machine components to develop skills for installing and repairing defective mechanical drive systems. The correct installation and maintenance is required for trouble-free operation. COREQUISITE: 32454345 Packaging Systems Equipment and Control.

Medical Administrative Professional

10-160-2 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

*Combination of Online, Your Choice or On Site instruction.

Program Overview

Are you looking for a career in the medical field that is interesting and exciting but does not require direct patient contact? Consider the Medical Administrative Professional program. This program prepares you to complete business-related tasks including scheduling appointments, registering patients, answering telephones, medical billing and completing insurance claims, preparing business correspondence, and maintaining medical records.

Admission Requirements

- Complete Online application form
- Review and sign Background Check Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Complete and sign Background Information Disclosure Form (BID)
- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, and/or Minnesota Caregiver Background Check (if applicable), and other states, if applicable - Information from the Caregiver Background Check may affect ability to secure placement for the Medical Externship course and the ability to find employment after graduation
- Have current immunizations
- COVID vaccination---highly recommended
NOTE: Northwood Technical College cannot guarantee externship placement or ability to progress in the program if a student is not able to meet the externship site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other externship requirements required by the externship site. Northwood Technical College cannot guarantee externship placement if the externship site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the externship start date.

Program Outcomes

Medical Administrative Professional graduates will be able to:

- Perform financial practices through analysis of payer data and reimbursement methods
- Demonstrate professionalism in a healthcare setting
- Apply technology to administrative functions in a healthcare-related setting
- Apply HIPAA, federal and state law, and regulatory compliance in business health practices
- Use medical terminology and knowledge of the human body systems in performing essential functions of health business environment

Career Outlook

Typical positions available after graduation include:

- Medical Administrative Assistant
- Medical Records Specialist
- Patient Services Representative
- Medical Scheduler
- Hospital Admissions Representative
- Medical Billing Specialist
- Patient Account Representative
- Clinic Coder
- Health Unit Coordinator (HUC)
- Health Information Clerk

Career Pathways

The Medical Administrative Professional program includes the following pathway options (page 245):

- Health Office Professional
- Medical Billing Specialist
- Healthcare Receptionist

Related Programs

- Administrative Coordinator

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101176

Financial Accounting 1A - Credits: 2

This is a basic accounting course for non-accounting program students. The scope of study focuses on an introduction to business and accounting, analyzing and recording accounting transactions, performing the adjusting process, and completing the accounting cycle. Understanding is based both on theory and application.

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103152

MS Excel B - Credits: 1

Students will learn to use MS Excel. Credit B activities will include using advanced features of formulas, object linking and embedding, multiple worksheets, 3-D references, macro basics and database basics. COREQUISITE: 10103151 MS Excel A.

10103184

Advanced Document Applications - Credits: 2

This is the second course in a sequence that developed skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, mail merge, desktop publishing, themes, templates, forms, sort, styles, references, captions, and macros. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365. COREQUISITE: 10103146 MS Word A

10105160

Medical Externship - Credits: 1

An externship is actual work experience in a medical office which provides the student with a variety of tasks. The sites are usually clinics or hospitals but can be other medical-related offices as well. The instructor and student will work together to secure an externship which will be acceptable to all parties. PREREQUISITE: Prior to enrolling in this course, students must have successfully completed or are in good standing in all program courses and have the approval of program faculty. Criminal Background

checks will be required for this course.

10160134

Medical Insurance Claims - Credits: 4

This course presents common health insurance terminology and selected private and government insurance coverages. Students are introduced to basic principles of disease coding and procedural coding from the physician/provider perspective and follow the life cycle of the medical insurance claim with the aim of accurate and efficient reimbursement for services provided. This is not for experienced coders. PREREQUISITE: 10501101 Medical Terminology.

10160135

Medical Documentation Essentials - Credits: 3

This course is designed to expand the student's medical vocabulary and develop skill in keyboarding, formatting, editing, storing, and printing medical documents. Emphasis is placed on speed building and accuracy improvement. PREREQUISITES: 10501101 Medical Terminology and 10103184 Advanced Document Applications

10160140

Medical Office Administration - Credits: 3

Simulates handling patients and employees, applying customer service skills, and the use of computers in a medical/clinical setting. Hands-on experience in scheduling appointments, work in electronic medical records, establishing a fee schedule, and practice management. Utilizes Microsoft Office software, electronic billing software, electronic medical record software, telephone systems, internet, fax and e-mail. PREREQUISITE: 10160143 Medical Office Procedures and Customer Service.

10160142

Patient Billing and Reimbursement - Credits: 3

Emphasizes insurance preparation and reimbursement of claims to Commercial, Medicare, Medicaid and Worker's Compensation. Applies ICD, CPT and HCPCS coding resources to complete CMS 1500 and CMS 1450 insurance claims. Computerized billing software will be utilized throughout the course. PREREQUISITE: 10160134 Medical Insurance Claims.

10160143

Medical Office Procedures and Customer Service - Credits: 2

This course develops professional skills and attitudes needed in a medical business environment. Skills developed include an ability to communicate effectively with patients and other medical office staff, manage time effectively, schedule patients, greet patients, use the telephone properly, process mail, apply ergonomics and office safety, and use medical computer software efficiently.

10160145

Medical Administrative Practice - Credits: 4

Medical Administrative Practice is a capstone course for the Medical Administrative Professional degree, which brings together skills and knowledge learned in other classes and applies them in decision-making situations and in completing job tasks. This course provides the student with the training required to keep consistent with computer software that is used in the billing areas of the medical office. Topics covered are medical office procedures, practice management, basic billing skills and billing collection via real-life activities and simulations. Upon completion, students should be able to demonstrate the skills necessary to work in the medical office. PREREQUISITE: 10160140 Medical Office Administration. COREQUISITE: 10160134 Medical Insurance Claims.

10106146

Document Management & Editing - Credits: 3

This course will focus on document formatting requirements for a variety of business documents and correspondence. Students will learn file management, document sharing, and collaborative document editing. Emphasis will be placed on proofreading, proper grammar, mechanics, keying speeds and accuracy. This project-based course uses individual and group activities.

10160150

Telehealth Essentials - Credits: 1

This course will develop the skills needed to apply Telemedicine in a healthcare setting. Skills developed include facilitating Telehealth visits by communicating effectively with patients and other medical office staff, applying legal procedures for Telehealth visits, managing time effectively, and maintaining professionalism and confidentiality while working in various Telehealth settings.

10196138

Conflict Resolution and Confrontation Skills - Credits: 1

In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

10510135

Anatomy, Physiology, and Disease Concepts - Credits: 2

This course is a study of human anatomical structure, physiology, and the basic mechanisms of disease. It is designed to meet the unique educational needs of the medical secretary/office personnel. The course focuses on assessment, diagnosis, and treatment of commonly occurring medical conditions. The course will be structured to application of the content through case studies and group discussions. It is meant to provide a solid knowledge base for students entering work in health care settings. It is recommended that the student have a basic knowledge of medical terminology.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Medical Assistant

31-509-1 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland, New Richmond, Rice Lake, Superior

Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Combination of On Site and Online instruction.

Program Overview

Medical assistants are multi-skilled health professionals specifically educated to work in ambulatory settings performing administrative and clinical duties. The practice of medical assisting directly influences the public's health and well-being, and requires mastery of a complex body of knowledge and specialized skills requiring both formal education and practical experience that serve as standards for entry into the profession.

The Medical Assistant program prepares individuals to assist physicians in their offices or other medical settings. Medical assistants, sometimes referred to as clinical assistants, perform a wide range of duties. The medical assistant is responsible for medical and surgical asepsis, taking vital signs, drawing blood, giving injections, assisting the physician with examinations and surgery, administering ECGs and administering medications. The business/administrative duties include patient reception, appointment making, record keeping, filing, bookkeeping, insurance handling, typing medical correspondence and transcription and computer applications. Laboratory functions include specimen collection, performance of basic laboratory tests and microscopic work.

The minimum goal for the Medical Assistant program, as identified by the AAMA, is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

The Medical Assistant program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), upon the recommendation of the Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs, 9355 - 113th St. N, #7709, Seminole, FL 33775, phone: 727-210-2350, www.caahep.org, www.aama-nfl.org.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states, if applicable (required at program start and prior to practicum)
- Pass a physical exam, have current immunizations, and demonstrate negative status for tuberculosis (Tb)
- COVID vaccination---highly recommended
NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®. TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the

- student information 4-6 weeks prior to the clinical start date.
- Possess current certification of First Aid and "BLS Basic Life Support"
- Review and sign Health Sciences Confidentiality Statement
- Participate in a mandatory program orientation session

Program Outcomes

Medical Assistant graduates will be able to:

- Perform medical office administrative functions
- Provide patient care in accordance with regulations, policies, laws, and patient rights
- Perform medical laboratory procedures
- Demonstrate professionalism in a healthcare setting
- Demonstrate safety and emergency practices in a healthcare setting

Graduates of the program are eligible to sit for the Certified Medical Assistant examination.

Career Outlook

Typical positions available after graduation include:

- Medical Assistant
- Clinical Assistant
- Phlebotomist

Career Pathway

The Medical Assistant program includes the following pathway option (page 246):

- Patient Service Specialist

You must earn a grade point of 2.0 or better in all required courses.

Note: program may be completed in two or more semesters.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

31501107

Digital Literacy for Healthcare - Credits: 2

The focus of this course is the use of technology in healthcare. Learners use common business software applications, including word processing, presentation, spreadsheet, and databases. Communication methods using technology are addressed. Learners gain experience with using the electronic health record (EHR). Healthcare EHR security issues, social media use, and digital healthcare resources are examined. NOTE: This course is for Medical Assistant students.

31509301

Medical Assistant Administrative Procedures - Credits: 2

Introduces medical assistant students to office management, business administration, and the electronic medical record (EMR) in the medical office. Students learn to schedule appointments, perform filing, record keeping, telephone and reception duties, communicate effectively with patients and other medical office staff, and keep an inventory of supplies. PREREQUISITE: Declared Medical Assistant program (315091) or Patient Service Specialist plan (305092) and COREQUISITES: 31501107 Digital Literacy for Healthcare, 10501101 Medical Terminology, 31509302 Human Body in Health and Disease, 31509303 Medical Assistant Laboratory Procedures 1, and 31509304 Medical Assistant Clinical Procedures 1.

31509302

Human Body in Health and Disease - Credits: 3

Students learn to recognize human body structure and function in health and disease states. Students explore the causes, signs, and symptoms of diseases of the major body systems as well as the diagnostic procedures, usual treatment, prognosis, and prevention of diseases commonly diagnosed and treated in the medical office setting. COREQUISITE: 10501101 Medical Terminology.

31509303

Medical Assistant Laboratory Procedures 1 - Credits: 2

Introduces medical assistant students to laboratory procedures commonly performed by medical assistants in a medical office setting. Students perform Clinical Laboratory Improvement Amendment (CLIA) waived routine laboratory procedures commonly performed in the ambulatory care setting. Students follow laboratory safety requirements and federal regulations while performing specimen collection and processing, microbiology and urinalysis testing. PREREQUISITE: Admission to Medical Assistant program and COREQUISITES: 31501107 Digital Literacy for Healthcare, 10501101 Medical Terminology, 31509302 Human Body in Health and Disease, 31509301 Medical Assistant Administrative Procedures, and 31509304 Medical Assistant Clinical Procedures 1.

31509304

Medical Assistant Clinical Procedures 1 - Credits: 4

Introduces medical assistant students to the clinical procedures performed in the medical office setting. Students perform basic examining room skills including screening, vital signs, patient history, minor surgery and patient preparation for routine and specialty exams in the ambulatory care setting. Learner explores communication principles and psychology theories related to patient care. PREREQUISITE: Admission into the Medical Assistant program and COREQUISITES: 31501107 Digital Literacy for Healthcare, 31509302 Human Body in Health and Disease, 10501101 Medical Terminology, 31509301 Medical Assistant Administrative Procedures and 31509303 Medical Assistant Laboratory Procedures 1.

31509305

Medical Assistant Laboratory Procedures 2 - Credits: 2

Prepares students to perform phlebotomy and Clinical Laboratory Improvement Amendment (CLIA) waived hematology, chemistry, immunology and laboratory procedures commonly performed by medical assistants in the ambulatory care setting. PREREQUISITES: 10501101 Medical Terminology, 31509302 Human Body in Health & Disease, 31509303 Medical Assistant Laboratory Procedures 1, and 31509304 Medical Assistant Clinical Procedures 1 and COREQUISITES: 31509306 Medical Assistant Clinical Procedures 2, 31509307 Medical Office Insurance and Finance, and 31509308 Pharmacology for Allied Health.

31509306

Medical Assistant Clinical Procedures 2 - Credits: 3

Prepares medical assistant students to perform patient care skills in the medical office setting. Students perform clinical procedures including administering medications, performing an electrocardiogram, assisting with respiratory testing, coaching patients, and assisting with emergency preparedness in an ambulatory care setting. Students learn preventive care and principles of nutrition. PREREQUISITES: 10501101 Medical Terminology, 31509302 Human Body in Health & Disease, 31509303 Medical Assistant Laboratory Procedures 1, and 31509304 Medical Assistant Clinical Procedures 1 and COREQUISITES: 31509305 Medical Assistant Laboratory Procedures 2, 31509307 Medical Office Insurance and Finance, and 31509308 Pharmacology for Allied Health.

31509307

Medical Office Insurance and Finance - Credits: 2

Introduces medical assistant students to health insurance and finance in the medical office. Students perform bookkeeping procedures, apply managed care guidelines, and complete insurance claim forms. Students use medical coding and managed care terminology to perform insurance-related duties. PREREQUISITES: 10501101 Medical Terminology and 31509302 Human Body in Health and Disease, 31509303 Medical Assistant Laboratory Procedures 1, and 31509304 Medical Assistant Clinical Procedures 1, and COREQUISITES: 31501107 Digital Literacy for Healthcare, 31509305 Medical Assistant Laboratory Procedures 2, 31509306 Medical Assistant Clinical Procedures 2, 31509308 Pharmacology for Allied Health.

31509308

Pharmacology for Allied Health - Credits: 2

Introduces students to medication classification and basic pharmacology principles, and supplements. Students apply basic pharmacodynamics to identify common medications and calculate dosages in preparation for medication administration. PREREQUISITES: 10501101 Medical Terminology and 31509302 Human Body in Health and Disease, 31509303 Medical Assistant Laboratory Procedures 1, and 31509304 Medical Assistant Clinical Procedures 1 and COREQUISITES: 31509305 Medical Assistant Laboratory Procedures 2, 31509306 Medical Assistant Clinical Procedures 2, 31509307 Medical Office Insurance and Finance.

31509309

Medical Law, Ethics and Professionalism - Credits: 2

Prepares students to display professionalism and perform within ethical and legal boundaries in the health care setting. Students maintain confidentiality, examine legal aspects of ambulatory healthcare, perform quality improvement procedures, examine legal and bioethical issues, and demonstrate awareness of diversity.

31509310

Medical Assistant Practicum - Credits: 3

Requires medical assistant students to integrate and apply knowledge and skills from all previous medical assistant courses in actual ambulatory health care settings. Learners perform medical assistant administrative, clinical, and laboratory duties under the supervision of trained mentors to effectively transition to the role of a medical assistant. This is a supervised, unpaid, clinical experience. MAERB required Practicum - 160 minimum hours up to 216 hours. PREREQUISITES: Current BLS Basic Life Support and first aid, successful completion or standing in all other program courses, approval of program faculty, compliance with Wisconsin Caregiver Law, and program Health Requirements are met.

Medical Billing Specialist (Medical Billing)

31-160-5 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

*Combination of Online, Your Choice or On Site instruction.

Program Overview

The Medical Billing Specialist technical diploma prepares you to perform billing functions in a clinic, hospital or specialty practice. This embedded technical diploma involves coursework on the patient-to-payment billing cycle in the medical facility. This embedded technical diploma fully ladders into the Medical Administrative Professional associates degree.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Medical Billing Specialist graduates will be able to:

- Perform routine office duties
- Apply technology skills to business and administrative skills
- Maintain internal and external relationships
- Model professionalism
- Process insurance claims

Career Outlook

Typical positions available after graduation include:

- Hospital Medical Biller
- Physician's Office Medical Biller
- Laboratory Medical Biller
- Patient Account Representative
- Revenue Cycle Representative

Career Pathway

The Medical Billing Specialist program is a pathway into the following program (page 245):

- Medical Administrative Professional

Related Programs

- Health Office Professional
- Healthcare Receptionist
- Medical Coding Specialist

PREREQUISITE: 10160143 Medical Office Procedures and Customer Service.

10160142

Patient Billing and Reimbursement - Credits: 3

Emphasizes insurance preparation and reimbursement of claims to Commercial, Medicare, Medicaid and Worker's Compensation. Applies ICD, CPT and HCPCS coding resources to complete CMS 1500 and CMS 1450 insurance claims. Computerized billing software will be utilized throughout the course. PREREQUISITE: 10160134 Medical Insurance Claims.

10160143

Medical Office Procedures and Customer Service - Credits: 2

This course develops professional skills and attitudes needed in a medical business environment. Skills developed include an ability to communicate effectively with patients and other medical office staff, manage time effectively, schedule patients, greet patients, use the telephone properly, process mail, apply ergonomics and office safety, and use medical computer software efficiently.

10160145

Medical Administrative Practice - Credits: 4

Medical Administrative Practice is a capstone course for the Medical Administrative Professional degree, which brings together skills and knowledge learned in other classes and applies them in decision-making situations and in completing job tasks. This course provides the student with the training required to keep consistent with computer software that is used in the billing areas of the medical office. Topics covered are medical office procedures, practice management, basic billing skills and billing collection via real-life activities and simulations. Upon completion, students should be able to demonstrate the skills necessary to work in the medical office. PREREQUISITE: 10160140 Medical Office Administration. COREQUISITE: 10160134 Medical Insurance Claims.

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

Medical Coding Specialist

31-530-2 Technical Diploma (one-year)

Financial Aid Eligible

Campus: Online

Program Overview

The Medical Coding Specialist reviews medical documentation provided by physicians and other healthcare providers and translates this into numeric codes. The coding specialist assigns and sequences diagnostic and procedural codes using universally-recognized coding systems. Several uses of coded data are for payment of healthcare claims, statistics and medical research.

Special Features

- All courses will be offered online
- The program may be completed in a full-time or part-time format
- Students completing the one-year Medical Coding Specialist program have the option of returning to complete the associate degree Health Information Technology program; see page 118 for information on the Health Information Technology program

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Review and complete the computer skills inventory
- Review Medical Coding Specialist program orientation materials
- Meet with Medical Coding Specialist program advisor to determine program sequencing and completion goals

Program Outcomes

Medical Coding Specialist graduates will be able to:

- Collect health data
- Model professional behaviors and ethics
- Use electronic applications to support coding and data collection
- Apply coding and reimbursement systems

Career Outlook

Typical positions available after graduation include:

- Medical Coding Specialist
- Clinical Coding Specialist
- Claims Analyst

Career Pathway

The Medical Coding Specialist program is a pathway into the following program (page 232):

- Health Information Technology

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10501107	Digital Literacy for Healthcare	2 cr.
10530159	Healthcare Revenue Management*	3 cr.
10530162	Foundations of HIM*	3 cr.
10530165	Intermediate Coding*	3 cr.
10530182	Human Disease for the Health Professions*	3 cr.
10530184	CPT Coding*	3 cr.
10530197	ICD Diagnosis Coding*	3 cr.
10530199	ICD Procedure Coding*	2 cr.
Program Courses Total		22 cr.
General Education Courses		
10501101	Medical Terminology	3 cr.
10806177	General Anatomy and Physiology#	4 cr.
General Education Courses Total		7 cr.
TOTAL CREDITS		29 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

See pages 38-41 for course descriptions.

You must earn a grade point of 2.0 or better in all required courses.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology

10501107

Digital Literacy for Healthcare - Credits: 2

The focus of this course is the use of technology in healthcare. Learners use common business software applications, including word processing, presentation, spreadsheet, and databases. Communication methods using technology are addressed. Learners gain experience with using the electronic health record (EHR). Healthcare EHR security issues, social media use, and digital healthcare resources are examined.

10530159

Healthcare Revenue Management - Credits: 3

Prepares learners to compare and contrast health care payers and evaluate the reimbursement cycle and compliance with regulations. Learners assign payment classifications with entry level proficiency using computerized encoding and grouping software. COREQUISITES: 10530162 Foundations of HIM, 10530182 Human Disease for the Health Professions, 10530184 CPT Coding, 10530197 ICD Diagnosis Coding, and 10530199 ICD Procedure Coding.

10530162

Foundations of HIM - Credits: 3

Introduces learners to the healthcare delivery system, and the external forces that influence healthcare delivery. Sets an understanding for the expectations and standards related to professional ethics, confidentiality and security of health information. Differentiates the use and structure of healthcare data elements, data standards, and the relationships between them. Prepares learners to collect and maintain health data to ensure a complete and accurate health record. PREREQUISITE: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist and COREQUISITE: 10501107 Digital Literacy for Healthcare.

10530165

Intermediate Coding - Credits: 3

Prepares students to assign ICD and CPT/HCPCS codes supported by medical documentation and official coding guidance to support appropriate reimbursement. Students will participate in CDI activities, including preparation of appropriate physician queries in accordance with compliance guidelines. PREREQUISITES: 10530184 CPT Coding and 10530197 ICD Diagnosis Coding and successful completion of COREQUISITE: 10530199 ICD Procedure Coding is required prior to taking Intermediate Coding.

10530182

Human Disease for the Health Professions - Credits: 3

Prepares learners to interpret clinical documentation that they will encounter in a variety of healthcare settings. Emphasis is placed on understanding the common disorders and diseases of each body system to include the etiology (cause), signs and symptoms, diagnostic tests and results, and medical treatments and surgical procedures. PREREQUISITE: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist and COREQUISITES: 10501101 Medical Terminology and 10806177 General Anatomy and Physiology.

10530184

CPT Coding - Credits: 3

Prepares learners to assign CPT/HCPCS codes, supported by medical documentation, with entry level proficiency. Learners apply instructional notations, conventions, rules, and official coding guidelines when assigning codes to case studies and actual medical record documentation. COREQUISITES: 10501101 Medical Terminology, 10530182 Human Disease for the Health Professions and 10806177 General Anatomy and Physiology.

10530197

ICD Diagnosis Coding - Credits: 3

Prepares students to assign ICD diagnosis codes supported by medical documentation. Students apply instructional notations, conventions, rules, and official coding guidelines when assigning ICD diagnosis codes to case studies and actual medical record documentation. PREREQUISITE: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist and COREQUISITES: 10501101 Medical Terminology, 10530182 Human Disease for the Health Professions and 10806177 General Anatomy and Physiology.

10530199

ICD Procedure Coding - Credits: 2

Prepares students to assign ICD procedure codes supported by medical documentation with entry-level proficiency. Students apply instructional notations, conventions, rules, and official coding guidelines when assigning ICD procedure codes to case studies and actual medical record documentation. PREREQUISITES: Admission to plan 105301 Health Information Technology or 315302 Medical Coding Specialist 10501101 Medical Terminology, and 10806177 General Anatomy and Physiology and COREQUISITE: 10530182 Human Disease for the Health Professions.

Medical Laboratory Technician

10-513-1 Associate Degree (two-year)

Financial Aid Eligible

Campus: New Richmond

*Combination of On Site and Online instruction

** Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Program Overview

At career entry, the medical laboratory technician will be able to perform routine clinical laboratory tests (such as hematology, clinical chemistry, immunohematology, microbiology, serology/immunology, coagulation, molecular, and other emerging diagnostics) as the primary analyst making specimen oriented decisions on predetermined criteria, including a working knowledge of critical values. Communications skills will extend to frequent interactions with members of the healthcare team, external relations, customer service and patient education. The level of analysis ranges from waived and point of care testing to complex testing encompassing all major areas of the medical laboratory. The medical laboratory technician will have diverse functions in areas of preanalytical, analytical, post-analytical processes. The medical laboratory technician will have responsibilities for information processing, training, and quality control monitoring wherever medical laboratory testing is performed.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete one year, or one credit, of high school chemistry or one credit of college-level chemistry with a 2.0 or better.
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check Fee
- Have acceptable results based on the Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states, if applicable
- Pass a physical exam, have current immunizations, and demonstrate negative status for Tuberculosis (Tb)
- COVID vaccination---highly recommended
NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.
- Review and sign Health Sciences Confidentiality Statement
- Possess current certification of "BLS Basic Life Support"

- Participate in a mandatory session scheduled prior to the start of classes.

Program Outcomes

Medical Laboratory Technician graduates will be able to:

- Practice laboratory safety and regulatory compliance
- Collect and process biological specimens
- Monitor and evaluate quality control in the laboratory
- Apply modern clinical methodologies including problem solving and troubleshooting according to predetermined criteria
- Correlate laboratory results to diagnosis of clinical conditions and/or diseases
- Perform information processing in the clinical laboratory
- Model professional behaviors, ethics, and appearance

Career Outlook

Graduates of this program will be qualified for the following positions:

- Medical Laboratory Technician
- Clinical Laboratory Technician
- Physician Office Laboratory Technician
- Pathology Research Assistant
- Quality Control Technician
- Research Technician
- Phlebotomist
- Genetic Lab Technician
- Industrial Laboratory Technician
- Agribusiness Laboratory Technician

Related Program

- Phlebotomy

Accreditation

This program is seeking accreditation by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Rd., Suite 720, Rosemont, IL 60018-5119, phone 773-714-8880.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

You must earn a grade point of 2.0 or better in all required courses.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details.

** See pages 38-41 for course descriptions.

The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

2024/2025

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10513109

Blood Bank - Credits: 4

Focuses on blood banking concepts and procedures including blood typing, compatibility testing, work ups for adverse reaction to transfusions, disease states and donor activities. COREQUISITE: 10513115 Basic Immunology Concepts. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513110

Basic Lab Skills - Credits: 1

This course explores health career options and the fundamental principles and procedures performed in the clinical laboratory. You will utilize medical terminology and basic laboratory equipment. You will follow required safety and infection control procedures and perform simple laboratory tests. PREREQUISITE: Admission to the Phlebotomy Certificate or Medical Laboratory Technician program. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513111

Phlebotomy - Credits: 2

This course provides opportunities for learners to perform routine venipuncture, routine capillary puncture and special collection procedures. PREREQUISITE: Admission to the Phlebotomy Certificate or Medical Laboratory Technician program and COREQUISITE: 10513110 Basic Lab Skills. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513113

QA Lab Math - Credits: 1

Focuses on performing the mathematical calculations routinely used in laboratory settings. You will explore the concepts of quality control and quality assurance in the laboratory. PREREQUISITE: Admission to the Medical Laboratory Technician program. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513114

Urinalysis - Credits: 2

Prepares you to perform a complete urinalysis which includes physical, chemical and microscopic analysis. You will explore renal physiology and correlate urinalysis results with clinical conditions. PREREQUISITES: 10513110 Basic Lab Skills, 10806177 General Anatomy and Physiology and Admission to the Medical Laboratory Technician program. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513115

Basic Immunology Concepts - Credits: 2

Provides an overview of the immune system including laboratory testing methods for diagnosis of immune system disorders, viral and bacterial infections. PREREQUISITES: 10513110 Basic Lab Skills, 10806177 General Anatomy and Physiology and COREQUISITE: 10513109 Blood Bank. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513116

Clinical Chemistry - Credits: 4

Introduces clinical chemistry techniques and procedures for routine analysis using photometric, potentiometric and separation techniques. Topics in this course include pathophysiology and methodologies for carbohydrate, lipids, proteins, renal function and blood gas analysis. Additional topics include hepatic, cardiac markers, tumor markers, endocrine function, miscellaneous body fluids, toxicology, enzymes and electrolytes. PREREQUISITES: 10806186 Intro to Biochemistry and Admission to the Medical Laboratory Technician program. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513120

Basic Hematology - Credits: 3

Covers the theory and principles of blood cell production and function, and introduces you to basic practices and procedures in the hematology laboratory. PREREQUISITES: 10513110 Basic Lab Skills, 10806177 General Anatomy and Physiology, and Admission to the Medical Laboratory Technician program. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513121

Coagulation - Credits: 1

Introduces the theory and principles of coagulation and explores mechanisms involved in coagulation disorders. Emphasis is placed upon laboratory techniques used to diagnose disease and monitor treatment. PREREQUISITES: 10513110 Basic Lab Skills, 10806177 General Anatomy and Physiology and COREQUISITE: 10513120 Basic Hematology. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513130

Advanced Hematology - Credits: 2

Explores mechanisms involved in the development of hematological disorders. Emphasis is placed upon laboratory techniques used to diagnose disorders and monitor treatment. PREREQUISITE: 10513120 Basic Hematology. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513133

Clinical Microbiology - Credits: 4

Presents the clinical importance of infectious diseases with emphasis upon the appropriate collection, handling and identification of clinically relevant bacteria. Disease states, modes of transmission and methods of prevention and control, including antibiotic susceptibility testing, will also be discussed. PREREQUISITE: 10806197 Microbiology and COREQUISITE: 10513170 Introduction to Molecular Diagnostics. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513140

Advanced Microbiology - Credits: 2

Provides an overview of acid fast organisms, fungi, parasites, and anaerobic bacteria. The organisms, their pathophysiology, epidemiology, the diseases and conditions that they cause, laboratory methods of handling, culturing and identification will be discussed. PREREQUISITE: 10513133 Clinical Microbiology. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513141

Pre-Clinical Experience - Credits: 2

Focuses on students utilizing prior course work and laboratory techniques to analyze specimens and correlate patient history in a mock laboratory setting. This includes practicing infection control and safety, medical terminology, healthcare ethics, venipuncture technique, specimen processing, and quality assurance. PREREQUISITE: All required courses with a grade point of 2.0 or better. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513151

Clinical Experience 1 - Credits: 3

Practice the principles and procedures of laboratory medicine as an entry level Medical Laboratory Technician (MLT) in a clinical laboratory setting. Working alongside laboratory professionals, you will collect and process specimens, operate laboratory analyzers and instruments and report results in a Laboratory Information Systems. PREREQUISITE: All required courses with a grade point of 2.0 or better. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513152

Clinical Experience 2 - Credits: 4

Provides continuing practice for the principles and procedures of laboratory medicine as an entry level Clinical Laboratory Technician in a clinical laboratory setting. You will learn to operate state of the art instruments and report results on Laboratory Information Systems. PREREQUISITE: All required courses with a grade point of 2.0 or better. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513160

MLT Seminar - Credits: 1

Focuses on preparing students to enter the medical or medical lab workforce including resume writing, interview skills, and Board of Certification exam preparation. PREREQUISITE: All required courses with a grade point of 2.0 or better. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513170

Introduction to Molecular Diagnostics - Credits: 2

Introduces the principles and application of molecular diagnostics in the clinical laboratory. PREREQUISITE: 10513110 Basic Lab Skills and COREQUISITE: 10513133 Clinical Microbiology. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

Microsoft Office

30-106-6 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

Using the industry-standard Microsoft Office suite, you will integrate your software knowledge to complete complex projects using advanced document features, in-depth spreadsheet formulas, customizable databases, and using email, Teams, and OneNote for communication and sharing documents, preparing you for a variety of business opportunities.

Admission Requirement

- Complete Online application form

Program Outcomes

Microsoft Office graduates will be able to:

- Apply Microsoft Office skills to workplace tasks
- Solve user level Microsoft Office issues

Career Outlook

Typical positions available after graduation include:

- Document Specialist
- Program Assistant

Career Pathway ▶

The Microsoft Office program is a pathway into the following program (page 221):

- Administrative Coordinator

Related Programs

- Office Technology Assistant
- Office Support Specialist
- Healthcare Receptionist
- Business Graphics

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10103106	MS PowerPoint	1 cr.
10103125	MS Outlook	1 cr.
10103146	MS Word A	1 cr.
10103151	MS Excel A	1 cr.
10103162	MS Access A	1 cr.
10103184	Advanced Document Applications*	2 cr.
10103185	Advanced Spreadsheets and Analytics*	2 cr.
10106200	Software Integration*	2 cr.
TOTAL CREDITS		11 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Required Courses are Pending WTCS Approval

Course Descriptions

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10103184

Advance Document Applications - Credits: 2

This is the second course in a sequence that develops advanced skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, mail merge, desktop publishing, themes, templates, forms, sort, styles, references, captions, and macros. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365. COREQUISITE: 10103146 MS Word A

10103185

Advanced Spreadsheets and Analytics - Credits: 2

This is the second course in a sequence that develops advanced skills in the use of Microsoft Office Excel software. Students will use spreadsheet software apply advanced features, manage data using PivotTables, and macros. Use software to solve and analyze various business situations. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365 for Windows. COREQUISITE: 10103151 MS Excel A

10106200

Software Integration - Credits: 2

This course is designed to integrate computer applications by exposing students to workplace scenarios. Participants will prepare and enhance documents using word processing, spreadsheets, database, and presentation graphics software, as well as additional programs in this ever-evolving field. PREREQUISITES: 10103106 MS PowerPoint, 10103146 MS Word A, 10103184 Advanced Document Applications, 10103151 MS Excel A, 10103185 Advanced Spreadsheets and Analytics, and 10103162 MS Access A.

Nonprofit Essentials

61-196-6 Pathway Certificate

Campus: Online

Program Overview

As a student in the Nonprofit Essentials program, you will explore the role of nonprofit organizations, develop volunteer and Board relationships and coordinate grant and fundraising strategies.

Special Feature

This is a unique program in the state

Admission Requirement

- Complete Online application form

Program Outcomes

The Nonprofit Essentials Certificate will prepare you to:

- Explore the principles and concepts of nonprofit leadership
- Examine various grant and fundraising strategies commonly used in the nonprofit sector
- Plan, organize, and evaluate nonprofit organizations based on its mission, vision, and goals

Career Outlook

Typical positions available upon completion include:

- Fundraising Coordinator
- Development Coordinator
- Grant Writer
- Youth Specialist

Career Pathways

The Nonprofit Essentials program is a pathway into the following programs (page 247):

- Nonprofit Leadership
- Nonprofit Professional

Related Program

- Leadership Essentials

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10104189	Social Media Marketing	3 cr.
10196123	Grant Writing and Management	2 cr.
10196127	Fundraising and Event Planning	3 cr.
10196131	Fundamentals of Nonprofit Management	3 cr.
10196149	Dynamics of Board Relations	1 cr.
10196158	Managing Volunteers	2 cr.
10196159	Nonprofit Field Experience*	1 cr.

TOTAL CREDITS 15 cr.

* Required a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Course Descriptions

10104189

Social Media Marketing - Credits: 3

This course follows social media's transformation of advertising from a mass medium to one-to-one communication with immediate feedback. Social media's use for public relations and advertising as well as how to create and deploy a social media campaign will be the main focus of the course. The history and development of social media platforms will be examined as well as today's ethical and legal implications of social media efforts.

10196123

Grant Writing and Management - Credits: 2

An introductory course designed to familiarize students to the language of grants. Specific topics include proposal development, funding sources and processes, writing grant proposals, creating budgets, developing effective evaluation tools, and managing grant funds.

10196127

Fundraising and Event Planning - Credits: 3

In this course students will deepen their understanding of raising funds in the nonprofit sector. Students learn about event planning and budgeting, income projections and ticketing, marketing outreach, food and beverage, and logistics management. Students will also categorize the various types of strategic tools currently used in conjunction with social media to increase fundraising campaigns.

10196131

Fundamentals of Nonprofit Management - Credits: 3

An introductory course aimed at providing an overview of the essential functions of a nonprofit organization. In this course students are introduced to the fundamentals of effective mission and vision statements, strategic planning, operations management, Board development, and budgeting.

10196149

Dynamics of Board Relations - Credits: 1

A dynamic course that focuses on developing a cohesive and strategic board of directors. Topics include defining the role of the board, strengthening the working relationship between staff members and board members, and organizing and facilitating effective meetings.

10196158

Managing Volunteers - Credits: 2

Successful management of volunteers is critical to a nonprofit organization. This investigative course is intended to prepare students to assume roles as volunteer program leaders and managers, or to improve their skills in existing roles with volunteer organizations. The fundamental design of the course is based on learning through critical thought in and about leadership and management roles with volunteers.

10196159

Nonprofit Field Experience - Credits: 1

This course is designed to provide students with a hands-on experience to practice the tasks and duties typically performed in a nonprofit organization. PREREQUISITE: 10196131 Fundamentals of Nonprofit Management, COREQUISITES: 10104198 Social Media Marketing, 10196123 Grant Writing and Management, 10196127 Fundraising and Event Planning, 10196149 Dynamics of Board Relations, and 10196158 Managing Volunteers.

Nonprofit Leadership

10-196-6 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online Outreach Center: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

As a student, you will explore the role of nonprofit organizations, developing volunteer and board relationships, coordinating grant and fundraising strategies, and managing fiscal resources. Graduates of this program could seek employment with government social services, YMCAs, assisted living centers, hospice, home care agencies, clinics, hospitals, Headstart and other childcare programs, domestic abuse and homeless shelters, and police, fire and EMS volunteer programs.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Nonprofit Leadership graduates will be able to:

- Apply sound decision-making about fiscal and financial resources
- Create individual professional development plans to meet organizational goals
- Facilitate effective employee relations
- Cultivate professional relationships to build community, board, and volunteer resources
- Select appropriate communication strategy to fit the situation
- Explore the principles and concepts of nonprofit leadership
- Examine various grant and fundraising strategies commonly used in the nonprofit sector
- Plan, organize, and evaluate nonprofit organizations based on its mission, vision, and goals

Career Outlook

Typical positions available after graduation include:

- Program Coordinator
- Marketing and Communications Coordinator
- Volunteer Coordinator
- Director of Programs
- Director of Development

Career Pathways

The Nonprofit Leadership program includes the following pathway options (page 247):

- Nonprofit Professional
- Nonprofit Essentials
- Leadership Essentials
- Supervisory Leadership Certificate

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101138

Budgeting and Cost Control - Credits: 2

By using the tools and techniques learned in the class, students will understand how to use financial information to manage a business, make better financial decisions, increase business profitability, and improve cash flow. With a detailed review of what the numbers in the financial statements represent and how managers and owners use that information to be more successful in controlling and growing their business operations, students will learn how to use financial information to build an effective and realistic budget that can be used to control costs, improve profits and gain a competitive advantage. COREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

10101176

Financial Accounting 1A - Credits: 2

This is a basic accounting course for non-accounting program students. The scope of study focuses on an introduction to business and accounting, analyzing and recording accounting transactions, performing the adjusting process, and completing the accounting cycle. Understanding is based both on theory and application.

10104189

Social Media Marketing - Credits: 3

This course follows social media's transformation of advertising from a mass medium to one-to-one communication with immediate feedback. Social media's use for public relations and advertising as well as how to create and deploy a social media campaign will be the main focus of the course. The history and development of social media platforms will be examined as well as today's ethical and legal implications of social media efforts.

10116100

Human Resource Management - Credits: 3

In Human Resource Management, the learner applies the skills and tools necessary to effectively value and apply employees' abilities and needs to organization goals. Each learner will demonstrate the application of the supervisor's role in contemporary human resources management, impacts of EEOC, writing job descriptions, recruitment, selection, conducting job interviews, orientation, developing policies and procedures, training, performance management, employee counseling and development, and effective use of compensation and benefit strategies. It is recommended that the learner have experience using a PC/MAC, using the MS Windows operating systems and software suite, browsing Web pages, downloading files, using e-mail, and exchanging files prior to enrolling in this course.

10104198

Managing Human Resources - Credits: 3

Introduces the functions of Human Resource Management in the legal and social context of today's dynamic business environment. Topics include human resource development, employee selection, performance, appraisal, compensation, training, labor relations, affirmative action, and career management.

10116104

Recruitment and Selection - Credits: 3

Getting the right employees in the right job is really an art. Learn the methods of recruitment used to attract employees to your organization. Once recruitment takes place, then selection of the most suitable candidate for an opening takes place. This process is highly governed by state and federal law which must be learned and used as the basis for lawful selection of employees. PREREQUISITE: 10116100 Human Resource Management.

10196123

Grant Writing and Management - Credits: 2

An introductory course designed to familiarize students to the language of grants. Specific topics include proposal development, funding sources and processes, writing grant proposals, creating budgets, developing effective evaluation tools, and managing grant funds.

10196127

Fundraising and Event Planning - Credits: 3

In this course students will deepen their understanding of raising funds in the nonprofit sector. Students learn about event planning and budgeting, income projections and ticketing, marketing outreach, food and beverage, and logistics management. Students will also categorize the various types of strategic tools currently used in conjunction with social media to increase fundraising campaigns.

10196131

Fundamentals of Nonprofit Management - Credits: 3

An introductory course aimed at providing an overview of the essential functions of a nonprofit organization. In this course students are introduced to the fundamentals of effective mission and vision statements, strategic planning, operations management, Board development, and budgeting.

10196138

Conflict Resolution and Confrontation Skills - Credits: 1

In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.

10196149

Dynamics of Board Relations - Credits: 1

A dynamic course that focuses on developing a cohesive and strategic board of directors. Topics include defining the role of the board, strengthening the working relationship between staff members and board members, and organizing and facilitating effective meetings.

10196157

Strategic Planning - Credits: 1

Analyze current business strategy, recognize trends, develop vision and mission statements, identify benchmarks, measure business against benchmarks, recommend future directions.

10196158

Managing Volunteers - Credits: 2

Successful management of volunteers is critical to a nonprofit organization. This investigative course is intended to prepare students to assume roles as volunteer program leaders and managers, or to improve their skills in existing roles with volunteer organizations. The fundamental design of the course is based on learning through critical thought in and about leadership and management roles with volunteers.

10196159

Nonprofit Field Experience - Credits: 1

This course is designed to provide students with a hands-on experience to practice the tasks and duties typically performed in a nonprofit organization. PREREQUISITE: 10196131 Fundamentals of Nonprofit Management, COREQUISITES: 10104198 Social Media Marketing, 10196123 Grant Writing and Management, 10196127 Fundraising and Event Planning, 10196149 Dynamics of Board Relations, and 10196158 Managing Volunteers.

10196164

Personal Skills for Supervisors - Credits: 3

In Personal Skills for Supervisors, the learner applies the skills and tools necessary to deal with the time management, stress, and related challenges to a supervisor. Each learner will demonstrate the application of time management techniques, personal planning, continuous learning, valuing rights and responsibilities of others, effective communication, assertiveness, and dealing effectively with stress.

10196189

Team Building and Problem Solving - Credits: 3

In Team Building and Problem Solving, the learner applies the skills and tools necessary to facilitate problem solving in a team environment. Each learner will demonstrate the application of the benefits and challenges of group work, necessary roles in a team, stages of team development, different approaches to problem solving, consensus, systematic process of problem definition, data acquisition, analysis, developing alternative solutions, solution implementation, evaluation, and documentation.

10196190

Leadership Development - Credits: 3

In Leadership Development, the learner applies the skills and tools necessary to fulfill his/her role as a modern leader. Each learner will demonstrate the application of evaluating leadership effectiveness and organization requirements, individual and group motivation strategies, implementing mission and goals, ethical behavior, personal leadership style and adaptation, impacts of power, facilitating employee development, coaching, managing change, and effective conflict resolution.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

10520103

Ethics in Human Services - Credits: 3

This course explores the ethical, legal, and professional issues facing the human services worker. It is designed to teach a process of ethical decision-making and to increase awareness of the complexities in practice. Students are introduced to the current state and federal statutes, regulations, and judicial decisions that govern the professional practice in human services. Standards, code of ethics, clients' rights, and confidentiality are emphasized.

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

As a student in the Nonprofit Professional program, you will explore the role of nonprofit organizations, develop volunteer and board relationships, explore grant and fundraising strategies, learn how to manage and control budgets, and communicate effectively. Graduates of this program can find employment with assisted living centers, hospice and home care agencies, hospitals, YMCAs, childcare programs, domestic abuse and homeless shelters, and many more nonprofit organizations, both locally and nationally.

Special Feature

This is a unique program in the state

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Nonprofit Professional graduates will be able to:

- Cultivate professional relationships to build community, board, and volunteer resources
- Select an appropriate communication strategy to fit the situation
- Explore the principles and concepts of nonprofit leadership
- Examine various grant and fundraising strategies commonly used in the nonprofit sector
- Evaluate mission, vision, and goals for nonprofit organizations

Career Outlook

Typical positions available after graduation include:

- Fundraising Coordinator
- Relationship Manager
- Marketing Communications Associate
- Program Manager

Career Pathways

The Nonprofit Professional program includes the following pathway option (page 247):

- Nonprofit Essentials

Nonprofit Professional is also a pathway into the following program:

- Nonprofit Leadership

Nursing Assistant

30-543-1 Technical Diploma (less than one-year)

Campuses: Ashland, New Richmond, Rice Lake, Superior

Outreach Center: Hayward

Health Education Center: Shell Lake

Program Overview

The Nursing Assistant program prepares students for employment as nursing assistants. The program also prepares students for other health-related programs. Students will be required to demonstrate the following skills under the supervision of a licensed nurse: communication, basic nursing assistant and personal care skills, attention to client's rights, and care of clients with dementias. The program is recognized by the Wisconsin Department of Health Services as a nurse-aide training program. Upon successful completion of the program, the student is eligible to take the Wisconsin Nursing Assistant competency evaluation for inclusion on the Wisconsin Nurse Aide Registry and employment in nursing homes, hospitals, home health agencies, hospices, CBRF's, assisted living centers and homes for the developmentally disabled. The program is approved by the [Wisconsin Department of Health Services, Office of Quality Assurance](#). After successfully completing this program, students will be eligible to complete the written and skills exams to be placed on the Wisconsin Nurse Aide Registry.

Admission Requirements

- Complete Online application form
- Be at least 16 years old at class start
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Review and sign Health Sciences Confidentiality Statement

Program-Specific Requirements

- 1) Prior to mandatory orientation, the following items must be completed:
 - Submit Class Registration Form with Fee or Payment Authorization Form
 - Submit Background Check fee
- 2) Prior to the start of class, attend a mandatory orientation session.
- 3) At the mandatory orientation:
 - Complete, sign and initial Background Information Disclosure Form (BID)
 - Have an acceptable Wisconsin Caregiver Background Check
 - » Information from the Caregiver Background check may affect ability to secure clinical placement and the student may be excused from the program.
- 4) By the first day of class, the following must be completed:
 - Demonstrate negative status for tuberculosis (Tb)
 - COVID vaccination---highly recommended

NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date

Program Outcomes

Nursing Assistant graduates will be able to:

- Communicate effectively with clients, family, and co-workers
- Protect rights of clients
- Demonstrate ethical and legal responsibilities
- Work cooperatively in a team environment
- Provide holistic, safe care to diverse populations
- Demonstrate reporting and documentation
- Assist clients with rehabilitation and restorative care
- Provide safe care for clients with acute and chronic health conditions
- Complete educational requirements for the WI NA competency evaluation

Career Outlook

Graduates of this program will be qualified for the following position:

- Nursing Assistant

Related Program

- Nursing - Associate Degree

Required Courses

PREREQUISITE: Admission to Nursing Assistant program

Nursing - Associate Degree

10-543-1 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*

* Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Program Overview

Nursing is the dynamic interpersonal goal-directed process that seeks to promote optimal health within the context of individuals, family, community and society. The concept of caring, which is central to nursing, is communicated through both attitude and action. Nursing uses the nursing process, a problem-solving approach to provide holistic care to individuals, families and groups within the healthcare system. Through collaboration with other healthcare professionals, nursing is responsive to the needs of the community across the health-illness continuum.

Special Feature

Graduates of the Nursing - Associate Degree program have the option to transfer, with junior standing, into a baccalaureate nursing program at colleges in the University of Wisconsin System and some private colleges.

Pre-Nursing Admission Requirements

- Complete Online application form
- Complete Accuplacer entrance assessment to determine placement (waiver may apply with acceptable alternative test scores and/or postsecondary degree completion); NOTE: required Accuplacer entrance assessment scores for core Nursing coursework are higher than pre-Nursing scores
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

Pre-Nursing students must complete the petition process to be eligible for the core Nursing program. (See [Nursing-Associate Degree](#) program web page for detailed information.) In addition to the requirements above, students in this program must:

- Complete one year, or one credit, of high school chemistry or one credit of college-level chemistry with a 2.0 or better
 - Complete a Nursing Assistant course with grade of 2.0 or better
 - Complete priority petition for admission forms:
 - Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
 - Northwood Tech transcripts to verify course completion (priority admission is given to students who have completed the ADN program-required General Education courses)
 - Review and sign Background Check Disclosure
 - Review and sign the Functional Abilities Disclosure
 - Complete and sign Intent to Enter form
 - Prior to attendance in core Nursing coursework, student must:
 - Submit Background Check fee
 - Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states if applicable
 - Pass a physical exam, have current immunizations, and demonstrate negative status for tuberculosis (Tb)
 - COVID vaccination---highly recommended
- NOTE:** Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the

clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.

- Possess current certification of "BLS Basic Life Support"
- Review and sign Health Sciences Confidentiality Statement
- Participate in a mandatory orientation session

Admission and Program-Specific Requirements for the following are located on the [Nursing - Associate Degree](#) program webpage:

- LPN to ADN
- Nursing - Associate Degree Transfer Student Requirements
- Northwood Tech/UWEC Nursing Alliance

Program Outcomes

ADN Graduates will be able to:

- Integrate professional nursing identity reflecting integrity, responsibility, and nursing
- Communicate comprehensive information using multiple sources in nursing practice
- Integrate theoretical knowledge to support decision making
- Integrate the nursing process into patient care across diverse populations
- Function as a healthcare team member to provide safe and effective care

Career Outlook

Graduates of this program will be qualified for the following position:

- Registered Nurse

Related Program

- Nursing Assistant

The Nursing-Associate Degree program at Northwood Technical College is accredited by the [Accreditation Commission for Education in Nursing, Inc. \(ACEN\)](#), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326, phone 404-975-5000. The most recent accreditation decision made by the ACEN Board of Commissioners for the associate degree nursing program is continuing accreditation.

The Nursing-Associate Degree program at Northwood Technical College is approved by the [Wisconsin State Board of Nursing](#). Concerns may also be directed to the Board of Nursing, DSPS, PO Box 8366, Madison, WI 53708 – 8366. Phone number: 608.266.2112 Email: dsp@wi.gov

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10543101

Nursing Fundamentals - Credits: 2

This course focuses on basic nursing concepts to provide evidenced-based care to diverse patient populations across the lifespan. Current and historical issues impacting nursing will be explored within the scope of nursing practice. The nursing process will be introduced as a framework for organizing the care of patients. PREREQUISITE: Admission to Nursing program and COREQUISITE: 10806177 General Anatomy and Physiology.

10543102

Nursing Skills - Credits: 3

This course focuses on development of evidence-based clinical skills and physical assessment across the lifespan. Content includes mathematical calculations and conversions related to clinical skills. In addition the course includes techniques related to obtaining a health history and basic physical assessment skills using a body systems approach. PREREQUISITE: Admission to Nursing program or current LPN license and COREQUISITE: 10806177 General Anatomy and Physiology.

10543103

Nursing Pharmacology - Credits: 2

This course introduces the principles of pharmacology, including drug classifications and their effects on the body. Emphasis is on the use of the components of the nursing process when administering medications. PREREQUISITE: Admission to the Nursing program and COREQUISITE: 10806177 General Anatomy and Physiology.

10543104

Nursing: Intro to Clinical Practice - Credits: 2

This introductory clinical course emphasizes basic nursing skills and application of the nursing process in meeting the needs of diverse clients across the lifespan. Emphasis is placed on performing basic nursing skills, the formation of nurse-client relationships, communication, data collection, documentation, and medication administration. COREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, and 10543103 Nursing Pharmacology, 10801136 English Composition 1, 10809188 Developmental Psychology, and 10806177 General Anatomy and Physiology.

10543105

Nursing Health Alterations - Credits: 3

This course elaborates upon the basic concepts of health and illness as presented in Nursing Fundamentals. It applies theories of nursing in the care of patients through the lifespan, utilizing problem solving and critical thinking. This course will provide an opportunity to study conditions affecting different body systems and apply evidence-based nursing interventions. It will also introduce concepts of leadership and management. PREREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, 10543103 Nursing Pharmacology, 10543104 Nursing: Introduction to Clinical Practice, and 10806177 General Anatomy and Physiology.

10543106

Nursing Health Promotion - Credits: 3

This course focuses on topics related to health promotion for individuals and families throughout the lifespan. We will cover nursing care of the developing family, which includes reproductive issues, pregnancy, labor and delivery, postpartum, the newborn, and the child. Recognizing the spectrum of healthy families we will discern patterns associated with adaptive and maladaptive behaviors applying mental health principles. An emphasis is placed on teaching and supporting healthy lifestyles choices for individuals of all ages. Nutrition, exercise, stress management,

empowerment, and risk reduction practices are highlighted. Study of the family will cover dynamics, functions, discipline styles, and stages of development. PREREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, 10543103 Nursing Pharmacology, 10543104 Nursing: Introduction to Clinical Practice, 10806177 General Anatomy and Physiology, and 10809188 Developmental Psychology and COREQUISITE: 10806179 Advanced Anatomy and Physiology.

10543107

Nursing: Clinical Care Across Lifespan - Credits: 2

This clinical experience applies nursing concepts and therapeutic interventions to patients across the lifespan. It also provides an introduction to concepts of teaching and learning. Extending care to include the family is emphasized. COREQUISITE: 10543106 Nursing Health Promotion.

10543108

Nursing: Intro to Clinical Care Management - Credits: 2

This clinical experience applies nursing concepts and therapeutic nursing interventions to groups of patients across the lifespan. It also provides an introduction to leadership, management, and team building. COREQUISITES: 10543105 Nursing Health Alterations, 10806179 Advanced Anatomy and Physiology, and 10801196 Oral/Interpersonal Communication.

10543109

Nursing: Complex Health Alterations 1 - Credits: 3

Complex Health Alterations 1 prepares the learner to provide and evaluate care for patients across the lifespan with alterations in cardiovascular, respiratory, endocrine, and hematologic systems as well as patients with fluid/electrolyte and acid-base imbalance, and alterations in comfort. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, 10806179 Advanced Anatomy and Physiology, and COREQUISITE: 10806197 Microbiology.

10543110

Nursing: Mental Health and Community Concepts - Credits: 2

This course will cover topics related to the delivery of community and mental health care. Specific health needs of individuals, families, and groups will be addressed across the lifespan. Attention will be given to diverse and at-risk populations. Mental health concepts will concentrate on adaptive/maladaptive behaviors and specific mental health disorders. Community resources will be examined in relation to specific types of support offered to racial, ethnic, economically diverse individuals and groups. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, 10806179 Advanced Anatomy and Physiology, and COREQUISITE: 10809198 Introduction to Psychology.

10543111

Nursing: Intermediate Clinical Practice - Credits: 3

This intermediate level clinical course develops the RN role when working with clients with complex health care needs. A focus of the course is developing skills needed for managing multiple clients across the lifespan and priorities. Using the nursing process, students will gain experience in adapting nursing practice to meet the needs of clients with diverse needs and backgrounds. COREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental

Health and Community Concepts, and 10543112 Nursing Advanced Skills, 10809198 Introduction to Psychology, and 10806197 Microbiology.

10543112

Nursing Advanced Skills - Credits: 1

This course focuses on the development of advanced clinical skills across the lifespan. Content includes advanced intravenous skills, blood product administration, chest tube systems, basic electrocardiogram interpretation and nasogastric/feeding tube insertion. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, and 10806179 Advanced Anatomy and Physiology.

10543113

Nursing: Complex Health Alterations 2 - Credits: 3

Complex Health Alterations 2 prepares the learner to provide and evaluate care for patients across the lifespan with alterations in the immune, neuro-sensory, musculoskeletal, gastrointestinal, hepatobiliary, renal/urinary, reproductive systems and shock, burns and trauma. The learner will also focus on management of care for patients with high-risk perinatal conditions and high-risk newborns. PREREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, 10543112 Nursing Advanced Skills, and 10806197 Microbiology.

10543114

Nursing: Management and Professional Concepts - Credits: 2

This course covers nursing management and professional issues related to the role of the registered nurse. Emphasis is placed on preparing for practice as a registered nurse. PREREQUISITES: 10543109 Nursing: Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, and 10543112 Nursing Advanced Skills.

10543115

Nursing: Advanced Clinical Practice - Credits: 3

This advanced clinical course requires the student to integrate concepts from all previous courses in the management of groups of clients facing complex health alterations. Students will have the opportunity to further develop critical thinking skills using the nursing process in making clinical decisions. Continuity of care through interdisciplinary collaboration is emphasized. COREQUISITES: 10543113 Nursing Complex Health Alterations 2, and 10809196 Introduction to Sociology.

10543116

Nursing Clinical Transition - Credits: 2

This clinical experience integrates all knowledge learned in the previous courses in transitioning to the role of the graduate nurse. The course promotes relatively independent clinical decisions, delegation, and works collaboratively with others to achieve client and organizational outcomes. Continued professional development is fostered. PREREQUISITES: 10543113 Nursing Complex Health Alterations 2, 10543114 Nursing Management and Professional Concepts, and 10543115 Nursing Advanced Clinical Practice.

Nursing - Associate Degree - Part Time (four years)

10-543-1 Associate Degree

Financial Aid Eligible

Campus: Ashland, New Richmond, Superior, Rice Lake

Theory coursework Online, with Clinical and Skills Labs having on-site clinic and/or campus requirements (including the Shell Lake Health Education Center)

Program Overview

Nursing is the dynamic interpersonal goal-directed process that seeks to promote optimal health within the context of individuals, family, community and society. The concept of caring, which is central to nursing, is communicated through both attitude and action. Nursing uses the nursing process, a problem-solving approach to provide holistic care to individuals, families and groups within the healthcare system. Through collaboration with other healthcare professionals, nursing is responsive to the needs of the community across the health-illness continuum.

Special Features

- Advisors will be available to coach, mentor and motivate you throughout the program. They will assist with academic-related issues, including enhancement of study skills and college success strategies and facilitate individual and/or study groups
- Theory coursework Online, with Clinical and Skills Labs having on-site clinic and/or campus requirements (including the Shell Lake Health Education Center)
- Graduates of the Nursing - Associate Degree program have the option to transfer, with junior standing, into a baccalaureate nursing program at colleges in the University of Wisconsin System and some private colleges.

Admission Requirements

Admission to the program is based on the date the student completes all admissions requirement and is first-come first-served.

- Complete Online application form
- Complete Accuplacer entrance assessment to determine placement (waiver may apply with acceptable alternative test scores and/or postsecondary degree completion); note: Core Nursing Accuplacer entrance assessment scores required
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date prior to term start
- Complete one year, or one credit, of high school chemistry or one credit of college-level chemistry with a 2.0 or better
- Complete a Nursing Assistant course with grade of 2.0 or better
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Prior to attendance in core Nursing coursework, student must:
 - Submit Background Check fee
 - Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states if applicable
 - Pass a physical exam, have current immunizations, and demonstrate negative status for tuberculosis (Tb)
 - COVID vaccination---highly recommended

NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical

site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.

- Possess current certification of "BLS Basic Life Support"
- Review and sign Health Sciences Confidentiality Statement
- Participate in a mandatory orientation session

Program Outcomes

ADN Graduates will be able to:

- Integrate professional nursing identity reflecting integrity, responsibility, and nursing
- Communicate comprehensive information using multiple sources in nursing practice
- Integrate theoretical knowledge to support decision making
- Integrate the nursing process into patient care across diverse populations
- Function as a healthcare team member to provide safe and effective care

Career Outlook

Graduates of this program will be qualified for the following position:

- Registered Nurse

Related Program

- Nursing Assistant

The Nursing-Associate Degree program at Northwood Technical College is accredited by the [Accreditation Commission for Education in Nursing, Inc. \(ACEN\)](#), 3390 Peachtree Road NE, Suite 1400, Atlanta, GA 30326, phone 404-975-5000. The most recent accreditation decision made by the ACEN Board of Commissioners for the associate degree nursing program is continuing accreditation.

The Nursing-Associate Degree program at Northwood Technical College is approved by the [Wisconsin State Board of Nursing](#). Concerns may also be directed to the Board of Nursing, DSPS, PO Box 8366, Madison, WI 53708 – 8366. Phone number: 608.266.2112 Email: dsp@wi.gov

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10543101

Nursing Fundamentals - Credits: 2

This course focuses on basic nursing concepts to provide evidenced-based care to diverse patient populations across the lifespan. Current and historical issues impacting nursing will be explored within the scope of nursing practice. The nursing process will be introduced as a framework for organizing the care of patients. PREREQUISITE: Admission to Nursing program and COREQUISITE: 10806177 General Anatomy and Physiology.

10543102

Nursing Skills - Credits: 3

This course focuses on development of evidence-based clinical skills and physical assessment across the lifespan. Content includes mathematical calculations and conversions related to clinical skills. In addition the course includes techniques related to obtaining a health history and basic physical assessment skills using a body systems approach. PREREQUISITE: Admission to Nursing program or current LPN license and COREQUISITE: 10806177 General Anatomy and Physiology.

10543103

Nursing Pharmacology - Credits: 2

This course introduces the principles of pharmacology, including drug classifications and their effects on the body. Emphasis is on the use of the components of the nursing process when administering medications. PREREQUISITE: Admission to the Nursing program and COREQUISITE: 10806177 General Anatomy and Physiology.

10543104

Nursing: Intro to Clinical Practice - Credits: 2

This introductory clinical course emphasizes basic nursing skills and application of the nursing process in meeting the needs of diverse clients across the lifespan. Emphasis is placed on performing basic nursing skills, the formation of nurse-client relationships, communication, data collection, documentation, and medication administration. COREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, and 10543103 Nursing Pharmacology, 10801136 English Composition 1, 10809188 Developmental Psychology, and 10806177 General Anatomy and Physiology.

10543105

Nursing Health Alterations - Credits: 3

This course elaborates upon the basic concepts of health and illness as presented in Nursing Fundamentals. It applies theories of nursing in the care of patients through the lifespan, utilizing problem solving and critical thinking. This course will provide an opportunity to study conditions affecting different body systems and apply evidence-based nursing interventions. It will also introduce concepts of leadership and management. PREREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, 10543103 Nursing Pharmacology, 10543104 Nursing: Introduction to Clinical Practice, and 10806177 General Anatomy and Physiology.

10543106

Nursing Health Promotion - Credits: 3

This course focuses on topics related to health promotion for individuals and families throughout the lifespan. We will cover nursing care of the developing family, which includes reproductive issues, pregnancy, labor and delivery, postpartum, the newborn, and the child. Recognizing the spectrum of healthy families we will discern patterns associated with adaptive and maladaptive behaviors applying mental health principles. An emphasis is placed on teaching and supporting healthy lifestyles choices for individuals of all ages. Nutrition, exercise, stress management, empowerment, and risk reduction practices are highlighted. Study of the family will cover

dynamics, functions, discipline styles, and stages of development. PREREQUISITES: 10543101 Nursing Fundamentals, 10543102 Nursing Skills, 10543103 Nursing Pharmacology, 10543104 Nursing: Introduction to Clinical Practice, 10806177 General Anatomy and Physiology, and 10809188 Developmental Psychology and COREQUISITE: 10806179 Advanced Anatomy and Physiology.

10543107

Nursing: Clinical Care Across Lifespan - Credits: 2

This clinical experience applies nursing concepts and therapeutic interventions to patients across the lifespan. It also provides an introduction to concepts of teaching and learning. Extending care to include the family is emphasized. COREQUISITE: 10543106 Nursing Health Promotion.

10543108

Nursing: Intro to Clinical Care Management - Credits: 2

This clinical experience applies nursing concepts and therapeutic nursing interventions to groups of patients across the lifespan. It also provides an introduction to leadership, management, and team building. COREQUISITES: 10543105 Nursing Health Alterations, 10806179 Advanced Anatomy and Physiology, and 10801196 Oral/Interpersonal Communication.

10543109

Nursing: Complex Health Alterations 1 - Credits: 3

Complex Health Alterations 1 prepares the learner to provide and evaluate care for patients across the lifespan with alterations in cardiovascular, respiratory, endocrine, and hematologic systems as well as patients with fluid/electrolyte and acid-base imbalance, and alterations in comfort. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, 10806179 Advanced Anatomy and Physiology, and COREQUISITE: 10806197 Microbiology.

10543110

Nursing: Mental Health and Community Concepts - Credits: 2

This course will cover topics related to the delivery of community and mental health care. Specific health needs of individuals, families, and groups will be addressed across the lifespan. Attention will be given to diverse and at-risk populations. Mental health concepts will concentrate on adaptive/maladaptive behaviors and specific mental health disorders. Community resources will be examined in relation to specific types of support offered to racial, ethnic, economically diverse individuals and groups. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, 10806179 Advanced Anatomy and Physiology, and COREQUISITE: 10809198 Introduction to Psychology.

10543111

Nursing: Intermediate Clinical Practice - Credits: 3

This intermediate level clinical course develops the RN role when working with clients with complex health care needs. A focus of the course is developing skills needed for managing multiple clients across the lifespan and priorities. Using the nursing process, students will gain experience in adapting nursing practice to meet the needs of clients with diverse needs and backgrounds. COREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, and 10543112 Nursing Advanced Skills, 10809198 Introduction to Psychology, and 10806197 Microbiology.

10543112

Nursing Advanced Skills - Credits: 1

This course focuses on the development of advanced clinical skills across the lifespan. Content includes advanced intravenous skills, blood product administration, chest tube systems, basic electrocardiogram interpretation and nasogastric/feeding tube insertion. PREREQUISITES: 10543105 Nursing Health Alterations, 10543106 Nursing Health Promotion, 10543107 Nursing: Clinical Care Across the Lifespan, 10543108 Nursing: Introduction to Clinical Care Management, and 10806179 Advanced Anatomy and Physiology.

10543113

Nursing: Complex Health Alterations 2 - Credits: 3

Complex Health Alterations 2 prepares the learner to provide and evaluate care for patients across the lifespan with alterations in the immune, neuro-sensory, musculoskeletal, gastrointestinal, hepatobiliary, renal/urinary, reproductive systems and shock, burns and trauma. The learner will also focus on management of care for patients with high-risk perinatal conditions and high-risk newborns. PREREQUISITES: 10543109 Nursing Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, 10543112 Nursing Advanced Skills, and 10806197 Microbiology.

10543114

Nursing: Management and Professional Concepts - Credits: 2

This course covers nursing management and professional issues related to the role of the registered nurse. Emphasis is placed on preparing for practice as a registered nurse. PREREQUISITES: 10543109 Nursing: Complex Health Alterations 1, 10543110 Nursing: Mental Health and Community Concepts, 10543111 Nursing: Intermediate Clinical Practice, and 10543112 Nursing Advanced Skills.

10543115

Nursing: Advanced Clinical Practice - Credits: 3

This advanced clinical course requires the student to integrate concepts from all previous courses in the management of groups of clients facing complex health alterations. Students will have the opportunity to further develop critical thinking skills using the nursing process in making clinical decisions. Continuity of care through interdisciplinary collaboration is emphasized. COREQUISITES: 10543113 Nursing Complex Health Alterations 2, and 10809196 Introduction to Sociology.

10543116

Nursing Clinical Transition - Credits: 2

This clinical experience integrates all knowledge learned in the previous courses in transitioning to the role of the graduate nurse. The course promotes relatively independent clinical decisions, delegation, and works collaboratively with others to achieve client and organizational outcomes. Continued professional development is fostered. PREREQUISITES: 10543113 Nursing Complex Health Alterations 2, 10543114 Nursing Management and Professional Concepts, and 10543115 Nursing Advanced Clinical Practice.

Occupational Therapy Assistant

10-514-1 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake* *via Hybrid instruction

* Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Program Overview

Occupational therapy assistants help people participate in things they want and need to do through the therapeutic use of everyday activities (occupations). Occupational therapy is both an art and a science. Being an occupational therapy assistant allows you to "think outside the box" while applying science in order to best meet the needs of clients

Occupational therapy assistants work with individuals of all ages, from the first day to last day of life. We work with those who are recovering from disability and disease, those who are working to overcome mental health challenges, and those who need support with healthy living and lifestyle changes.

In traditional settings, occupational therapy assistants work under the supervision of the registered occupational therapist to provide hands-on services. Some settings allow for more creativity than others but all settings require an occupational therapy assistant to use individualized approaches to help clients perform their daily occupations.

Occupational therapy assistants can work in a variety of settings such as hospitals, outpatient clinics, skilled nursing facilities, home health agencies, psychiatric facilities, day treatment, geriatric settings, community based practice and private practice.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states, if applicable
- Pass a physical exam, have current immunizations, and demonstrate negative status for tuberculosis (Tb)
- COVID vaccination---highly recommended
NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.
- Possess current certification of "BLS Basic Life Support"
- Review and sign Health Sciences Confidentiality Statement
- Participate in a mandatory program orientation session

Program Outcomes

Occupational Therapy Assistant graduates will be able to:

- Practice within the distinct role and responsibility of the occupational therapy assistant
- Serve a diverse population in a variety of systems that are consistent with entry level practice
- Seek out learning opportunities to keep current with best practice
- Apply occupational therapy principles and intervention tools to achieve expected outcomes
- Demonstrate professional behaviors, ethical standards, values, and attitudes of the occupational therapy profession

- Advocate for the profession, services, and consumers

Professional Licensure and/or Certification Information

Northwood Tech's Occupational Therapy Assistant program prepares students to obtain the required licensure to be employed/practice in the state of Wisconsin. The College does not guarantee its curriculum matches the requirements for preparation, examinations, or licensure for other states. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number. Please click below to review more details about accreditation and licensure.

[National Board for Certification in Occupational Therapy \(NBCOT\)](#)

[State of Wisconsin Department of Safety and Professional Services](#)

Career Outlook

Typical positions available after graduation include:

- Occupational Therapy Assistant
- Certified Occupational Therapy Assistant (COTA)
- Activities Director/Coordinator
- Case Manager
- Community Support Worker
- Life Skills Trainer
- Mental Health Technician
- Community Educator
- Paraprofessional, Specialized

The Associate Degree level occupational therapy assistant program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number, c/o AOTA, is (301) 652-AOTA and its web address is www.acoteonline.org.

Graduates of the program will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the

NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

TOTAL CREDITS 64 cr.

Fieldwork: Fieldwork IIA and IIB will be completed in two different settings under the supervision of a COTA or OTR. OTA students must complete Level II Fieldwork within 18 months following completion of the academic preparation.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

You must earn a grade point of 2.0 or better in all required courses.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10514171

Introduction to Occupational Therapy - Credits: 3

Provides an overview of history, philosophy, ethics, and scope of occupational therapy practice. Examines legal responsibilities, professional resources, and organization. Students practice basic skills related to therapeutic relationships and determine their own suitability to a career in occupational therapy. PREREQUISITE: Admission to the OTA program and COREQUISITES: 10514173 Activity Analysis and Applications and 10514172 Medical and Psychosocial Conditions.

10514172

Medical and Psychosocial Conditions - Credits: 3

Introduces medical and psychosocial conditions as they relate to occupational therapy practice. Topics include etiology, symptomology, treatment, and contraindications. PREREQUISITE: Admission to OTA program and COREQUISITES: 10514171 Introduction to Occupational Therapy, 10514173 Activity Analysis and Appl, and 10806177 General Anatomy and Physiology.

10514173

Activity Analysis and Applications - Credits: 2

Provides instruction in activity analysis with hands-on experience in activities across the lifespan. Students apply the teaching/learning process and adhere to safety regulations. PREREQUISITE: Admission to OTA program and COREQUISITES: 10514171 Introduction to Occupational Therapy, 10514172 Medical and Psychosocial Conditions, and 10806177 General Anatomy and Physiology.

10514174

OT Performance Skills - Credits: 4

Emphasis on assessment in the areas of sensory perceptual skills, motor skills, cognition skills. PREREQUISITES: 10514171 Introduction to Occupational Therapy, 10514172 Medical and Psychosocial Conditions, 10514173 Activity Analysis and Applications, 10806177 General Anatomy and Physiology and COREQUISITES: 10514175 Psychosocial Practice, 10514176 OT Theory and Practice, and 10514178 Geriatric Practice.

10514175

Psychosocial Practice - Credits: 3

Examines the role of the OTA in the service delivery to individuals affected by mental health conditions. Provides opportunity for development of skills related to psychosocial assessment and interventions. PREREQUISITES: 10514171 Introduction to Occupational Therapy, 10514172 Medical and Psychosocial Conditions, 10514173 Activity Analysis and Applications, and 10806177 General Anatomy and Physiology and COREQUISITES to: 10514174 OT Performance Skills, 10514176 OT Theory and Practice, and 10514178 Geriatric Practice. All corequisites and prerequisites must be completed with a grade point average of 2.0 or better.

10514176

OT Theory and Practice - Credits: 3

Examines the theoretical foundations that guide OT practice. Apply group dynamics and demonstrate leadership skills. PREREQUISITES: 10514171 Introduction to Occupational Therapy, 10514172 Medical and Psychosocial Conditions, 10514173 Activity Analysis and Applications, and 10806177 General Anatomy and Physiology and COREQUISITES: 10514174 OT Performance Skills, 10514175 Psychosocial Practice, and 10514178 Geriatric Practice.

10514178

Geriatric Practice - Credits: 3

Examines the role of the OT in the service delivery to elders in a variety of settings. Includes analysis of the impact of age-related changes and disease processes on the function of the elderly. PREREQUISITES: 10514171 Introduction to Occupational Therapy, 10514172 Medical and Psychosocial Conditions, 10514173 Activity Analysis and Applications, and 10806177 General Anatomy and Physiology and COREQUISITES to: 10514174 OT Performance Skills, 10514176 OT Theory and Practice, and 10514175 Psychosocial Practice. All corequisites and prerequisites need to be completed with a grade point of 2.0 or higher.

10514179

Community Practice - Credits: 2

Explores practice options and interventions for occupation-based community practice. Students articulate the unique role of occupational therapy within the community. PREREQUISITES: 10514171 Introduction to Occupational Therapy, 10514172 Medical and Psychosocial Conditions, 10514174 OT Performance Skills, 10514175 Psychosocial Practice, and 10514176 OT Theory and Practice, and 10514178 Geriatric Practice and COREQUISITES: 10514189 Phys Rehab Practice, 10514190 OT Pediatric Practice, and 10514184 OTA Fieldwork I.

10514184

OTA Fieldwork I - Credits: 2

Integrate classroom theory and practice into a Fieldwork Level I experience. Provides experiences to assist in the development of communication, professional and observational skills. PREREQUISITES: 10514174 OT Performance Skills, 10514175 Psychosocial Practice, 10514176 OT Theory and Practice, and 10514178 Geriatric Practice and COREQUISITES: 10514179 Community Practice, 10514189 Phys Rehab Practice, and 10514190 OT Pediatric Practice.

10514185

OT Practice and Management - Credits: 2

Provides opportunities to practice clinical management skills, continuous quality improvement measurement, and administrative concepts and procedures. Students create a professional development plan. PREREQUISITES: All required courses with a grade point of 2.0 or better and COREQUISITES: 10514186 OTA Fieldwork IIA or 10514187 OTA Fieldwork IIB.

10514186

OTA Fieldwork IIA - Credits: 5

Develop skills and behaviors necessary for entry-level occupational therapy assistant practice. Provides a different clinical practice setting than OTA Fieldwork IIB. PREREQUISITES: All required courses with a grade point of 2.0 or better and COREQUISITES: 10514185 OT Practice and Management and 10514187 OTA Fieldwork IIB.

10514187

OTA Fieldwork IIB - Credits: 5

Develop skills and behaviors necessary for entry-level occupational therapy assistant practice. Provides a different clinical practice setting than OTA Fieldwork IIA. PREREQUISITES: All required courses with a grade point of 2.0 or better and COREQUISITES: 10514185 OT Practice and Management and 10514186 OTA Fieldwork IIA.

10514189

OT Phys Rehab Practice - Credits: 4

Explores interventions relative to major physical disability diagnoses seen in OT practice. Evaluation, treatment interventions, assistive technology and documentation are emphasized relative to the biomechanical neurodevelopmental and rehabilitative approaches to practice. PREREQUISITES: 10514174 OT Performance Skills, 10514175 Psychosocial Practice, 10514176 OT Theory and Practice, and 10514178 Geriatric Practice and COREQUISITES: 10514179 Community Practice, 10514190 OT Pediatric Practice, and 10514184 OTA Fieldwork I.

10514190

OT Pediatric Practice - Credits: 4

Explores interventions relative to major pediatric diagnoses seen in OT practice. Evaluation, treatment interventions, assistive technology and documentation are emphasized within the context of the child's occupations. PREREQUISITES: 10514174 OT Performance Skills, 10514175 Psychosocial Practice, 10514176 OT Theory and Practice, and 10514178 Geriatric Practice and COREQUISITES: 10514179 Community Practice, 10514189 OT Phys Rehab Practice, 10514184 OTA Fieldwork I, and 10809188 Developmental Psychology.

Office Support Specialist

31-106-8 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

The Office Support Specialist program allows you to earn your degree and maintain a life/work balance with part-time schedules and flexible ways to attend class (Your Choice delivery mode). You can 'learn a living' and earn your degree pretty much anytime, anywhere that fits your schedule. Once you have your Northwood Tech diploma, you can combine it with work experience and further your education to advance into positions with higher responsibility.

Admission Requirements

- Complete Online application form
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Office Support Specialist graduates will be able to:

- Perform accurate workplace communications
- Use technology skills for business tasks
- Perform routine office procedures
- Demonstrate professionalism and effective workplace relationships

Career Outlook

Typical positions available after graduation include:

- Office Support Specialist
- Receptionist/Secretary
- Data Entry Operator
- Customer Service Representative

Career Pathway

The Office Support Specialist program is a pathway into the following program (page 221):

- Administrative Coordinator

Related Programs

- Office Technology Assistant
- Microsoft Office
- Health Office Professional
- Business Graphics

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10101176

Financial Accounting 1A - Credits: 2

This is a basic accounting course for non-accounting program students. The scope of study focuses on an introduction to business and accounting, analyzing and recording accounting transactions, performing the adjusting process, and completing the accounting cycle. Understanding is based both on theory and application.

10103106

MS PowerPoint - Credits: 1

A complete presentation graphics course that allows you to produce professional-looking presentations. It gives you the flexibility to make informal presentations using overhead transparencies, electronic presentations, formal presentations using 35mm slides, or virtual presentations. Additionally, you can create paper printouts, outlines, speaker notes, and audience handouts.

10103125

MS Outlook - Credits: 1

This course introduces the basics of Microsoft Outlook. Participants will use e-mail, calendar, files, and other features to effectively manage business and personal information.

10103146

MS Word A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, reports, desktop publishing basics, themes, sort, styles, and references. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365.

10103151

MS Excel A - Credits: 1

This is the first course in a sequence that develops foundational skills in the use of Microsoft Office Excel features to efficiently and effectively produce business spreadsheets. Students will apply Microsoft Excel skills to solve practical problems in a project-based format. Activities will work on creating a spreadsheet, incorporate appropriate formulas and functions to report accurate data, and chart results. Recommended computer foundations: Windows competency, including solid file management skills; basic math fundamentals. This course will use Microsoft Office 2019 or Office 365.

10103162

MS Access A - Credits: 1

Learners create, edit, sort, and query a database. They also learn how to create and print basic forms and reports.

10103184

Advanced Document Applications - Credits: 2

This is the second course in a sequence that develops advanced skills in the use of Microsoft Office Word features to efficiently and effectively produce business documents. Students will apply Microsoft Word skills to solve practical problems in a project-based format. Explore best practices in document layout, collaboration, tables, mail merge, desktop publishing, themes, templates, forms, sort, styles, references, captions, and macros. Recommended computer foundations: Windows competency, including solid file management skills; ability to key 30 WPM. This course will use Microsoft Office 2019 or Office 365. COREQUISITE: 10103146 MS Word A

10106139

Administrative Office Management - Credits: 3

This course is designed to develop professional skills and attitudes needed in today's global business environment. Topics include making ethical decisions, working independently and as a team member, and managing time. Telecommunications, mail processing, travel arrangements and conferences, public relations, and ergonomics will be included. Previous word processing and proofreading experience is recommended. PREREQUISITE: 10106146 Document Management & Editing.

10106146

Document Management & Editing - Credits: 3

This course will focus on document formatting requirements for a variety of business documents and correspondence. Students will learn file management, document sharing, and collaborative document editing. Emphasis will be placed on proofreading, proper grammar, mechanics, keying speeds and accuracy. This project-based course uses individual and group activities.

10106199

Business Technology and Success - Credits: 1

Designed to explore the impact of digital technology, communication, and media. Course learners will be able to apply organizational techniques and manage electronic files; explore computer hardware and the web using various software and apps while practicing security and safety techniques. Improve skills in critical thinking, innovation, and personal responsibility through experiential and problem-solving approaches for a workforce-ready mindset.

10106201

Modern Office Management - Credits: 3

This course provides the learner exposure to records management and electronic filing procedures for efficiency and data security. Learners will explore current business practices such as application integration, technology and trends, basic technology troubleshooting, and customer service techniques for the modern office.

10890116

Job Quest - Credits: 1

Develop documents and skills to seek, obtain, and retain employment. Strengthen your professional image by developing self-awareness of elements affecting interpersonal and work relationships. Guidelines for determining appropriate grooming, dress, and poise will be covered. Personal life management along with career/life goal setting will be reinforced. This class should be taken in the last semester of the program.

Office Technology Assistant

30-106-1 Technical Diploma (less than one-year)

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice or On Site instruction. Select course are available at the Northwood Tech Outreach Center. Please contact your local campus for specifics.

Program Overview

The Office Technology Assistant diploma prepares you for employment in positions such as customer service representative, receptionist or office assistant. You'll be knowledgeable in various computer applications, general office procedures and bookkeeping skills necessary to work in today's business environment.

Admission Requirement

- Complete Online application form

Program Outcomes

Office Technology Assistant graduates will be able to:

- Use technology skills to accomplish basic business and administrative tasks
- Perform entry-level office procedures
- Demonstrate professionalism in the workplace

Career Outlook

Typical positions available after graduation include:

- Customer Service Representative
- Receptionist/Office Assistant

Career Pathway

The Office Technology Assistant program is a pathway into the following program (page 221):

- Administrative Coordinator

10106123 Meeting and Event Planning - Credits: 3
In this course students will deepen their understanding of planning meetings and project management. Students learn about event planning and budgeting, negotiation and contracts, income projections, food and beverage coordination, technology utilization, and logistics management.

Paramedic Technician

10-531-1 Associate Degree (two-year)

Financial Aid Eligible

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*

*Combination of On Site and Online Live instruction

Program Overview

The Paramedic Technician program offers you the opportunity to further your professional EMS career by pursuing a two-year associate degree. Paramedic Technicians can find a career in a variety of healthcare settings such as ambulance services, dispatch centers, first responder units, hospitals/emergency departments, industrial safety departments, rescue squads and urgent care facilities.

The program enhances the classroom lectures, skills, simulation trainings from the EMT-Paramedic program to round out the associate degree as a Paramedic Technician.

The Emergency Medical Technician - Paramedic program is accredited by the Commission on Accreditation of Allied Health Programs (www.caahep.org) upon recommendation of the Committee on Accreditation of Education Programs for the Emergency Medical Services Professions (CoAEMSP). This will enable graduates to take the NREMT Paramedic certification examinations upon successful completion of all portions of the Program Courses.

Special Features

- Core lecture coursework will be offered via Online Live on two evenings per week to all campus locations or from the convenience of your own computer
- On site skills labs will be scheduled every other Friday and Saturday at the Rice Lake Campus (per course schedule)

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide documentation upon graduation
- Complete the EMT-Paramedic program with a 2.0 or better in all required courses or equivalent program approved by Dean
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Professional Licensure and/or Certification Information

Northwood Tech's Paramedic Technician program is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets the requirements for preparation, examination, or licensure for other states. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in the state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Program Outcomes

Employers will expect graduates of this program to be able to:

- Prepare for incident response and EMS operations
- Integrate pathophysiological principles and assessment findings to provide appropriate patient care
- Demonstrate paramedic skills associated with established standards and procedures for a variety of patient encounters
- Communicate effectively with others
- Demonstrate professional behavior
- Meet state and national competencies listed for paramedic certification(s)

Career Outlook

Graduates of the program will be ready to start their career as a Paramedic Technician in a variety of healthcare settings including:

- Ambulance services
- Dispatch centers
- First responder units
- Hospitals/Emergency Departments
- Industrial Safety Departments
- Rescue squads
- Urgent care facilities

With further education, advancement potential may include:

- Critical Care Transport Paramedic
- Ambulance Service Training Coordinator
- EMS Shift Supervisor
- EMS Instructor
- Ambulance Service Manager
- Flight Paramedic

Career Pathway ►

The Paramedic Technician program includes the following pathway option (page 249):

- EMT - Paramedic

Related Programs

- Emergency Medical Technician
- Advanced EMT

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.
This course will be offered in various regional hospitals, clinical settings, and/or ambulance services.

You must earn a grade point of 2.0 or better in all required courses.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10501101

Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

10531911

EMS Fundamentals - Credits: 2

This course provides the paramedic student with comprehensive knowledge of EMS systems, safety, well-being, legal issues, and ethical issues, with the intended outcome of improving the health of EMS personnel, patients, and the community. The students will obtain fundamental knowledge of public health principles and epidemiology as related to public health emergencies, health promotion, and illness/injury prevention. Introducing students to comprehensive anatomical and medical terminology and abbreviations will foster the development of effective written and oral communications with colleagues and other health care professionals. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission.

10531912

Paramedic Medical Principles - Credits: 4

This course addresses the complex depth of anatomy, physiology, and pathophysiology of major human systems while also introducing the paramedic students to the topics of shock, immunology, and bleeding. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission.

10531913

Adv. Patient Assessment Principles - Credits: 3

This course teaches the paramedic student to integrate scene and patient assessment findings with knowledge of epidemiology and pathophysiology to form a field impression. By utilizing a structured and organized assessment process with knowledge of anatomy, physiology, pathophysiology, life span development, and changes that occur to the human body with time, the students will learn to develop a list of differential diagnoses through clinical reasoning, along with the ability to modify the assessment as necessary to formulate a treatment plan for their patients. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission. COREQUISITE: 10531912 Paramedic Medical Principles.

10531914

Adv. Pre-hospital Pharmacology - Credits: 3

This course provides the paramedic student with the comprehensive knowledge of pharmacology required to formulate and administer a pharmacological treatment plan intended to mitigate emergencies and improve the overall health of the patient. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission.

10531915

Paramedic Respiratory Management - Credits: 2

This course teaches the paramedic student to integrate complex knowledge of anatomy, physiology, and pathophysiology into the assessment to develop and implement a treatment plan with the goal of assuring a patient airway, adequate mechanical ventilation, and respiration for patients of all ages. Specific knowledge pertaining to the respiratory system is also provided to ensure the student is prepared to formulate a field impression and implement a comprehensive treatment plan for a patient with a respiratory complaint. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531914 Advanced Pre-hospital Pharmacology.

10531916

Paramedic Cardiology - Credits: 4

This course teaches the paramedic student to integrate assessment findings with principles of cardiovascular anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for a patient with a cardiovascular complaint. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531915 Paramedic Respiratory Management.

10531917

Paramedic Clinical/Field 1 - Credits: 3

This course provides the student with the opportunity to enhance his or her learning through the practice of paramedicine in field and health care environment experiences with actual patients under the supervision of instructors or approved preceptors. Student may also have the opportunity to participate in formal high-fidelity human patient simulator experiences as a part of this course. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission, 10531918 Advanced Emergency Resuscitation and 10531921 Special Patient Populations.

10531918

Advanced Emergency Resuscitation - Credits: 1

By teaching Advanced Cardiac Life Support (ACLS) and Pediatric Advanced Life Support (PALS) methodologies and protocols, this course prepares the paramedic student in the integration of comprehensive knowledge of causes and pathophysiology into the management of shock, respiratory failure, respiratory arrest, cardiac arrest, and peri-arrest states with an emphasis on early intervention to prevent respiratory and/or cardiac arrest if possible. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and 10531916 Paramedic Cardiology.

10531919

Paramedic Medical Emergencies - Credits: 4

This course teaches the paramedic student to integrate assessment findings with principles of anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for a patient with a medical complaint. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531918 Advanced Emergency Resuscitation.

10531920

Paramedic Trauma - Credits: 3

This course teaches the paramedic student to integrate assessment findings with principles of anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for an acutely injured patient. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531913 Advanced Patient Assessment Principles.

10531921

Special Patient Populations - Credits: 3

This course teaches the paramedic student to integrate assessment findings with principles of anatomy, physiology, epidemiology, and pathophysiology to formulate a field impression and implement a comprehensive treatment plan for patients with special needs. Gynecological emergencies, along with special considerations in trauma are also included within this course. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531913 Advanced Patient Assessment Principles.

10531922

EMS Operations - Credits: 1

This course provides the paramedic student with the knowledge of operational roles and responsibilities to ensure patient, public, and EMS personnel safety. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and 10531921 Special Patient Populations.

10531923

Paramedic Capstone - Credits: 1

This course provides the student with a final opportunity to incorporate their cognitive knowledge and psychomotor skills through labs and scenario-based practice and evaluations prior to taking the National Registry written and practical examinations. Technical skills attainment (TSA) for each student will be compiled and/or documented within this course as required by the DHS-approved paramedic curriculum. PREREQUISITE: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and COREQUISITE: 10531922 EMS Operations.

10531924

Paramedic Clinical/Field 2 - Credits: 4

This course provides the student with the opportunity to enhance his or her learning through the practice of paramedicine in field and health care environment experiences with actual patients under the supervision of instructors or approved preceptors. Students may also have the opportunity to participate in formal high-fidelity human patient simulator experiences as a part of this course. Successful completion of this course requires the student to meet all clinical competency requirements at the paramedic level as defined by WI DHS EMS. PREREQUISITES: Emergency Medical Technician - Paramedic (315311) or Paramedic Technician AAS (105311) program admission and 10531917 Paramedic Clinical/Field 1.

Personal Care Worker

17-510-1 Technical Certificate

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

The Personal Care Worker (PCW) course is a combination of online coursework coupled with a final 8-hour lab session with the course instructor. The online portion of the course is directed through a series of eight learning plans that carefully detail learning activities to help students learn the course content. Upon completion of the learning activities, students will contact the campus contact to schedule an 8-hour lab session that concludes with skills competency testing and the final written exam. The lab sessions are held on Saturdays and scheduled at the various Northwood Tech campuses (Ashland, New Richmond, Rice Lake, and Superior).

Special Features

This course allows you to work at your own pace to learn the content. You will work directly with an instructor to complete the written exam and skill demonstration. The course emphasizes core abilities for the workplace.

Admission Requirements

- Apply online at Northwood Technical College
- Be at least 16 years old at class start
- Review and sign Functional Abilities Disclosure

NOTE: After completing the admissions steps above, you can register online or by submitting a registration form with fee or payment authorization form to Student Services

Program Outcomes

The Personal Care Worker certificate will prepare you to:

- Provide personal care for clients
- Communicate effectively with clients, families, and healthcare teams
- Promote client rights

Career Outlook

Typical careers available upon completion include:

- Home care services
- County and private healthcare agencies
- Independent practices

Required Courses

Number	Course Title	Credits (cr.)
30510308	Personal Care Worker	1 cr.
TOTAL CREDITS		1 cr.

Course Description

30510308

Personal Care Worker - Credits: 1

This course emphasizes aspects of providing personal and supportive/rehabilitative healthcare to clients needing assistance in their home or other care facilities. Basic knowledge and skills acquired through this course include clients' rights, communication, rehabilitation, positioning and transfer skills, infection control, and safety. Personal Care Worker is a 32-hour course that combines online coursework with a laboratory practice time and a final written exam and skills competency testing assessed under the guidance of a registered nurse.

Pharmacy Technician

17-536-1 Technical Certificate

Campuses: New Richmond* and Superior*

*via Online and On-Site instruction

Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Program Overview

The Pharmacy Technician program will prepare students for a rewarding, demanding and ever-evolving career as a pharmacy technician. Pharmacy technicians perform a variety of duties and responsibilities including preparation of prescriptions, record-keeping, inventory control, handling monetary transactions, filing third-party claims, preparing IV admixtures and unit dose medications and compounding.

Special Feature

Students are able to complete this program in the evening and Online over one semester.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states, if applicable
- Pass a physical exam, have current immunizations, and demonstrate negative status for tuberculosis (Tb)
- COVID vaccination---highly recommended

NOTE: Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®. TB test (T-Spot), up to date acceptable background check, or any other clinical requirements required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.

- Review and sign Health Sciences Confidentiality Statement
- Possess current certification of "BLS Basic Life Support"
- Participate in a mandatory program orientation session
- Pass a mandatory drug test

Program Outcomes

Pharmacy Technician graduates will be able to:

- Communicate clearly to customers/patients and healthcare providers
- Demonstrate professional behaviors and knowledge in the practice of pharmacy
- Compound sterile and nonsterile medications
- Apply policies and procedures when processing orders and ensuring inventory accuracy
- Adhere to state and federal regulations governing the practice of pharmacy
- Demonstrate safe and inclusive practice with all customers/patients

Career Outlook

Typical positions available after graduation include:

- Pharmacy Technician – Hospital
- Pharmacy Technician – Nursing Home
- Pharmacy Technician – Community
- Pharmacy Buyer
- Prior Authorization Technician
- 340B Analyst

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
10536141	Introduction to Pharmacy*	3 cr.
10536142	Pharmacy Calculations*	2 cr.
10536143	Pharmacy Lab Skills*	3 cr.
10536144	Pharmacology for Technicians*	2 cr.
10536145	Pharmacy Clinical*	1 cr.

TOTAL CREDITS 11 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

You must earn a grade point of 2.0 or better in all required courses.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10536141

Introduction to Pharmacy - Credits: 3

This course introduces pharmacy practice and the technician's role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, law and ethics, prescription and medication orders, patient safety and quality assurance. This course also focuses on pharmaceutical business terminology, record keeping, inventory-control systems, reference materials, and employability skills. PREREQUISITE: Admission to the Pharmacy Technician program

10536142

Pharmacy Calculations - Credits: 2

This course prepares the learner to conduct conversions and other calculations pertinent to the preparation of pharmaceuticals using metric, apothecary, and household measuring systems, as well as temperature and time. The course also focuses on medication doses, volumes, and flow rates. PREREQUISITE: Admission to the Pharmacy Technician program

10536143

Pharmacy Lab Skills - Credits: 3

In this course, students will develop the skills and knowledge required to complete the prescription-filling process, as well as extemporaneous compounds. This course also provides the learner with the skills to utilize aseptic technique in horizontal laminar flow hoods for preparation of solutions and medications. Students will utilize critical-thinking, problem-solving and communication skills to collect, assess, plan, implement and follow-up on patients. PREREQUISITE: Admission to the Pharmacy Technician program

10536144

Pharmacology for Technicians - Credits: 2

The purpose of this course is to provide a comprehensive overview of the principles of pharmacology and pharmacokinetics including the understanding of body system disease states and the effects of medications in treating disease conditions. Students will learn the cautions involved in adverse drug effects, food and drug interactions, and drug-disease contradictions. Students will learn the therapeutic classifications, indications, and common strengths for the most common drugs. PREREQUISITE: Admission to the Pharmacy Technician Plan

10536145

Pharmacy Clinical - Credits: 1

In this course, students will have the opportunity to experience the daily activities of a pharmacy technician in a pharmacy setting. Students will learn how medication orders are prepared, processed, and delivered along with maintaining medication inventory in several areas, interacting with other medical staff and following policies and procedures. This course prepares the learner to apply policies and procedures in the pharmacy, process prescriptions, and maintain patient medical histories. PREREQUISITE: Admission to the Pharmacy Technician program and COREQUISITES: 10536141 Introduction to Pharmacy and 10536143 Pharmacy Lab Skills

Phlebotomy

17-513-1 Technical Certificate

Campuses: New Richmond, Rice Lake

* Students in selected health sciences programs will travel to the Shell Lake Health Education Center. Travel requirements are customized to meet individual program course competencies.

Program Overview

The Phlebotomy certificate provides practical training in the collection of blood specimens by venipuncture and capillary puncture for the purpose of lab analysis. Phlebotomy students are also trained in non-blood specimen collection procedures, specimen processing and basic laboratory skills. Customer service and communications are also covered to provide required skills for working directly with patients. A 100-hour clinical phlebotomy experience is required including a minimum of 100 successful blood collection procedures. Job opportunities for phlebotomist exist in hospital and clinical laboratories.

Admission Requirements

- Complete Online application/registration process and submit registration fee
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure

After Admissions Requirements are complete, register for classes:

<http://www.NorthwoodTech.edu/current-students/registration.htm>

Program-Specific Requirements

- Submit Background Check Fee
 - Have acceptable results based on the Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background Check (if applicable), and other states, if applicable
 - Pass a physical exam, have current immunizations, and demonstrate negative status for Tuberculosis (Tb)
 - COVID vaccination---highly recommended
- NOTE:** Northwood Technical College cannot guarantee clinical placement or ability to progress in the program if a student is not able to meet the clinical site requirements including but not limited to; influenza vaccine, covid vaccine, negative tb skin test or QuantiFERON®-TB Gold In-Tube test (QFT-GIT) or T-SPOT®.TB test (T-Spot), up to date acceptable background check, or any other clinical requirements

required by the clinical site. Northwood Technical College cannot guarantee clinical placement if the clinical site must be changed due to students inability to meet the site specific requirements. Many sites require the student information 4-6 weeks prior to the clinical start date.

- Review and sign Health Sciences Confidentiality Statement
- Possess current certification of "BLS Basic Life Support"
- Participate in a mandatory session scheduled prior to the start of classes

Program Outcomes

After completion of this certificate, employers will expect students to be able to:

- Adhere to infection control and safe practices
- Perform specimen collection
- Process specimens
- Comply with legal regulations
- Model professional behaviors

Career Outlook

Typical position available upon graduation include:

- Phlebotomist

Upon completion of the certificate, typical settings for employment include:

- Clinical Laboratories
- Emergency Room Services
- Extended Care Facilities
- Insurance Companies
- Nursing Homes
- Outpatient Services

Related Program

- Medical Assistant

Required Courses

10501101	Medical Terminology or	3
10806177	General Anatomy and Physiology#	4
10160143	Medical Office Procedures and Customer Service	2
10513110	Basic Lab Skills	1
10513111	Phlebotomy*	2
10513112	Phlebotomy Clinical*	2
10801196	Oral/Interpersonal Communication#	3

TOTAL CREDITS 13-14

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better

See pages 38-41 for course descriptions

You must earn a grade point of 2.0 or better in all required courses.

Course repeat policies exist that allow for only a certain number of retakes within this program; please refer to the policies for details.

Course Descriptions

10501101 Medical Terminology - Credits: 3

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

10160143 Medical Office Procedures and Customer Service - Credits: 2

This course develops professional skills and attitudes needed in a medical business environment. Skills developed include an ability to communicate effectively with patients and other medical office staff, manage time effectively, schedule patients, greet patients, use the telephone properly, process mail, apply ergonomics and office safety, and use medical computer software efficiently.

10513110 Basic Lab Skills - Credits: 1

This course explores health career options and the fundamental principles and procedures performed in the clinical laboratory. You will utilize medical terminology and basic laboratory equipment. You will follow required safety and infection control procedures and perform simple laboratory tests. **PREREQUISITE:** Admission to the Phlebotomy certificate or Medical Laboratory Technician program. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513111 Phlebotomy - Credits: 2

This course provides opportunities for learners to perform routine venipuncture, routine capillary puncture and special collection procedures. **PREREQUISITE:** Admission to the Phlebotomy certificate or Medical Laboratory Technician program and **COREQUISITE:** 10513110 Basic Lab Skills. The Medical Laboratory Technician program is supported with \$200,000 in WTCS Grant Funds.

10513112 Phlebotomy Clinical - Credits: 2

Provides students with experiences at a hospital or clinic in order to complete phlebotomy activities. Students complete venipunctures, perform administration of glucose testing, collect specimens, perform bleeding times, observe or perform arterial blood gas collections and adhere to safety regulations as established by the clinical site. **PREREQUISITES:** Admission to Phlebotomy certificate and **COREQUISITES:** 10513110 Basic Lab Skills, 10513111 Phlebotomy, 10501101 Medical Terminology or 10806177 General Anatomy and Physiology, 10160143 Medical Office Procedures and Customer Service, 10801196 Oral/Interpersonal Communication and criminal background check.

Plumbing Apprenticeship

50-427-5 Apprenticeship

Campuses: Ashland, New Richmond, Rice Lake

Program Overview

Plumbers install, repair, and maintain water supply, wastewater treatment, drainage and gas systems in homes, commercial, and industrial buildings. The work includes plumbing tasks to assemble, install and repair pipes, fittings, and fixtures of heating, water and drainage systems according to specifications and plumbing codes. Plumbers also install sanitary facilities such as lavatories, toilets, tubs, bathroom fixtures, showers, kitchen fixtures, drinking foundations, and laundry equipment.

Special Features

- Five-year program
- 8,000 hours on-the-job-training
- 572 hours of paid related instruction
- 260 hours of unpaid related instruction
- First 12 months is the probationary period
- A state journeyperson examination at the completion of the apprenticeship
- Wage scale of apprentice systematically increases throughout the apprenticeship
- The 47455401 Transition to Trainer course (8 hours) is required for completion. Will be taken in the last year of the apprenticeship.

For more information on apprenticeships, see page 28

Qualifications required by the Bureau of Apprenticeship Standards

- Must be high school graduate or equivalency. Be able to provide transcript or proof of equivalency. Must be 18 years of age to be placed with contractor.
- Must take one of the following assessments and satisfy the minimum scores. ACT: 15 Math, 16 Reading. Accuplacer: 235 Algebra, 244 Reading, 237 Arithmetic. Scores will be accepted 5 years from the test date.
- Must have the ability to get to and from school and work.
- Must be physically able and fit to for the occupation at the time of placement.
- Must be approved by the appropriate advisory committee (Northern Region Plumbing, Western WI Plumbing, or Eau Claire Area Plumbing), prior to being admitted to this apprenticeship.

Inquire

Contact, Eric Lockwood, Director, Apprenticeships and Academies, 715.246.1871, eric.lockwood@NorthwoodTech.edu

How to Get Started

To become an apprentice in the state of Wisconsin, one must first be indentured by the State Bureau of Apprenticeships Standards (BAS).

- Contact an employer on your own. Employment is a requirement of entering an apprenticeship
- Once you have an employer/sponsor, contact the Bureau of Apprenticeship Standards, to initiate the application process.

Admission Requirements

- Complete the Northwood Tech application form
 - Please contact Michelle Marshall at 715.246.1877 or michelle.marshall@northwoodtech.edu to obtain a Northwood Tech application
- **NOTE:** Prior to applying at Northwood Tech, students are also required to submit an application to the Bureau of Apprenticeship Standards (Eau Claire Office). The contact for the Bureau of Apprenticeship Standards is Long Vang, Apprenticeship Training Representative, at long.vang@dwd.wisconsin.org, 715.874.4627
- Complete Accuplacer Next Gen entrance assessment (individuals with valid ACT scores from within the last 5 years do not have to test) (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Confirmation of admission from Northwood Tech Academic Affairs Apprenticeship Office

Program Outcomes

Plumbing Apprentice graduates will be able to:

- Apply state plumbing code requirements to the installation and repair of sanitary drain systems
- Apply state plumbing code requirements to the installation and repair of venting systems
- Apply state plumbing code requirements to the installation and repair of water supply systems
- Apply state plumbing code requirements to the installation and repair of storm drain systems
- Apply state plumbing code requirements to the installation and repair of POWTS systems
- Refer to the Wisconsin Administrative Plumbing codes
- Prepare for Journey level licensure examination

Career Outlook

Typical positions available upon completion include:

- Plumber
- Drain Technician
- Fire Sprinkler Service Technician
- Pipe Welder
- Pipefitter
- Plumbing Installer
- Residential Plumber
- Service Plumber
- Sprinkler Fitter
- Steamfitter

Related Programs

- Technical Studies - Journeyworker (page 207)
- After three years a journeyworker may pursue an exam to become a Master Plumber if all qualifications are met.

Professional Licensure and/or Certification Information

Northwood Tech's Plumbing Apprenticeship meets the requirements of the Bureau of Apprenticeship Standards in Wisconsin. Northwood Tech has not made a determination whether it's programs meet licensure in states other than Wisconsin. Students who may be seeking professional licensure in states other than Wisconsin should contact the appropriate bureau or licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

50427751

Sanitary Drains 1 - Credits: 2

Plumbing related instruction of sanitary drain systems. Course includes a review of codes and trade practices related to sanitary drains, drainage systems, components and applications.

50427752

Vents and Venting Systems - Credits: 2

This course is designed to provide the apprentice with the skills to identify and design sanitary vent piping in a plumbing system in accordance with the Wisconsin Plumbing Code. The course focuses on theory, work experience, and the application of plumbing code principles through discussions, drawing exercises, work sheets, and evaluations.

50427753

Water Distribution 1 - Credits: 2

This course provides the apprentice with the skills to identify, design, install and service various applications for water supply systems that are listed in plumbing codes. Apprentices will use the code language and tables in various plumbing systems in accordance with the Wisconsin Plumbing Code. Course topics will include commercial to single family and private well pump systems. The course focuses on theory, work experience, and the application of plumbing code principles through discussions, drawing exercises, work sheets, and evaluations.

50427754

Water Distribution 2 - Credits: 2

This course provides the apprentice with the skills to identify, design, install and service cross connection controls, water treatment equipment and multi-purpose piping systems in various plumbing systems in accordance with the Wisconsin Plumbing Code. The course focuses on theory, work experience, and the application of plumbing code principles through discussions, drawing exercises, work sheets, and evaluations.

50427755

Sanitary Drains 2 - Credits: 2

This course provides the apprentice with the skills to identify, design, install and service various applications for storm water, clear water, and drainage systems. Apprentices will use the code language and tables in various plumbing systems in accordance with the Wisconsin Plumbing Code. The course focuses on theory, work experience, and the application of plumbing code principles through discussions, drawing exercises, work sheets, and evaluations.

50427756

Private Onsite Wastewater Treatment Systems (POWTS) - Credits: 2

This course provides the apprentice with the skills to identify, design, install and service various applications for private onsite wastewater treatment systems that are listed in plumbing codes or individual component manuals. Apprentices will use the code language and tables in various plumbing systems in accordance with the Wisconsin Plumbing Code. Other topics will include pre-treatment, soil evaluation, site planning and new technologies. The course focuses on theory, work experience, and the application of plumbing code principles through discussions, drawing exercises, work sheets, and evaluations.

50427757

Green Plumbing Applications - Credits: 2

This course provides plumbing apprentices with an introduction to green applications and prepares students to take certification exams: Union Programs: UA Green Awareness Certification (geared toward journey workers, not apprenticeship) WTCS Programs: Green Plumbers USA Certification Program Learning materials from both certificate programs have been incorporated into the development of this course as appropriate.

50427758

Plumbing Advanced Topics / TSA - Credits: 2

This course provides the apprentice with the opportunity to select and complete an applied plumbing project in collaboration with the instructor. Projects will apply the skills required to identify, design, install and service various plumbing applications that are listed in plumbing codes. Apprentices will use the code language and tables in various plumbing systems in accordance with the Wisconsin Plumbing Code. The course builds upon the theory, work experience, and the application of plumbing code principles addressed in previous coursework to support completing an applied hands-on project.

Power Sports Technician (Outdoor Power Equipment Technician)

31-461-3 Technical Diploma (one-year)

Financial Aid Eligible

Campus: New Richmond

Program Overview

The Power Sports Technician program will give you the hands-on experience to go to work in less than one year. Dealerships, repair shops, marinas and industry manufacturers desperately need entry-level people in their field. Power Sports is not only a career, it is a lifestyle.

Special Feature

Northwood Tech is an accredited Equipment & Engine Training Council (EETC) testing facility providing you with the opportunity to become industry certified.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Power Sports Technician graduates will be able to:

- Repair brake systems
- Repair 2-stroke engine
- Repair 4-stroke engines
- Repair drive lines
- Repair electrical systems
- Repair suspensions
- Repair fuel systems
- Repair hydraulic systems
- Develop a customer work order

Career Outlook

Typical positions available after graduation include:

- Motorcycle, Marine, and Outdoor Power Products Technician
- Motorcycle Technician
- Outboard Motor Technician
- Power Sports Technician
- Chainsaw Technician
- Lawn and Garden Equipment Technician
- ATV Technician
- Industrial Equipment Technician
- Partsperson
- Small Engine Shop Owner

** See pages 38-41 for course descriptions.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

31461301

Engine and Chassis Repair 1 - Credits: 5

You will diagnose, troubleshoot, tune up, and overhaul engines and service chassis on lawn and garden equipment and industrial equipment. Practical hands-on experience is gained in engine disassembly, measuring parts for wear, cylinder reconditioning, valve train servicing, governor adjusting, fuel and ignition system servicing, and reassembly techniques. You will service drive and chassis systems to ensure the operation of the complete unit. You will also order repair parts, prepare service report forms, and learn customer relations. COREQUISITES: 31461302 Engine and Chassis Repair 2 and 31461335 Gas and Diesel Engine Theory.

31461302

Engine and Chassis Repair 2 - Credits: 4

You will diagnose, troubleshoot, tune-up, and overhaul engines and service chassis on handheld, industrial and compact equipment and tractors. Practical hands-on experience is gained in engine disassembly, measuring parts for wear, cylinder reconditioning, valve train servicing, governor adjusting, fuel and ignition system servicing, and reassembly techniques. You will service drive and chassis systems to ensure the operation of the complete unit. You will also order repair parts, prepare service report forms, and learn customer relations. COREQUISITES: 31461301 Engine and Chassis Repair 1 and 31461335 Gas and Diesel Engine Theory.

31461310

Introduction to 12-Volt Electrical Theory - Credits: 1

This course is designed for the learner to understand basic 12-volt electrical circuits, wiring diagrams, starting, charging, and lighting systems. Classroom trainers will be used to apply electrical theory. Using hands-on activities, this course will help the learner to better understand basic 12-volt electrical systems.

31461312

Introduction to Hydraulics - Credits: 1

This course will provide a practical understanding of hydraulic components. Their design, application, operation and maintenance will be studied. Hydraulic training components will be used in the classroom.

31461335

Gas and Diesel Engine Theory - Credits: 2

This course provides the theory necessary to understand and perform the hands-on tasks of troubleshooting and repairing engines, their drive mechanisms, and their chassis. Theory is presented on the principles of operation and service of 4- stroke, 2-stroke, and small diesel engines in the outdoor power equipment and compact equipment areas. Drive and chassis operation is explained to enable the student to service the complete unit. COREQUISITE: 31461302 Engine and Chassis Repair 2.

31461339

Marine Service - Credits: 5

This course will provide the theory necessary to understand and troubleshoot the components and systems unique to the outboard marine engine area. Theory will be given in the specialty areas of fuel systems, ignition systems, cooling systems, lubrication systems, and gear cases. You learn to apply basic troubleshooting techniques and repair procedures of marine engine service and repair to marine engines with emphasis on practical hands-on experience. PREREQUISITES: 31461302 Engine and Chassis Repair 2 and 31461335 Gas and Diesel Engine Theory.

31461342

Motorcycle Service - Credits: 3

This course provides the theory necessary to understand and troubleshoot the components and systems unique to motorcycles. Theory is given in the specialty areas of carburetion, fuel injection, ignition, transmissions, clutches, and running gear. You will learn to apply basic techniques and procedures of motorcycle engine service and repair. This is a lecture- and lab-based course. Specialty areas dealing with transmissions and chassis on these units are covered with practical hands-on experience. PREREQUISITES: 31461302 Engine and Chassis Repair 2, 31461335 Gas and Diesel Engine Theory and COREQUISITE: 31461343 ATV Service.

31461343

ATV Service - Credits: 3

This course provides the theory necessary to understand and troubleshoot the components and systems unique to ATVs. Theory is given in the specialty areas of carburetion, fuel injection, ignition, transmissions, clutches, and running gear. You will learn to apply basic techniques and procedures of ATV engine service and repair. This is a lecture- and lab-based course. Specialty areas dealing with transmissions and chassis on these units are covered with practical hands-on experience. PREREQUISITES: 31461302 Engine and Chassis Repair 2, 31461335 Gas and Diesel Engine Theory and COREQUISITE: 31461342 Motorcycle Service.

32442307

Welding for Mechanics - Credits: 2

Instruction in safe setup and operation of plasma cutting (PAC), oxy-fuel cutting (OFC), SMAW (Stick), GMAW (Mig), FCAW, and/or GTAW (Tig) welding in applications related to general industry practices. Selection of appropriate welding processes with a specific emphasis on typical repair situations including metal identification will be stressed.

Professional Credential for Infants/Toddlers (Wisconsin)

17-307-3 Technical Certificate

Certificate Availability Varies

Campus: Online

Program Overview

As a student taking the Wisconsin Professional Credential for Infants/Toddlers, you will gain a better understanding of the developmental stages for this age group, while learning how to best guide and nurture children under the age of three in both center-based and family settings. The themes of cultural diversity/sensitivity and reflective practice are woven throughout these courses. Graduates of this certificate will be recognized as Wisconsin Registry Career Level 9 once they successfully complete the commission process.

Upon completion of certificate classes, students may apply to The Registry to commission for the Infants/Toddlers Credential, 2908 Marketplace Drive, Suite 103, Fitchburg, WI 53719, 608.222.1123, [wisconsinregistry.org](http://www.wisconsinregistry.org).

Program Outcomes

The Professional Credential for Infants/Toddlers (Wisconsin) will prepare you to:

- Apply developmental knowledge and observation to design, implement, and evaluate individual and group Required Courses experiences for infants and toddlers
- Create respectful, healthy, and safe physical and interpersonal environments for infants and toddlers
- Utilize culturally responsive verbal and nonverbal caregiver strategies
- Select appropriate materials and promote health, safety, and nutrition guidelines specific to early care environments
- Design experiences and utilize caregiver strategies that support family involvement and reciprocal relationships
- Perform professionally and ethically, use self-reflection and knowledge, and access relevant resources

Northwood Tech offers a wide array of credit-based early childhood education courses, credentials, and degree options that align with the Youngstar requirements.

For more information, go to www.NorthwoodTech.edu/ece.

Career Outlook

- Professional advancement in the field of early care comes with increased specialized training in the unique needs of infants and toddlers

+ You must earn a 2.0 or better in this course

Professional Licensure and/or Certification Information

Northwood Tech's Professional Credential for Infants/Toddlers (Wisconsin) is designed prepares students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Course Descriptions

10307115

ECE: Infant Toddler Capstone - Credits: 3

This course, integrates the theory, practice, and reflection of courses 1 - 3 in the Professional Credential for Infants/Toddlers and requires demonstration of best practices. **PREREQUISITES:** 10307169 ECE: Infant Toddler Group Care, 10307151 ECE: Infant & Toddler Development, and 10307195 ECE: Family & Community Relationships.

10307151

ECE: Infant & Toddler Development - Credits: 3

This 3-credit course explores infant and toddler development as it applies to an early childhood education setting. This course focuses children conception through thirty-six months. This course includes training for Wisconsin Breastfeeding Friendly Child Care certification.

10307169

ECE: Infant Toddler Group Care - Credits: 3

This 3-credit course focuses on caring for infants and toddlers in a variety of settings, inclusive of center-based and family child care environments. Key course components will be based on elements of quality early care including philosophical foundation, structure and environments, health and safety responsive relationships, developmentally appropriate practice, culturally sensitive care, inclusion, brain development, assessment, and purposeful planning.

10307195

ECE: Family & Community Relationships - Credits: 3

This 3-credit course will examine the role of relationships with family and community in early childhood education. In this course, students will complete the Strengthening Families Training.

Refrigeration Essentials

30-601-1 Technical Diploma (less than one year)

Campus: Superior

Program Overview

The Refrigeration Essentials program will allow students to complete coursework in the fundamentals of air conditioning, refrigeration, and basic mechanical systems. Full-time students will be able to complete this short term technical diploma in one semester. Students will be prepared to test for the EPA Section 608 Technician Certification and NC3 Certifications. The certifications allow graduates of the program to perform installation and services on refrigeration and air conditioning systems with the oversight of an HVAC Technician.

Special Feature

Students are eligible to take the following Certification Exams:

- NC3: Building Performance Instruments (BPI) – Indoor Air Quality
- NC3: Building Performance Instruments (BPI) – Leak Detection
- NC3/Trane: Residential – Air Flow
- NC3/Trane: Residential - Refrigeration Diagnostics
- EPA Section 608 Technician Certification
- NC3/Snap-On: 575 Multimeter Certification

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure

Program Outcomes

Refrigeration Essentials graduates will be able to:

- Perform limited service on refrigeration and air conditioning systems
- Perform limited installation on refrigeration and air conditioning systems
- Demonstrate ability to solder, braze, and flare copper piping
- Demonstrate ability to troubleshoot electrical systems on refrigeration and air conditioning systems

Career Outlook

Typical positions available after graduation include:

- Refrigeration Service Technician

Career Pathways

The Refrigeration Essentials program is a pathway into the following programs (page 233):

- Heating, Ventilation, & Air Conditioning / Refrigeration (HVAC/R)
- HVAC Installation Technician

NC3 Certification Exam Administered
EPA Section 608 Technician Certification Exam Administered.

Course Descriptions

32601300

Air Conditioning Fundamentals - Credits: 2

Topics covered include air conditioning principles and terms, physical principles of air movement and humidity, methods of conditioning air for comfort and health, the proper use of psychrometers, dry bulb thermometers, hygrometers, pitot tubes, recorders, manometers and barometers, and the reading and interpretation of psychrometric charts and scales. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the NC3/Trane: Residential – Air Flow AND NC3: Building Performance Instruments (BPI) – Indoor Air Quality certifications)

32601301

Basic Mechanical Fundamentals - Credits: 3

This course is designed to introduce the learner to the basic fundamental skills necessary to work in the HVAC/R Industry. Instruction will be given in learning the various types of piping and tubing used in air conditioning, heating, and refrigeration; types of fittings, bending, brazing, soft soldering tubing, black iron pipe work, using hand tools, and the recognition and practice of safety procedures while working on heating, air conditioning, and refrigeration systems. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the NC3: Building Performance Instruments (BPI) – Leak Detection certification)

32601303

Principles of AC/DC - Credits: 3

This course provides an introduction to DC and AC electricity. The students will be able to perform basic resistance, current, voltage, and power calculations and measurements in both DC and AC circuits. Knowledge and use

of test equipment will focus on multimeters and oscilloscopes. Critical-thinking skills are emphasized to develop competencies in problem solving and troubleshooting. This is a lab- and lecture-based course that provides hands-on and theoretical learning. COREQUISITE: 32804325 Applied Technical Math 1. (This course will prepare you to take the NC3/Snap-On: 575 Multimeter Certification)

32601317

Refrigeration Fundamentals - Credits: 3

Topics include refrigeration principles and terms, thermodynamic processes, refrigerants, vapor compression cycles, mechanical refrigeration system components, use of electrical controls, refrigeration applications, and refrigeration tools and materials. PREREQUISITE: Admission to HVAC/R Plan, Refrigeration Essentials Plan, or HVAC Installation Technician Plan. (This course will prepare you to take the EPA Section 608 Technician Certification AND NC3/Trane: Residential – Refrigeration Diagnostics certification).

Substance Abuse Counselor Education

31-550-1 Technical Diploma (one-year)

Financial Aid Eligible

Campuses: Ashland, New Richmond, Rice Lake, Superior

Hybrid instruction

Program Overview

Help to address substance abuse challenges within our communities. The Substance Abuse Counselor Education technical diploma is pre-approved by the Wisconsin Department of Safety and Professional Services to meet the six content areas (360 hours) of educational requirements for Substance Abuse Counselors. This program will provide you with the foundational coursework necessary to begin working with individuals, families and groups in need of substance abuse assessment, treatment, and counseling.

Upon completion, graduates pursuing various levels of Wisconsin Substance Abuse Counselor certification will also need to pass the required state examination and obtain supervised counseling hours, as designated by the Wisconsin Department of Safety & Professional Services. This technical diploma is also fully embedded within the Human Services Associate program, creating a direct pathway for graduates to continue their education and obtain their Human Services Associate of Applied Science degree.

Special Features

- Courses in this program are available in a variety of online and hybrid formats
- Graduates will meet the 360 hour educational requirements needed for Wisconsin Substance Abuse Counselor certification, as preapproved by the Wisconsin Department of Safety & Professional Services. (Certification also requires state application, examination and supervised counseling experience outside of this program, <https://dsps.wi.gov/Documents/SACCurrentPreCertificationEducation.pdf>)

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program Outcomes

Substance Abuse Counselor Education graduates will be able to:

- Apply case management skills
- Identify professional SUDC documentation requirements
- Apply the client SUDC evaluation process
- Analyze professional conduct in the clinical setting
- Counsel clients

Career Outlook

Typical positions available after graduation may include:

- Substance Abuse Counselor – In Training
- Assessment Counselor
- Intake Counselor
- Substance Abuse Counselor

*Career qualifications vary based on licensure application, examination and supervised practice/employment hours as specified and approved by the Wisconsin Department of Safety and Professional Services

Career Pathway ➤

The Substance Abuse Counselor Education program is a pathway into the following program (page 235):

- Human Services Associate

Related Programs

- Nursing - Associate Degree
- Gerontology - Aging Services Professional
- Criminal Justice Studies

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10520102

Interviewing - Credits: 3

This course provides an introduction to interviewing and recordkeeping skills practiced in human service agencies. Students learn principles and techniques needed to conduct informational and supportive interviews including maintaining clinical records, documenting referrals, staffings, and supervision. Students practice interviewing skills during class.

10520103

Ethics in Human Services - Credits: 3

This course explores the ethical, legal, and professional issues facing the human services worker. It is designed to teach a process of ethical decision-making and to increase awareness of the complexities in practice. Students are introduced to the current state and federal statutes, regulations, and judicial decisions that govern the professional practice in human services. Standards, code of ethics, clients' rights, and confidentiality are emphasized.

10520104

Issues in Alcohol and Other Drug Abuse - Credits: 3

Students gain a basic understanding of the use and abuse of alcohol and other drugs. Emphasis is on historical and social perspectives of drug use, trends of use, and legal and social responses to problematic alcohol and illicit drug use. Additionally, this course provides an accurate description of the effects of psychoactive drugs, identifies methods of substance abuse treatment, and introduces the student to local treatment services.

10520105

Introduction to Counseling - Credits: 3

This course is designed to provide the student with an overview of the major counseling theories and techniques and applications to various situations. Students will apply concepts and skills through practice in initiating, structuring, and terminating counseling sessions. COREQUISITE: 10520106 Methods of Social Casework

10520106

Methods of Social Casework - Credits: 3

This course provides an introduction to case management theory, models, and techniques, along with the management and coordination of case records. Key components include intake assessment, creating a plan of service, coordinating care, referral techniques, client self-determination, and ethical issues.

10520110

Group Facilitation - Credits: 3

An introduction to theory and practice of group dynamics and processes are covered in this course. Knowledge areas include ethical considerations, effective group leadership, and stages of group development. Learners will record and critique practice group sessions, function as group members, and demonstrate effective group facilitation skills. COREQUISITE: 10510102 Interviewing.

10520112

Family Systems - Credits: 3

This course focuses on issues related to families and family functioning relevant to the human services field. Major areas of focus will include child maltreatment, domestic violence, and addiction, with emphasis on relevant helping skills and services.

10520115

Substance Abuse Assessment and Treatment - Credits: 3

This course will gain further understanding of substance abuse and dependence, assessment and treatment interventions. Emphasis is on assessment, diagnostics, and treatment of substance use disorders. Students will also gain further understanding of levels of care, community-based sober support, referrals and family system interventions. PREREQUISITE: 10520104 Issues in Alcohol and Other Drug Abuse and COREQUISITES: 10520110 Group Facilitation and 10520106 Methods of Social Casework

Supervisory Leadership

17-196-5 Technical Certificate

Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online

Outreach Centers: Balsam Lake*, Hayward*, Ladysmith*

*Combination of Online, Your Choice, and On Site instruction. Select courses are available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

The Supervisory Leadership certificate allows you to customize your training with short, achievable goals. Rather than completing the entire associate degree, you may select course clusters that complement your degree choice.

Admission Requirements

- Complete Online application form

Program Outcomes

The Supervisory Leadership Certificate will prepare you to:

- Maximize use of time and resources
- Minimize wasted effort
- Address difficult situations in positive ways
- Possess supervisory, communication, and leadership skills
- Understand what motivates people in the workplace
- Create efficient, customer-friendly processes
- Develop productive work teams

Career Outlook

Organizations need employees who can initiate change, make decisions, and inspire teams. The Supervisory Leadership Certificate can be a huge factor in acquiring these types of skills. In fact, the top two skills desired by companies are in leadership and communication. This certificate will help you to meet their needs AND your professional and career goals.

Career Pathway

The Supervisory Leadership Certificate is a pathway into the following programs (pages 239 and 247):

- Leadership Development
- Nonprofit Leadership

Related Programs

- Business Management
- Human Resource Management
- Leadership Development
- Nonprofit Leadership

Required Courses

See pages 38-41 for course descriptions.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10196190

Leadership Development - Credits: 3

In Leadership Development, the learner applies the skills and tools necessary to fulfill his/her role as a modern leader. Each learner will demonstrate the application of evaluating leadership effectiveness and organization requirements, individual and group motivation strategies, implementing mission and goals, ethical behavior, personal leadership style and adaptation, impacts of power, facilitating employee development, coaching, managing change, and effective conflict resolution.

10196191

Supervision - Credits: 3

In Supervision, the learner applies the skills and tools necessary to perform the functions of a frontline leader. Each learner will demonstrate the application of strategies and transition to a contemporary supervisory role including day-to-day operations, analysis, delegation, controlling, staffing, leadership, problem solving, team skills, motivation, and training.

10196117

Applied Supervision - Credits: 3

This course emphasizes application of advanced principles of supervision and project management. These principles include planning and organizing; implementation and control; and assessment. Learners are provided the opportunity to design and complete supervisory projects. Beginning with the fundamentals and extending to application, this course allows learners to undertake improvement projects within their workplace. PREREQUISITE: Students must be enrolled in the Leadership Development program and have completed 40 credits.

10196123

Grant Writing and Management - Credits: 2

An introductory course designed to familiarize students to the language of grants. Specific topics include proposal development, funding sources and processes, writing grant proposals, creating budgets, developing effective evaluation tools, and managing grant funds.

10196127

Fundraising and Event Planning - Credits: 3

In this course students will deepen their understanding of raising funds in the nonprofit sector. Students learn about event planning and budgeting, income projections and ticketing, marketing outreach, food and beverage, and logistics management. Students will also categorize the various types of strategic tools currently used in conjunction with social media to increase fundraising campaigns.

10196134

Legal Issues for Supervisors - Credits: 3

Provides an overview of the general legal responsibilities of an organization. Analyzes the current employment laws in the U.S. and their impact on employer/employees. Examines the supervisor's role in dealing with harassment in the workplace. Compares how appeals can be addressed in both union and nonunion environment.

10196136

Safety in the Workplace - Credits: 3

An introduction to safety and loss prevention in the workplace with an emphasis on the supervisor's responsibility for maintaining a safe, productive environment. Students will study safety concepts, hazard controls, developing safety and health programs, and federal- and state-mandated regulations.

10196138

Conflict Resolution and Confrontation Skills - Credits: 1

In Conflict Resolution and Confrontation Skills the learner applies the skills and tools necessary to deal with conflict and confrontation in the workplace. The learner will identify the major causes of conflict, develop a working plan of action to confront difficult situations, and establish guidelines for gaining resolution to difficult situations. The learner will build greater personal skill and confidence in their ability to deal with conflict in their personal and professional life.

10196145

Contemporary Business for Supervisors - Credits: 2

In this course, you will review how the basic management styles affect the people, processes, and profitability of a business. You will also learn how to balance the organization's needs for profits with employees' basic needs within a global context. You will review and study the basic concepts and the supervisor's role regarding return on investment, return on equity, profit centers, financial statements, and overall departmental operations.

10196149

Dynamics of Board Relations - Credits: 1

A dynamic course that focuses on developing a cohesive and strategic board of directors. Topics include defining the role of the board, strengthening the working relationship between staff members and board members, and organizing and facilitating effective meetings.

10196157

Strategic Planning - Credits: 1

Analyze current business strategy, recognize trends, develop vision and mission statements, identify benchmarks, measure business against benchmarks, recommend future directions.

10196158

Managing Volunteers - Credits: 2

Successful management of volunteers is critical to a nonprofit organization. This investigative course is intended to prepare students to assume roles as volunteer program leaders and managers, or to improve their skills in existing roles with volunteer organizations. The fundamental design of the course is based on learning through critical thought in and about leadership and management roles with volunteers.

10196159

Nonprofit Field Experience - Credits: 1

This course is designed to provide students with a hands-on experience to practice the tasks and duties typically performed in a nonprofit organization. PREREQUISITE/COREQUISITE: a minimum of 7 credits of the following courses: 10196123 Grant Writing and Management, 10196127 Fundraising and Event Planning, 10196131 Fundamentals of Nonprofit Management, 10196149 Dynamics of Board Relations, or 10196158 Managing Volunteers.

10196164

Personal Skills for Supervisors - Credits: 3

In Personal Skills for Supervisors, the learner applies the skills and tools necessary to deal with the time management, stress, and related challenges to a supervisor. Each learner will demonstrate the application of time management techniques, personal planning, continuous learning, valuing rights and responsibilities of others, effective communication, assertiveness, and dealing effectively with stress.

10196168

Organizational Development - Credits: 3

In Organizational Development, the learner applies the skills and tools necessary to effectively deal with organization behavior and change. Each learner will demonstrate the application of the impacts of globalization on an organization, dealing with organization culture, dealing with change and future challenges affecting the total organization, organization decision making, vision, goals, performance management and planning, and the role of organization structure.

10196188

Project Management - Credits: 3

In Project Management, the learner applies the skills and tools necessary to design, implement, and evaluate formal projects. Each learner will demonstrate the application of the role of project management, developing a project proposal, use of relevant software, working with project teams, sequencing tasks, charting progress, dealing with variations, budgets and resources, implementation, and assessment.

10196189

Team Building and Problem Solving - Credits: 3

In Team Building and Problem Solving, the learner applies the skills and tools necessary to facilitate problem solving in a team environment. Each learner will demonstrate the application of the benefits and challenges of group work, necessary roles in a team, stages of team development, different approaches to problem solving, consensus, systematic process of problem definition, data acquisition, analysis, developing alternative solutions, solution implementation, evaluation, and documentation.

10196192

Managing for Quality - Credits: 3

In Managing for Quality, the learner applies the skills and tools necessary to implement and maintain a continuous improvement environment. Each learner will demonstrate the application of a personal philosophy of quality, identifying all stakeholder relationships, meeting/exceeding customer expectations, a system-focused approach, using appropriate models and tools, managing a quality improvement project, and measuring effectiveness of continuous improvement activities.

10196199

Ethics in Business - Credits: 3

This course will focus on business practices from an ethical point of view. The student will examine such topics as morality/ethical theory, utilitarianism, Kantian ethics, justice and the market system, whistle blowing, trade secrets/conflict of interest, privacy, advertising, product safety, corporate social responsibility, international business.

Tax Preparer Assistant

61-101-2 Pathway Certificate

**Campuses: Ashland*, New Richmond*, Rice Lake*, Superior*, Online
Outreach Centers: Balsam Lake*, Hayward*, Ladysmith***

*Combination of Online, Your Choice, or On Site instruction. Select courses available at the Northwood Tech Outreach Centers. Please contact your local campus for specifics.

Program Overview

When you've completed the Tax Preparer Assistant pathway certificate, you have the knowledge to aid in preparing tax returns for individuals or small businesses.

Admission Requirements

- Complete Online application form

Program Outcomes

The Tax Preparer Assistant Certificate will prepare you to:

- Process financial transactions throughout the accounting cycle
- Perform income tax accounting tasks

Career Outlook

Typical positions available after certificate completion include:

- Tax Accounting Clerk
- Tax Associate
- Tax Preparer Assistant

After you complete the Tax Preparer Assistant certificate, continue your education at Northwood Tech to earn the Accounting associate degree. Northwood Tech has articulation agreements with a variety of four-year universities. Some graduates may also choose to pursue professional certifications.

Career Pathway >

The Tax Preparer Assistant program is a pathway into the following program (page 220):

- Accounting

Related Programs

- Accounting Assistant
- Billing and Posting Clerk

Required Courses

Number	Course Title	Credits (cr.)
10101101	Financial Accounting 1	4 cr.
10101123	Income Tax Accounting	4 cr.
10101174	QuickBooks Accounting - Beginning*	2 cr.

TOTAL CREDITS 10 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

You must earn a grade point of 2.0 or better in all required (10101XXX) courses.

Course Descriptions

10101101

Financial Accounting 1 - Credits: 4

Complete accounting cycle, special journals, payroll tax principles, special procedures, and financial statements. Accounting applications through practice set approach.

10101123

Income Tax Accounting - Credits: 4

This course is an introduction to state and local individual income tax laws. It will prepare you to complete and file individual federal and Wisconsin income tax returns including the Form 1040 and Wisconsin Form 1 with the most common supporting schedules. The course requires the preparation of a series of individual tax returns.

10101174

QuickBooks Accounting - Beginning - Credits: 2

Students will learn the QuickBooks accounting software by performing tasks that involve the general ledger, accounts payable, accounts receivable, inventory, payroll, and financial statements. Students will be responsible for finding and correcting errors in the QuickBooks program. PREREQUISITE: 10101101 Financial Accounting 1 or 10101176 Financial Accounting 1A.

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

The apprenticeship associate degree in Technical Studies – Journeyworker is designed for current apprenticeship students or for those who have completed a qualifying apprenticeship program and are looking for a specialized course of instruction which is not available in existing programs. The program allows the student to receive 39 advanced standing credits for previous apprenticeship work and then create a unique associate degree. Students will be required to complete a program plan with the Director, Apprenticeships and Academies to identify their career objectives and the courses that will help them meet those objectives.

Inquire

For more information on this program and how to apply, contact: Eric Lockwood, Director, Apprenticeships and Academies at eric.lockwood@NorthwoodTech.edu or 715.246.1871

Program Outcomes

This unique degree will:

- Provide direction to the student in pursuit of specific occupational outcomes
- Allow the student to meet individual career goals which cannot be achieved through enrollment in any single instructional program currently available at the college
- Meet the needs of students who want to pursue an Associate of Applied Science Degree on either a full- or part-time basis
- Help identify new and emerging occupations for new or modified programs

Career Outlook

The degree gives students the flexibility to meet the educational goals of new and emerging occupational fields. Employers also benefit from the flexible program that helps them meet their own specific employee training needs as new technologies and methods emerge in the business world.

Required Courses

Course Title	Credits
Communication	6
Social Science	3
Behavioral Science	3
Math and/or Science	3
Additional Elective Courses	6
Total	21

(See list of General Education courses on pages 38-41.)

Wisconsin Journey-Level Certificate Courses*	39
---	-----------

Degree completion requirement: possess a Wisconsin Apprenticeship Completion Certificate issued by the Department of Workforce Development - Bureau of Apprenticeship Standards registered apprenticeship program that requires a minimum of 3 years and 400 hours of paid related instruction in the Wisconsin Technical College System. The certificate will meet the 39-credit minimum Technical Studies - Journeyworker requirement for the Associate of Applied Science degree.

TOTAL PROGRAM CREDITS*	60
-------------------------------	-----------

*Complete all required WTCS apprentice paid related technical instruction with a minimum course grade of C. There are no time limits on credit recognition.

Truck Driving

30-458-1 Technical Diploma (less than one-year)

Campuses: New Richmond, Rice Lake

Program Overview

Professional truck drivers are responsible for the safe, efficient delivery of goods between locations. Spend time behind the wheel learning how to maneuver trucks in a variety of real-world scenarios. You will develop backing and driving skills through classroom, lab, range and roadway experiences. Non-technical skills such as communications will also be discussed. With successful completion of this program, you will have the ability to obtain your Commercial Driver's License. Opportunities to earn additional CDL endorsements will also be available.

The CDL test is not included within the Truck Driving program. Testing fees are set by the state of Wisconsin. To test and receive your CDL, you have the option to test at Northwood Tech or with any examiner in Wisconsin. Testing through Northwood Tech reduces some of the process for you. Please expect an additional fee for the test.

Special Feature

Northwood Technical College is a registered training provider in the Federal Motor Carrier Safety Administration's (FMCSA) Training Provider Registry (TPR). We provide theory, range, and behind-the-wheel training which meets new Entry-Level Driver Training (ELDT) regulations.

Updates on options for online and in-person training for CDL endorsements can be found on our website.

Program-Specific Requirements

For detailed information on the items below, see the Northwood Tech Truck Driving web page at:

[Program-Specific Requirements](#)

The following requirements must be met before the first day of class:

- Submit an Online Northwood Tech Admissions Application
- Must be 18 years of age
- Verification of valid driver's license
- Pass the DOT physical exam and FMCSA Pre-Employment drug test
- Provide a copy of CDL Class A permit with air brakes
- Meet all Federal Motor Carrier Safety Regulations (FMCSR) requirements

NOTE: It is recommended that Truck Driving students enroll in all three Truck Driving courses (30458304, 30458305, and 30458303) at the same time to ensure space availability.

Program Outcomes

Truck Driving graduates will be able to:

- Perform basic truck driving operations
- Adhere to safe truck driving operating procedures
- Explain advanced operating practices
- Explain vehicle systems and reporting malfunctions
- Comply with non-driving activity activities

Career Outlook

Typical positions available after graduation include:

- Company Driver/Owner Operator
- Driver Manager
- Driver Mentor
- Local/Regional/Long Distance Driver
- Recruiting Specialist
- Dispatch Driver
- Over-the-Road Truck Driver
- Straight Truck Driver (Dump, Cement, Delivery)

Career Pathway ▶

The Truck Driving program is a pathway into the following program (page 250):

- Utility Construction Technician

Related Programs

- Diesel Equipment Technician
- Agricultural Power and Equipment Technician

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
30458304	Truck Driving – Semi Level 1	3 cr.
30458305	Truck Driving – Semi Level 2*	3 cr.
30458303	Truck Driving – Semi Level 3*	4 cr.
		10 cr.
TOTAL CREDITS		10 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Professional Licensure and/or Certification Information

Northwood Tech's Truck Driving program is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing agency in that state to verify that the Northwood Tech program meets licensure or certification requirements.

[Federal Motor Carrier Safety Administration](#)

Course Descriptions

30458304

Truck Driving - Semi Level 1 - Credits: 3

This is the first of three courses in the 10-week Truck Driving technical diploma. Become prepared for entry-level positions as a commercial driver and understand basic information about trucks and their operation. You will need to present your DOT physical (Fed-Med) card and CDL Permit (CLP) prior to enrolling in the course. A scheduled drug screen is required prior to behind-the-wheel training. If you need assistance with passing the CLP, refer to the CDL Theory course designed to help you prepare for the test. NOTE: It is required that Truck Driving program students enroll in all three levels of truck driving (30458304, 30458305 and 30458303) at the same time to secure space. PREREQUISITE: Admission to the Truck Driving, Utility Construction Technician or Diesel Equipment Technician Plan.

30458305

Truck Driving - Semi Level 2 - Credits: 3

This is the second of three courses in the Truck Driving technical diploma. This course will focus on obtaining the Commercial Driver's License (CDL) while highlighting industry regulations, trip planning, hours of service, and driver safety. COREQUISITE: 30458304 Truck Driving - Semi Level 1. Corequisite override required for students enrolled as part of a contract through Workforce & Community Development (WCD). Work with Associate Dean of WCD for override.

32458303

Truck Driving - Semi Level 3 - Credits: 4

This is the third and final course in the Truck Driving technical diploma. Refine the skills learned in the first two levels assuring readiness for the industry (and to obtain a CDL). The primary focus includes entry-level requirements, program certifications, advanced operations, and technical backing skills. COREQUISITE: 30458305 Truck Driving - Semi Level 2.

University Transfer Degree - Associate to Bachelor's/Arts

20-800-1 Associate Degree (two-year) (Liberal Arts – Associate of Arts)

Financial Aid Eligible

Campus: Online*

*Some Northwood Tech courses are also available through Online Live, allowing you to join your classes through the Internet from anywhere. Connect with your instructor and classmates during live classes via the web.

Academic partnership with UW-Superior

Program Overview

With the University Transfer Degree - Associate to Bachelor's/Arts program, you will receive the cost savings and convenience of a liberal arts transfer degree while taking your classes Online or Online Live. The University Transfer Degree - Associate to Bachelor's/Arts program is an academic partnership with UW-Superior. However, Northwood Tech awards the degree and financial aid is awarded by Northwood Tech.

Upon completion of this program, you'll be able to transfer to most public or private colleges and universities, both inside and outside of Wisconsin. Up to 72 credits may transfer to satisfy university general education requirements (additional courses may be needed for specific majors or licensure requirements). Completion of the full University Transfer Degree - Associate to Bachelor's/Arts degree allows for maximum transfer. Typical transfer areas of study include English, Art, Humanities, Modern Language, and Communication.

Admission Requirements

- Complete an Online Northwood Tech application form
- Review and Sign the Academic Partnership with UW-Superior Disclosure Statement
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirement

- Each term a virtual joint advising session will be available for students between Northwood Tech and UW-Superior. Contact your Northwood Tech advisor for more information.

Program Outcomes

University Transfer Degree - Associate to Bachelor's/Arts graduates will be able to:

- Communication: Communicate with varied audiences by actively listening, reading and comprehending written materials, and synthesizing and organizing information for diverse audiences.
- Critical Thinking: Use identified critical thinking skills to pose questions, process information and make decisions.
- Ethics: Demonstrate professional behaviors.
- Global Awareness: Recognize the contributions of diverse cultures, historical periods, and art forms to the improvement of the human condition in a global society.
- Inclusive Social Interaction: Engage in collaborative activities toward a shared goal.
- Mathematical Principles: Compute and analyze quantitative data using mathematical, statistical and/or logical methods to solve problems.
- Science: Explore physical and social environments using scientific tools and methods.
- Technology: Access, evaluate, and use information technology to support academic, community, and career-related interests.
- Self-determination: Exhibit awareness and skills necessary to succeed in increasingly challenging academic environments.

Career Goal

Potential programs of study that your University Transfer Degree - Associate to Bachelor's/Arts program could transfer into include:

- Business
- Communication
- Criminal Justice
- Education
- English
- History
- Humanities
- Political Science
- Economics
- Psychology
- Sociology

BIOL 270 Human Anatomy & Physiology I (LS) 4 cr.
BIOL 280 Human Anatomy & Physiology II (LS) 4 cr.
BIOL 355 Microbiology 4 cr.
BIOL 115 Human Biology (LS) 4 cr.
PHYS 100 Astronomy (LS) 4 cr.
PHYS 107 Algebra-Based Physics 1 4 cr.
PHYS 160 Physical Science 4 cr.

HEALTH/WELLNESS/PHYSICAL EDUCATION - 1 Credit Required

UW-Superior Course:

HHP 102 Health and Wellness 3 cr.

WORLD/FOREIGN LANGUAGE - 4 Credits Required

(may be met with one year World Language in high school, with a grade of "C" or better). Any language-based course may be accepted to fulfill this requirement; some course options are below. If the courses in this requirement area are met with high school, students will still need to meet total program credit requirements of 61 through additional electives.

UW-Superior Courses:

FREN 101 Beginning French 1 3 cr.
FREN 102 Beginning French 2 3 cr.
JAPA 101 Beginning Japanese 1 3 cr.
JAPA 102 Beginning Japanese 2 3 cr.
SPAN 101 Spanish 101 3 cr.
SPAN 102 Spanish 102 3 cr.
AIS 101 American Indian Studies 4 cr.
AIS 201 American Indian Studies 4 cr.

DIVERSITY & ETHNIC STUDIES - 3 Credits Required

(This course may be a duplicate from Humanities or Social Sciences; however, students will still need to meet total program credit requirements of 61 through additional Elective Courses.)

Northwood Tech Course:

10809172 Introduction to Diversity Studies 3 cr.

UW-Superior Courses:

SOCI 273 Race and Ethnicity 3 cr.
ART 224 Visual Arts in Non-Western Societies 3 cr.
ART 221 Art History Survey: The Ancient World to the Renaissance 4 cr.
ART 222 Art History Survey: Renaissance to Modern Art 4 cr.
ENGL 228 Multi-Ethnic American Literature 3 cr.
ENGL 229 Literature by Women 3 cr.
GEOG 100 World Regional Geography 3 cr.
MUSI 161 Music and World Culture 3 cr.

Elective Courses - 10 Credits Required

(Select any college transfer courses beyond the minimum requirements. Two credits of health and physical education beyond the Health/Wellness/Physical Education credit may be selected.)

TOTAL CREDITS 61 cr.

Student must take both BIO 270 Human Anatomy & Physiology I and BIO 280 Human Anatomy & Physiology II to transfer in for 10806177 General Anatomy & Physiology and 10806179 Advanced Anatomy & Physiology.

*Requires a prerequisite and/or corequisite that must be completed with a 2.0 or better.

UW-Superior course descriptions are available in the UW-Superior College Catalog.

Some courses may be available On-Site; Additional tuition required for In-person courses at UW-Superior.

KEY: LS: Lab Science Requirement; DV: Diversity Requirement; ES: Environmental Science Requirement

Utility Construction Technician

31-476-2 Technical Diploma (one-year)

Financial Aid Eligible

Campus: Rice Lake

Program Overview

Utility Construction Technician students learn how to run cable overhead and underground using heavy equipment like horizontal directional drills, mini-excavators, vibrational plows, and bucket trucks. Students will learn pole climbing techniques in our 10 acre outside lab area. Additionally, students will take the required truck driving courses that prepare them to take their CDL A license.

Special Features

- This is a unique program in the state.
- The Utility Construction Technician program was developed in collaboration with and is endorsed by the Power and Communication Contractors Association (PCCA). PCCA is the national trade association for companies constructing electric power facilities, including transmission and distribution lines and substations and telephone, fiber optic, and cable television systems.

- Industry Certifications awarded to students include: OSHA 10, WIS DOT Flagger Certification, and First Aid, CPR, AED.
- Industry Certifications that students may have the ability to obtain include: CDL Class A and ETA Fiber Optic Installer Certification.
- The following simulator training is available: Truck Driving, Excavator and Backhoe
- Additional scholarships available from: Wisconsin State Telecommunications Association (WSTA) and the International Brotherhood of Electrical Workers (IBEW)

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

The following must be met before the first day of Truck Driving – Semi Level 1:

- Must be 18 years of age or older
- Provide verification of valid driver's license
- Pass the DOT physical exam and FMCSA Pre Employment drug test
- Provide a copy of CDL Class A permit with air brakes
- Meet all Federal Motor Carrier Safety Regulations (FMCSR) requirements

Program Outcomes

Utility Construction Technician graduates will be able to:

- Demonstrate safe practices and techniques
- Demonstrate heavy equipment operation
- Perform site location and preparation
- Perform construction practices
- Complete CDL-A licensure
- Utilize construction plans
- Apply basic electrical principles
- Demonstrate customer service
- Analyze broadband principles
- Perform preventative maintenance practices

Career Outlook

Typical positions available after graduation include:

- Utility Service Operator
- Vibratory Plow Operator
- Horizontal Directional Drill Operator
- Excavator Operator
- Truck Driver Equipment Hauler
- Fiber Optic and Copper Slicer
- Utility Service Flagger
- Underground Facilities Locator
- Utility Service Laborer

Many other opportunities available

Career Pathway

The Utility Construction Technician program includes the following pathway option (page 250):

- Truck Driving

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
30458304	Truck Driving – Semi Level 1*	3 cr.
30458305	Truck Driving – Semi Level 2*	3 cr.
30458303	Truck Driving - Semi Level 3*	4 cr.
30458310	CDL Permit Prep	1 cr.
31449305	Work Zone Safety and OSHA 10	3 cr.
32476305	Construction Practices 1	4 cr.
32476306	Construction Practices 2	4 cr.
31476308	Utility Construction Concerns	2 cr.
31476309	Aerial Installation Field Training	2 cr.
31476310	Broadband Installation	2 cr.
Program Courses Total		28 cr.

TOTAL CREDITS 28 cr.

*Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

Professional Licensure and/or Certification Information

Northwood Tech's Utility Construction Technician program is designed to prepare students to obtain the required licensure to be employed/practice in the state of Wisconsin. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing agency in that state to verify that the Northwood Tech program meets licensure or certification requirements.

Truck Driving - Semi Level 1 - Credits: 3

This is the first of three courses in the 10-week Truck Driving technical diploma. Become prepared for entry-level positions as a commercial driver and understand basic information about trucks and their operation. You will need to present your DOT physical (Fed-Med) card and CDL Permit (CLP) prior to enrolling in the course. A scheduled drug screen is required prior to behind-the-wheel training. If you need assistance with passing the CLP, refer to the CDL Theory course designed to help you prepare for the test. NOTE: It is required that Truck Driving program students enroll in all three levels of truck driving (30458304, 30458305 and 30458303) at the same time to secure space. PREREQUISITE: Admission to the Truck Driving, Utility Construction Technician or Diesel Equipment Technician Plan.

30458305

Truck Driving - Semi Level 2 - Credits: 3

This is the second of three courses in the Truck Driving technical diploma. This course will focus on obtaining the Commercial Driver's License (CDL) while highlighting industry regulations, trip planning, hours of service, and driver safety. COREQUISITE: 30458304 Truck Driving - Semi Level 1. Corequisite override required for students enrolled as part of a contract through Workforce & Community Development (WCD). Work with Associate Dean of WCD for override.

30458303

Truck Driving - Semi Level 3 - Credits: 4

This is the third and final course in the Truck Driving technical diploma. Refine the skills learned in the first two levels assuring readiness for the industry (and to obtain a CDL). The primary focus includes entry-level requirements, program certifications, advanced operations, and technical backing skills. COREQUISITE: 30458305 Truck Driving - Semi Level 2

30458310

CDL Permit Prep - Credits: 1

The CDL Prep class assists students as they prepare for their CDL permit. The Commercial Learner's Permit (CLP) requires passing knowledge tests and a skills test, which includes the Vehicle Inspection Test, Basic Controls Test, and Road Test. The course focuses on the fundamentals of commercial driving.

31449305

Work Zone Safety and OSHA 10 - Credits: 3

Students will complete the OSHA 10-Hour Construction certification. Students will complete Wisconsin Flagger Handbook Training Certification Course. Students will understand how underground utility systems operate and work together with 811. Students will understand how to reduce motor vehicle traffic crashes at roadwork sites, resulting in greater safety for highway users and workers alike. Students will complete CPR/AED & First Aid Certification. Students will examine environmental health and safety standards, PPE requirements and achieve confined space certification and identify competent person.

32476305

Construction Practices 1 - Credits: 4

In this course, students learn safe buried construction practices for utility services, including using hardware components and equipment for rigging and installation. Students also operate a variety of construction machinery in a controlled site environment and practice maintenance procedures. The course covers hand and power tool operations, loading and unloading machinery to meet DOT regulations, and detained information on the installation, structure, and components of electric, telephone, cable, and broadband systems. The module emphasizes how underground utility systems work and coordinate with 811.

32476306

Construction Practices 2 - Credits: 4

Introduces the process of planning and executing underground utility services on various types of construction projects. The use of heavy equipment safely such as backhoe, mini excavator, directional drills, vac system and other specialized equipment. Students will perform excavation next to live networks. Students will complete HDD & Vac system online learning certification.

31476308

Utility Construction Concerns - Credits: 2

This course familiarizes students with the utility construction service industry, including independent and team operations and customer service. DOT must be informed of work in the State Highway Rightof-Way to notify the public of possible delays, as required by regulations. Students track construction progress using spreadsheets and provide operational status reports. The course covers utility system layouts, construction and installation methods, manholes and vaults, facility termination, aboveground indicators, abandoned facilities, access points, and print reading concepts.

31476309

Aerial Installation Field Training - Credits: 2

This course introduces the student to the safe use and care of aerial construction equipment. Students will be introduced to climbing equipment (belt/climbers), lashing equipment, ladders, and bucket truck operation. It will familiarize the student with aerial construction specifications and installation practices used in the utility service industry. Students will identify safe clearance operations. Students will understand pole installations and restoration operations.

31476310

Broadband Installation - Credits: 2

The student will be introduced to broadband transport facilities. Course explains general, personal, and test equipment for broadband installation. Identify types and applications for broadband installation techniques. Covers installation, termination for broadband networks. Introduces the types of equipment and methods used in broadband drop installations. The student will use all required broadband machinery to complete project base exercise.

Campus: New Richmond

Program Overview

Veterinary Technician graduates will be prepared to obtain patient history and perform the initial physical exam, place intravenous catheters and give injectable medications, anesthetize and monitor patients, and assist in surgery. Graduates will also be trained to perform dental cleanings on dogs and cats and can handle care for lab animals. Additionally, graduates will be qualified to apply bandages and splints, as well as evaluate lab samples under the microscope.

Admission Requirements

- Complete Online application form
- Have earned a high school diploma or GED certificate; current high school seniors must provide both a current high school transcript and a final (official) transcript with confer date
- Review and sign Background Check Disclosure
- Review and sign Functional Abilities Disclosure
- Review and sign Rabies Vaccination Disclosure
- Complete admissions meeting with a Northwood Tech counselor (academic admission requirements apply - see page 33 for more information)

Program-Specific Requirements

- Submit Background Check fee
- Have an acceptable Wisconsin Caregiver Background Check, National Criminal Background Check, Minnesota Caregiver Background CheckS (if applicable), and other states, if applicable. Background check may affect ability to secure internship placement and the ability to find employment after graduation
- Complete and submit Veterinary Technician Job Shadow Form documenting an 8-hour volunteer shadowing experience in an approved clinical setting prior to registering for Veterinary Technician core coursework
- Participate in a mandatory program orientation session
- Complete rabies vaccination requirement
- COVID vaccination---highly recommended
NOTE: Decision to not receive vaccinations may limit ability to obtain internship placement based upon meeting site placement requirements.

Admission and Program-Specific Requirements for the UWRF Animal Science Transfer Students is located on the [Veterinary Technician](#) program webpage.

Program Outcomes

Veterinary Technician graduates will be able to:

- Manage veterinary business functions
- Integrate all aspects of patient management for anesthetic, surgical, and medical nursing procedures
- Produce diagnostic radiographic images
- Perform laboratory procedures
- Administer prescribed drugs

Career Outlook

Typical positions available after graduation include:

- Veterinary Technician
- Laboratory Animal Technician

Veterinary Technicians work in veterinary clinics and hospitals, humane societies, education, pharmaceutical supplies, research, zoos and wildlife parks, military, public health and government. They collect patient history and perform initial examinations, run laboratory tests, take x-rays, administer anesthesia, and assist in surgery.

Career Pathway

The Veterinary Technician program includes the following pathway option (page 251):

- Veterinary Assistant

Professional Licensure and/or Certification Information

Northwood Tech's Veterinary Technician Associate Degree is designed to meet the State of Wisconsin's licensing criteria. However, Northwood Tech has not made a determination whether this program meets licensure requirements in states other than Wisconsin. Students who may be seeking professional licensure or certification in states other than Wisconsin should contact the appropriate licensing board in that state to verify that the Northwood Tech program meets licensure or certification requirements. To be eligible for testing and/or licensing in the state of Wisconsin, you may be required to obtain a social security number.

Veterinary Technician programs are accredited by the American Veterinary Medical Association - Committee on Veterinary Technician Education and Activities (AVMA-CVTEA) at 1931 North Meacham Road, Suite 100, Schaumburg, IL 60173-4360, phone: 800.248.2862. Graduates of AVMA-CVTEA accredited programs are eligible to take the Veterinary Technical National Exam (VTNE) and the Wisconsin state exam directly with the American Associate of Veterinary State Boards (AAVSB) at AAVSB.org upon graduation. The Committee on Veterinary Technical Education and Activities (CVTEA) of the American Veterinary Medical Association (AVMA) has granted Initial Accreditation to Northwood Tech's Veterinary Technology Program, effective February 4, 2021. All students will be eligible to take the VTNE and Wisconsin state exam upon graduation. After successful completion of the exams, the individual will be a Certified Veterinary Technician (CVT).

Required Courses

10809196	Introduction to Sociology or	
10809172	Introduction to Diversity Studies	3 cr.
10809198	Introduction to Psychology	3 cr.
General Education Courses Total		20 cr.

TOTAL CREDITS

65 cr.

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

**See pages 38-41 for course descriptions. You must earn a grade point of 2.0 or better in all required courses (Program Courses and General Education Courses).

Course repeat policies exist that allow for only a certain number of retakes within the program (for Program Courses); please refer to the policies for details.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

10091100

Animal Care and Management - Credits: 3

In this course, students explore basic nutrition, housing needs, and behavior of common domestic animals to develop skills that enable them to assess animal condition. Upon completion of this course, students will be able to obtain a thorough history, perform a physical exam, administer medications, collect samples, and use proper restraint techniques. PREREQUISITE: Admission to Veterinary Technician plan and COREQUISITE: 10806105 Principles of Animal Biology.

10091101

Veterinary Business Practices - Credits: 3

In this course, students develop practical workplace techniques for veterinary office procedures to develop customer service and veterinary team support skills. Upon completion of this course, students will be able to use veterinary software to manage records and financial applications, maximize client interactions, and participate in day-to-day operations of a veterinary facility. PREREQUISITE: Admission to Veterinary Technician plan and COREQUISITE: 10091100 Animal Care and Management.

10091102

Veterinary Medical Terminology - Credits: 2

In this course, students explore the construction, meaning, and pronunciation of veterinary medical terms to establish understanding and facilitate communication among veterinary team members. Upon completion of this course, students will be able to correctly formulate veterinary medical terms to describe specific concepts. PREREQUISITE: Admission to Veterinary Technician plan.

10091103

Clinical Procedures 1 for Vet Sciences - Credits: 4

In this course, students examine basic laboratory equipment and procedures, as well as features of common veterinary diseases, to acquire skills needed to perform various diagnostic tests. Upon completion of this course, students will be able to collect and process appropriate samples for hematology, blood chemistry, urinalysis, and parasitology, and correlate veterinary clinical pathology findings to clinical signs. PREREQUISITES: 10091100 Animal Care and Management, 10091101 Veterinary Business Practices, and 10806105 Principles of Animal Biology.

10091104

Clinical Procedures 2 for Vet Sciences - Credits: 4

In this course, students examine additional laboratory procedures and other veterinary disease processes to establish understanding of appropriate methodology and recognition of accurate results. Upon completion of this course, students will be able to collect and process appropriate samples for mycology, cytology, serology, endocrinology, and coagulation and reproductive evaluations, and correlate veterinary clinical pathology findings to clinical signs. PREREQUISITES: 10806197 Microbiology, 10091103 Clinical Procedures 1 for Vet Sciences, 10091108 Veterinary Pharmacology and COREQUISITE: 10091105 Surgical Procedures 1 for Vet Sciences

10091105

Surgical Procedures 1 for Vet Sciences - Credits: 3

In this course, students investigate surgical equipment and procedures to develop skills needed to assist with surgical care of animals. Upon completion of this course, students will be able to identify surgical instruments, develop sterile technique, maintain and operate surgical equipment, and assist with patient preparation, monitoring, and recovery. PREREQUISITES: 10091103 Clinical Procedures 1 for Vet Sciences and 10091108 Veterinary Pharmacology

10091106

Surgical Procedures 2 for Vet Sciences - Credits: 3

In this course, students explore the veterinary technician's role in surgery to develop skills needed to manage veterinary patients in the pre-, intra-, and post-operative phases. Upon completion of this course, students will be able to anticipate needs of the surgeon, provide veterinary surgical assistance, manage wounds and incisions, and create client discharge instructions. PREREQUISITE: 10091108 Veterinary Pharmacology and COREQUISITE: 10091113 Anesthesia and Dentistry for Veterinary Sciences

10091107

Imaging for Veterinary Sciences - Credits: 3

In this course, students explore veterinary imaging concepts and apply veterinary imaging techniques to use radiographic equipment and support diagnostic studies. Upon completion of this course, students will be able to properly position veterinary patients, produce diagnostic images, process exposed films, and maintain equipment. PREREQUISITES: 10091103 Clinical Procedures 1 for Vet Sciences and 10091108 Veterinary Pharmacology

10091108

Veterinary Pharmacology - Credits: 3

In this course, students examine drugs, vaccines, and other substances used in veterinary medicine to establish a knowledge base of their therapeutic use, administration, and side effects. Upon completion of this course, students will be able to accurately calculate dosages, prepare dispensed medications, safely administer drugs, and recognize normal and abnormal responses to medications. PREREQUISITES: 10091100 Animal Care and Management, 10091101 Veterinary Business Practices and 10806105 Principles of Animal Biology

10091110

Veterinary Technician Clinical Internship 1 - Credits: 2

In this course, students assimilate skills in a clinical setting to develop proficiency in animal nursing techniques. Upon completion of this course, students will be able to perform routine veterinary clinic procedures such as venipuncture, urine collection, and subcutaneous injection. PREREQUISITES: 10091108 Veterinary Pharmacology and 10091105 Surgical Procedures 1 for Vet Sciences.

10091111

Veterinary Technician Clinical Internship 2 - Credits: 2

In this course, students further assimilate skills in a clinical setting to develop proficiency in animal nursing techniques. Upon completion of this course, students will be able to perform more complex clinical procedures such as monitor patients in the anesthetic and recovery periods, properly restrain small animals, and prepare patients for surgery. PREREQUISITE: 10091110 Veterinary Technician Clinical Internship 1

10091112

Veterinary Technician Certification Review - Credits: 3

This is a summary course reviewing the skills, knowledge, and Veterinary Technician abilities acquired throughout the program. This course will serve to assist the student in preparing for the Veterinary Technician National Exam (VTNE) and Wisconsin State Exam required for certification. The course will also review critical laboratory skills and professional development issues. COREQUISITES: 10091106 Surgical Procedures 2 for Vet Sciences and 10091113 Anesthesia and Dentistry for Veterinary Sciences. NOTE: This class does not guarantee passage of the national and state Veterinary Technician Certification Exams, but is designed as a studying aid by reviewing the knowledge and skills that a veterinary technician student should possess upon graduation.

10091113

Anesthesia and Dentistry for Veterinary Sciences - Credits: 3

In this course, students investigate anesthetic delivery and monitoring equipment, pain management strategies, and appropriate responses to patient compromise to acquire skills needed to coordinate anesthetic events in veterinary patients. Upon completion of this course, students will be able to choose and administer appropriate veterinary anesthetic protocols, monitor and maintain patient status throughout anesthetic events, and maintain equipment and accurate anesthetic records. Students will also perform dental prophylaxis, dental radiographs, and assist the veterinarian in dental treatments as needed on canine and feline patients. PREREQUISITE: 10091108 Veterinary Pharmacology and COREQUISITE: 10091106 Surgical Procedures 2 for Vet Sciences

10091114

Veterinary Technician Clinical Internship 3 - Credits: 4

In this course, students hone animal nursing skills in a clinical setting to achieve proficiency needed to function in the role of veterinary technician according to the standards set by CVTEA. Upon completion of this course, students will have the skills and knowledge required of an entry level veterinary technician. PREREQUISITE: 10091110 Veterinary Technician Clinical Internship 1

10091120

Large Animals and Non-Traditional Pets - Credits: 3

In this course, students explore characteristics, basic care, illness, and treatment of numerous animal species. Half of the course is dedicated to animals that may be encountered in research settings and/or kept as pets, and half of the course is dedicated to large/production animals. Upon completion of this course, students will be able to provide basic husbandry and medical care to laboratory and exotic animals (such as rabbits, rodents, birds and reptiles), as well as large animals (such as horses, ruminants and camelids). PREREQUISITES: 10091100 Animal Care and Management, 10091101 Veterinary Business Practices and 10806105 Principles of Animal Biology and COREQUISITE: 10091103 Clinical Procedures 1 for Vet Sciences

Campuses: Ashland, New Richmond, Rice Lake, Superior

Program Overview

The Welding program teaches safety during all aspects of welding and cutting. Safety is the most important aspect of proper workmanship. Next, you will be taught the science and art of cutting, fabricating and welding using the latest equipment and technologies. Most entry-level welders can expect to be employed full time with full fringe benefits. Their duties can include fabricating parts and assemblies by reading blueprints, codes, specifications, weld symbols and drawings. Beginners can assist with material preparation, tack up, fitting and finally welding when you prove your ability in the workplace. The work can be physically demanding. Welding requires good manual dexterity and hand-eye coordination. Other essential employability skills include paying attention to details, working well with others in teams, having good communication skills, a positive attitude, excellent attendance and punctuality, and a good work ethic. Manual, semi-automatic and robotic welding will all continue to enjoy strong demand for the foreseeable future.

Admission Requirements

- Complete Online application form
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Ashland Campus: Admission Requirements

- Complete Online application form
- Review and sign the Background Check Disclosure (Criminal History Records Check & Sex Offenders Registry Screening)
- Review and sign Functional Abilities Disclosure
- Complete admissions meeting with a Northwood Tech counselor

Program-Specific Requirements

- Have acceptable results on the Sex Offenders Registry. NOTE: The background checks will be administered by Ashland High School and will be conducted through appropriate State agencies or other applicable means.
 - Unsatisfactory findings from the Sex Offenders Registry will affect ability to attend the Northwood Tech Welding program located at Ashland High School.

Program Outcomes

Welding graduates will be able to:

- Demonstrate industry-recognized safety practices
- Interpret welding drawings
- Produce shielded metal arc welds (SMAW)
- Produce gas metal arc welds (GMAW)
- Produce flux core welds
- Produce gas tungsten arc welds (GTAW)
- Perform cutting operations

Career Outlook

Typical positions available after graduation include:

- Production Welder
- Construction Welder
- Maintenance Welder
- Welder/Fitter
- Welder Helper
- Welding Machine Operator
- Flame Cutter/Machine Operator

Career Pathways

The Welding program includes the following pathway options (page 252):

- Shielded Metal Arc Welding
- Gas Metal Arc Welding
- Flux Cored Arc Welding
- Gas Tungsten Arc Welding
- Welding/Maintenance and Fabrication

Required Courses

Number	Course Title	Credits (cr.)
Program Courses		
31442321	Print Reading - Welding Trades	2 cr.
31442325	Welding Fabrication/Production (WBL) *	3 cr.
31442370	Gas Metal Arc Welding 1	3 cr.
31442371	Gas Metal Arc Welding 2*	2 cr.
31442372	Gas Metal Arc Welding 3*	1 cr.
31442373	Shielded Metal Arc Welding 1	3 cr.
31442374	Shielded Metal Arc Welding 2*	2 cr.
31442375	Shielded Metal Arc Welding 3*	2 cr.
31442376	Oxyfuel and Arc Cutting Processes	2 cr.
31442377	Flux Cored Arc Welding 1	2 cr.
31442378	Flux Cored Arc Welding 2*	2 cr.
31442379	Gas Tungsten Arc Welding 1	2 cr.
31442380	Gas Tungsten Arc Welding 2*	2 cr.
Program Courses Total		28 cr.
General Education Courses**		
32801361	Applied Communications	2 cr.
32804303	Applied Math	2 cr.
General Education Courses Total		4 cr.
TOTAL CREDITS		32 cr.

The Welding program is supported with funds from the WTCS Grant Funds (\$491,723)

* Requires a prerequisite and/or corequisite that must be completed with a grade point of 2.0 or better.

** See pages 38-41 for course descriptions.

Course Descriptions

(See pages 38-41 for General Education course descriptions)

31442321

Print Reading - Welding Trades - Credits: 2

Orthographic projection, sketching, dimensioning, section and auxiliary views, structural shape identification, weld symbols, welding symbol nomenclature, welded joint geometry, metric conversion, and interpretation of fabrications from prints.

31442325

Welding Fabrication/Production (WBL) - Credits: 3

This course introduces the student to the basics of metal fabrication including the use of layout tools and principles, and blueprint interpretation. Also, weldment fit-up, tacking, distortion, and flame straightening are covered. The use of shears, drilling, taping, painting, and CNC cutting equipment for fabrication purposes is also covered. PREREQUISITES: 31442321 Print Reading - Welding Trades, 31442370 Gas Metal Arc Welding 1, 31442373 Shielded Metal Arc Welding 1, 31442374 Shielded Metal Arc Welding 2, 31442376 Oxyfuel and Arc Cutting Processes, and COREQUISITE: 31442375 Shielded Metal Arc Welding 3.

31442370

Gas Metal Arc Welding 1 - Credits: 3

This course introduces the student to the basics of GMAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques.

31442371

Gas Metal Arc Welding 2 - Credits: 2

This course introduces the student to the next level of GMAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques. COREQUISITE: 31442370 Gas Metal Arc Welding 1.

31442372

Gas Metal Arc Welding 3 - Credits: 1

This course introduces the student to an advanced level of GMAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques. COREQUISITE: 31442371 Gas Metal Arc Welding 2.

31442373

Shielded Metal Arc Welding 1 - Credits: 3

This course introduces the student to the basics of SMAW welding. It includes the study of the type of metals and equipment utilized when welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard welding techniques.

31442374

Shielded Metal Arc Welding 2 - Credits: 2

This course introduces the student to the next level of SMAW welding. It includes the study of the type of metals and equipment utilized when welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard welding techniques. COREQUISITE: 31442373 Shielded Metal Arc Welding 1.

31442375

Shielded Metal Arc Welding 3 - Credits: 2

This course introduces the student to an advanced level of SMAW welding. It includes the study of the type of metals and equipment utilized in SMAW welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard welding techniques. COREQUISITE: 31442374 Shielded Metal Arc Welding 2.

31442376

Oxyfuel and Arc Cutting Processes - Credits: 2

This course introduces the student to the basics of cutting and gouging operations. It includes the study of the common processes, techniques, and equipment utilized when cutting and gouging. The instruction emphasizes accepted applications in the use of carbon steel, stainless steel, and aluminum.

31442377

Flux Cored Arc Welding 1 - Credits: 2

This course introduces the student to the basics of FCAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques.

31442378

Flux Cored Arc Welding 2 - Credits: 2

This course introduces the student to the next level of FCAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques. COREQUISITE: 31442377 Flux Cored Arc Welding 1.

31442379

Gas Tungsten Arc Welding 1 - Credits: 2

This course introduces the student to the basics of GTAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing standard industry techniques.

31442380

Gas Tungsten Arc Welding 2 - Credits: 2

This course introduces the student to the next level of GTAW welding operations. It includes the study of the type of metals and equipment utilized in welding. The instruction emphasizes accepted applications in butting and joining metals utilizing the standard industry techniques. COREQUISITE: 31442379 Gas Tungsten Arc Welding 1.

Accounting Pathway

You can take this first and earn a credential.

Billing and Posting Clerk

Technical Diploma

13 Credits/ Less than 1 year

Potential Careers

Payroll Assistant, Payroll Clerk, Accounts Payable Clerk, Accounts Receivable Clerk, Bookkeeper, Accounting Technician

Tax Preparer Assistant

Pathway Certificate

10 Credits / 1 Year Part Time

Potential Careers

Tax Accounting Clerk, Tax Associate, Tax Preparer Assistant

Continue your education to earn this technical diploma.

Accounting Assistant

Technical Diploma

30 Credits

Potential Careers

Accounting Clerk, Accounts Receivable Clerk, Accounts Payable Clerk, Payroll Clerk, Bookkeeper

Continue your education to earn an associate degree.

Accounting

Associate Degree

60 credits

Potential Careers

Accountant, Bookkeeper, Accounts Receivable Specialist, Accounts Payable Specialist, Payroll Specialist, Cost Accounting Specialist, Tax Accounting Specialist

Continue your education to earn a bachelor's degree.

Transfer Center

Professional Certification

Students are also able to pursue professional certifications

Administrative Coordinator Pathway

You can take this first and earn a credential.

Office Technology Assistant

Technical Diploma

19 Credits / Less Than 1 Year
Part Time

Potential Careers

Customer Service Representative, Receptionist/
Office Assistant

Microsoft Office

Technical Diploma

11 Credits / Less Than One Year
Part Time

Potential Careers

Document Specialist, Program Assistant

You can take this first and earn a credential

Office Support Specialist

Technical Diploma

29 Credits / 1 Year Full Time; Part Time Options Available

Potential Careers

Office Support Specialist, Receptionist/Secretary, Data Entry Operator, Customer Service Representative

Continue your education to earn this associate degree.

Administrative Coordinator

Associate Degree

60 credits

Potential Careers

Administrative Coordinator, Administrative Professional, Executive Assistant, Office Manager, Virtual Assistant

Continue your education to earn a bachelor's degree.

Transfer Center
